DUN'S REVIEW OF THE WEEK

Trade Indications Continue Favorable Throughout the Country.

CONTINUED INCREASE IN EXPORTS

All the Principal Cities Report a Good Business-Trade Active at Omaha-Wall Street for a Week-Clearing House Statements.

NEW YORK, Oct. 14 .- R. G. Dun & Co., in their weekly review of trade, say: Once more it must be said that trade indications are entirely favorable. Even the shrinkage in exports has ceased, an increase of \$1,500,-000 appeared here last week, while imports continue surprisingly large and foreign exchange decimes.

Boston reports active trade. At Philadelphia the iron market decidedly improves, western orders for coal cannot be filled, because the roads are blocked, and good orders for the spring are reported in dry goods, while the wool market continues active. Trade in jewelry is fair, and paints and oils are active.

At Baltimore the infrequency of southern failures is gratifying; collections are more Batisfactory.

Pittsburg reports a better market for big iron and a good demand for manufactured products with improving prospects in the glass business. Trade in boots and shoes and hats is satisfactory at Cincinnati.

At Cieveland rolled tron is in large demand, though pig iron is lower than ever in

The boot and shoe trade at Indianapolis reports increased sales.
At Fort Wayne sales of merchandise exceed last year, building is fair and manufacturing healthy.
At Decreit manufacturers are full of orders

and trace is good. Chicago again reports enermous increase in receipts, those of wheat, oats and barley having doubted, white receipts of corn are about fitteen times last year's; in wool a gain of 40 per cent is reported; in cattle and hogs 25 per cent, and some increase in flour, dressed boef, butter and cheese. Business was never more prosperous and eastern ship ments of merchandise are of enormous mag-

City and very good at Denver.
At Minneapolis nearly all branches show increase over last year, and the output of flour, 230,000 barrels, is the largest ever known in a week. At St. Paul an increased movement in grops is seen.

Omaha's Trade Active. At Omaha trade is very busy.

At Nashville trade is improving, but at Little Rock still dull, though in dry goods

At New Orleans business is better. Wheat is one-eighth of a cent stronger than a week ago, but corn is 1 cent lower. Oats half a cent, hogs 20 cents, and lard 75 cents per 100 pounds; cotton one-eighth of a cent lower, with sales of more than 1,100,000 bales for the week. Improved crop roports and heavy movement of products push prices downward. The iron output October 1 was 158,027 tons weekly, against 151,648 tons September 1. and it is especially encouraging that the stocks on hand decreased 85,234 tons during September. The demand for pig iron is improving and a general advance of about 50 cents per ton is reported for pig with liberal buying, while trade in plates is very unsatis-factory; in par iron somewhat better and structural mills are full of orders. Livelier buying continues in copper at 11% cents, and speculation moved tin upward, but lead is weak and unsettled at 4 cents.

Cotton and woolen mills are fully em-ployed, many of them cannot fill their orders, though running night and day. Sales of wool this year at the three chief markets have been 247,090,000 pounds against 194,000,000 to the same date last year. Strong buying is seen in cottons. Stocks have been stronger with an average advance of about \$1 per share but the chief net with hear hear. \$1 per share but the chief activity has been n industrial and New England stocks.
The business failures occuring throughout

the country during the last seven days num For the corresponding week last year the figures were 259.

REVIEW OF WALL STREET.

Recent Developments of an E couraging Nature-Rise in Securities General. NEW YORK, Oct. 14.—Bradstreet's Weekly Wall Street Review: The holiday spirit which prevalled during the early part of the week naturally resulted in considerable speculative duliness. It was, however, ncticeable that the inactivity created a very slight impression upon prices and that even the augmented firmness of the money market failed to give a bearish tendency to the market. The recumption of business on the Stock exchange on Thursday resulted in the appearance of

