DEED OF A JEALOUS NEGRO

Porter Clark Badly Disfigures Mrs. Clark With an Old Razor.

THEN HE HACKED AT HIS OWN THROAT

Blood Flowed All Over the Room But Hot of the People Will Probably Recover -Jealousy and Whisky Caused the Troubte.

A serious cutting affray relieved the monotony of existence in the Third ward yesterday morning and cailed into the street half the population.

The trouble occurred in the second story of a tumble-down building on the corner of Tenth and Capitol avenue which is occupied by half a dezen families

About 11 o'clock Officer Sullivan heard the screams of a woman and immediately afterwards Katie Clark, a colored cook employed by May Coleman, came rushing down the stairs cutside of the building in her night dress with blood puoring from half a dezen wounds. Haif a dozen people were at hand to take care of the woman, and the officer sprang up the stairs to find the woman's husband, a roustabout for salcons, woman's husband, a roustabout for salcons, staggering through the hall with a razor in his hand and his throat cut from ear to ear. The walls and floors of the hall and bedroom beyond were spattered with blood and three frightened children were huddled in a cor-

The patrol wagon was called and Clark whose injuries were not so serious as they looked, was taken at once to the pelice sta-His wife was taken to her room and the flow of blood stopped by Police Surgeon Dibbern. There was a long, deep gash across her neck, half a dozen ugly cuts on her back and the thumb of her lett hand was nearly

As soon as the trip could be made the woman was also taken to the police station and put under the influence of chloroform, while Dr. Somers attended to her wounds. Later she was removed to a hospital and it is expected that she may recover, though she has lost a great deal of blood and is very seriously wounded.

Clark and the woman whom he attempted to murder have been living together as man and wife for several years and have three children. The woman has been drawing wages regularly and her husband has been as regularly squandering her earnings for whisky. Of late there have been request squabbles over a man named Archie Harvey a partner of Jesse Newman, the ex-police-man, with whom, Clark says, his wife has been too intimate. The trouble culminated

in the stabbing affray.

Clark is the man who was shot by Ed Miller in a row in the White Front saloon about four years ego. Clark was arraigned before Judge Berka

late yesterday afternoon on the charge of assault with intent to kill. He waived examination and was bound over to the dis-trict court in the sum of \$2,500. His wife is at St. Joseph's hospital and was resting quietly last night, but was still under the influence of opiates.

When properly treated as soon as the first symptoms appear, choiera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberlain's Colle, Cholera and Diarrhea Remedy in double doses after each operation of the bowels mere than natural. If there is severe pair or cramps take it in double doses every fifteen minutes until relieved. This remedy has been used with great success in seven epidemics of dysentery that were plmost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50-cent bottle at hand ready for instant use. After the disease is under control castor oil must be taken to cleanse the system. No other physic or substitute will do in place of castor oil. For sale by druggists

MIDGLEY SEES DOUBLE. South Omaha Packers Charged with Mon-

Chairman Midgley of the Western Freight association, with that all-seeing eye of his informs the members of his body that complaint bad been made in certain cases that roads have accepted less than carload shipments of packing-house product from South Omaha at the carload rate withthe notation that the shipment was a part lot, and for that reason it was erroneously billed at the carload rate. In consequence of these rumors he has requested all agents in the association to discontinue the practice and see that part lots are either billed at the less than carload rate or if the carload rate less than carload rate or if the carload rate be allowed, then the charge be made for the minimum weight of 20,000 pounds per car. Inquiry at the local office of the Western Freight association in the First National bank building, developed the fact that the gentleman in charge knew nothing of the rumors in circulation and even wen so far as to impeach the information of the newspaper man seeking information. Said the young man in charge of the yellow sheet department of the Western Freight associa-

Theris absolutely nothing in these rumors haven't even heard them, and, of course, doubt their veracity. Should such rumors or complaints be in circulation. I should be the first to hear of them, for they would be field with me and then forwarded to Mr

Mideley for action."

But the young man never thought that rival roads for eastern business might ignore the Omaha office eatirely and file their complaint direct with the argus-eyed head of the Western Preight.

Chairman Midgley has also directed that Chairman Midgley has also directed that the practice of consigning two shipments to two different parties and billing the same through as one car be discontinued, much to the dissatisfaction of the packing house people. As, for instance, a South Omaha packing house mucht consign a shipment of 16,000 pounds to a firm in Liverpool England, and in the same car place a con-signment of 18,000 pounds to an entirely different firm, in this way getting a rate on carload lots when the rate should have been on the consignments sent out from the South Omaka point. It is thought that Chairman Midgley has

seen more than really exists with his basi-lisk eyes, and the road or roads making the charges will be asked to show their hands. Incidentally the members of the Western Freight association have been asked to vote on a proposition to make a rate of 20c per 100 lbs. on canned goods from Blair, Neb., to St. Paul, the rate being presented through the Transmissour, association and decimal to the proposition of designed to meet competition from Iowa

