THE SPECULATIVE MARKETS

Four Million Bushels of Long Wheat Dumped Into the Pit.

THAT CEREAL OPENED VERY STRONG

Notwithstanding the Features of the Day's Trading, Wheat Closed with a Loss of Only a Fraction—Stocks and Bonds.

CHICAGO, Ill., Oct. 5.—Four million bushels of long wheat were dumped into the pit to day. Nevertheless wheat tonight is only from ⅛c to ¼c lower than at the close yesterday. Corn is from ¼c to ⅛c lower. Provisions were firm and higher under the lead of January pork, which advanced 32½c per bbl. Wheat opened very strong and first sales were at some advance, the strength being based on higher cables and brisk local demand. But there seemed to be any amount for sale at the advance and there was a gradual loss of 3c, from which there was subsequently but little rebound.

One of the potent reasons for the early display of strength was the very favorable reports of the condition of the winter wheat. In Illinois, Indiana and Missouri the fall sown wheat was said to be suffering severely from drouth and a good deal had not germinated. Logan, Mitchell, Lamb and Comstock were good buyers early, but later the crowd turned largely to the selling side, led by Ramsey-Lightner, Walker & Co. and Partridge, and there was a steady decline. It was part of the gossip on the floor that Bloom was selling out and a large line of his holding was said to have been held through Ramsey & Lightner. Armour was also a liberal seller.

The receipts in the northwest were more liberal and exports from the seaboard were smaller. A dispatch from Marshall, Ind., said that only 5 per cent of an average of winter wheat had been sown around there, that very little of it had come up, and that cricketers and grasshoppers were monopolizing what appeared above ground. The dispatch is being paraded as a warning that while this continent has been favored with two consecutive heavy crops of wheat three big crops in succession have so far never occurred here or elsewhere in the world.

The closing call was very for the most part firm and Bradstreet's estimate of the visible supply did not show as heavy an increase as had been looked for, but the fact of receipts at primary points for the week exceeding 1,335,000 bu. were the headless for one day on this crop kept up and to encourage selling. The corn market was firm at the opening and a little higher, due in part to cooler weather and some frost in northern Wisconsin and Michigan. The receipts were somewhat less than had been estimated. Prices began to give way to a different tone, and the slight gain with which the market opened and ⅛c besides were knocked off the starting values. Business in the pit was fairly active at times, but there were also long intervals of dullness. Frosts predicted by the signal service in much of the states of Ohio, Pennsylvania and New York steadied the market at the decline. The estimated receipts of 340 cars for tomorrow was considered too heavy an amount to wake up the bull side.

There was a good deal of doing up of all products in the pit in trade. The bulk of the business was for January, with October generally neglected. Ever since the first cholera scare there has been more or less shorting of the market for January so as to be ready for the decline which might follow the breaking down of the "corner in short ribs." Of late the hogs have not come up to expectations. Instead of a heavy movement and lower prices at the yards, hogs are being marked up gradually. The shorts are now beginning to let even on their January contracts. In pork it was known that Wright was a pretty cool hand and this gave the market a lift. Altogether the broad, strong market was a surprise, with corn heavy and lower.

Freights were weaker and lower at 2¼c for wheat and 2c for corn to Buffalo.

Estimated receipts for tomorrow: Wheat, 535 cars; corn, 600 cars; oats, 300 cars; hogs, 23,000 head.

Traders' Talk.

CHICAGO, Ill., Oct. 5.—Counselman & Day to Cockrell Bros. Commiss on company: Wheat opened on a 2c bu ge, due to the anxiety of shorts, influenced by Beerbohm's rather bullish suggestions concerning the world's production, distribution and prices, also to companies of damage to fall-sown wheat from drouth and insect ravages. Outside orders were small, and local bulls, fearing a big increase in Bradstreet's available supply, became half hearted and sold freely, causing a 2c decline. When the available supply was announced it looked bullish and the market rallied slightly. Late cables were higher, but brought no advanced bids, and the unloading by early buyers caused a tame closing at ⅝c to ¾c decline from yesterday. Corn opened active and strong early and many stock yards people who are believers in it for a long pull, but weakened under May sales by receivers who reported the offerings from near stations to be more plenty than transportation. Sample bids were weak except yellow corn for interior milling. Oats were very dull and a small business was transacted at about unchanged prices. Provisions were bid up by the Wright and Cudahy brokers who seemed bent on forcing October shorts to an early settlement. The relatively higher price of hogs and the comparatively light stocks of product are bringing January stuff into more favor, especially when the large short interest in them is considered.

