ALREADY CABINET MAKING

Politicians Do Some Figuring on Cleveland's Official Family.

REPUBLICAN LEADERS ON THE RESULT

Chairman Carter Was Very Much Surprised -Mr. Maniy Analyzes the Vote-At Cleveland's Home-How the Resuit is Generally Viewed.

NEW YORK, Nov. 10 .- The result of the blection being positively settled here, politicians are turning their attention to the possible make-up of President Claveland's next cabinet. Many are greatly interested, now that the New York state legislature is known to be democratic on joint ballot, in the probable successor of United States Senator Hiscock, whose term will expire March 4 next, It is said that Governor Flower is ambitious to be the senator's successor and that Lieu-Senant Governor Sheehan wants to succeed to the governor's office. Demogratic politicians generally think Governor Flower will be sent to the senate if he so desires and that Lieutenant Governor Sheeban will become governor for the unexpired term.

There has been some talk of Congressman W. Bourke Cockran for senator, but his friends allege that he does not want that place. It is said that he is satisfied with his law practice and the opportunities he has, with his splendld powers, to make a record in the lower house of congress, to which he has just been re-elected.

The cabinet slate generally figured out by The cabinet slate generally figured out by politicians today was as follows: Secretary of state, Thomas F. Bayard of Delaware; secretary of the treasury, John L. Mitchell or ex-Postmaster General William F. Vilas of Wisconsin; secretary of the navy, William C. Whitney of New York; secretary of war, W. B. Franklin of New Hampshire; secretary of the interior, Isaac F. Gray of Indiana; storney secret. Isaao P. Gray of Indiana: attornev general, Congressman William L. Wilson of West Virginia or Congressman Culturson of Texas; postmaster general, Don M. Dickin-

It has been the generally accented belief in political circles that ex-Secretary Whitney, who has done so much to achieve the sweeping victory for Cloveland, would be offered the place of secretary of state by the presi-dent-elect, but those who appear to know comething about it say that Mr. Whitney would prefer to be secretary of the navy, if he enters the cabinet at all.

CONTROLLED BY REPUBLICANS. The Judicial the Only Branch of the Gov-

ernment in Their Possession. WASHINGTON, D. C., Nov. 10.-The judicial Is the only branch of the government which will remain under the control of the republican party after the 4th of March next. United States judges appointed for life are subject to the privilege of voluntary retirement on full pay after reaching the age of 70 years, provided they have been ten years in the service. The district and circuit judges, as a rule, are republican, and it is unlikely that there will be a sufficient number of vacancies during the next four years to enable Mr. Cleveland, by new appointments, to give the democratic party a majority of these positions. Nor is there any probability that the next administration will have any opportunity to make the United States supreme court democratic. As it is the court of final resort on all questions of constitutional or federal law, the political predillctions of its justices may at any time become a matter of impertance, though the freedom of the court from influences by con-siderations extraneous to the legal points at issue in any case before it, is conceded. The places on the supreme bench which it is most likely Mr. Cleveland will have an opportunity to fill during the next four years (if there be any vacancies at all) are at present occupied by democrats— Justices Field and Lamar. Chief Justice Fuller is the only other democrat on the bench. The remaining six members are republicans and, except Justice Blatchford, none of them are within five years of the they may retire Justice Blatchford is in vicorous health, and as he likes his work, he is in no hurry to take advantage of the opportunity the law affords him, he having served ten years last spring. The other five memors of the court, viz: Justices Harian, Gray, Brown, Brower and Shiras are men hardly past middle age, and so far as appearances go, are each good for a decade of service yet.

INTERVIEWS WITH LEADERS.