Railroad Notes and Personals. B. Scanlan, agent of the Union Pacific at Kearney, was an Omaha visitor

C. M. Kathburn, division superintendent of the Missouri Pacific at Atchison, was in town yesterday. A. Q. Tallant, general agent of the North

stern, passed through Omaha Thursday night enroute west. C. A. Vermillion, chief dispatcher of the western division, Missouri Pacific, was a

visitor to headquarters yesterday. Dick Elliott, secretary and treasurer of the Sloux City & Northern and Pacific Short Line, with headquarters at Sioux City, was shaking hands with Omaha people yesterday.

death of their mother. YOUR SUNDAY DINNER.

What the Market Offers to Open the Purse of the Housewife, It is probably a fact that not more than

one weman in fifty in Omana does her own marketing. The woman who will spend half a day and no end of patience in selecting half a yard of maroon colored ribbon would feel that her happiness was forever blighted if she were compelled to go to a butcher shop every morning and select the chops and steaks for the day's consumption. It is altogether delightful to wander from one dry goods emporium to another, fingering bits of lace and ribbon, pricing new patterns in dress goods, chattering until he patience of a half dozen clerks is exhausted and then walk out without buying even a pair of gloves, but a grocety or a butcher shop is altogether a different institution. There is nothing particularly artistic or inviting about the tiers of smoked hams and spare ribs or the baskets of parantps and onions still fresh from the embrace of mother earth, and the average housewife is contented to order by telephone and take her chance of getting the best article for her money rather than to go and see that she ets exactly the article she wants.

And then again the grocery clerk is too busy to stand and answer questions all day. He is there to sell goods and is not inured to the hardship of listening to the chatter and humoring the whims of customers who never buy anything. He is very apt to find an excuse to leave her to her own devices while he goes to wait on some more remunerative customer, and this is a slight that the feminine soul will

But there are some women who wisely

imagine that they are better served when they inspect their purchases in person, and a few of them may be seen in the downtown groceries every morning. Most of them are very young housewives, whose boneymoon resolutions have not yet passed among the memories of the past. A reporter saw one of them yesterday. She alighted from a Farnam street motor car and was clad in a captivating challice, surmounted by as dainty acreation of the milliner's art as feminant to the could compasse. nine taste could compose. She went straight to one of the leading groceries and assuming the air of one who had grown up with beets and carrots and other vegetaole creations began to fire questions at the red-headed clerk who was behind the counter. She had come to buy a bunch of celery a d a can of tomatoes but in the meantime the clerk was obliged to quote prices as follows: Celery, 50c a dozen; bananas, 30c; turnips, 20c per peck: onions, 40c; beets, 40c; green peppers. 50e; plekling onions, \$1; parsnips, 39c; car 50c; pickling onions, \$i; parsulps, 30c; carrots, 30c; flubbard squashes, 15c each; summer squashes, 5c; cauliflower, 12½ to 20c; egg plant, 15c; sweet potatoes, Jerseys, 60c; beans, 5c; Lima beaus, three quarts for 25c; cucumbers, 3 for 5c; Cape Cod cramberries, 15c; grapes, 30c for 10 pounds; cantaloupes, 5@10c; canned corn, 10 to 20c; green corn, 10c; green tomatoes, \$1 per bushel; canned tomatoes, 16 to 20c; canned peaches, 10 to 20c.

By this time the clerk has been sent in for repairs and the fair customer proceeded to a meat market to purchase a leg of mutton and some bacon. She ascertained that the best quality of porterhouse steak sold for 25c; sirloin, 20c; repeat 15c and 25churk; 123cc. Short ribned. round, 15c, and "chuck," 1234c. Short ribbed roast, 15 to 20c; pork loin, 10c; pork chops, 1234c; No. 1 nam, 13c; pork tenderioin, 15c; "special" ham, 15c; No. 1 bacon, 1234c; "spec-ial" bacon, 15c; hind quarter of lamb, \$1.50; forequarter of lamb, 75c; leg of mutton, 12kc; mutton chops, 15c; mutton "rocks," 12kc; stew, 5c. She never bought fish. George aldn't like them. But the clerk was obliged to state that white fish brought 10c; trout, 1214e; halibut, 15c; salmon trout, 26c,

DeWitt'sSarsaparilla cleanses the blood, increases the appetite and tones up the system. It has benefited many people who have suffered from blood disorders. It will help you.

The ladies section of the Omana turn verein gave a social hop at Germania hall Thursday evening. The committee having the affair in charge had spared no pains in arranging for the cotertainment of the guests and the evening's enjoyment was un-alloyed. The committee baving the arrange-ment of the hop comprised Misses Louise Fruchauf. Delia Rohlf, Faunic Fruchauf and Algine Engler.