CHICAGO, Ill., Oct. 5.—Kennett, Hopkins & Co. to S. A. McWhorter: Big receipts, light exports and realizing by the most pronounced bulls in Chicago, with rather indifferent cables, have temporarily at least knocked out the little boom that looked so fresh and vigorous yesterday afternoon. Near 1,000 thousand cars in the northwest and private advices that the movement is likely to increase make the bulls timid. They buy on breaks, but experience has taught that it is best to take profits on the rallies. The flood of receipts holds the market down; abroad as well as here. Corn and oats have shown moderate strength, but fluctuations have generally been in sympathy with wheat. The cash demand is improving, but receipts are too large to let prices advance materially at present. Provisions were rather strong nearly the entire session with fair buying both for long and short account. Traders are showing more confidence in values.

CHICAGO, Ill., Oct. 5.—F. G. Logan & Co. to Duncan, Hollinger & Co.: We had a strong and active wheat market at the opening. December opened at 76¾c, the highest point of the day. Realizing was heavy, which caused a decline to 76¼c. A long line of wheat belonging to Bloom was sold out, which in some measure caused the decline. Heavy buying orders were on the market at about 76¼c and from this point the rally to 76⅞c was rapid. The closing price is 76¾c for December and 81⅝c for May. Outside of the heavy receipts in the northwest all our advices point to higher prices. Complaints of the weather being too dry are on the increase from the winter wheat belt. The wheat already sown is making no headway for want of moisture. Cables are decidedly better and bring some buying orders. Any little improvement in this direction will add greatly to the strength here. As we look at the maket today we think purchases made on any weak market will make moderate profits, and with a better foreign demand handsome profits. In the corn pit the business for the first part of the session was good. There was free buying by commission houses. The selling was largely local. The cash demand is good. Oats have been steady at from 30¼c to 30¾c for May. There is good buying of oats, and we think better prices are due later on. Hog product was steady. Our opinion for weeks past has been for higher prices for it. We still think so. Of course we will have reactions and on them it will do to buy. Charters: Wheat, 75,000; corn, 182,000; oats, 185,000. Prime 6¾ for time. Sterling exchange dull; $4.85 for sixty-day bills, $4.87 for sight.

NEW ORLEANS, La., Oct. 5.—Clearings, $1,065,-183. New York exchange, commercial, $1.00 discount; bank, 50c discount to par; bank collecting rates, $1.00 per $1,000.

LIVE STOCK MARKETS.

Cattle and Hogs Both Show a Firmer Tone, with Increased Activity.

OMAHA, Oct. 5.—Three days' receipts foot up 11,780 cattle, 12,088 hogs and 2,850 sheep, against 10,040 cattle, 12,603 hogs and 2,533 sheep the first half of last week.

The number of cattle offered was rather moderate, and there were few good killers received. The movement was fair and prices somewhat firmer on suitable grades.

The supply of cow stuff was not above the demand and as the inquiry was pretty liberal prices on suitable stuff ruled stronger and a fair clearance was effected. Light thin stuff was hard to move at satisfactory prices.

Feeder was handled by mainly stockers and feeders at steady prices. Common light stuff sold slowly, although prices were quotably unchanged. Representative sales:

SHEEP—Ten double decks were received, the bulk of them pretty good stock. In sympathy with eastern markets the trade was brisk and prices ruled fully a dime higher than last week on desirable offerings. Common and inferior stuff was not wanted and the trade slow. Fair to good natives, $4.5 @4.50; fair to good westerns, $4.25@4.45; common and stock sheep, $2.25@3.25; good to choice 40 to 90-lb. lambs, $4.0 @4.75. Representative sales:
