Mrs. P. B. McCletlan's Strange Disappearance Explained After Her Death-Book Island Officials Expect No Further Trouble.

LINCOLN, Neb., Oct. 7 .- | Special to THE BEE. |- The reporter who visited Judge Lansing's court this morning, if of a romautic turn of mind, would have found the material for a romantic story that would eclipse anything ever attempted by Mary Jane Holmes or Mrs. E. D. E. N. Southworth. This material for a story of the modern crotic school was unearthed in a case in which the attorney. for Orin F. Sutton made application in behalf of his client for testamentary letters on the estate of his wife. Winnie A. Sutton. now deceased. Mrs. Sutton was in her girlbood days a resident of Lincoln and four years ago she was married in this city to a young man named F. B. McClellan Previous to her marriage she had been employed in the millinery store of the Thornburg sisters, who are still in the same business in this city. Mr. and Mrs. McClellan went to housekeeping at 118 North Fourteenth street, and, as far as anybody knew, lived happily together. After five months of wedged life Mrs. McCletian disappeared and all efforts to find her failed. From the developments in the county court today it is learned that when she left her home in this city she went to Kansas City, where she assumed the name of Lillie McCiain, and worked in a number of families as a domestic. After she had lived in Kansas City about a year she met and married Mr. Sutton, and with him went to St. Louis, where they made their home until she died. A little girl was the fruit of the second marriage. On her death bed Mrs. Sutton requested

her husband to inform her uncle, Mr. Jerome McLain, of her death. Mr. McLain lived in Lincoin but the anabuncement of her death never reached him. Sutton visited Lincoln a few weeks ago and remerbering that his wife had told him that she had once worked for the Thornburg sisters, he visited them and there learned the whole story. He also learned that his wife's father had died and left her the neat little sum of \$300 on de-posit in a bank at Bennett, in this county. It is for the purpose of securing this money for his little cauchter that Mr. Sutton today applied for letters testamentary. As Mc-Ciellan still lives in this county it is hardly probable that Sutton will get the money without a legal contest.

Safely Across Disputed Streets. General satisfaction is expressed in this city over the satisfactory settlement of the questions at issue between the Rock Island and the Lincoln Street Railway company, which resulted in the crossing of Vine and R streets last night. At 4 o'clock this after-noon the Rock Island had three tracks across both streets, and by tomorrow the line will be extended to O street, where the work on the new passenger depot is being pushed as rapidly as possible. It is not probable that O street will be crossed at present. The Rock Island, in consideration of the agreement of the street railway people to with-draw their injunction, paid to the latter a sum of money sufficient to cover the neces-sery expense in cutting its tracks, etc. Work on the grade south from the city is progress-ing favorably, the present fine weather being all that could be desired by the most exacting of contractors.

Mixed Politics with His Religion. The disadvantage that sometimes attends the mixing of politics with religion is illustrated by a case filed in the supreme court this forencen. It comes from Hitchcock county and is entitled John Piper and J. B. Howard against William Woolman. When the case commenced Woolman was the paster of the Congregational church at Palisade in Hitchcock county. He was also sade in Hitchcock county. He was also elected county judge of that county in the fall of 1830. This fact seemed to cause dissatisfaction among some of the brethren, who held to the orthodox belief in politics as well as in religion, for they were completions and democrats will were republicans and democrats, while their pastor was a member of the independent party. At any rate bad blood was engendered and finally specific charges were filed against the reverend judge. He was charged by the plaintiffs in the present suit, who at that time officiated as the elders of the courch, with having repeatedly and persistently uttered statements that were contrary to the truth, with giving way to violent and uncontrollable temper and with defaming the good name of mem bers of the church and subjecting the society to public reproach. Brother Woolman at once resigned his pastorate and sued Elders Piper and Howard for damages in the amount of \$5,000. The jury gave him \$200 and now they bring the matter to the atten-

Lincoln's National Banks. The published reports of the national banks doing business in the city of Liacoin for the quarter ending September 30 furnish several very interesting facts which illustrate the prosperity of the Capital City. There are five of these national banks. Their combined capital is \$1,250,000, while the surplu-in the aggregate amounts to \$141,000. The most interesting feature of the reports is the excellent showing made in regard to the deposits. There are on deposit in these five national backs \$2,472,085.11. These funds represent the deposits of the people of Lincoln and immediate vicinity and do not include the deposits of na-tional and state banks which are held here for the convenience of the retail merchants of the hundreds of towns that are naturally tributary to Lincoln. This class of deposits amount to \$1,211,542.79, thus making the total amount of money on deposit in Lincola banks \$1,683,627.00. The loans and discounts of the combined banks amount to \$3,564,-759.36. It may be berse in mind that in the above figures the reports of three savings banks and a number of private banks are not included. The deposits in the savings banks

