

DUN'S REVIEW OF THE WEEK

Politics Has Not Interfered to Great Extent with the County's Business.

TRADE IS SATISFACTORY EVERYWHERE

With the Political Uncertainty Removed Business Promises to Be Better Than Ever Before—Clearing House Statements—in Wall Street.

New York, Nov. 4.—R. G. Dun & Co.'s weekly review of trade says: Even in the last week before a presidential election business has continued very active; indeed the volume is far beyond any precedent for a similar period.

Wheat touched the lowest point ever known in this market, 73 1/2 cents, receipts at western points being still enormous through this week, averaging a little less than 1,500,000 bushels daily.

Pittsburg notes activity in iron, especially in finished products, and a fair trade in glass. At Cincinnati business somewhat exceeds last year's, in groceries 20 to 30 per cent.

At Cleveland business is good, exceeding last year's, especially in rolled iron. At Detroit business is larger than a year ago and manufacturers are active.

At Indianapolis business is active, especially in foundries, machinery and saw manufacture. Trade at Chicago has been satisfactory.

An especial increase is noticed in real estate transactions. Receipts of cars have been double last year's for the week, butter 50, barley 40 and dressed beef 20 cent, while in rice, oats, sheeps, etc., there is a decrease of a third approx; in large quantities a decrease of 10 per cent.

At Milwaukee many of the largest houses were burned out, but some appear to be crimped so far and collections are slow. At St. Paul business is active, though collections are retarded by good weather for shipping, and at Minneapolis lumber is strong and wheat moving more freely.

At Omaha and Denver trade is very good. At Kansas City business is largely in volume, with liberal receipts of live stock and better prices.

At St. Louis, though the weather checks the trade in woollens and clothing, groceries, boots and shoes and dry goods generally are strong and grain receipts heavy.

At Louisville business is a full average, and at Memphis business is improved, though without increased volume. At New Orleans labor troubles retard trade but cotton is higher and active and receipts of sugar liberal with good demand.

The iron business improves everywhere, and unsold stocks are fast disappearing. Western competition depresses prices, but for the industry as a whole, the tone has distinctly improved.

The demand for woolen goods is active for the season, cotton goods are firmer and in some lines higher in price. Boot and shoe factories are surprisingly busy for the season, shipments of clothing being exceedingly large.

Indeed, nothing seems to foreshadow money difficulty, and with colder weather and political uncertainty removed a great business is anticipated.

The business failures occurring throughout the country during the past seven days number 538, as compared with 157 last week.

CLEARING HOUSE STATEMENTS. Reports of the Banks Gathered and Tabulated by Bradstreet's.

New York, Nov. 4.—The following table compiled by Bradstreet's gives the clearing-house returns for the week ended November 3, 1892, and the percentages of increase or decrease as compared with the corresponding week last year:

Table with columns: CITIES, CLEARINGS, PERCENTAGE. Lists cities like New York, Boston, Philadelphia, etc., with their respective clearing amounts and percentage changes.

WALL STREET FOR A WEEK. Trading Restricted by the Uncertainties of the Coming Election.

New York, Nov. 4.—Bradstreet's Weekly Wall Street Review says: Speculation seems to be waiting for political excitement to subside. The approaching presidential election has not only absorbed the attention of the street, but for the moment reduces participation to the lowest ebb, reducing the movement of prices to the narrowest limits.