What Prominent Republicans Have to Say on Harrison's Defeat. New York, Nov. 10 .- The Mail and Express has secured interviews with the leading republicans on the result of the late ciection. Here is what it says:

Chairman Carter said that all calculations, both by the republicans and democrats, had been at fault in this state, and also throughout the country, and yet these calculations had been made by some of the most experienced, ablest and shrewdest republicans in the country about their respective states, and they were dumbfounded and could not account for the tremendous democratic vic-tories all along the line which were not frozen and could not be prevented,

Cornelius N. Bilss said he sympathized deeply with President Harrison both in his bereavement and his presidential defeat, but it was too soon yet to tell what would be the effect upon the permanent welfare of the country at large. Mr. Biss will tomorrow give up the republicae national headquarters in the circumstance. ters in this city.

Committeeman Joseph H. Manly said that he had analyzed the returns, and it snowed that the workingmen in the manufacturing centers of the whole country against the republican party, while the agricuitural interests, as represented by the farmers' vote, had stood by the republican

General J. S. Clarkson of Iowa said that all the best calculations in respect to every state except his own, had been set at naught by the result of the election. He is espe-cially sorry for the defeat of Senator Speener as a republican candidate for gov-

DEMOCRATS CRYING FRAUD.

They Claim the Republicaus Are Trying to Cheat Them in Connecticut, NEW HAVEN, Conn., Nov. 10. - The Union, in an extra edition tonight, publishes the following: The de nocratic state committee is in possession of evidence tending to show that some of the republican managers are engaged in a conspiracy to again count out the democrats who were elected to the state offices on Tuesday. A misleading and megal form of return, to be used under the requirements of the constitution, was sent out from the office of the helf-over secretary, Walsh. It con-tains several traps to catch unwary moder-ators upon the subject of rejected votes. By counting all of these rejected votes as if they were votes cast against Jugge Morris and his associates the conspirators hope to wipe out the large majority received by the democratic candidates. It is known that several hundred votes, many of them for Judge Morris, were thrown out for illegality. On this basis Republican Chairman Henton has been claiming today that Judge Morris lacks claiming today that Judge Morris lacks

AT CLEVELAND'S HOME.

Congratulations Showering in Upon Him

from All Quarters. New York, Nov. 10. -Cheorfulness peryaded the home of President-sleet Cleveland today, though the weather without was cheerless in the extreme. The apartments n which the past and future mistress of the white house rules supreme were redolent with the odors of flowers, all gifts of the successful candidate's admiring friends. Messenser boys bearing telegrams of con-gratulation kept the door bell ringing almost continuously. Mr. William C. Whitney, "conet Daniel S. Lamont, George F. Par-and Robert L. O'Brien were with the esident-elect for several hours in the mora-

Ex-Secretary and Mrs. Whitney took luncheon with Mr. Cleveland.
Mr. O'Brien said this afternoon that Mr. Cleveland had at first intended to address a letter to the voters of the country, giving his views of the political situation, but this project had been abandoned. Mr. Cleveland had also desired not to allow any of the telegrams or letters of congratulation to be published. Mr. Cleveland that the number of the contraction of the congratulation to be published. lished. Mr. O'Brien said that the number of these messages already exceeded 2,000, and the stream showed no sign of diminution. Among the senders of the messages, he asserted, were almost every democrat of prominence in the country and a good many republicans. Mr. O'Brien acribes Mr. Cleve-land's action in withholding the messages from the public to the influence of Mrs. Cleveland.

PLANS OF THE PRESIDENT.

He Will Return to Indianapolis After the Fourth of March. Washington, D. C., Nov. 10,-The Evening Star says: Plans for next spring are already being discussed by President Harrison and his family, looking toward the vacating of the executive mansion on March 4. There will probably be a general breaking up and separation of the family. The president will return to indianapolis and make his home there for the future. It is probable that Mr. Russell Harrison and his wife will reside in Indianapolis also, making their home with Genoral Harrison. Mrs. McKee, with little Benjamin and Mary, will go to Boston after March 4. Mr. McKee has established himself in historias there are the tablished himself in business there and has built a house. General Harrison may make them a visit in the spring. Dr. Scott, Mrs. Harrison's father, will live

with the president.

