MANUFACTURERS DOING GREAT BUSINESS

oduction of Finished Products Greater Than During Any Previous Year-Reports from Cities-Clearing House Statements - wall Street for a Week,

NEW YORK, Nov. 18. -R. G. Don & Co.'s Weekly Review of Trade: No important change appears in the condition of business, the distribution of products continues enormous, production by manufacturers is Preater on the whole than in any previous year and while some hesitation is seen about ontering into new accounts the general tone of business and industries is remarkably bealthy. Trusing in cotton has been much the largest ever known in any week, but stock dealings have been but moderate.

At Boston business continues large, collections good, money easy. In general the situation is unchanged, excepting that wool is more quiet. The shoe trade is in good shape and lumber active.

At Philadelphia the open weather affects trade in heavy dry goods. Wool is very quiet, Shoes are steady. Iron is in good demand. Money is a little tighter, much being placed at 6 per cent. No material change is seen at Baltimore.

At Pittsburg the demand for pig iron is good, and finished products are moving freely. Plate glass is very dull, but other glass trade unchanged. A strike in the harness manufactory at

Cincinnati during the busy season disturbs In most lines business at Cleveland is good Some large orders for pig have been countermanded. There is a strong demand for

Manufacturers continue busy et Indianapolis and the jobbing trade is good.

Business is prosperous in all lines at De-Chicago reports good wholesale trade and

collections. Receipts of butter show a large increase, but a decrease is seen in oats and wool, dressed boof, hides, flour and rye. Money is in strong demand at 6 per cent. Trade continues strong at St. Louis with

collections prompt.
Milwaukee roports a larger trade with good demand for money. Jobbers at St. Paul report backward col-

At Kansas City cattle receipts are large, but grain receipts light. Money in better demand and business fairly active. Denver reports very ratisfactory trade. At Louisville trade is about average, but dull in Lattle Rock, with a small cotton

At Nasnville business is improving. Sales of cotton amounted to 2,290,000 bales, with an advance of three-eighths of a cent. In wheat and corn advances of three-eighths of a cent were made, but oats are one-fourth of a cent lower. A rise of nearly 1 cent occurred in coffee.

Except for cotton, speculative markets have been comparatively quil. In the great Industries little change is seen. Shipments of boots and shoes from the east continue to largely exceed those of inst year. Cattle receipts at Chicago are falling be-hind. Colliers are now only working half time. In pig iron some hesitation of buvers is seen, with cancellation or postponement of orders, but the situation is considered very healthy. The bar mills are said to be near the end of their orders. A sale of steel

rails at the fixed prices is reported. October exports of principal products were \$15,095,450 smaller than for last year and in two weeks of November the decrease has been \$2,000,000. This fact, with a large in-crease in imports, has caused an advance of foreign exchange to \$4.77% and with money dearer at London and cheaper here there is thought to be some prospect of gold exports.

The business failures occurring throughout the country during the past seven days dumber 240, as compared with totals of 210 last week. For the corresponding week of last year, the figures were 285.

LAST WEEK'S CLEARINGS.

Comparative Statement of Business Done by the Jobbing Centers of the Country. NEW YORK, Nov. 18. - The following table compiled by Bradstreet's gives the clearinghouse returns for the week ending November 17, 1892, and the percentages of increase or decrease as compared with the corresponding week last venr:

WALL STREET FOR A WEEK.

Bradstreet's Financial Review Details the New York, Nov. 18.—Bradstreet's financlat review for this week says: Speculation has continued to drift along in an indifferent fashion, the professional traders having the market pretty much in their own hands, There has been an apparent decrease on the part of heavy interests to take any decided interest, and the proceedings of the lightweight operators have, as usual, not been of a character to either impart activity to the market, or to give any decided character to the usual movement of prices. In the absence of cutside interests the public is being entirely absent from Wall street. The leading factors have been the creation of short interests in various interests, and the subsequent and usually speedy covering of just contracts. To the latter process the

DUN'S REVIEW OF THE WEEK

market owes whatever strength or support it has exhibited. It is true that London has shown more readiness to buy our stocks, the purchase for foreign account naving on several occasions been large, but the absence of any response or encouragement from this side seems to have a chilling effect on every European entinusiast. The most prominent feature of the situation has been large. the market. Decreased fund, are more apparent and already create symptoms of easier interest rates. On the other hand the slack supply of cotton and commercial drafts on Europe results in an abnormal bardening of exchange, the situation being aggravated by the paying off of large sterling leans which matered this week. Increased pressure of this kind resulted late in the week in increased firmness of ex-chause, the movement naturally causing apprenension of gold shipment.

