OMAHA SHOULD CONTROL IT

President Cable's Pertinent Suggestion Concerning the Union Depot.

IT MAY CHANGE THE WHOLE ASPECT

He Thinks the Rock Island and Other Roads Are Entitled to Consideration -Some Are Lights Shut Off-Routine Council Work.

And now the Rock Island Railroad company has taken a hand in the union depot controversy. Under date of October 19, President Cable of that company wrote Mayor Bemis upon the subject. At the meeting last night the mayor submitted the letter to the council. The letter reads as

"My attention has been called to the report of the special committee appointed by your council on the the subject of a union depot in

your city. "I, perhaps, may be pardoned for suggesting that, in view of past occurrences in connection with this subject, the omission from the proposed adjustment of all reference to or reservation of any control by the council of the matter of admitting other companies

into this depot, seems short sighted.
"The city of Omana by this plan is granting valuable privileges and conceding important rights, and this grant and concession are to be embodied in a contract between the city and the companies named in this report. Should the contract be finally executed, then, like every other contract, it sneaks for fiself; the city will have entered into it prosumptively, only after insisting upon right it deserved to assert. Thereafter, should your city believe it
to its inunicipal interest, or the advantage
and convenience of the citizens and traveling
public, that other roads should be admitted
into the depot, you can only beglike any outides the state of a company as it should side party, instead of command, as it should be in your power to do. Other cities retain a voice in a means of enforcing through the exercise of municipal powers, the admission of other companies, when they grant privileges relating to union depots.

Rock Island Wants Protection.

"The company I represent operates an important line to and through your city, making it one of the chief points of commerce between the lakes and the mountains. I can that the trains of this company should be ones that should not use this depot.

"It is true that by a contract made between this company and the Union Pacific

company the latter undertakes to secure to this company the fatter undertakes to secure to passenger station, upon terms as favor-able as those which shall be accorded to any other company, but you will sufficiently recall recent history to realize that this is not a very practical right, and probably, only to be enjoyed, like others in the same contract, under the mandate of a court. The legality of the contract is dealed by that company, its performance refused, and, in fact, much of the trouble your city has experienced in having the depot pushed to completion grow out o the fact that naturally the municipality and the people were not in sympathy with the position of the Union Pacific company, touching the performance of that contract.

If it be said that it is to the interest of the Union Pacific company to admit othe companies, there are several answers. It the first place, the terms that would make it to the interest of that company in the opinion of its officers, might and probably would not be satisfactory to this company, and should there be a disagreement, the courts would have to decide. In the next place, the events of the past year show that the affairs of that company are not always administered with reference to its best interests. It is to the interest of no one, neither corporation nor individuals, to ignore solemn contracts, and yet that has been done by the Union Pacific company. It is to the interest of no one to compel the building of two railways and two bridges, where one will serve equally as well. The courts of this country have said this was true, and yet the Union Pacific has sought to compel this very course. You cannot rely, therefore, that the company I represent will be admitted to the union depot, because it may be to the obvious interests of the Union Pacific company that

it should not be admitted. Omaha Should Reserve Control.

"Moreover, if there is any security in this, it is not rendered less so by the city of Omaha reserving in this solemn contract the cases of dispute or refusal to exercise authority in the premises. "I respectfully urge, therefore, that before

this report shall be adopted and its terms embodied in a contract, there shall be such addition made to it as shall retain in the hands of the council some potent and sufficient voice in this most vital and important matter. Such course would be consistent with what was done on the same subject in the original contract. If it was wise to retain this control then, why is it any less so now? Indeed, everything that has transpired since the original contract was drawn, emphasizes the necessity and wisdom of retaining in the municipal control this matter of the admission of other lines to the privileges of this union depot. The firm and strong hand of union depot. The firm and strong mand of the city of Omaha, available in the enforcement of such privilege, as it would be if this control is asserted and conceded in this proposed new contract, would always be a most persuasive factor in all controversies that shall arise. The interest of your city is that of the whole public. Its protection by a voice reserved to it in the practical workings of this contract would be most effective and should be guarded and preserved.

The communication was referred to the special committee, which now has the depot question under consideration. Shut Off Some Arc Lights.