Shortly after 4 o'clock this morning the fire slarm called the department to 1831 South Eighth street, where three cottages were discovered to be in flames. One of the buildings was unoccupied, but the other two wers occupied by the families of J. N. Reupert and Noah Sheiley. The occupants were able to save a large pertion of their housebold effects. The flames spread very ranidly and as the cottages were located at a long distance from either of the engine houses the department was unable to do anything more than protect adjacent buildings when it arrived. George Evans, a cook employed in a botel at Omaha, came to this city yesterday in search of a runaway wife. She left his bed and board several weeks ago, it seems, but he got no trace of her whereabouts until a day or so ago. He had no difficulty in finding her here, and she was arrested between the hours of 1 and 2 o'clock this morning occupying a room in company with a white man named George Chase. At the request of Evans the weman and her companion were taken to the police station and locked up. Mrs. Evans is an octoroon and might easily pass for a white woman if the light were not too strong. Chase is a cook at Lindsey's restaurant in this city.

One part of Mrs. Harrison's treatment the past few days which is thought to have a soothing and restful effect is massage with oil, a not infrequent and generally successful method of bringing back the strength to an enfeebled constitution. It is especially useful where the nervous symptoms are as manifest as in Mrs. Harrison's case. This evenlog's Star says: "Mrs. Russell Harrison and her golden-haired little Marthena made a pretty picture at the white house door this morning, the former starting down town and the paby standing on the threshold waiving her a laughing good bye."

Great Activity Displayed in Trade for the First Week in October.

WESTERN BUSINESS EXCEEDINGLY GOOD

Textile Industries Were Never More Prosperous Than at Present-Bradstreet's Beview of Wall Street-Returns from the Clearing House.

New York, Oct. 7.-R. G. Dun & Co., in their Weekly Review of Trade, says: The first week of October shows more activity on the near approach of the presidential election. Business is distinctly better at the south on account of the improvement in the price of cotton, more active at the west with improved crop prospects and only slightly retarded at the east. As expected, the reaction from the extreme low price of cotton nelps business at the south. In general, speculation has disturbed legitimate trade much less during the past quarter than is usual at this season, although the transac-

tions in cotton have been exceedingly heavy. Trade at Boston is somewhat narrower as the election approaches. Cotton goods are decidedly firm and wool steady in price, with holders confident. At Philadelphia the trade in tobacco is

good and steady in chemicals. Business is brighter at Baltimore. At Pittsburg manufactured iron is quite active and in large demand at well supported prices, while business in glass is fair, but a strike of coal miners embarrasses the Monon-

gahela trade. At Cincinnati trade in groceries is good while other trade is active and money growing somewhat stiff.

At Indianapolis there is a boom in manu facturing, and railroads find it exceedingly difficult to handle all the tonnage offered At Detroit manufacturing is decidedly

Chicago reports a large trade in merchan-dise and good collections, with bank clear-ings 14 per cent larger than a year ago, and a decided increase in real estate and lumber transactions. Receipts of cattle, hogs and sheep are sightly larger than a year ago, but receipts of flour, barley, cheese, hides and dressed beef are double last year's, a decrease being noted only in ribs, lard, wool

At St. Paul trade is materially greater and at Minneapolis very good and the output of flour 209,000 barrels against 194,000 last Business at St. Louis is more active than isual and collections prompt.

At Kausas City trade is steady; cattle re-ceipts heavy and collections fairly satisfac-Business Good at Omaha.

At Omaha business is good and at Denver business is improving.

Nearly all southern cities report better crade, though Little Rock crop prospects

are not encouraging. Business at Louisville is improving, with large sales of tobacco. At Nashville trace is fair and at Memphis trade is improving, and a decided improve-ment is noted at New Orleans, with better prices for cotton and very good collections.

The iron industry is doing well. Notwithstanding the resumption of work by many
establishments which were idle a long time
on account of strikes, the consumption of pig iron apparently exceeds the production, and the demand gives a decidedly stiffer tone to the market. The iron trade is still dis-

appointing, and rails very dull, but the de-mand for structural iron keeps the works busy and plates are surprisingly active. Perhaps the textile industries were never more prosperous than they are now, for while prices are remarkably low, the demand for goods is large and urgent, and the works are crowded with orders. Rubber goods works are busy.

Rubber goods works are busy.

It is not a satisfactory symptom that the speculation in cotton is enormous, sales at this city amounting to 1,230,000 baies last week, with an advance of one-half of 1 cent in price, yet exports of cotton are not large, and of all domestic produsts the value exported last week was only \$5,483,542, against \$9,768,989 for the same week last year. Considering the great increase in imports of merchandise, the state of foreign trade is hardly encouraging.

