Useless to Anticipate Any Interference With the Banking Laws at This Time-Mr. Quay's Estimate of the Situation.

### WASHINGTON BUREAU OF THE BRE, ) 513 FOURTEENTH STREET. WASHINGTON, D. C., Nov. 12.

Some interesting light upon the propable policy of the democrats at the next session of congress was given to THE BEE correspondent today by Representative Outhwaite of Ohio. Mr. Outhwaite is chairman of the house committee on military affairs and is one of the best informed and sagacious of the democratic leaders in congress. It will be seen that his expectations are somewhat in line with those uttered by Senator Quay.

Said Mr. Outhwaite: "It is useless to anticipate any interference with our banking laws at this time. The democrats do not expect and they could not if they so desired to make any change in our present system of making all issues of money come directly from the federal government. The 10 per cent tax ou state bank issues will not be repealed. It is not my way, nor that of the democratic party, to kill a thing by taxing it out of existence, but now that the state bank issues are done for by an inhibitory tax, they will not be relieved. There will not be an extra session of congress. Mr. Cleveland is opposed to such a thing, and said so eight years ago. Evorybody knows that the party responsible for an extra session of congress in times of peace alwars suffers defeat at the next election. Another thing, it is absurd to suppose that the demoorats in congress intend to roll up their slooves and jump at their work of destroying American industries. The present tariff law will be materially modified, but there will be only a slight reduction of duties upon articles which are successfully manufactured in our country. We will give the manufacturers free raw materials and will put tin plate upon the free list because it is not an established industry and cannot be made so in this country. The established industries ill not be destroyed by being thrown into competition with those of England, nor will they be materially affected by a heavy of duties upon their manufactures. We will first give them free raw materials to work with and then we will consider rections of tariffs upon the manufactured articles.

# Quay's View of the Election.

Senator Quay of Pennsylvania, ex-chairan of the republican national committee has declined to express any comment upon the result of the presidential election beyond the single lacoute remark, "We did not have votes enough." Today, however, The Brr correspondent succeeded in persuading Mr. Quay to say a little more. The senator was found sitting in his library dictating replies to several hundred telegrams of congratula-tions which he had received from friends in Pennsylvaula over the republican majority on joint ballot of eighty-two in the legislature, which ensures his return to the United States senate

When asked to explain the causes of republican defeat in the battle for the presi-dency the senate turned to a sunny window, where a parrot was swinging in a cage. The senator cocked one eye at the parrot, and the bird in response blinked both eyes and sang very distinctly, "Oh dear, what can the mat-

LINCOLN, Neb., Nov. 13 .- [Special to THE Bsz. |-The cases against the men arrested for illegal voting in this county commenced this forenoon and several of them have already been disposed of. O. E. J. Cosgrove, also of this city, appeared for the dafense. The examination of the prisoners was very brief. Both proved that they had been residents of the state for more than six months and of the county for more than forty days. Both are unmarried and both testified that they looked upon the county of Lancaster as their permanent residence. The prosecution failed to produce any direct evidence against them and therefore recommended their discharge.

L. E. Hicks, chairman of the Lincoln Board of Public Works, was the next to face the commissioner. He was charged with having cast a ballot in precinct C of the Fourth ward of this city, when his home is in Grand View, outside of the city limits. He testified that his home is still in the in the Fourth ward and that he had placed his wife at Grand View temporarily in the hopes that her beaith might be benefited. The cases against Lee Foster and Richard Wilson, who were arrested yesterday, will never come before the commissioner, as it was discovered that the evidence against them had been furnished by irresponsible parties who admitted that they were misleading the officials. They have been dis-charged. James Sharpensteen, another man charged with illegally exercising the right of franchise, was also discharged for a simiar reason.

Among them was a lady's gol watch which was found in his possessio when arrested. He claims that he bought

# Marshall Pringle, a little boy aged 2 years,

the son of Robert Pringie, who resides on Twenty-sixth street between M and N treets, died yesterday morning at 5 o'clock from the effects of eating a quantity of concentrated lye. The child secured a can of concentrated iye about 5 o'clock Friday evening and swallowed a handful of the stuff. A short time afterwards the child was discovered suffering the most intense agony from the effects of the iye. Medical assistance was secared, but the amount of ive the child had swallowed and the length of time it had secured the start in its fatal eating were too much, and the efforts of the physician to save the life were unavailing. Death relieved the sufferer at yesterday morning. The parents of the cuild

Pashing Public Improvements. The many public improvements of the year yet incompleted are being vigorously pushed by the contractors, and by the time snow flies they will all have been fluished. A large amount of grading has been finished and the contractors will soon complete the work upon O street and several other streets. Considerable paving has been done, and the greatest disappointment has been the controversy between the city and the Cali-fornia Paving company, which preveated the completion of the worg from A to J street. The dispute has been satisfactorily djusted and as soon as the weather will per mit in the spring the naving will be completed on that street. Twenty fifth and Twenty-sixth streets have been paved from M to Q street with stone. The contract has been awarded and before the week is out Hugh Murphy will have pavers at work putting down vitrified brick on L street from Twenty-fourth street to Kallroad avenue. The contract has also been awarded for baying the alley with stone between Twenty-fifth and Twenty-sixth street, and from M to N street. Also the alley between Twenty-sixth and Twenty-soventh streets from N to O street, and O street from the alley to

A great many people may not be aware of the fact, but Twenty-seventh street, from N to Q street, is paved with stone. The pavement has never been cleaned and at least a foot of mother earth buries it from sight. Chairman Wood of the street committee will open blds Monday for the removing of the dirt from this street and when the work is completed there will be a satisfied commu nity. Extensive public improvements are con-

templated for next year. There will be some paving done, sewer lines will be extended and a great number of streats will be extended it is also expected that the council will take some action in regard to causing permanent sidewalks.to be laid upon the business streets. Next year will be a busy one with the city and all needed improvements will be provided. provided.
