Republican post-masters throughout the country are already beginning to show ex-traine nervousness. Two of them have taken their fives. Others are inquiring whether it is provable that they will be per-mitted to serve out their terms. It is true that Mr. Cleveland, when in the white house pelore, advocated the policy of permitting postmasters to serve out their terms; but it s also true that hundreds and thousands. then were removed upon trivial charges. It was then that the term "offensive partian whit" was nvented. Only a few federal so-ders with excellent multiary and mul-racerds were permitted to serve out their
