INVESTIGATE THE CHARGE

E. C. Rewick Will Be Invited to Verify His Accusation.

POSITION OF THE STATE BOARD MEMBERS

Chairman Humphrey Regards it as His Duty to Vindicate or Convict the Management of the Lincoln Insane Asylum.

LINCOLN, Neb., Sept. 30 ... [Special to THE BEE, |-It has practically been decided by the State Board of Public Lands and Buildings to make a thorough investigation of the sensational charges made at the Lansing opera house in this city Tuessay evening by E. C. Rewick. The board has no means of enforcing the attendance of witnesses, but an urgent invitation will doubtless be extended to Mr. Rewick to come before the board and submit his evidence. In this connection the following letter addressed to Chairman Humphrey of the board by Governor Boyd is of interest:

"I would respectfully call your attention to the statements made at a public meeting In this city and discussed by the press of dishonest management of the hospital for the Insane at Lincoln, and state that I feel it my duty as chief executive of the common wealth to respectfully urge your board to make a thorough investigation of the charges made for the nurpose of bringing the parties, if proven guilty, to justice, and the recovery, so far as possible, from their bondsmen of Smounts stelen from the state, if such thefts shall be established.

I am moved to this course in the discharge of my duties, certain facts having come to my knowledge through official channels, which would seem to lend corroboration to some of the published charges."

Repudiated by Independents.

J. Gustin, one of the leading members A. J. Gustin, one of the leading members of the independent party in the state and whose prominence in the councils of that party will not be disputed by anyone, said to The BEE representative this morning that in his eminion Mr. Rewlet was but little bet-ter than the men he had denounced. "The man who keeps in his possession for so long a time the evidence of rascanty and declines to make it public," said Mr. Gustin, "de-serves the condemnation of all honest men. If he offered to suppress his or idence in con-If he offered to suppress his ovidence in con-sideration of an office he is no better than a receiver of stolen goods." Mr. Gustin was decenally indignant at the assertion that Mr. Rewick is receiving the countenance of the independent party in his efforts to expose the alleged rescality of the asylum emplyes. "The independent party will recognize no man who is dishonest as Mc. Rewick's own statements prove him to be." was the em-phatic manner in which Mr. Gustin expressed bimself on this point.

Secretary of State Allen's Views.

Secretary of State Allen was asked by THE BEE representative today whether the Board of Public Lands and Buildings would institute an investigation of the manner in institute an investigation of the manner in which accounts and contracts had been jug-gled at the asylum. He replied that such an investigation would doubtless be commenced at once; that Attorney Gen-oral Hastings had telegraphed W. S. Sum-mers, the assistant attorney general, that he would return to Lincoln this evening. Sec-retary Allen discussed the charges at some length and spoke of the difficulty in keeping a check on the contract supply sytem ea-forced by law in this state. As an illustration showing the way goods are purchased at the present time he stated that during the quarter just expired the bill that during the quarter just expired the oni of C. "Why dig the estimate call for only \$767.2 where \$1,895.76 was used, and why was thi amount of goods purchased on this contract Certainly not because gardens failed to Yield their crop of vegetables, for we find in the bid hominy, and hominy grits bid at 1 cent per pound, beans bid at 2 cents per pound, other faranacious goods in proportion and no hominy and scarcely any beans purchased. Why do we find a stapl article like cheese left off the estimate and large amounts purchased at retail price-15 cents per pound? We also find in nunned fish one article-canned salmon billed at \$1.15 per case, wholesale price \$5.00 and not a case bought during the quarter, but mustard sardines bought in their place at \$1.25 per case when wholesale price is about \$3.25."

Mr. Atlen had other comparisons and he stated that under the present system it is impossible for the board to prevent the practice at the Lincoln asylum or any other state institutions. It was recommended to the alliance legislature of two years ago by Hon. John Steen, com-missioner of public lands and build ago ings, that a purchasing agent be employed by the state under the direction of the Board of Public Lands and Buildings whose duties it would be to purchase all supplies for the state and to keep a check on the dif stitutions. That is impossible to e different in be done under the present system and the recommendations of Mr. Steen were not considered. Mr. Allen stated that the board has repeatedly ordered the different superiotendents that in all contracts with the state on supplies, they be filled and de-livered at one time and entire, thus making their estimates and bids call for just what each institution requires. This order has been ignored by forme, superintendents as well as by Dr. Bowman, and hence the opportunity appears for practices not consist ent with the interests of the state,

Crote Bank Affairs.

His injuries are se-vere, but not serious, and he will be able to sume his place in his classes in a day or so. It has been decided to definitely settle the question as to whether the freshmen shall carry canes during the ensuing year at a regular cane rush to be held one week from today.

Found Dead in a Chair.

This morning Mrs. S. A. Warner sent her little boy to the Chinese laundry at 233 South Tenth street to bring some washing which had been left with the proprietor. The little boy soon returned and told his mother that the Chinaman was sitting still in a chair and that he was "awful stiff." An nvestigotion was made and when neighbors arrived at the laundry it was discovered that the little boy was right as describing the mau as "awful stiff." He was dead and had been dond for several bours. His body was at once removed to an undertaker's and prepared for burial. No cause for his sudden death has as yet been assigned. His name was Kwong Hing, and he has been doing business in this city for some time. It is believed that his death was caused by an excessive use of opium.

and the authorities have about decided to vote him a gold medal. There is, however, a prospect of a law suit in sight, and it all comes on the question of who is entitled to a reward which was offered.

S. G. Stevenson has succeeded in proving that the horse which was stolen by Griffith and was afterwards found locked in the barn owned by F. A. Lewis, was his property. Shortly after the theft he offered a reward of \$25 for the return of the animal, and at the same time the county offered a reward of \$50 for the arrest and conviction of the thief. Urged on by the hopes of getting the money the police did a little shadowing, but they found nothing but shadows. In this condition everything remained until Montgomery laid Mr. Griffith low, In fact there were no startling developments until the stolen horse was located in the Lewis barn. Immediately upon the discovery being made the parties who claimed the reward were as numerous as flies around a sugar barrel. The \$25 had been deposited with the Fire and Police Commission, and for two days the secretary of that body has been kept busy standing off. the claimants.

First there came Lewis, the owner of the barn, and based his claim upon the fact that he was the owner of the property where the horse was found, and for that reason no other person was in it on the money question. This man was quickly followed by a grocer boy who claims that he heard the horse neigh one morning as he was passing the barn. Mike Maul says he will have the money

Charlie Mentor bases his claim upon the fact that after the horse was found it was taken to his barn and fed, which gave bim the right of possession. The two detectives, Haze and Shoup, are

also after the money, as they claim that they were the parties who led the horse from the Lewis to the Mentor barn.
