SOME SENSATIONAL RACING

Terre Haute's Track the Come of Wonderful Speed and Endurance Contests.

SPLENDID GOING IN THE FREE-FOR-ALL

Last Day at Gravesend Was a Stem-Winder -Belle Acton Captures a World's Record at Wichita-Other News from the Tracks.

TERRE HAUTE, Ind., Sept. 30 .- A large crowd was in attendance at the fourth day of the Southern and Western circuit races. The record of Maud S was tied by S. A. Brown & Co.'s Belle Vera and by Vatican, and the fastest six heat trotting race on record was won by Ryland T, Jack boing second.

The free-for-all trot was contested by Jack, Ryland T, Charleston and Little Albert. The first heat was won by Ryland T, after a sharp fight with Jack. The second heat, Doble driving Jack his best to win, was grappled by McHenry with Charleston, who won on Jack's break in the nome stretch. The third heat was a dispute between Charleston and Little Albert, Charleston going up. Jack stepped in but could not pass Little Amert in his galiant effort to lead, Albert landing in 2:12. Jack stood second in five heats and was sent to the barn after making a great race. Ryland T and Little Albert were first passed by Charleston, when the geldings collared each other and swept by Charleston, and finished by Ryland T first.

The 2:14 trot developed more sensations. Beile Vera, driven by Doble, went to the head from the fifth position, held up her end against a powerful field to the half in 1:05% and still was in the van at the wire in 2:08%. Waiter E disposed of the next three beats and beat the crack Californian, Mattie H, Belle Vera and St. Vincent. Three fast heats settled the 2:18 trot, it being won by

Reina, Salisbury's Clara D second.

Two beats of the 2:17 pace were decided,

Work of the Flyers. The most marvelous trotting and pacing records made this week, 2:04 in each class and both on the far famed Terre Haute circular track, make it interesting to look over the very low records. Only twenty-four torses have ever trotted or paced regularly under 2:10. Only two other horses have paced irregularly, that is with running mates, in less than 2:10, viz: Westmont, 2:01%, and Minnie R. 2:03%. The list:

QUIT AFTER FIFTY-FIVE ROUNDS.

Sol Smith Had the Best of George Siddons

But Couldn't Finish Him. SAN FRANCISCO, Cal., Sept. 30 .- Soi Smith of Los Angeles, Cal., and George Siddons of New York engaged in a finish fight for a \$2,000 purse in the California Athletic club last night. The men weighed in at just 1191; pounds at 8 p. ib. Smith was the favorite in

the betting. Smith scored two right-handers on the ribs in the first and ducked a number of rushes. In the second round he chased the New Yorker about the ring giving both hands about the head, and smashed him in the face with his left when he could get inside of Siddons' goard, which the latter kept about his face. The New Yorker made no effort to retaliate but stood the punishment manfully. Smith landed three hard left-

banders in the wind.

Siddons came up smiling, but wary, and broke ground teneatedly in the next three rounds. Smith's rushes were fruitless with the exception of a couple of right-handers in the ribs. Siddons scored a couple of lefts on Smith's ear in the fifth and appeared confident.

The sixth round was model. handers in the wind.

The sixth round was marked by more rushes on Smith's part, Siddons running or taking the rib roasters with a smile, appar-ently seeking to tire Smith. From the sev-enth to the thirteenth Smith undeavored to

break down Siddons' guard. The latter cut

several antics and displayed much forbear-ance when Smith fouled him.

The twelfth was hot round, Smith get ting Siddons against the ropes and punishing him hard, but could not bring him down. Siddons fought him back.

With the exception of the fifteenth, in which Siddons took a lot of punishment,

honors were about even to the twenty-second round, when Smith renewed his whirlwind tactics and threw Siggons through the ropes and nearly off the platform.

The end of the twenty-fifth round found the men fidding for an opening at close quarters. In the twenty sixth Siddons nearly dropped Smith with a left on the jaw and a hard fought round followed, Smith bleening at the mouth. The twenty-seventh round was slow and from the twenty-eighth to the thirty-fourth round little was done. Both men were careful. Siddens continued to take most of the blows for his head on his gloves, occasionally parrying or stopping with so uppercut. Smith did most of the

At the end of the fortieth round neither had any advantage. From the fortieth to the end of the fifty-fifth round little was At the end of the fifty-fifth round, not a blow having been struck since the fiftleth, Referee Cook consulted the principals and announced that as they agreed they could not finish the contest he would reserve his decision until the meeting of the board of

directors next Monday evening.
Siddons evidently sought at the outset to make it a draw and Smith's strength failed him after the twenty-fifth round by good work on his part.

