SOCIETY OPENS THE SEASON

A GERMAN INAUGURATES THE YEAR

Mr. and Mrs. John S. Brady Celebrate Their Tin Wedding-Marriages of the Week-Coming Events-Movements and Whereabouts of Society People.

The summer girl is coming home,
All browned and nimp and rosy,
Prepared to make the winter seem
Extremely nice and cosy.
She's bathed, and danced, and walked, and

She's buthed, and danced, and wal smiled.
Anu read a book and filted.
Till to the young mer she has left.
The whole world seems deserted.
The flush of health is in her cheeks,
With fun her eyes are dancing;
The flush of conquest in her beart.
Makes life seem most entrancing.
Ah' soon she il be the winter girl,
And we shall bow before her.
For she was made to be adored.
And therefore—we adore her.

They are coming back to town. The trains are crowded with them and the union station these departing September days looks like a perfect kaleidoscope of color. Sometimes they look rested, sometimes they don't. The children appear as if they bad the best time in the world; they are brown of face, clear of eyes and merry of heart, but, alas! the prodigal sons and daughters outnumber the children. They make you believe they had a good time, but did they ? They look jaded, many of them, even care worn and instead of turning out a song their summer vacation has proven to be a sermon. However it won't be long before they are back in the harness of the heavy swells and then they may expect to again enjoy life. Do you know life with some of our society leaders is likened unto a glass of absinther It only exhibitantes for the time being and when the lights of the fashionable ball room are put out and the world opens for the devotee of social forms and customs, a profound ennul seizes the followers of Dame Fashion, and like the "fairy with the green eyes," it leaves a flood of

barren regrets behind. But the streets are becoming more animated, familiar faces again appear at the clubs, in the shops, so that the attractive quarter of the city wears much of its normal aspect. There are still a good many absentees—men off hunting and lishing. Diana-like girls tramping in the mountains and lingering by the seaside and crowds in the country.

There has been considerable galety during

the past week and the social grind may be said to have fairly begun, but in a few more weeks, when the October weddings come slong, matters will be more interesting The other day, in talking to a well known

school ma'am who had spent the summer on the continent about the delights of foreign travel, she said one of the pleasantest expe riences of her vacation was the visit she made at Marie Bashkirsteff's tomp at Passy in the suburbs of Paris. The conspicuous position of the tomb immediately adjacent to the entrance gate and its uncommon characteristics at once arrest the attention, even should the sightseer happen to be unacquainted with the life story of the talented Russian girl whom it commemorates.

The monument is composed of white stone

and is more massive than decorative in effect. It is surmounted with a dome, the architecture being Byzantine, like many of Russia's magnificent churches. Indeed, the dimensions are rather those of a small church than of a modern sepuicher, this unusual size reminding the traveler of ancient Rome's receptacles for cinerary urns. The nature of the inscriptions also forcibly re-call memories of the old world epitaphs to be seen in the Galleria Lapideria of the vatican.

The door is glass and you look into sepulchral chamber, if sepulchral chamber it can be termed, where nothing funereal or gloomy meets the gaze, but where, on the contrary, a cheerful and even homelike look pervades the chamber, which is brightly lighted by three stained glass windows at each side. The contents are eloquent remi-niscences of the ilifated young genius. Her portrait is the subject of the two middle stained glass windows; and her bust, por-traying a delicately-featured girlish face, occupies a central position at the end furthest Russian pictures of saints placed upon a table beneath the bust, the figures being represented in the well known style which evades the command of the Greek church respecting images, that is, the faces and hands are realistically painted, and the draperies are rendered in wrought metal work. Candelabra, paims and wreaths are also grouped around the bust. A white dove, the emblem of purity, is attached to one of the memorial offerings. Some articles of modern furniture, however, seem the objects most vividly associated with Marie Bashkirsteff. There are pieces of art pottery and draperies in which she once delicated the second of the second lighted; there are a paint-stained, much worn carpet and some equally worn foot-stools, cushions and chairs. Among the lat-ter a Prie-Dieu chair bears the initials "M. B."

Atthough somewhat unusual at so early a date in the fail calendar, yet there is no form of social entertainment so well designed to inaugurate the season's functions as a ger-

man. That was what Mr. Herman Kountze thought who, assisted by his charming daughter and the male members of the Kountze family, gave a pretty flower ger-man Tuesday evening in honor of his senior son, Mr. Augustus Kountze, who left the day following for New York, to become a part of the great banking house of Kountze Bros Forest Hill, the magnificent home of Mr. Herman Kountze, which has been closed to the world for two seasons, because of the death a dear wife and mother, was thrown open on this occasion to the friends of the soon departing son. The conserva-tory, and there is none handsomer in all the west, gave up its plethora of flowers, and everywhere in the big, wide, roomy mansion were sweet odors from limitless blossoms. In nooks, embrasures, in door ways; roses palms, and all manner of hot house plants nestled, bidding a quiet but genuine welcome to the guests that filled only the parlor, for it was a small german and included only Mr. Kountze's latimes. There were pretty seats on the wide verandas, and the leaders, who were Mr. Augustus Kountze and Mr. Charles Kountze, were quite considerate and permitted the dancers to use their sweet in-cilinations as to the times and length of the dances. With this touch of informality

about the function, and as everybody knew everybody else it was with entire appropriateness denominated the leading event of the season. Twelve direct and indirect figures were danced, flowers in baskets and figures were danced, flowers in baskets and bouquets being the favors. The music was delightful, stationed at one end of the long conservatoire, while a big punch bowl stood at the other to add its quantum of inspiration to the affaire de societe.