Mrs. Dimmick will remain in Washington

with Licutenant and Mrs. Parker. Boston, Mass., Nov. 10. - Among the state-ments us to where President Harrison would reside, was one to the effect that he would make this city his home. J. R. McKee, the president's son in law, was asked today as to the truth of this statement and replied as follows: "It is too early to reply acfinitely." said Mr. McKee, "but if the president leaves Washington and if the efforts of myself and Washington and if the efforts of myself and Mrs. McKee can prevail, he may come. He was, up to a short time ago, at least, firmly determined to retire to Indianapolis at the close of his official career, where almost his whole life has been passed. The president was informed by the doctors several to the second seco eral months ago that his wife could not live, and until her death, of course, her condition engressed the whole attention of the family. Any consideration of where he would reside in the event of her death was not to be thought of. With a man at his age, however, it is greatly a matter of associations, and it would be hard for him to leave indianapolis, for which he has always had a great liking, and go to another place where issociations would be new and perhaps entirely different from those in the old nome."

Philosophically Viewed by the President. WASHINGTON, D. C., Nov. 10 .- Private Secretary Halford arrived in Washington this morning from Indianapolis. He frankly admits his surprise and disappointment at the result of the election, and says he gave up all hope for the republican ticket when he first learned of the heavy democratic majorities in Chicago and New York city. The president did not have many callers today, and received scarcely any private advices on the subject of the election. He has accepted the result in a most philosophical manner ung is said to attribute his failure to hear from the party managers as a clear indication that they have nothing encouraging to communicate.

BOARD OF HEALTH.

Dr. Somers Presents a Showing Concerning Contagious Diseases.

The Board of Health met vesterday afternoon and ground out the weekly accumulation of routine work. Considerable discussion was indulged in regarding the prevaience of contagious diseases in the district lying southeast of Prospect Hill cemetery. Dr. Somers' map showed that three-fourths of the contagious diseases of the past three months had been in that territory and the doctor claimed that the well water which gathered impurities from the cometery was the main cause of the trouble. He wanted an ordinance passed to give him more arbi-trary authority in the matter of closing up wells but it was decided to try the efficacy of the present ordinance first.
Dr. Somers' report showed that there were

seventy-nine cases of contagious disease and seventeen deaths in the month of October. There were forty-three cases of dichtheria and eight deaths. The total deaths from all causes were 109. There were 145 births during the month, of which seventy-two were males and seventy-three females.

The reports of the meat inspectors and the

milk inspector were read and accepted. A communication from Chief Seavey was read recommending that the board appoint a committee to confer with the city attorney relative to proposed legislation for the bene-fit of the board, and Seavey, Somers and Howell were appointed. They will see the newly elected senators and representatives and endeavor to secure the provision of fund of I mill annual assessment on assessed valuation for the support of the board and also a provision for a garbage fund.

County Hospital Contract. The county commissioners were in regularly adjourned session for a few hours yesterday afternoon, transacting the business that was left over from the meeting of

last week. The committee on poor farm reported that Richard Smith was the lowest bidder on the reconstruction of the north wing of the county hospital. The bid of \$17,363 was accepted and Smith's bond approved. April 1, 893, was the time fixed for the completion

of the building. By the adoption of a resolution it was decided that the clerks and judges of election should be paid \$6 each for their services. The Situation at Pine Ridge. With regard to the report from the Pine Ridge agency that the Sioux Indians were going out on the war path, a prominent officer at the army headquarters said yesterday that the only ground there was for the rumor was the fact that the Indians had been paid a lot of money recently by the government upon some eld claims and they went in a bedy down to Chadron to do some trading because they had a dislike for the agent and storekeeper at the Pine Ridge agency. The Indians seem to have an idea that they have been charged extertionate

prices for provisions at the agency and they want to purchase elsewhere. Sidney Smith's Latest Wife.
