

CHARGES OF MISMANAGEMENT

Grand Jury Impelled to Investigate Affairs of the Nebraska Hospital.

JUDGE HALL'S CAREFUL INSTRUCTIONS

Everything Pertaining to the Institution to Be Examined—Condition of Lincoln's City Jail Will Also Be Considered.

LINCOLN, Neb., Nov. 16.—[Special to THE BEE.]—The grand jury which is to investigate among other things the alleged mismanagement of the affairs of the Nebraska hospital for the insane near this city assembled at the court house this afternoon. The members of the panel who reported were as follows: E. T. Hartley, F. W. Little, William McLoughlin, L. C. Richards, G. E. Bigelow, G. A. Seydell, J. J. Butler, W. M. Gillespie, Louis Helmer, Henry Veith, J. J. Gillilan, R. P. Miller, M. B. Cheney, Obadiah Hull, W. D. Mann, V. A. Jones, L. G. M. Baldwin, D. A. Gilbert, A. Greenmeyer, Samuel Eaton, J. J. Stein, A. L. Axthelm and Jacob Koeko.

After they had assembled at the court room Judge Hall proceeded to read to them the charges and instructions, by which they are to be guided in their secret deliberations. He first quoted the law governing their actions, told them that it was their duty among other things to inquire into the condition of the city jail and to report as to the sanitary conditions and arrangements for caring for prisoners, and that they should inquire into any reported infractions of the law relating to gambling, school lands, etc.

Regarding the Asylum Charges. Alluding to the charges of mismanagement at the asylum Judge Hall instructed the jury that they should carefully inquire into the facts presented to them and that they should remember that it was not an accusation and that they should not accuse any one of mismanagement unless the facts presented to them seemed to justify it. They should not base a true bill upon mere probabilities, neither should they be swayed in their action by any personal considerations, but should make their presentation without fear or favor. The examination of the records commenced yesterday morning.

The following witnesses have been summoned in connection with the charge of fraud in the management of the asylum: Secretary of State Allen, M. Scott, the B. & M. freight agent, with records and switching books showing the number of cars sent to the asylum; W. E. Johnson, the collector; G. P. Looze, C. W. Kaufman, Benjamin Salford and E. C. Rowick.

Up to this afternoon the official returns from sixty counties in Nebraska had been received at the office of the secretary of state. The returns are in duplicate, one set going to the speaker of the house of representatives, and the other to the secretary of state. The latter set has been tabulated. Of the returns so far received, but three counties show that the two amendments voted on last Tuesday received the necessary majority. The law requires that the amendments should receive a majority of all the votes cast at the election. In Johnson, Hamilton and Valley counties the amendments received the necessary majorities, but in the other counties so far reported the voters seemed to care but little for the amendments or failure of the amendments, as but few voted on them either way compared to those who voted for the candidates on the tickets.

L. B. McFarland's Death. Mr. L. B. McFarland, a prominent Mason and Odd Fellow of this city, died while en route from Omaha to Chicago Monday evening on the Rock Island.

Mr. McFarland and his wife were on a trip to the east, stopping overnight in Omaha. He was apparently in good health and anticipating with pleasure his trip. He was taken ill at Chicago and though medical assistance was taken on the train, Mr. McFarland was beyond human aid and died within a few minutes after the train arrived at the Chicago depot.

Gossip at the State House. The South Dakota and Wyoming Territorial commissions was incorporated this morning with a capital stock of \$200,000.

The company is composed of the following: J. C. Hill, J. E. Scarpie, Jr., C. E. Ford, F. C. Grable, M. L. Parrott and C. E. Nattinor. The company proposes to locate its offices in the states named, and sell land.

Governor Boyd, accompanied by Commissioner Hamlin and other members of his staff, went to Nebraska City this afternoon to make the annual inspection of the institute for the blind. Incidentally they will investigate the charges of mismanagement against the management of Superintendent Rakestraw. There has been a number of complaints from pupils in regard to the character of the discipline maintained by the superintendent.