Mr. Herman Kountze received his guests, resisted by Mr. Augustus Kountze Miss

The onyx and French marble mantel with its large mirror was enhanced in beauty with palms, cut flowers and roses and the chandellers were festooned with ferns. Roses were everywhere; in fact each guest was supplied with them, and the fragrane cof these lovely flow-ers was delightful.

Sherbet was served on the large, cool

account of the illness of Mrs. Quigley, and only the immediate members of the family and relatives were present. The ceremony took place in the cozy pariors of Mr. Quisley's home, which were prettily decorated with piants and cut flowers, the couple standing in the bay window under a gariand of flowers while Rev. Father Newman performed the ceremony, after which the guests and principals sat down to an elaborate and bountiful 6 o'clock dinner. The bride, who always merits the highest

compliments on her beauty, looked very sweet and pretty.

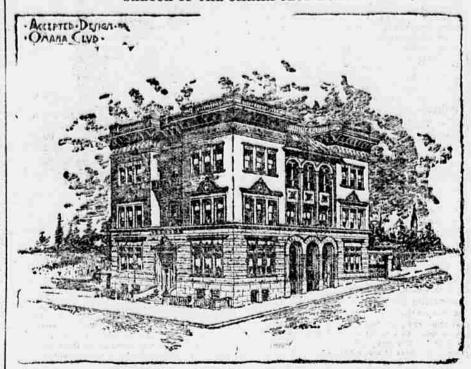

Mr. and Mrs. Ackermann left on the evening train for Chicaro, New York, Boston and other cities and will return to their future home, 1921 Binney street, this city, early in October.

Mrs. Woolworth Entertains the Auxiliary. In order to map out a plan for the season's campaign Mrs. J. M. Woolworth, president of the diocesan branch of the Ladies' Auxiliary, invited the heads of the several branches to meet with her on Thursday at 1. Cortlandt was in gala dress for the occasion, flowers and palms from the conservatory being brought into the house to enliven it with color. Upon the principle that much more is accomplished when the material wants have been satisfied. Mrs. Woolworth served a delicious function and afterwards the business which had called them together was transacted.

Among the number of ladies present the

SKETCH OF THE OMAHA CLUB HOUSE.

The new Omaha club building will occupy a space of ground at Twentieth and Douglas streets, 55x80, with an annex 28x34, and will be practically four stories in height, three stories and high basement to be exact. In style the building will be Italian rennais-sance, its be t representatives being found in Nuples, Florence, Venice, Saville. It is par-ticularly graceful in form and light and any in the manner of its working out, and just such a school as seems most applicable to an American club house.

The basement story will be built of light granite rock face and will give a solid appearance to the building. The first story above the water table is to be of the same granite as the basement, but dress faced, the high points polished. The remaining stories

will be of buff brick, Roman shaped, trimmed in light terrs cotts. A balustrade will run around the whole building and the roof, which will be constructed of vitrified tile and used as a garden by the members of the

One of the handsome features of the very pretty structure will be the loggia on the third story, which is distinctively Italian in design and treatment. The arcade on the first story is also attractive and a graceful porte coche attached to the ladies depart-ment gives a decided finish to the house. To break the straight lines balconies will be thrown out from each story over the front entrance on Douglas street, while the windows which are handsomely grouped will add materially to the beauty of the struc-

The dining room table was draped with an exquisite tablecloth, hemstitched and deeply embroidered in flowers, leaves and vines, its beauty enhanced by wax tapers in gold and silver candelabra. In the center was a handsome floral piece, the sideboard and chandeliers being tastefully trimmed. The occasion was also distinguished by the tolicts of the swell people present, the ladies wearing superb silks, velvets, laces

and precious stones.

Mrs. Cornish, tall and fine looking, was becomingly attired in a costume of drab crepe elaborately trimmed with black hand made passementerie and velvet, entraine point lace and diamonds. MASONIC MATTERS.

Death of Robert Folger 330, the Oldest Member of that Degree.

Member of that Degree.

Robert B. Folger, who died last week in New York at the ripe age of 90, is said to have been the oldest Scottish Rite Mason in the United States, and perhaps in the world, having received the 337 in 1824. His mother was a cousin of Benjamin Franklin.

By virtue of the right invested in him by the grand inspector general of the 33d and last degree Ancient and Accepted Scottish Rite for the Southern firisdiction, William Cleburne raised Thomas K. Sudborough, John J. Mercer and George B. France to 33° last Saturday evening. Assisting John J. Mercer and Assorge B. France to 33 - 1ast. Saturday evening. Assisting Brother Cleburne were the following 33s, Henry C. Akin, Charles Huntington, Duke Webster of Hastings Sewell of Lincoln, W. R. Bowen. After the initiatory services, which were of a highly interesting character to the reactulants a banquet was served in which were or a highly interesting character to the postulants, a banquet was served in the blue lodge room and until a late hour the men who have attained the heights in Masonry talked of the heauties of the work and the great truths at the foundation of the degree.

and the great truths at the foundation of the degree.

A scene was presented in the Masonic lodge room last evening, says the Norfolk News, that was perhaps never before witnessed in any lodge in the country, that of having three generations present, the grandfather in the chair and the grandson a candidate for advancement. The gentlemen referred to are S. W. Hayes, his son-in-law J. S. McClary, and his grandson Warren. Upon Warren was conferred the Master Mason's degree, his grandfather officiating as master while his father assisted in the work. Thus were the beautiful ceremonies work. Thus were the beautiful ceremonies of this degree most impressively stamped upon the minds of the three most interested, as well as all members of the fraternity