other factors, which have given an increased bullish tone to the proceedings. A renewal of foreign buying has been the most encour-nging of recent developments. The fact that a rise in South American and other depressed securities has taken place in London, accompanied by augmented speculative activity in that market, has already been noted with satisfaction here. Such manifestations not only indicate that the confidence which has been lacking in the European money markets is being regained, but that the accumulations of money due to the timidity of the investing classes are now seeking an outlet. Under such circumsearing an ontiel. Under such circumstances it can be confidently expected that American securities will regain favor and that the buying for foreign account in the last days of this week was not excessive. The movement has assumed dimensions which would fairly indicate the beginning of such a process. This tendency gave immediate sup-port to the market and encouraged the trading element to assume a more positively pullish attitude. The improvement in values was general, the regular railroad share list

creased buying by commission houses was accepted as a favorable indication. Cholera When properly treated as soon as the firs symptoms appear, cholera can nearly always be cured. The patient should go immediately to bed and remain as quiet as possible. Send for a physician, but while awaiting his arrival take Chamberiain's Colle, Cholera and Diarrhoga Remedy in double doses after each operation of the bowels more than natural. If there is severe pain or cramps take it in double doses every lifteen minutes until relieved. This remedy has been used with great success in seven epidemics of dysentery that were almost as severe and dangerous as cholera, and if used as directed a cure is almost certain. Every family should have a 50-cent bottle at hand ready for in-stant use. After the disease is under control enstor oil must be taken to cleanse the system. The case is the one wherein Peter Scalisi is charged with having taken the life of Tomasi di Paulo on August 28. The homicide occurred in the bottoms, in the vicinity of Poppleton avenue and Twentieth street. It was a Sunday murder, brought on by the question of who should pay for a can of beer. The parties had been carousing all day, and late in the afternoon more beer was ordered. Tomasi averred that he had paid for more than his share and then hot words followed, during which he was laid low by being struck with an iron rod, which was in

the hands of Scalisi.

A Cholera scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitoment in that vicinity. Investigation showed that the disease was not enologa but a violent dysendisease was not encioral but a violent dysen-tery, which is almost as severe and danger-ous as choiera. GOT WHAT THEY PAID FOR.

Plumber Duncan Tells About Poor Work for the Board of Education. "The Board of Education got just what it paid for," said R. D. Duncan in speaking of the Omaha View flush tanks that have been in use but a year and are leaking, and which he furnished. "There is no use for the Board of Education or anybody else to kick about poor material when they buy that kind of goods. It is no use to contract for cheap stuff und ex-pect to get the best that's made. The members of the board knew what they contracted for when they made the contract with me to put in those Omaha View flush tanks. The contract called for a No. copper flush tank and that's what they

got.
"I admit that these particular tanks were a little the poorest of the kind that I have ever put into a school building, but I couldn't that I have been a little to the little that I had been as much for them as I did for the same kind of tanks that I put into several other buildings, and which are all right. POLITICAL COMPLEXION OF THE PEOPLE

Nebraska and Kensas Contributed Largely to the Settlement of the Country and Republican Principles Are Favored-Washington News.

WASHINGTON BUREAU OF THE BEE,) 513 FOURTEENTH STREET, WASHINGTON, D. C., Oct. 14.

Delegate Harvey of Oklahoma will leave Washington for home tomorrow. He is not a candidate for re-election, but he says that the election will result in the choice of a republican. "The people in Oktahoma" he said today, "are mainly from Kansas and Nebraska, and their political affiliations are with the republican party. We are more interested in the material development of the territory than we are in polities. It may give you some idea of the value of the property in Oklahoma City to know that a corner lot upon which a national bank is to be located recently sold for \$10,000. Merely a Cheap Sensation. The secret service bureau today received a report from its agent at Council Bluffs, which does not speak of the reported circulation of counterfeit sliver dollars at Omaha. The chief of the secret service therefore does not believe there is any truth in the story. The agent writes that there was an attempt to create a sensation in Omaha over some reported coun-terfeit 5 cent pieces but he saw one of those pieces at a bank in Council Bluffs and it was which had been tarnished by being in storage

The secret service bureau yesterday an-nounced that a new counterfelt \$5 silver certificate had been put in circulation at Chi-cago. This is the first attempt to counterfeit a certificate of the 1891 series and is so poorly done that the chief of the secret service is quite sure that it is the work of an amateur. Information was re-ceived today that the secret service agents are on the track of the two men who been isslung these counterfeits and who may be the counterfeiters.

