INAUGURATING THE PESTIVITIES.

Brilliant Reception and Ball at the Audi

CHICAGO, Itl., Oct. 19,-A glorious autumn night, a town filled with people, a city brilliant with light, a metropolis alive with the impulse of an anniversary which none now living will ever see again. Such was Chicago tonight when the curtain was lifted between the future and the past, Backward 400 years, the vista held within locus the coming of Commbus to western ipheres. Close in the foreground of the future lay the dedication of the Columbian exhibition to the cause of progress among the nations of the earth. The inaugural of the one and the commemoration of the other was marked tonight by a brilliant reception and bail in the great hall of the Auditorium. Four Thousand Invited Guests.

In behalf of other patrons and of the patronesses of the ball, Major General Miles, Mayor Washburne, N. K. Fairbank, George M. Pullman and Marshall Field had invited 4,000 prominent citizens of various states to participate in a reception tendered to the president, vice president and ex-presidents of the United States, the representatives of foreign governments, the governors of the states and territories and other distinguished guests. While in its inception and conduct the function of to-night was unofficial, it opened the baptismal ubilation of the World's fair of 1892-3. was that there were brilliant scenes in and about the Auditorium building early this

Thousands of electric lamps glowed brightly from the facade of the towering buildings on the lake front. Along the broad pavements of Michigan avenue immense crowds of people were content to stand closely packed for hours viewing the notable folks as they arrived to attend the

About 9 o'clock the runble and flash o about 9 o'clock the runble and hash o'clock the runble. The lady managers and parenesses of the affair were coming to their rendezvous. The generally invited guests followed in rapid succession. Once within the great Auditorium the first impression was that resulting from a flood of light diffused, almost dazzling to the un accustomed eyes, and yet it was the soft, aggregated glowing of incandescent lamps myriads of them. There seemed no stress of light in any quarter of the great hollow, so equally were the lamps distributed. The riads of them. There seemed no stress of great steel fire curtain of the stage had been lifted and the stage flooring had been ex-tended over the entire orenestra pit. Behind the proscenium arch the lower tier of boxes had been extended in a circle around the rear of the stage.

Above this temporary circle of boxes at its center were four other boxes, which were occupied by an orchestra. A silken banner of the Spanish royalty was suspended directly over the center of spended directly over the center of the age. It had the cross in its middle and around that were the intitals and the coat of arms of Ferdinand and Isabella.
On either side and Immediately over the

boxes were ten banners in bunting, each containing the initials of the king and queen of Spain in the time of Columbus. The panel in front of the organ and between the boxes and the proscenium arch was decorated with a large United States shield, surmounted by a stand of colors, the stars and stripes in the middle and flanked on either side by the flags of all the American republics. The corresponding Spain, also surmounted by the Spanish colors. In this were shown the flags of every nation in the old world, the colors of Spain and Italy being given preference in arrange-

Of flowers there were none among the decorations. From away down in Alabama wilds smilax had been brought—a car load in all—to festoon the faces of the bal-cony and gallery. Smilax was hung in graceful festoons in front of all the boxes and along the balconies and gallery front. This was caught up with alter nate resettes of red and vellow ripbon and extended around the boxes on the stage.
Above the paners at either side of the proscentum arch were banks of palms and ferns. On the center section of the main balcony, entirely hidden from the view of the guests by ferns and other potted plants, Sousa's Marine band was at 9 o'clock in waiting to furnish the music for the grand march. And so the great hall greated the coming throngs; so did its brightness and its tasteful decorations please the eye and satisfy the taste.

CINCINNATI'S SCHOOL CHILDREN.

Twenty Thousand of Them Parade in Honor of Columbus. CINCINNATI, O., Oct. 19.-The parade of the boys of the public schools late this afternoon was one of the most inspiring spectacles Cincinnati has witnessed in many a day. The numbers were almost startling. The discipline was most satisfactory, for while every boy was practically free from restraint, thoorder observed in the parade was botter than that in ordinary processions of men. The youngsters were all provided with uniform caps, and each one carried a small American flag. The effect was electrical. Cheer after cheer greeted the little patriots, and their answering was hearty and strong Even tears were accorded them as here and there some veteran saw the stordy stride and the proud bearing of those "crown jewels of the republic," as they carried with honor the flag under which he had fought. The streets were lined with speciators, and now and then they pressed so close on the line as to obscure the view of everything except the flags that floated above their heads. Abundant music was provided. No accidents happened and the 20,000 boys have the satisfaction of having given one of the most successful parades ver seen in Cincinnati.

Railroads Having Much Trouble in Moving The Crowds of Visitors.

CHICAGO, Ill., Oct. 19 .- The railroads today were nearly swamped in the tremendous rush of people from all over the country. The extra trains were counted only in doz ens. From every passenger depot in Chicago people poured in flocks, and for a time after the arrival of every train the sidewalks in the vicinity of the depots were impassable. Many of the trains arriving were much longer than usual extra cars having been added to them to accommodate the passengers, and every sent in all of them was occupied. The number arriving in the early part of the day was nothing compared to this even ing, and what it will be for the next three days to come. The sale of tickets at reduced raies for the dedicatory exercises did not begin until today, and it was only the people at points quite close to the city who could avail themselves of themse as to reach the city in the earlier portion of the day. From all points near and far, however, orders were pouring in on the operating departments of the different roads for extra equipment, the sale of tickets being far in excess of anticipation, or of the prepara-tions made to accommodate the people, When it was announced that the public would not be admitted to the grounds at any time during the dedicatory period, people at distant points threatened not to go to Chicago at all and the agents of many of the roads concluded that it would be unnecessary for them to make any special preparations. When it was announced later, however, that the public would be admitted to the grounds Saturday, they evidently changed their minds and determined to come anyway. Now the roads are being rushed as they probably never were before—since the inven-

Attempted Suicide.

John Fitzgerald, a laborer, residing at Thirty-fourth and J streets, conceived the dea yesterday that death would be a welcome reliever of his earthly troubles. He took poison in the morning, and for awhile it looked very much as if he would join the throng over the great river. A physician jerked him from the jaws of death into the land of the living, Fitzgerald was on a spree and his suicidal intention was probably due to that. His wife proposes to prose cute those who have been selling him liquor.

J. P. Higgins of Lincoln was on the market yesterday with two loads of Hereford cattle, the finest that have been seen here this year. Her Tilt with Time, Nasuville, Tenn., Oct. 19.—Owing to the rain this morning the track was a trifle heavy. About 5 p. m. Nancy Hanks appeared for her tilt against time, and as the sun had fallen below the surrounding hills the atmosphere was raw and damp. Under the conditions good judges placed 2:06 as the best that could be expected, but once more the little mare was equal to an unexpected performance. Then for the first time Doole gave her free rein and covering third quarter in 304 seconds, she at the pole in 1:3214. Don't Worry.

If some good democratic friend tells you that the country'll go to the d- if Harrison's reelected-don't worry about it. If some protected republican smites his breast and in an "I know it all" voice says, "I'll leave the country if Cleveland's elected"- let him go, but don't worry about it. If an alliance orator assures you that "General Weaver's got a "Lease" of the White House for the next four years"-don't worry about it. If your prohibition friend tells you he's done as much to "put down (?) liquor" as any man on earth--may be he has, but don't worry about it. If your coal man swears coal will go to fifteen dollars a ton-let him swear--(it'll save you the trouble) -- and don't worry about it. If your last year's overcoat that you packed away so carefully looks a little tired when you take it out this year--don't worry about--try a new one.