The business failures occurring throughout the country during the past seven days number 220, as compared with the totals of 208 last week. For the corresponding week of last year the figures were 270.

BRADSTREET'S REVIEW OF TRADE.

Prices Give Promise of Ruling Higher and Stronger in the Future. NEW YORK, Oct. 7 .- Bradstreet's Wall street review says; Speculative attention during the first week has been mainly absorbed by special movements, such as that in the stock of the New York & New England. The general tendency of prices has taken on the whole an upward direction and if the market has lacked spontaniety, it has certainly experienced a widening tendency, which, in the opinion of the street at large, should lead to better and more active conditions in the near future. The controlling feature of the situation seems to be the idea that the influences which have restricted speculation and depressed prices are passing away. Some attention is paid to the firmer tendency of money, but it is remarked that no laudable evidence is forthcoming of any squeeze in rates which should affect prices. On the other hand the lear of gold exports, which has weighed so heavily upon sp tive activity, is now practically out of the way and the question is openly discussed whether in an incomparatively short time the return of the flow will not set in from the return of the flow will not set in from Europe to this country. The fact that the corn crop is a much larger aggregate yield than has been hitherto indicated has also some influence, while it is believed that western railroads, together with the trunk line connections, are enjoying a traffic the volume of which comenjoying a traffic the volume of which com-pares favorably even with the exceptionally large freight movement of last autumn. The fact that the dissolution of the Western Traffic association promises to result in no violent competitive struggle or lowering of rates seems to have a reassuring effect, if it does not encourage the bullishness noticeable in connection with the granger stocks. Ob-servation of the market's action during the past fortnight would lead to the conclusion

Coroner's Jury is Listening to a Recital of Facts in the Case.

SHORT STORIES TOLD BY THE WITNESSES

Officer O'Donahue Recites How the Body Was Found-Dr. Summers Describes the Autopsy-Bartender Lally Tells of the Last Drink.

An inquest over the remains of Charles P. Miller was begun at 2 o'clock yesterday afternoon in the undertaking rooms of M. O. Maul. The jury men were John P. Thomas, Joe Withrow, Colonel Sharp, Gustave Anderson, Charles Menter and John P. Durler.

Officer O'Donahue proved a very intelligent witness and minutely described the finding of the body, its position and the surroundings. He was positive that the time of finding the body was not far from 5:30 in the afternoon. The condition of the weeds indicated that certainly not more than two per sons had entered the place where the body was found and they must have walked in single nie.

Dr. J. E. Summers bad made a post mortem examination. The ball had crossed the brain and lodged just behind the right eye; saw no powder marks on outside of face; the absence of powder marks aid not necessarily Indicate that the shot had been fired at a long range.

J. F. Lally of 307 North Tenth street, a bartender at 823 Dodge street, had seen Mr. Miller at the bar twice; he had \$10 with him: several drank with him; this was between and 10:30 on Monday evening; he was back again at 11 p. m. and wanted a drink, but said he had no money; never saw the men with him before; was under the impression that he was in earner in the evening with a woman, but was not sure; he was consider-ably intexicated on his first visit; on his second risit he appeared to have been sick.
Officer Kirk corroborated the testimony of

Officer o'Donahue.

Fred Griffith, a clerk for Mr. Miller in South Omana, was called to identify the name "P. C. Reilim," which was signed at the pawnbroker's and which is the reverso of Miller. He thought it did not look like Miller's writing; that the note found in Mr. Miller's pooket saying, "To whom it may concern: I have trouble in my head and cannot stand it any longer," was not in the writing of Mr. Miller, at least he did not think it was. Mr. Miller had frequently complained of trouble in his head, and had been doctoring for it with two physicians.

Ida Russell, 101 North Ninth street | Birdie Mann's', testified that she had seen Mr. Miller in the house twice early on Tuesday morning, but she refused to look at the body Officer O'Donahue. morning, but she refused to look at the body and when asked to describe the visitor to the house she gave a description which failed to house she gave a description which failed to taily in any particular with that of the dead man. She said she could identify the ring and watch chain which he wore, and when shown those worn by the dead man said that they were not the ones worn by her morning visitor. She had not seen anyone in the house that night who were a black straw hat. The inquest then adjourned until this morning at 9 o'clock.

Mexico Afflicted.

Et Paso, Tex., Oct. 7 .- Advices from the nterior of Mexico give particulars of a most desperate state of affairs at Totuca. The poorer classes are dying every day by hundrets from starvation and exposure, aug mented by an epidemic of typhoid fever.