Pagilistic Talk in New Orleans. New York, Sept. 30 .- President Charles Noel of the Olympic club, New Orleans, writes a sporting paper that the Olympic club will not offer any purse for Peter Jackson and Joe Goddard to fight for, because the southern people do not like to see contests in which a white man is opposed by negro. Should Jim Corbett and Charlie Mitchell arrange a fight for \$10,000 and the championship, the Olympic club will offer just as large a purse, if not larger, than any other club, or the club will be willing to offer a big purse for Jim Hali and Bob Fitzsimmons to contend for in February during the Mardi-gras.

Fire Destroys Charles Akoper's Frame Building on Twe: ty-Fourth Street. Just one hour after the disastrous fire at the Union stock yards broke out last evening another alarm was turned in. The fire was located in a vacant two-story frame dwelling located on the west side of Twentyfourth street, between Q and R streets. The fire companies were yet at the stock yards and it was fully thirty minutes before they could be notified and reach the scene of the fire. The building was an old frame structure and burned rapidly and was completely de-stroyed. The house was the property of Charles Akofer, the N street butcher, and was worth about \$900. How the fire started is unexplained, as it had not been occupied for some time, and may have been the work of an incediary.

September's Market Report. The month of September just closed has been a very prosperous one at this market so far as the prices of hogs are concerned. A comparison with the month of September, 1891, shows a very flattering state of affairs. The high point in 1891 was reached on September 8, when \$5.25 was paid, and during this year on the 10th and 13th with \$5.40 as the top price. The lowest price paid for a full load was \$4.35 on September 30, 1891, and \$4.75 on September 1 of this year. The highest and owest average cost in September, 1891, was \$5.07 and \$4.65% against \$5.25% and \$4.88% in September, 1892. This shows that the market during the month just closed has ranged

about 20c to 30c higher on hogs than during the same mouth of 1891.
South Omaha has always been a great market for stockers and feeders, and there is always a big demand for them at good prices. HE ANSWERED THE CHARGES

Mayor Bemis Replies to Some Imputations Made Against Him by Councilmen.

HIS OFFICIAL ACTS HAVE BEEN OPEN

Nothing in His Record Which Will Not Stand Inspection What City Attorney Connett Says of the Late Investigation.

Mayor Bemis was asked yesterday morn ing: "Is it true, as charged by Councilman Davis,

that you signed the water works warrant at midnight two days after you became mayor!" "I would most emphatically say this statement is faise," replied the mayor, "and Mr. Davis knows it is false. The warrant to which he refers was signed by me between 2 and 3 o'clock in the afternoon after an extended conference with Mr. Goodrich, the ex-comptroller, and Mr. Olsen, the present comptroller, who were both familiar with the nature of the claim for which the warrant was drawn, and both stated that the claim for which the warrant was drawn was correct and just and should be paid. The appropriation ordinance authorizing the signing of the warrant was passed before I became mayor and should have been approved by ex-Mayor Cushing before his term of office expired. There was not then, and cannot now, be any controversy regarding the correctness of the claim or the propriety of signing the warrant. The warrant covered the hydrant rentals to the water works company under its contract with the city for the six months prior to January 1892. Since that date, in July of t present year, a similar warrant has been signed and delivered covering the hydrant rentals for the six months commencing Janu ary 1, 1892. If I am correctly informed Mr. Davis voted in favor of both the appropria tion ordinances containing these items, and he cannot but know that the items were cor-rect. He also knows, as a matter of fact, that the warrant signed in Japuary was paid by the treasurer during the afternoon of the day it was signed, rendering it utterly impossible to have been signed, as he claims, at midnight. This charge is in keeping with

