## PRANKLY DEMOCRATIC.

Such is the Opinion Concerning the New Conservative Program.

(Copyrighted 1892 by New York Associated Press.) Loxbox, Nov. 11 .- No event in the recent history of the conservative party approaches in importance the adoption of the new pro gram by the conference of conservative associations just held in Edinburgh. The platform is frankly democratic. It even goes beyond the Newcastle program of the liberals in admisting practical control of party legislation, and, further, it contrasts favorably with the literal federation policy in allowing greater independence of opinion among the adherents of the principles of unionism. The rigidity of old toryism has absolutely vanished and is replaced by an elastic constitutionalism, which Mr. Balfour's leader has accepted, though certain fossis like the duke of Rutland continue to think it incompatible with genuine conservatism and dangerous to the success of party government, The program includes electoral registration reform, with an equalization of votes and a reduction of the period of occupancy required to qualify voters. This, in itself, trumps the liberal proposals in the same direction. Next the conference approved the extension of the franchise to female rate payers, the disfranchisement of illiterate voters, a provision for old age, assistance to workingmen to enable them to ac-quire land for building purposes, an amendment to the employers' liability iaws and factory acts in the workingmen's interest. Finally, some touch of home rule is infused in the program by approval of the transference of the private bill procedure from the committee in parliament to local bodies. The transformed spirit of the party is attributed largely to the liberalizing influence of their unionistic allies and partly to the leaders recognizing the necessities of the times. It is among the strangest changes of life that the English parties find an intense tory, like the duke of Montrose, president of associations confirming this people's plat-

Doomed to Disastrous Failure. Mr. John Morley's evicted tenants' commission seems doomed to disastrous failure. Lord Salisbury has characterized it as a saturnalia for insolvent debtors, and has de-clared that Justice Mathews, its president, will return to the judicial bench with his soiled and moth eaten. But neither Lord Salisbury's jites, nor Mr. Ballour's denunciations, are causing the collapse of the commission. Internal disputes concerning the sphere and methods of the inquiry, mistakes instructions by Mr. Moriey and partisan mismanagement by Justice Mathews are the chief factors in the breakup. Besides Mr. Murphy, who resigned on account of Justice Mathews' proceedure, Mr. Murrough O'Brien, the oldest and most practical member, will retire, estensi-bly because he has been appointed a land purchase commissioner, but really through a row with his colleagues. Another member, Mr. Roche, has intimated his desire to be replaced. The withdrawal of these three members leaves only Justice Mathews and Mr. Redingtor, who sat today for a brief half hour. Although discredited even among the liberals, the government will fill the vacancies with home rule nominees, and continue the commission, though it

The radicals have abandoned all hope of any legislation for the evicted tenants dur-ing the coming session. A plan now disoussed by the ministerial circles is to not ask the House of Commons to vote a grant for their relief, but to evade a decision of the house by drawing funds enough from the land purchase commission to compulsorily purchase portions of estates from obstinate land with enough to make loans to tenants to enable them to start farms anew. There is nothing timid or squeamish about this but with another general election almost within sight, prudent liberal members of the House of Commons hesitate to ap-prove a course that is certain to arouse general reprobation

SUSTAINED THE ATCHISON

Course of that Road in Cutting the Denver Rate Endorsed.

OF THE ARBITRATORS DECISION

There Was Ground for Making the Knights Templar Excursion Cut-Building & New Traffic Association-Latest Move of the Reading.

CHICAGO, Ill., Nov. 11,-E. A. Ford, A. J. Smith and C. P. Atmore, arbitrators in the Atchison's appeal from Chairman Caldwell's decision, finding it guilty of reducing rates, without sufficient justification, to Denver and return on account of the Kuights Temconclave last August, handed down their decision today. They also had before them the question of whether Chairman Caldwell, and various members of the association, were guilty of conspiring with the Chicago & Alton, an outside road, to deprive the Atchison of its rights under the agreement of the Western

Passenger association. . In the conspiracy charges the arbitrators find that the charges have not been sustained by the evidence. Nevertheless, they hold that the Atchison was not fairly treated, either by the chairman or its fellow members of the association, first, because it was given no voice in the matter of granting relief, and, second, because the other roads based the application for relief on the announced intention, as well as on the unwarrantable procedure of the Atchison company, which was preparing to lawfully protect its interests under article 9 of the agreement, rather than on the clearly established action of a line outside, and some inside of the association. The chairman was not justified in granting relief to some members to the exclusion of others. His ruling was an error, because it was based on the declared intention of the Atchi son to protect its interests in harmony with the letter and spirit of the law, whereas the Atchison should have been held responsible for its action under the section providing penalties for violations of the agreement.