H. O. Paine of Alamosa has been appointed receiver of the estate of the late State Bank. W. C. Brown of Springfield has been appointed as receiver of the Bank of Springfield. These are the banks closed by the state banking board early in October.

John Palmer, republican candidate for representative in Clay county, has commenced a suit to nullify the election certificate, compelling him to issue him an election certificate instead of to McVey, the democratic independent candidate. The grounds of the action are similar to the ones in the suits filed yesterday afternoon.

It transpires that Frank Hubbard, the ex-farm boss at the state hospital, whose name came so prominently before the public during the recent investigation, is a heavy depositor in the defunct State Bank of Nebraska at Omaha. The bank's report shows that \$2,572.52 of Hubbard's money is tied up in that institution.

J. M. Warrick, republican representative-elect from the first representative district, composed of Cass and Saline counties, was at the state house this afternoon. E. A. Barton went to Lincoln this morning on business connected with the state educational exhibit at the World's fair.

Volume 33 of the Nebraska supreme court reports was issued from the press today. Volume 31 is all in type and 135 pages of volume 32 have passed through the hands of the printer. The last volume referred to contains all the opinions handed down by the court up to within the past ten days.

BOUND TO HAVE A BUILDING

Merchants and Manufacturers Planning to Erect an Exposition Hall.

STOCK COMPANY ALREADY ON FOOT

Manufacturers and Consumers Association Takes the Lead in the Enterprise—Several Thousand Dollars Subscribed to Start the Fund.

A meeting of the Manufacturers and Consumers association was held yesterday afternoon in their rooms in the BEE building. President Page reported that as directed by the executive committee the secretary and himself had been looking up a site for the proposed exposition building but that the parties who were wanted were out of town and no report could be made until the last of the week.

The secretary reported that the association had in the bank \$1,600.50 cash at the present time. J. P. Cooke & Co. suggested that the association supply its members with rubber stamps of the Nebraska trade mark. The secretary was authorized to furnish rubber stamps of the label to any member at cost, with the understanding that they come back to the association when the parties holding them shall cease to be members.

The president stated that one of the main reasons for calling the meeting was to discuss the question of an exposition building. The subject was brought up before the last meeting of the executive committee, but the members of that committee did not feel like making any definite plan. He stated that the members of the association would take there could be no doubt of the success of a demand for a building centrally located in which exhibitions could be held, but if the association did not think it advisable to make an effort to secure such a building for the present, they would be forced to look for a place where such a building could be made to pay well.

Want a Building Down Town. The remarks of the president started the ball rolling and all present had given the subject some thought already and were prepared to express an opinion. It was also soon apparent that there were some present who had a Coliseum here in their bones. These latter had a good deal to say about the proposed building.

ONE FAIR EXCURSION

To the City of Mexico and Return. For the meeting of the American Public Health Association and International Medical Congress, to be held in the City of Mexico, Nov. 29 to Dec. 2, 1892, the Santa Fe route will sell tickets at one lowest first-class fare for the round trip.

This is an excellent opportunity to visit Mexico, one of the most delightful trips in the world. The cost is \$10.00. A special party will leave Omaha Saturday, November 19, and join a larger party from Boston and other eastern cities at Kansas City.

The fare for the round trip from Omaha is only \$10.00. For further information and reservation of Pullman accommodations call on or address, E. L. PALMER, Passenger Agent Santa Fe Route, 1316 Farnam St., Omaha, Neb.

HAD TOO MUCH BUSINESS.

Failure of Robinson and Stokes Company in Face of a Prosperous Trade. At 11 o'clock Tuesday night the Commercial National bank of Omaha filed an attachment against the Robinson & Stokes company to cover a claim of \$25,000. The firm in question is located in East Omaha and has been engaged in the manufacture of men's overalls, shirts, etc. Additional attachments were filed yesterday as follows: Mrs. Burnett, \$10,000; National Bank of Commerce, \$6,000; May Bros, \$5,000. The Commercial National bank holds an assignment of accounts to cover \$15,000 additional indebtedness, making a total of about \$60,000 due to the bank.

