mission should attract a very large audience. not so much on account of the very excellent program to be given, but because the mission s one of the deserving charities of the city. It is a practical charity which dominates the control of the mission and for years has been in active operation. The ladies who are in-terested in the success of this concert are in the main teachers in the industrial school, who have given one day in the week to the teaching of the poor children of the neigh borhood of the mission, how to sew and perform other household duties, so as to make them more beipful to their parents and place them in a way of carning an honest livelihood. The program, which is as follows, shows the excellence of the entertainment: their ladies and friends.

kee Writes an Interesting Letter. George H. Heatford, general passenger gent of the Chicago, Mitwaukee & St. Paul, who has been making a fight single-handed and alone against the Chicago association of ticket brokers, has issued a circular letter to all regulraly authorized ticket agents of railway companies which is mighty interesting reading at this time. In May last eleven Chicago ticket brokers were indicted by the grand jury for seiling tickets without a license from a railway company, and imme-diately thereafter a "boycott" was declared against the Chicago, Milwaukee & St. Paul on the ground that the brokers had sufficient evidence to warrant the belief that the Mil-waukee was responsible for the prosecution. While Mr. Heafford neither affirms nor dedenies these assertions, he is led to make public some things regarding the earnings of the company in view of the fact that fifty-one brokers have combined to "do" the Milwaukee if possible, diverting business to other channels and hitting the road whenever possible, "The united efforts of all the Chicago ticket

brokers have thus far been without avail in destroying our revenue," says Mr. Heafford, "Our passenger earnings for the four months ending September 30, 1892, show the hand-some increase of \$134,607.17 over the cor-responding period of last year. Nearly all responding period of last year. Rearly all of this is on long haul competitive traffic, for most of which we are indebted to our thousands of friends—the regu-iarly authorized ticket agents in all parts of the country—and to regular patrons who know and appre-ciate the merits of our through car lines, and who are not patrons of illegiti-mate ticket offices. The so-called "boycot?" of the ticket brokers has been a positive benefit to us. Americans, the greatest travelers on earth, recoil at the use of the term, and the majority of them will not barter their independence of thought and action for the slivery inducements offered by the mid-diemen, who prey alike upon the public and the railways." Then he pleasantly thanks the rankays. Then he pleasantly thanks the 7,000 coupon ticket agents who have quietly ignored the appeal of the Chicago papers to aid in the "boycott" of the Mil-waukee, and who have materially assisted the road in increasing its business so handsomely.

The trip was a great success. The train traveled over 1,800 miles and stopped at nearly fifty towns. The gentlemen who accompanied the train estimate that not less than 100,000 people visited the train during the tour and meny more saw it as it passed through the thickly populated country. At

every town where the train stopped the local papers gave columns to a description of the products on exhibition. People who had interests in Nebraska were fairly carried away with the appearance of the train, and thousands who visited "Nebrasks on Wheels" will not rest satisfied un-til they have visited the real and great commonwealth from which the train went out as a messenger.