others made by Mr. Davis to divert the at-tention of the public from matters that should be investigated." The Bemis Park Purchase, "What is there," was asked, "about the charge that you worked up the Bernis park purchase through your influence as mayor!" "It is a notorious fact," was the reply, "that the property bought of the Bemis Park company was purchased at half its actua value and was a better purchase than that of any other piece of property acquired, and when any specific charges are made I will be ready to meet them. Two years before I ready to meet them. Two years before I was elected mayor the property was recommended by the park commissioners for pur-chase by the city at a price \$5,000 larger than was afterwards paid for it." "What is there; to the charge that you signed warrants before you had signed the

appropriation ordinance authorizing these warrants!"
"I have never vot signed a warrant until after the appropriation ordinance was signed or until the appropriation had been passed by the council, signed by the president of the council and clerk, and actually in my hands for approval, and not then until after I had carefully examined the item for which the warrant was to be drawn and satisfied my-self that such item should be appoved."

About the City Hall Defects. "How did you come to charge that the tower was fourteen feet lower than the contract specified? and how about the report that \$600 worth of the cornice stone was taken to a stoneyard, although the city paid for it! What do you propose to do next to ferret out the alleged crookedness in the

plans and construction!" With regard to the claim that the tower of the city hall was fourteen feet lower than was specified by the contract, I have never made a direct charge to that effect. I have merely stated that I was informed such was the fact. This is also true with regard the \$600 worth of cornice stone claimed to have been taken to a stoneyard, notwith-standing the fact that the city had paid

for it.
"With regard to my future action concerning the defects and irregularities in the construction of the city hall, I can only say that I propose in the future, as in the past, to protect the interests of the taxpayers as best I can. In view of the fact that the commit tee has refused to proceed with its investi gation and forcibly prevented the city attorney from examining the witnesses, I pro-pose as best I can to continue the investiga tion in my own way. I am now satisfied that nothing will be done and nothing can be expected from the present investigating committee of the council."

Mr. Connell Talks.

City Attorney Connell, being asked what he thought of the action of the investigating committee, said:
"What do I think! Why I think that the committee has absolutely verified the rumors concerning it, that it is a 'whitewash committee' and would make a whitewash report. In place of allowing witnesses to be called to establish or disprove the statements of the mayor regarding the blunders of the architect, the dangerous condition of the elevators and the faulty construction of the city hall, the committee undertook to run down rumors relating to proposed white washing by themselves. Now they not only have these rumors, but they have established the truth of the rumors. It would have been a more prudent and 'proper course to have left the work of investigating themselves t some other committee, and then, perhaps, they would have got off with a simple dose of whitewash. As it is, they have black-washed themselves. Their scheme to turn the investigation against Mayor Bemis will not prove a success. The action of the committee was a concoccedscheme to stifle investigation and prevent the smeking out of facts which would be an absolute demonstration of the charges of the mayor. My only purpose in addressing the committee after the typewritten resolutions fixed up by Tom Lowry had been read was to obtain permission to proceed with the examination of the arch teet and to examine other witnesses present This permission should have been granted, and it was evidence of the white-washing purpose of the committee to arbitrarily re request of the mayor and by the authority of the committee had already commenced the examination of the architect, whom I had allowed temperarily to leave the stand while the statemests of Mr. Counsman wer-being made. I was satisfied from what bad previously seen and heard that Tom Lowry would prevent, if he could, any further examination of the witnesses. Upon

the committee being called to order ne pro-ceeded to carry out his scheme. "As evidence of Lowry's purpose, we have not only the type-written resolutions which ne brought in, but his own statement to the mayor indicating what he proposed to do. After the mayor had declined to sign a copy of a resolution brought to him by the sergeant-at-arms yesteriay forenoon authoriz-ing Mr. Lowry's committee to expend money, which the mayor declined to sign for the reason that the paper was neither an original nor concurrent resolution. Tom Lowry brought in the paper a second time and urges the mayor to sign it, and upon the mayor's refusal to do so said: 'Well, then, I'll be d—d if another thing will be done by the committee or another witness called.' The resolution which he afterwards fixed up for adop-tion by McLearie and Prince was the carrying out of this threat.

Scores Davis and Chaffee.