Regarding the question of whether the Atchison was justified in making a rate of \$12 from Chicago to Denver and return, on account of the Knight Templar conclave, the arbitrators decided in favor of the railroad company. They find that it did present to the chairman official justification, under arti-cle 9 of the agreement, to warrant it in taking the action of a line outside of the association in offering less than the agreed rates for that particular occasion and, therefore, they declare the decision of the chairman

reversed. Considering that the Chicago & Alton has all along denied indignantly that it offered less than the agreed rates for the Knight Templar excursion, the decision of the ar-pitrators is rather more severe on that com-pany than upon Chairman Caldwell. Opinons differ as to the actual merits of the case, but the decision itself gives general re-lief, because it averts the danger of a disruption of the Western Passenger associa-

The committee of western managers continued in session today working out a plan for a division of competitive traffic in the territory of the Western Freight association. Important progress was made. So far as southwestern Missouri river traffic is concorned an agreement was perfected and there was a practical adoption of the details with respect to business to and from Colorado points. The committee then adjourned until Monday when it will take up the Northwestern problem and endeavor to establish the points at which a division of tonnage may be effected under Chairman Midgley's

The Missouri Pacific has not sent a representative to the meeting and has notified the committee that, owing to previous engage-ments, it will not be able to do so until after November 22. Some of the committee express the hope that after an agreement is completed the Missouri Pacific will not refuse to subscribe to it. Others are less hopeful. They declare that the Missouri Pacific is at present getting more than its legitimate share of westbound business by cutting rates, and that it will retain its advantage of the state of t vantage as long as possible.

A meeting of the passenger representatives of the western roads was held today to consider charges against certain lines of paying unauthorized commissions. Since the advance in rates from Chicago and St. Louis to Kansas City, it is said the old forms of tickets have appeared in the hands of brokers and that double commissions are being openly paid. It is also claimed

the Burlington tickets to Lincoln, Neb., are being manipulated to cut the rate to Kansas City. The rate from Chicago to Lincoln is \$14.35; from Kansas City to Lincoln it is \$5.75. Brokers ar selling Burington tickets to Lincoln, via Kansas City for \$16, with a repute order on their Kausas City correspondents for \$6, thus requeing the Chicago-Kansas City rate to \$10. The Burlington representative was not present at today's conference, and another meeting will be held tomorrow.

AFFECTING RAILROAD INTERESTS.

Chairman Midgley's Plan of Agreement on Competitive Traffics May Be Adopted. Chicago, Ill., Nov. 11 .- After all there seems to be a probability, though not a strong one, of a plan of agreement being adopted by the committee of general passenger agents representing western railronus The committee met yesterday morning, when it was the general opinion that the first thing needed was a side agreement pro viding for an equitable division of competitive traffics. Consequently Chairman Midgley's plan received more attention than Midgley's plan received in the state of the rates es-any other. This plan provides that there shall be a strict maintenance of the rates es-shall be a strict maintenance of the rates established and promulgated through the agency of the Western Freight association and that the chairman shall be given authority to require the diversion of any and all freight included in the jurisdiction of the association whenever he, or those associated

with him, shall have reason to believe that with him, shall have reason to believe that the rates thereon have been reduced with-out authority of the association, or that un-due influence has been used to secure traffic. To carry out this plan. Mr. alliggey pro-poses that a board of three disinterested arbitrators, of which the chairman may be a member, be constituted to act as a tribunal in the matter of six alleged visit as the tribunal in the matter of all alleged violations of the agreement, or failure to fully comply with its provisions. The penalty also provides that any railroad failing to comply with any order to divert traffic, unless it can show sufficient justification, shall be required to pay to the aggrieved party or parties a sum not exceeding 75 per cent out of the gress carnings that would have been received, provided the order to divert had been in good faith carried out. It is proposed that the agreement shall be-come effective December 1 and continue until

notice of a desire to amend or withdraw from it. The managers will endeavor to reach some conclusion today. Should a plan be adopted it must be approved at a general meeting be-fore it can go into effect.

Penusylvania Colliertes Shutting Down-The Reading's Fine Italian Hand

Porrsynals, Pa., Nov. 11 .- The coal mining industry is not in as presperous a condition just now as could be desired. Tho Reading company is greatly in need of cars. It order to relieve the blockade and also to restrict the product that is now being placed

on the market, the company is only working its lost collectes full handed.

The Blackwood, operated by the Lehigh Valley Coal company, it is expected, will be shut down any day, owing to a scarcity of empty cars. At Blackwood over 250 loaded cars are now standing awaiting removal and nearly the same number are on the sidings. One of the causes assigned is that there is too much coal stocked at Port Amboy and the cars cannot be unloaded because of the present injunction pending in the New Jer

present injunction pending in the New Jer sey courts against the cembine.

William Penn colliery, owned by the Pennsylvania railroad capitalists but shipping over the Reading road pending the completion of a Pennsylvania Branch, shut down today ostensibly for want of water, but principally from mability of the Reading company to furnish the empty cars.

Several collieries operated by Ackley,
Bruce & Co. in the Lehigh region suspended
operations a few days ago, owing to the same
cause. These, with the Lehigh Valley Coal company's colliery above mentioned, come into direct competition with the coal of the Reading combine and the Coxe shut down only included collieries shipping over the Reading. Coxe is bandling very large quantities over the Pennsylvania wherever the lines of that company can be reached from

REMEMBERING THE REDS.

