Stand Monday Morning.

HOW THE DEFENSE IS REGARDED

Weak Features of the Case as Reviewed i the Presence of a Bee Representative-Will Be Improved by the Prisoner's Story.

LINCOLN, Neb., Oct. 15.-[Special to THE BEE.]-Considerable progress has been made in the Irvine trial. The state rested its case yesterday afternoon, and the defense was well along today, when an adjournment was taken until Monday morning. Mr. Irvine will be placed on the stand when court convenes Monday morning, and his testimony promises to be sensational, although his story has already been outlined to the jury. In putting Mr. Irvine on the stand in his own behalf, the defense will act upon a precedent well established in the Yocum trial at Hastings last February. The fact to be established by Irvine's testimony is not whether Mrs. Irvine had committed adultery with C. E. Montgomery, but whether her husband believed that she had. After Irvine's testimony is in will come the testimony of the experts on insanity. The will follow the state's rebuttal.

One of the features of the trial next week will be the presence of Irvine's little daughtor Florence in the court room.

One of the most noted criminal lawyers in Nebraska said this afternoon to a representative of THE BEE that in his opinion the defense has so far laid a very weak foundation for the defense of mania transitoria which they propose to develop and establish next Even by the witnesses put on the by the defense the state has established the fact that Irvine was not so com pletely under a mental cloud as to prevent him from making his trip to Lincoln, going to the hotel, asking for a room, checking his baggage, ordering a carriage, proceeding to a friend's house in a distant part of the city, visiting his former home in Lincoln, and even recognizing a friend an instant after the shooting and in the same instant informing the bystanders whom he was, where he lived and why he did the sheeting, and that talked rationally with a clergyman as to the morality of his act two days after. The leading authorities on insanity, stated the attorney referred to, all agree that a person afflicted with mania transitoria acts atirely without a motive and that when under the strange influence of the malady is ikely to attack the first person that he en-counters. To this extent the attorney becounters. To this extent the action present lieved that Irvine's defense up to the present time is weak; but he added that it must of the astronger as foon as Irvine necessity become stronger as foon as Irvine hunself took the stand, for then the jury would be able to see just how the wife's story of her own infidelity would affect his

# Today's Proceedings.

The first witness this morning was Mrs. C. C. Upham, who, with her husband whe tostified yesterday, was an eye witness of the traredy. She knew Mr. Irvine in Salt Lake City. She had heard the first shot and on looking up as a bring in the attitude looking up saw Irvine in the attitude of firing at Montgomery. She dida't recognize irvine at first. His eyes were blank and staring and his face was the whitest she ever saw on a human being. She thought at the time that irvine was insane. He scomed like a man in a trance. On cross-examina-tion she testified that she had nover seen a man in a trance, but used the expression to convey her idea of irvine's condition.

Investigation. FULL TEXT OF THE BOARD'S FINDINGS

Somebody Has Been Remiss and Blame is Attached to the Superintendent, Steward and Farm Boss-Details of the Decision.

LINCOLN, Neb., Oct. 15 .- |Special Tele. gram to THE BEE. ]-The State Board of Public Lands and Buildings finished its investigation of the charges of mismanagement of the Lincoln hospital for the insane today and a copy of the findings of the board was filed in the executive office this afternoon. As was foreshadowed last night the board recommends that the whole matter be referred to the grand jury for a searching investigation.

The findings of the board are as follows: To Hox. JAMES E. BOYD, Governor of the State of Nebraska, Lincoln, Neb.: Sir-We have the honor to submit for your considera-tion a report of our findings, as well as the testimony taken, in the matter of the in-vestigation of alleged irregularities in the management of the hospital for the insane at Lincoin, Neb. The investigation was begun on the Sth day of October, 1892, and was concluded upon the 15th day of October, 1892. As you will observe, the fullest latitude was given all witnesses and counsel. Much of the testimony is hearsay and irrelevant, but as we were seeking light upon the several subjects under consideration, we deemed it best that no check or re straint be placed upon the testimony offered.

Clay County Old Settlers.

### Findings of Fact.

First-We find that on the 7th day of Desember, 1886, and to the 23d day of February, 1892, Dr. William M. Knapp was the perintendent of said insane hospital and that turing all of said time J. D. Lauer was the steward; that among other things it is duty of the seperintendent to employ all attendants, servants and such other persons as he deems necessary for the efficient manage. ment of the hospital and has entire control of the medical, moral and dictic treatment of the patients and to see that the several officers of the institution faithfully discharge

the duties respectively assigned to them. Second-We find that it is the duty of the steward, under the direction of the superin endent, but not otherwise, to make all purchases of supplies for the hospital, to keep the accounts, make engagements with, pay and discharge employes and personally superintend the farm, garden, grounds, stock, etc., etc. Third-That the supplies of all kinds are

purchased so far as practicable under the contract system; that it is to the lowest bid-der, under the direction of the steward, and that when money is drawn in payment of supplies so furnished vouchers are first signed by the party furnishing the supplies in triplicate, one of which goes to the auditor, one to the Board of Public Lands and Buildings and one to the superintendent of the hospital. On the voucher that comes to the Board of Public Lands and Buildings the superintendent makes a certificate in the following form: I certify that the within account is just and cor rect, and that it is a proper and necessary ex-pense and has not been paid. This is signed by the superintendent, and this is the bill on which the board is required to act on the payment of bills,

## Farm Boss Hubbard's Misdeeds,

Fourth-We find that when Dr. Knapp entered upon the discharge of his duties as O. Hubbard, and that said Hubbard con-tinued in his employ as farm boss and butcher so long as Dr. Knapp continued in charge of said hospital, and for some time thereafter, under the administration of Dr. Bowman, and it was the habit and custom of said Hubbard, with the knowledge of the superintendent and steward, to purchase cattle for the use of the hespital and to slaughter the same; that it was his practice in some instances to induce the per

Fifth-We find that the amount of coa irchased at the hospital during the 1891 and up to the month of May, 1892, has been in excess of the actual amount used and that there has been mismanagement on the part of the officers of the hospital regarding the coal supply. The bullet cut through the tissues of the brain and came H. Berg, Warren Child, Lauro Fastrop, Peter Johnson, James Jenson, Edward D. Mills, Niels P. Nelson, and William J. out at a point near the temple. He was taken to the prison hospital, and at 9 o'clock tonight Dr. Pebbles, the official surgeon, says he has a chance of recovery. He is perfeetly conscious. Evans was received at the penitentiary from Omaha, he having been sent up for burglary on a"ten year sentence,

He was received at the penitentiary in July, 1888, and was then 23 years old. After he was removed to the hospital it was discovered that he had worn a clumsily con-structed suit of armor under his clothing, He had made this armor from the thin strips of iron of which the bottoms of the cell bunks are constructed. With bits of rope and pieces of twine he had woven these strips of iron together until he had made a broad belt extending from his shoulders to his hips and completely encircling his body. He failed to make any provision for the pro-tection of his head and ne is likely to forfeit his life to his neglect.
