#### FRESH AIR FOR PUPILS,

An Experiment That Did Not Satisfy Mem-

ners of the School Board. There is an idea prevalent among certain members of the Board of Education that it is a good thing for school children to have a little fresh air without being obliged to go cut in the campus adjacent to the school buildings to get it. They believe that after air has been breathed over four or five times it ceases to be fit for human consumption. With these particular members of the board the question of ventilation in pub-lie school buildings is a very important one. There are others connected with the board who do not allow this matter to trouble them to any great extent and the talk about carbonic acid gas in impure air and oxygen in pure air is all Greek to them.

Dr. Spaiding is one of the most persistent pure air advocates on the board. He has in some way conceived the idea that coal soot and foul air are detrimental to the health of school children, so he keeps an eye on the various systems of heating and ventiating that are guaranteed to work wonders in an incredibly short time when attached to a school building.

The other day Dr. Spalding dropped into the Leavenworth school to see how matters were coming on. The board has had a new heating and ventilating plant put in there during the past year. It is the Fuller & Warren system. Speaking of the matter, Dr. Spalding said:

Speaking of the matter, Dr. Spalding said:
"I happened to find Fuller & Warren's man
at the building when I called there, and he
made the proposition to show Mr. Wehrer
and myself how the new ventilator worked.
He filled one of the rooms with
smoke and guaranteed that his exhaust flue would clear the room of
smoke in ten minutes. We waited ten minutes and the smoke had not been restorable utes and the smoke had not been materially lessened. We waited twenty minutes and still the room was full of smoke. It was almost time to call school so I told him to open the windows and let old lady nature's ventilator and save as a second second so I told him to open the windows and let old lady nature's ventilator and account of the save as a second sec tilator get a crack at it. In that way the smoke was removed, but not by the Fuller & Warren ex haust, of which I had heard so much. I want to say, however, that the agent claimed afterwards that the chimneys in the building were too small. They wer built before there was any thought of introducing this system."

In view of the fact that the same company

has the contract for furnishing the heating and ventilating system for four new buildings now under course of construction, this becomes a very important revelation and will doubtless be carefully investigated. In the contract the Fuller & Warren company guarantees that its system will heat the buildings to 70° Fahrenheit when the thermometer registers 30° below z ro and that it will furnish turty cubic feet of pure air per minute for every pupil in the buildings in which their system of ventilation is used.

From the Daily Revedle, Whatcom, Wash. for sheriff, was taken violently ill at Clear-breek. He had all the symptoms of Asiatic cholers, and for an hour or two it was feared be would die. They finally gave him a dose of Chamberlain's Colle, Cholera and a dose of Chamberiala's Colic, Cholera and Diarrhoea Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend for choiera. Send for a physician but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand because it can always be deended upon. For sale he

always be depended upon. For sale by

The Fourth Ward Rally. That the new Boyd opera house will be packed Thursday evening goes without saying. Mr. T. K. Sudborough, who has the Fourth ward meeting in hand, has given cut nearly if not quie all the tickets to be issued for the event. The demand has far exceeded the supply of most desirable sittings. About all the seats remaining are in the top gallery. Mr. Sudborough has engaged the full orchesira and a quartette for the evening and guarantees a program that will rouse onthusiasm in any but a stone man. He announces that Mr. Edward Rosswater will be the first speaker of the evening, for-

Dr. C. Gee Wo Returns to Omaha and Changes His Name.

Dr. C. Gee Wo is home from Chicago accompanied by his bride and has taken ip his residence on Walnut Hill. Hereafter he will be known as Dr. Gee Wo Chan, and not as Dr. C. Gee Wo, the change having been made necessary on account of his recent marriage. It is a custom in his native country to give a person's family name first. Thus John Smith, if written according to Chinese custom, would Smith John. The change of name will have no effect whatever on the doctor's profession as it is only intended to establish his family name and identity for the benefit of his wife. Dr. Gee Wo Chan will continue at his old stand until the opening of the World's fair next spring when his new duties will probably demand his attention in connection with the Chinese Exhibition company of which he is the president and general manager.

Two hundred boys' overcoats for boys up to a dozen years oldin fine all wool Scotch cheviots-in nobby plaids-in beautiful shades—in dark effects -with more warmth and style than usually go together-value six fifty-at four dollars and fifty cents.

That's the story on boys' overcoats for today. We also open in the boys' department several new styles in our popular line of knee pant suits at

\$2.50.

This line of suits has done more to build up our enormous trade in boys' wear than perhaps any other one thing. They're made first of all to wear--the cloths being selected for durability. The suits opened today are in both double and single breasted--in plain colors--in plaids--in stripes--in checks--in cassimeres and cheviots--and are as handsome a line of goods as you'll find. Remember, we make a specialty of this line of suits, and that this quality commands four dollars usually. We will also place in stock today for the first time-three hundred of our new line of

### BOYS' \$3.50 SUITS.

These suits are made of very fine heavy cassimeres--pure silk and wool. They are in superb styles -- in dark lancy plaids. They are in nobby shapes, and are finely trimmed. They are suits the like of which are never shown even as a "catcher" for less than five dollars--and at our price, three-fifty, are the cheapest fine suits the Nebraska ever offered