The mayor had something to say regarding the location of arc lights. He couched his remarks in the following language:
"I return herewith, without my approval, resolution No. 65 of October 4, ordering an

are light at the intersection of Twenty-fifth and Chicago streets. This location is on the line between the Fourth and Eighth wards. "There are two reasons why I have not

approved this resolution.
"First—The Eighth ward was not alloted any arc lights when the allot ment was made by the council. Notwithstanding that fact the Eighth ward has ordered and has received eight are lights. The Fourth ward was allotted six lights and has ordered seven. Consequently, neither ward has any lights to its credit. In fact, not a single ward in the city has an are light to its credit. All have drawn their full quota and a total of twenty-four lights have been ordered in ex-

cess of the number agreed upon by the coun-cil at the beginning of the year. "Second—The condition of the lighting fund will not warrant any increase in the number of lights at this time; on the contrary, the closest economy is necessary dur ing the remainder of the year in order to avoid a large overlap. An estimate based on the September bills for lighting shows a deficiency of nearly \$5,650 in the lighting fund which must come out of the general fund. In view of the fact that the general fund will be drawn upon very largely to make up deficiencies in other directions it

seems inadvisable, at this time, to increase the deficiency in the lighting fund to an un-necessary extent." The veto was sustained by a unanimous

There were vetoes against locating are lights in the First and Sixth wards. The reasons were the same as those expressed in the former message. The vetoes were sus-

Same Little Things Looked After.

The mayer cominated O. A. Scott to be inspector on permanent sidewalks, taid by private individuals. The appointment was rejected by a vote of 8 to 7. It was then referred to the committee on sidewalks and

bridges.

The street communationer called attention to the fact that house movers are continually breaking down the cross walks. The council ordered presecutions in all such cases. Belie B. Wells served notice that she had

sustained personal injuries by fairing on a defective walk at Twentieth and Webster streets. Her attorney wrote that there was a lawsuit in sight.

John Sutter, the man whose torses feil into the well at Soventeenth and Center atreets, demanded the payment of \$500. He alloged that the well was a nursance, and if

It had not been he would not have lest his

The city engineer was authorized to fit up a blue print room in the city hall.

Mr. Steel's resolution, requesting the council, the engineer and the attorney, together with the candidates for the legislature and the taxpayers, to meet in the council chamber each Monday afternoon to discuss proposed charter amendments, was

The resolution authorizing the Board of Health to lay off one of the meat inspectors

Wants an Ordinance Doctored. The sealer of weights and measures wrote to the council, saying that he was of the opinion that the ordinance under which he operated should be amended. It should pro vide that he should have the power to reweigh loads of merchandise in transit; that approaches to wagon scales should be on a level with the street; that all weights and measures should be made to conform to the standard and abendate should be imposed on any person making false weights or measures; that the officer should have folice authority; that the officer should be salaried and the fees turned over to the

ty treasury. Mr. Specht moved that the vote by which Charley Inskeep was let out as an inspector be reconsidered. Before the motion secured a second. Mr. Steel said that Inskeep was drunk most of the time; that he spont whole days in bumming and campaigning, and then turned in a bill to the city, charging up full time. After that Mr. Specht's motion never

aid get a second.

Mr. Prince concluded that it was the propor time to find fault with Omaha's coat of arms. He remarked that he had observed that the council chamber decorator was making preparations to paint the picture of a sick Sioux quaw and a frontier horse thief on the wail behind the president's chair.

The president suggested to Mr. Prince that the coat of arms had been adopted and that

the sum of \$3 000 was ordered taken from the road and transferred to the street commissioner's fund.
The city attorney was instructed to draft

an ordinance to reduce the ileense of street stands from \$5 to \$2 per month. The \$19,031 received from Douglas county was ordered placed to the credit of the city road fund.

On the opening of Twenty-sixth street from the north line of Nelson's addition to Caldwell street, the appraisers reported \$6,400. The property owners stated that they would wait for payment until the city could levy a tax and collect the amount. The report was adopted.

Board of Health was passed. This ordin ance cartails the power of the board by pro hibiting the filling of wells in certain lacali ties.

AFFAIRS AT SOUTH OMAHA

Remarkable Activity Among the Various Local Packing Houses.