"In the carrying out of this threat Lowry was aided and abetted by Davis and Chaffee, Both of these worthes have been present at every meeting of the committee, although not members of the committee, taking a very earnest interest in the same, and were even more active than Lowry himself in demanding that the sergeaut-at-arms should require me to sit down. One thing is certain, that whenever I sit down at the demand of either of these gentiemen it will be a sitting down on them, and that with a thud. I do not ex-pect or anticipate that Mayor Bemis can do very much in protecting the interests of the taxpayers while these gentlemen remain in the council. It is a fortunate thing for the city that their terms of office expire with the present year. They are a couple of brigands; they travel as a pair. Whenever you see

Davis you find Chaffee, and whenever you find Chaffee you see Davis. Each echoes the opinions and sayings of the other. They are dangerous leaders, and it is a great mistake for other councilmen to follow them.

Delay of Public Work.

"The question has frequently been raised as to the cause of the delay in public. The question is easily answered. W has been somewhat due to the mistakes of the Board of Public Works and the change of specifications, it has been principally due to Lowry, Davis and Chaffee, who have represented contractors in place of tax payers. It is a notorious fact that Lowev is the active agent and representative of Hugh Murphy, the stone contractor. He has resorted to all sorts of devices and schemes to prevent the paying of streets with any material except Colorado sandstone. He came very near suc-ceeding in his efforts in that direction on Leavenworth street, but through the active vigilance of Mr. Ijams and other interested property owners he failed, and to the credit of the city that street is now being paved with brick at a low figure with a ten-year guaranty, in accordance with the wish of a large majority of the property owners. On the other hand, Davis and Chaffee have constantly championed the cause of an asphalt paving contractor, and under the pretense of coring the mayor have schemed as best they could to give asphalt paving to their contractor in place of allowing it to go to

other contractors at a lower figure.
"I dislike to be drawn into any controversy between the mayor and councilmen. I would much prefer, so far as possible, to re-main neutral, but when these councilmen undertake in the high-handed manner atgation and forcibly prevent me from being heard I think it about time to assert what I consider my rights, and in the language of Macbeth say: Lay on Macduff, and damned be he who first cries hold, enough!"

AMUSEMENTS.

In considering Mr. Salvini and bis art, the critic must judge of them in the light of the highest standards and so he may be constrained to give what would otherwise be undue prominence, to imperfections, of what is still a higher, praiseworthy performance. This is true of his Don Caesar, but judged by these highest standards his d'Artagnan, with justification of superlatives, must be pronounced flawless, a perfect gem of purest

Dumas' masterpiece is familiar to everybody, and the audience at the Boyd last evening showed its fullest appreciation of the fine presentation of the great romance This was a leading feature of the perform worthy dressing of play and players. Each scene was a picture, complete and satisfying in every detail. ne or two of the characters were admirably sustained. And so the highest praise is

tendered as fairly won.
Mr. Salvini's d'Artagnan has the sparkle of good wine that does not lack body either, and the miry frou-frou manner in which he carves his way, with "Bob's" assistance, through all manner of hairbreadth 'scapes, to the heart in a woman's eye is irresistably captivating to the spectator: Dumas' immor tal creation could have no finer and more faithful embodiment.

Mr. William Redmund's Athos was a fine pit of playing, his story in the third act being capitally spoken, earning him a full-bodied round of applause. Cardinal Richettes suffered at the hands of

Mr. Ben Johnson, and the duke of Bucking-ham can sympathize with him. Miss Judith Borolde was sufficient as Anne of Austria, the lady's performance showing a marked improvement on her Maritana. Miss Maud Dixon made g charming Con stance and Miss Augusta de Forrest, if a little overstrenuous, fairly fulfilled the de mands of Lady de Winter. All in all, no more enjoyable performance has been seen in Omaha than that of Mr. Salvini and his company of players in "The Three Guardsmen.

CHEVENNE, Wyo., Sept. 30 .- [Special Telegram to THE BEE. |-Another chapter has been added to the celebrated White divorce case. It will be remembered how Charles A. In addition to this by means of threats and ill treatment he compelled her to sign a note for \$75,000, secured by mortgage on valuable city property and coal lands in Converse county and collateral security in the shape of stocks and bonds.

with him the note, mortgage, stocks and bonds. A couple of weeks ago Mrs. White entered suit for divorce, detailing at great earth the hardships she had undergone at the hands of her young out vicious husband Today her strongy filed with the clerk of the district court a petition for a restraining order to prevent the registrar of deeds from accepting and recording any transfer of the mortgage and asking that White be restrained from disposing of the note stocks and bonds and be con-pelled to give them up to the praintiff.