MELANCHOLY REFLECTIONS.

A Carbetor Puts His Think Tank to Work

on the Recent Landstide.
CMARIA, Nov. 17 .- To the Editor of The But: Over a week ago the democrats held an election. Of course this was not in keeping with the program, but was brought about by an unfair advantage in the securing of more votes than we could possibly muster. Such a proceeding should not be countenanced. It is the strong domineering over the weak.

is it not might versus right? Whether on admit it or not, I shall continue to so aver for the reason that might rhymes with

This aforesaid high-handed measure does not appear to have discomfited the Jeffo-Jacksonian combination in the least; Indeed ts bosom has heaved and swelled-a la peacock—with a joy that is cold, relentless and hard heartee. This is a profound illustra-tion of the intensity of perversity. This is indeed strong language, but we re-publicans feel justified in going to any length

under the circumstances; not that we are sore over the election-of course not-but we think that the democrats should observe the common amenities of life. I might give several scriptural quotations in support of my position, but I barely suspect that the members or attaches of that perverse political unit would not have

time to fully consider my biblical diversion between "blowouts," Right nere let me state that I have satisfactorily proven that democratic lungs are made of tin. Thousands of them were on the street the other night each of whom ad his lungs hanging out of his bouth. The lungs were long and nar-ow, but quite robust—somewhat stiffened, owing perhaps to exposure to the damp night air, and emitted sounds that were at once original and unique. These grated harshly on mine ear. If these sounds were blended ("blended" is too smooth a word to be used in this connection), forming one composite sound, it would closely resemble the conver-sational tone of a Protozoan Amphibian. So

far as I am able to judge the democratic lung is reversible. This may be the solution of the pseudo-phenomenon. The republicans of Omaha would cor-tainly be excusable if they should consure the P. P. U. for its extreme exuberance, inasmuch as it did not capture everything-certainly not. New Hampshire spoke in no ncertain sound; and right bere in our own municipal bailtwick we elected Chris Specht,
There is a geotleman occupying apartments with me who was born under the
careful supervision of John Bull. At a
somewhat later date he saw the error of his ways and sought the protection and guidance of Uncle Sam and is now a voter. He has until this last election ridden in the republican band wagon, but in an unguarded moment voted for Mr. Cleveland. Thereby

nangs a tale. hangs a tale.

About two months ago he sent an order to Queen Victoria for a suit of ciothes, for which he paid \$20. In due time it sought admittance to the realm through the New York custom house and succeeded by jumping over a \$25 impailing at

ing over a \$25 impediment.
This was bad. It finally reached him here. Great horrors! It didn't fit. This was too much and he shook the republican dust from his pedal extremities. Is it not possible that the real milk in our political cocounut may be found right here!

BACHELORS' QUARTERS. ITS WORK ENDED.

Head Camp of Modern Woodmen Counts Its Pebbies and Adjourns. The head camp of the Modern Woodmen of America concluded its blennial session at Exposition hall yesterday. The day was occhanges in the fundamental law, most of

which were of minor importance. The time for holding the next head camp, which will convene at Madison, Wis., was fixed as June, 1895. The time was exended on account of the fact that the logis ature would be in session there in Novemper and it was thought that a summer visit would be more satisfactory.

The state associations will meet to select

delogates December 27, 1894, as previously avranged. The law was also changed so as to provide for the payment of the expenses of the state associations by the head camp.

The newly elected officers were installed by Deputy Head Consul Faulkner of Lingles, No. 2018, No. 2018. coln, Neb., and their salaries were fixed as follows: Head consul, \$2,000; head clerk, \$2,500; head banker, \$600. The members of the board of directors and of the auditing committee will receive \$5 per day each and expenses while occupied by the business of

Resolutions were passed expressing the satisfaction of the delegates with ther re-ception and entertainment at Omaha and at the hands of their Nebraska breturen. Then with mutual good wishes the camp was de-clared adjourned and the delegates separated to meet again two years hence.

BANK OF INLAND CLOSED

Officers of the Concern Said to Have Been Inexperienced.

MUCH BAD PAPER HELD BY THE BANK

By Judicious Management the Depositors Are Not Expected to Lose Anything and Something May Be Saved for the Stockholders.