SOME DIFFICULTY IN SECURING MEN

October's Receipts at the Union Stock Yards Will Probably Be a Record Smasher in Many Respects-Some Proposed Improvements.

The packing season is getting fairly well along, and the packers are rushing matters at South Omana. The Cudahy Packing company is adding to its force each day, and slaughtering each animal it is possible to get hold of. At present 1,000 head of cattle per day are being killed, and this number will be slaughtered for an indefinite period. This is about the full capacity of the plant on cattle.

The hog department is a veritable bee hive of industry. The number of hogs slaughtered daily has been increased from 1,500 head to 2,500. This number will be increased to 4,000 head just as soon as the receipts pick up and it is possible to secure the porkers. Hog receipts continue light, but will increase within a very short time and then the ucmands of the packers can be supplied, and Cudany will run full capacity during the packing season on both cattle and hogs

also being run on an increased basis and there is no idleness. The butterine and pepsin works are going it full biast and turn-ing out large quantities of product. The other houses are entering upon the packing season with increased forces. Swift & Co. have largely increased their slaughterings, as have the Hammond company and the Onana Packing company. The increased capacity and better facilities of these houses completed during the summer enable a better handling of the growing business and the

The other departments at Cudativs pre-

meeting of the increased demand for pro-The laboring men of both Omaha and South Omaha are profiting by the enlargement and increased capacity of the packing plants. Labor that is seeking employment can readily find it. The great scarcity of unemployed men in South Omaha was commented upon vesterday by a gentleman at one of the packing houses, who said that his company found it difficult to secure a sufficient number of employes for the work in several departments. He attributes this to the fact that labor is generally employed there are but comparatively few idle men in the city.

October's Heavy Receipts. October is to be a record smasher in the history or the South Omaha Union stock yards. The papper month in the receipts of cattle was October, 1891, when 78,000 head were received. The receipts of cattle during the present month up to last night numbered 76,000 head or 2,000 less than was received during the entire month of one year ago. There are six more days left of this month, and at least 20,000 cattle will be received, which means that at least 17,000 more cattle will be re-ceived this month than during any month within the history of the yards. These figures are very gratifying to the friends of Omaha's great stock industry, but are not surprising to those familiar with the con-ditions and merited growth and prosperity of the market. Second place is rapidly slipping away from Kansas City and will soon proudly be claimed for Omaha.

The contracts for the important public im-provements will be awarded November 10 by the Union Stock Yards company. The contract for furnishing the material for putting in the improved switching facilities and interlocking plant will be awarded at that time. This improvement will cost \$35,000. The contract for furnishing the machinery for the new electric light plant, to cost \$35,-000, will also be let.

Monday evening an ordinance will be introduced in the council granting a franchise to the Union Stock Yards company for putting in an electric light plant. The ordi-nance will not meet with any opposition in the council

Mrs. Murphy's Death. Mrs. Eliza Murphy dled last evening at 6:30 o'clock at her home in the Troy block, on N street. The cause of Mrs. Murphy's death was asthma, from which she has been sufferer for many years. A severe cold which she contracted a few days ago hastened the end. Mrs. Murphy was 60 years of age and the mother of Matt. Thomas, James, John, Henry and Joseph Murphy, young entlemen who are well known and respected in business and social circles. The death of the mother is a distressing blow to her chil-dren, who were at her bedside until the last, The deceased was very well known in South Omaha and had a large circle of friends and acquaintances. The arrangements for the

funeral have not been announced. But ding Permits. Inspector Mayfield yesterday issued the ol lowing building permits:

J. W. Johnson, dwelling, Twenty-first and J streets \$ 1.500 and J streets
James Mason, cottage, Seventeenth and
Q streets
Joe Hop, addition to residence, Seventeenth and Mirroy streets.
T. Schroeder, four cottages, Twentyfourth and Brown streets.

Will Be Late but Interesting. The postponed celebration of Columbu day by the children of St. Agnes schools will be held this evening at Blum's hall The program which has been prepared is a long one and its rendition will be very inter-esting and instructive. The postponement of the celebration was due to the gathering of the Passionate fathers in this city on last Friday. Its delay will make the celebration none the less interesting and impressive.