Living Anarchists Pour a Libation of Freti on the Graves of Their Dead. New York, Nov. 11 .- Again the 3,000 malcontents and anarchists who greeted the notorious firebrand, Johann Most, upon his release from Blackwell's island, assembled tonight in the Cooper union to participate in a meeting, commerative of the anarchists hanged in Chicago and known among the reds as "martyrs." The memorial meeting was under the auspices of the Musical Progressive union and the International Arbeiter Liedtaefel. The platform was decorated with red flags. These were waved when anything flery was said, and the audlence, taking courage, applied with ve-hemonce. Working in the olicksmith shop on the island has put a check to Most's mouthings. While in secret he may be the same reckless Johann Most, he has since his incarceration been careful in his public utter-

The meeting was called to order by a man named Ullman, who appointed himself chairman, and as there was no protest, acted as such throughout the whole proceedings. He spoke of the hangings in Chicago, and said Parsons, Spies and the rest of the an-archists were murdered because they would not prostitute their brains. A funeral march by Beethoven and "Annie Laurie" were sung before John Edelman began his harrangue. Henry Weismann was the next speaker, and he was followed by Most, who was warmly greeted. He spoke in German. Among other things he said:
"We have no kings, no czars, but we have

capitalists among us worse than any czar and until we get rid of them let anarchism continue. The capitalists have to call on the militia and police to keep down the anar-chists. The workingman, when he asks for smaller hours, receives the reply: 'We have the militia for you." "

The speaker wound up by shouting:
"Death to aristocracy and division of their

Best Managed City in the World. Frank G. Carpenter, the famous newspaper correspondent will, in next Sunday's BEE, give a very interesting and instructive account of how the piggest city in the German empire is managed. Consul Genera Edwards says that Berlin makes a profit of 5,000,000 marks (\$1,250,000) every year over all her expenses. In the matter of municipal management we may be able to learn some problable lessons from the way they manage things in the Teutonic fatherland.

How the Germans are Taxed. They are not sparing of taxation in the German empire. Every man who makes more than \$105 a year has to pay a tax and almost everything under the sun in Berlin pays a tax of some sort. See Frank G. Car-penter's brilliant letter from Germany in next Sunday's BEE.

Local Packing House Interests Indicate a General Improvement.

SEASON OPENS WITH A BIG INCREASE

While Home Plants Are Doing More Business Than at Any Previous Period, Other Places Are Doing Much Less.

South Omaha starts the regular winter packing season with an increase, while the other packing centers show a decrease. The regular winter packing season opened November I and the record of the first week may be taken as a criterion of what is to come. During the first week of the season the South Omaha packers slaughtered 24,000 hogs, against 22,000 one year ago. Chicago shows a decrease in slaughterings of 115,000 bogs, Kansas City's decrease is 29,000 hogs and St. Louis loses 8,000 hogs. South Omaha is the only packing point in the country showing an increase, which although small is very encouraging, and in the face of the large decreases at other places is a very creditable

showing.
With the largely increased facilities of the packing establishments at this point each week's packing will show up fully as well as, if not better than, the first week of the winter's season. This is not only true of the slaughtering of bogs, but also of the number of cattle that will be killed by the different making houses. As soon as the receipts of packing houses. As soon as the receipts of hogs pick up and the prices go down a little the packers will greatly increase their shaughterings. It is with some difficulty at present that desirable hogs can be secured and the prices are too high for the real profit of the packer. When the packers get fairly started they will make things how and do a business that will be surprising to those who have not watched the progress made by these establishments, which are doing so much in the way of assisting in the uppuilding of Omaha and Nepraska.

Puruished a beasacton. The Saxe block furnished a real sensation

last evening about 7 o'clock in the shape of a cutting affray. W. M. Sommersett rents a room over Gration's grocery store and had for company a woman of the town named Bessie McCoy. The woman claims that they quarreled and Sommersett started in with a razor to carve her into small pieces, and knocked her through a window. She acreamed and ran through the house to a front window and called for the police. Sine had six cuts upon the left arm, one being a very ugly one, from which the blood fairly poured. which the affray occurred was bespattered with blood, and the whole house presented a gory appearance. The woman was very much intexteated and while a surgeon was ttending her wounds used the most blasphemous language.

Sommersett was arrested a few minutes later. He denies cutting the woman and says she fell through a window glass and that is now her arm was slashed so. He will have his bearing today. A Matter of License.

Fred Hunzinger was arrested vesterday apon complaint of Julius Ross. Hunzinger is charged by Ross with conducting

Best Cure For

All disorders of the Throat and

Lungs is Ayer's Cherry Pectoral. It has no equal as a cough-cure. Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."-J. C. Woodson, P. M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, 1 was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Aver's Cherry Pectoral, and after taking four bottles, was thoroughly cured."-Franz Hoffman,

La Crippe

Clay Centre, Kans.

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."-W. H.