The total liabilities of the firm are placed at \$80,000 and the assets at \$30,000. The stockholders are T. E. Robinson, E. E. Stokes and R. E. Sears of Marshalltown, Ia. The latter is reported wealthy, and together with the other stockholders, asserts that the assets of the firm will pay up every dollar of the indebtedness.

Thus far this year the firm has done a business of about \$500,000. The stockholders believe the bank for holding the firm as a bankrupt in thirty days they would have been in good shape. They familiar with the firm according to the fact that the firm had considerable money tied up in the city and building and were trying to do too much business for the amount of capital.

It is understood that the firm applied for a receiver, if it has not already done so, and thus continue the business pending a prospective reorganization of the company. Yesterday afternoon the firm applied to the district court for the appointment of a receiver to take charge of the stock, the machinery and the business. The petition was granted and Edgar Zabrisnik appointed. He at once filed his bond and took possession, the sheriff releasing the attachments. The receiver will care for the business as it presents and in the meantime the firm will be reorganized.

A Four Name Firm.

When you find a four name firm you are pretty sure of an institution representing complete reliability. The following are Hays, Harris, Brim & McLean, near Davenport, Georgia, is not an exception. It is, in fact, one of the most substantial business houses in the territory. The firm has a capital of \$100,000, and manufactures three of the best medicines of the day, viz., Chamberlain's colic, cholera and diarrhoea remedy, for bowel complaints; Chamberlain's Cough Remedy, for colds, coughs and whooping cough; and Chamberlain's Pain Balm for rheumatism. 50 cent bottles of each of these medicines for sale by druggists.

ASSESSORS AND CONSTABLES.

Last of the Men Chosen to Save Our Country not County. In the bustle and the excitement attending the recent election, in the making up of the returns, the lesser lights were lost sight of by the judges and clerks in reporting the facts to the public.

County Clerk Sackett has just completed footing up the official returns, which show that the following named parties were elected to fill these offices:

THE NEW BOILER SHOP.

Work Started on One of Many Needed New Union Pacific Buildings.

Without business, the contractors for the brick work of the new Union Pacific boiler shop, will commence laying brick this morning, the contractor for the concrete foundation having finished his portion of the contract yesterday.

The new shop will be 35x155 feet and is located just south of Cass street on the property owned by the Union Pacific company and not far from the present boiler shop, which has grown entirely too small for the work now contemplated. The structure will be built of brick with truss roof of painted iron. Through the roof will run a series of pipes to have it ready for occupancy by January 1. It is a really like favorable weather presents to allow the contractors to finish their work.

In contrast with the old boiler shop the new shop will be a radically modern and more radically so. The very latest methods and construction of railroad shops will obtain, and the fruits of Mr. McClelland's trip to Europe will be apparent in the new tools and machinery in use for the building of locomotive boilers.

The shop will have a capacity of turning out one boiler a week, which will necessitate doubling the present force of twenty-three men, including helpers. One boiler a week seems a small output to the general public, but it is a very important one in the mechanical department of a railroad it is impossible to form a just estimate of the work that will be done. The boiler shop is the steel plates used in the construction of a boiler, every part of the boiler is made at the shop. In fact, every part of a locomotive is made here. The boiler shop is a complete workshop, the average life of a car wheel is five years, while that of an engine wheel is only three. The boiler shop is a complete workshop, the average life of a car wheel is five years, while that of an engine wheel is only three.

Want a Building Down Town. The remarks of the president started the ball rolling and all present had given the subject some thought already and were prepared to express an opinion. It was also soon apparent that there were some present who had a Coliseum here in their bones. These latter had a good deal to say about the proposed building.