Rapid Development of the West. Superintendent Porter issued, under date of October S, a report showing the state of manufactures in Kansas City in 1890. He subtracts from the figures reported by his special agents those relating to industries not enumerated in 1881 and the comparison then made shows the following percentages of in-crease in ten :years Number of establish-ments reported, 494.64; capital invested, 482.61; number of hands employed, 434.42; wages paid, 532.94; cost of materials used,

wages paid, 522.94; cost of materials used, 324.25; value of product at works, 376.85; population of city, 137.91; assessed valuation of city, 672.84; decrease of municipal debt, loss sinking fand, 47.72.

A striking feature of these returns, says the report, is the satisfactory increase in the number of establishments reported. Still more gratifying is the increase during the decade in the number of hands employed and lecade in the number of hands employed and the amount of wages paid; the wages have increased not only actually but relatively, the average wages per hand increasing from \$558 in 1880 to \$650 in 1890 or 16.49 per cent Part of this increase is undoubtedly due to the fact that in many industries relatively more men were employed in 1890 and fewer children; then the percentage of increase in the number of women employed has been less in many industries than in the number of adult males, and also to the fact that in ten years many branches of industry have improved the grades of their products and for this reason require more skilled and higher paid employes. After making all possible allowance for these changes for the more thorough enumeration of 1890, and for the advance in quantity of manufactured product, there is a decided relative increase in the amount paid in wages between 1880 and 1890,

PROOF FROM THE PLAINS.

Story of a Government Scout and Interpreter.

He Tells His Experience With Kickapoo Sagwa.

A Remedy Known To The Indians For Years. HIGHLY PRIZED BY THEM.

Many of our readers in the East will re-member Frank D. Yates, whose exploits on the frontier have given him a national repu-tation. tation.

The testimony of such a man who has lived among the restimentor so long is incontravertable evidence of the absolute genuiness of this remiey, and its repute among that race whose noble health—whatever may have been their faults—has always been famous.

CAPT. FRANK D. YATES. His endorsement of it is still further proof

of its effectiveness. Capt. Yates writes as follows:—

GORDON, NEBRASKA, July 25.

I take great pleasure in recommending the Kickapoo Remedies, and have known of them among the ladians, as I have lived on the extreme Western frontier for the past 30 years, and am at present a Sioux Indian interpreter for the government.

My personal experience with Sagwa.—which in the indian tongue signifies "The Best"—has been considerable, but one of the most wonderful effects from personal knowledge in my own case was the curing of Chronic Catarrh with which I became afflicted, owing to the great altitude of the county in which I had been living.

It did not at first occur to me to take Kickapoo Indian Sagwa for this trouble; and it was not until I had visited the Hot Springs, and failed to obtain relist, and the disease bad become so very alarming that I was afraid it would get the jest of me and develop into consumption that I concluded to take Sagwa. I got one bottle of it and a bottle of the Indian oil. The effect was so marked that I immediately ordered twelve bottles of each, and now bless the day that the thought occurred to me, for I am entirely cured of that most disagreeable and distressing of all diseases, entarch.

I am satisfied my catarrh was cured owing to the perfect manner in which "Sagwa" purifies the blood; and I claim that Sagwa taken in connection with Indian oil, will positively cure the worst cases of entarrh ever known; and so far as the use of Kickapoo Indian Remedies as general family medicines are concerned, there is notking on earth which can equal them.

An Indian would almost as soon be without his gun and blanket as to be without a supply of these remedies.

Men's Suits at

We will place these suits on sale

Thursday, Friday, Saturday.

We bought these garments at a bargain and to sell for more money, but as the occasion offers itself in the shape of a mild season, in order to dispose of them quickly, we offer them at this price. They are on display in our west window. They come in 4 styles and 18 different patterns; the cloth is new, heavy weight, in dark effects and just manufactured.

These suits are not made by Sweaters nor by the four fine concerns, located on Hester Street and the slums of New York and Boston, whose entire product is claimed to be confined to one concern in this state, but are strictly good, clean goods and are garments that no one hesitates to
