WHEN THE GERMAN COMES

Two Hundred and Ninth Anniversary of Their Landing Celebrated.

TRIBUTES TO TEUTONIC CIVILIZATION

Mayor Honors Talks of the Landing of German Millions, John Hancock of Their Course, and Editor Hitchcock of Their Influence.

Exposition hall was beautifully decorated last night for the concert and ball with which the Germans commemorated the landing of their forefathers in 1633. Messrs. Charles Schickel and Michel Lohs had charge of the decorations, and the appearance of the hall testified to the wisdom of the committee of arrangements in making its selection.

Every seat in the body of the hall was filled at 8 o'clock and a fringe of bright faces looked down from the galleries. Mayor Honors spoke. After a stirring selection from the orchestra and a chorus by the Arion and Concordia singing societies Mayor Bonis was introduced by F. S. Lott and in a neat speech in the course of a pleasing speech he said: "German Bay—What is it? Some 200 years ago our forefathers came to this continent, and they have since then made their mark upon the history of this continent."

German Immigration has greatly contributed to the wonderful development of our country. Dr. F. Schickel, a former official of the German consulate here, in a speech which makes the number of Germans in the United States at 2,000,000, or 14 per cent of the whole population, and that they are considered as belonging to the best of all countries. The foreign born German has had every advantage of thought and speech, and he has made his mark upon the history of this continent.

Conclusion of a Sensational Case. Davenport, Ia., Oct. 6.—(Special Telegram to The Bee.)—The Trent murder case, which has been on trial in the circuit court since last Thursday, ended late last night in a verdict of acquittal. The result was a surprise. The killing occurred at Dumont, N. J., on the morning of August 1, 1921, when the victim being Adolphe Meyers. It was one of the most sensational tragedies that has ever taken place in the Erie Hotel.

Local Briefs. H. George Fost, the murderer of Laura Day, was arraigned in police court yesterday afternoon, but his case was continued until October 11. Among the 209 jurors who were drawn for the September term of the district court. These men will report for duty on Tuesday, October 31, and serve three weeks.

Some Excellent Shooting. Yesterday the regular weekly shoot of the Omaha Gun Club was held at the grounds across the river. Live birds were used and some very nice work was done, especially by Smead, who came out of it with a clean score, and Dickey, from whose gun the only one was added, who was a daily feature. The daily purses will be \$1,000.

St. Louis, Mo., Oct. 6.—(Special Telegram to The Bee.)—There will be a 50-yard race on Saturday at Indianapolis, Neb. between Chris Van Deburg of this place and Johnny Kussel of Indiana. Also a 100-yard race between James Kyle of McCook, and Fred Johnson of Orleans. \$100 and \$50 purses. All sprinters wanting a race can get action on that day by being present.

GETTING SOME MORE FACTS

Councilman Lowry's Committee Resumes Its Investigation of Architect Beindorff.

SOME TESTIMONY TAKEN LAST NIGHT

City Engineer Rosewater, Contractor Coats and the Architect, Talk About the Erection of the City Hall—What Was Learned.

The members of the investigating committee of the city council got together again last night to continue their investigation into the alleged blunders of Architect Beindorff in his connection with the city hall. For some reason only a few spectators kept company and heard the evidence.

Regarding the height of the tower, Mr. Rosewater was present when the measurement was made. He had not seen the plans, but he was sure that the construction was satisfactory with them. As far as the elevators and their speed were concerned, in the absence of the detailed drawings he could not say what was wrong. In the basement the machinery looked crowded, but he thought there might have been reasons for such crowding.

Contractor Coats testified that he was always furnished with full-sized drawings and complete plans from Architect Beindorff. He had never found any defects in the plans and he was sure that the construction was satisfactory with them. As far as the elevators and their speed were concerned, in the absence of the detailed drawings he could not say what was wrong.

City Attorney Connell said that he was prepared to show up some defects when the legal representative of the city was given an opportunity to do so. He remarked that he had a list of defects for his own use, which he could produce when he put his witnesses upon the stand. He claimed that he had the right to put Mr. Beindorff on the stand and resume the examination where it was dropped on that eventful night when the pipe was cut.

At the conclusion of Mayor Bonis' speech, which was heartily applauded, the orchestra furnished another selection. The Arion and Concordia singing societies sang after which Mr. Jacob Hauke, who kept the audience entertained in an excellent fashion, introduced the speaker. He said that the German nation in America had no reason to stand back and make way for any other nation. He said that the history of their adopted land, and would find written there in letters of gold the deeds of their ancestors.