DRIVING THE BRAIN

at the expense of the Body. While we drive the brain we must build up the body. Exercise, pure air—foods that make healthy flesh—refreshing sleep—these are methods. When loss of flesh, strength and nerve become apparent your physician will doubtless tell you that the quickest builder of all three is

Scott's Emulsion

of Cod Liver Oil, which not only creates flesh and in itself, but stimulates the appetite for other foods. Prepared by Scott & Bowne, N. Y. All druggists.

WEeping WATER, Nov. 28, '92.—Dr. Moore: My Dear Sir—I have just bought a bottle of your best of your "Treatise on Dropsy" and I find it indeed a "Tree of Life." Doctor, when you so kindly gave me that first bottle my right side was so lame and sore and my liver enlarged so much that I was unable to get on my right side at all. There was a soreness over my kidneys all of the time, but now that I have had your medicine I feel as well as one side as on the other, and my appetite is refreshed and I feel the best I've felt in fifteen years, and I know that it is all due to your "Tree of Life." Yours truly, D. E. DUDLEY.

Tuff's Tiny Pills

The dyspeptic, the debilitated, whether suffering from indigestion or from any other ailment, will find Tuff's Pills the most gentle and effective ever offered the world.

BARRELS OF IT

That you may know what a wonderful, exquisite, life-giving element Oxygen is, we have prepared barrels of SPECIFIC OXYGEN and or 30 days, offer.

Inhalations Free.

It really cures Coughs, Colds, Catarrh, Bronchitis, Consumption, Nervous Prostration. "Oxygen Breezer" from 10c per barrel.

THE "LADIES' PERFECT" SYRINGE.

The only syringe ever invented by which vaginal diseases can be cured without leaving and without the use of any medicine or chemicals. It is a simple, elegant, and effective instrument, and is the only one that can be used by the patient herself.

the money which has been turned into the treasury, and which is the proceeds of the sale of the street improvement bonds. These bonds were sold some weeks ago, but the money in payment of them has not yet got around. This payment gladdens the hearts of the contractors, as it is the first that they have had since they commenced on the public works last spring.

Best Cure For All disorders of the Throat and Lungs is Ayer's Cherry Pectoral. It has no equal as a cough-cure.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable but ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and in a few days my trouble was cured. For the last fifteen years, I have used it with perfect success, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P. M., Forest Hill, Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Centre, Kans.

La Grippe

"Last spring I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. Williams, Cook City, S. Dak.

Ayer's Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price, 25c per bottle. Prompt to act, sure to cure.

4 Kinds of Suits

Ten of each kind and each kind different, are shown in our largest show window today. Each of these suits bears a card which tells you in good plain figures, the price—which is either six dollars and fifty cents or ten dollars and fifty cents. These suits were placed in the window to attract your attention—to notify you that today "The Nebraska" begins another of the great special sales which have made her famous throughout the west. Two styles of these suits—those in the two front rows—are marked

\$6.50.

The ones in the very front row are "beauts." They're made of good solid all wool cassimere—in a handsome dark brown—with just enough color in the broken plaid to make the pattern attractive. The lining is of double warp Italian. These suits are in round corner sacks only. The "square cut" sacks in the second row are mighty tony. They are made of substantial fancy black cheviot in an invisible plaid. The coats are cut double-breasted with square corners—and in the proper length for this season. The lining is of soft serge—and the price is—six dollars and fifty cents. The third and fourth rows are marked

\$10.50.

The third row are sacks—round corner sacks—and such sacks! made of elegant dark gray all wool cassimere—lined right up to the queen's taste with very fine Farmer satin, triple stitched—finely tailored. The frocks in the back row are of that "never wear out" sort of goods—good old honest cassimere—made up honestly—every stitch—such suits as fifteen dollars and sixteen dollars usually buys. Usually you get better goods than you expect at our specials—it's so this time.

FUR OVERCOATS have never been sold by us. The urgent calls from our customers for them have prompted us to add a complete assortment—open today—at such prices as only the Nebraska gives.