LINCOLN, Neb., Nov. 18 .- | Special to THE BEE,]-The Bank of Inland was closed today by order of the supreme court, upon a petition filed by the attorney general last evening. The Bank of Intant was organized last summer and commenced business on Soptember 1. Its officers and directors were principally farmers and small merchants and ione of them had any provious experience in the banking business. The president was G. W. Phillips, who also managed the elevator and lumber yard at Inland. He moved into the town from a farm about a year ago. The vice president was B. J. Stembert, a stient partner in the institution. The cashter, S. W. Stevenson, had nad no experience in banking, and the books show his lack of knowledge of the principles of the busine s

The last examination of the affairs of the bank was made on the 7th inst. by Bank Examiner Weils. His report showed that the bank had discounted notes to the amount the bank had discounted notes to the amount of \$12.879.01, of which amount he reported \$2,299.01 to be good and collectable, while the balance is very goubtful. The bank held at that time deposits to the amount of \$4,776.65. It also had bills receivable amounting to nearly \$1,000 more, so that with judicious management upon the part of the receiver the depositors will not lose anything and something may be saved for the thing and something may be saved for the stockholders themselves. George W. Good-ell, also receiver for the banking house of Kioman & Arnold and the Bank of Anseimo, went to Inland this morning to take charge of the bank until a receiver could be ap-

Oil Inspection for October.

pointed

The operations of the state oil inspection partment for the month of October were department for the month of October were tabulated for the first time today. The respect shows that the following number of barrels were inspected in the several districts; First District—Accepted, 1,044; rejected, 687; total, 1,731; receipts, \$173.10. Second District—Accepted, 4,675; rejected, 2,002; total, 6,677; receipts, \$057.70. Third District—Accepted, 1,064; rejected, 1,366; total, 2,919; receipts, \$991. Fourth District—Accepted, 3,381; rejected.

Fourth District-Accepted, 333; rejected, Fourth District—Accepted, 550, Follower, 52; total, 535; receipts, \$63.50, Fifth District—Accepted, 552; rejected, 61; total, 843; receipts, \$84.30. Recapitulation—Total accepted, 8,238, total ejected, 4,558; total inspected, 12,706; total receipts, \$1,279.60.

Grand Jury Making Progress. Although the sessions of the grand jury Although the sessions of the grand jury now engaged in investigating the asylum frauds are secret, it is known that they are bard at work on the evidence in the case. The members of the State Board of Public Lands and Buildings have been on the stand, and the vouchers for the expenses of the institution for several years back have been examined. Rewick has not yet been examined, but the public is aiready tolerably well acquainted with his testimony. It is quietly whispered that several new names are to be dragged into prominence in connection with dragged into prominence in connection with the frauds practiced upon the state. The peculiar methods by which the state is aipeculiar methods by which the state is alleged to have been robbed in the purchase of coal for several years back is likely to be fully ventilated, and the public may prepare itself for a surprise of sensational dimensions. itself for a surprise of sensational dimen sions. Nothing has leased from the jury room, but it is certain that the members o that body are by this time in full possession of the facts concerning the coal contracts.

Wrote Obscene Letters. David Parker, a colored man aged 41, was arrested at his home at 524 South Eleventh street this morning on the charge of sending obscene letters through the mails. The com-plaint was made by United States District Attorney Baker of Omaha on evidence furnished him by Chief of Police Otto of thi-city. The letters complained of were writ to a colored girl of Omana an about as dirty as human depravity could suggest. The man asserted that he had been carrying on a similar correspondence with the girl for some time and that her letters to him were equally obscupe. Word reached this city today that the girl in question, Amy Gibson, has been arrested there. The Gib-son woman formerly lived with Parker as his wife, but deserted him some time since for another admirer.

President Cable in Town. President Cable in Town.

President Cable and a party of Rock Island officials spent the greater part of the day in this city. The party was made up of Benjamin Brewster, first vice president; W. I. Allen, assistant reneral manager; C. Duniap, general superintendent, and W. K. McFarland, superintendent of construction. The time was spent in looking over the various improvements now under way in this city. They spent four hours in experience. city. They spent four hours in examining the Antelope valley, but gave no nint as to their purpose. It is believed by those who claim to be on the inside of railroad circles that the visit is intimately connected with the project to make the Antelope valley the gateway through which the project to make the Antelope valley the

gateway, through which three or four first-class roads will enter the city. Bert Chaney Still Missing.

The people of Lincoln have about settled down to the conviction that Burt Chaney, the missing clerk from the office of the district clerk, has either left the city for good or that he has met with foul play. He went to Omaha last Monday afternoon, intending to return the next day. On Tuessay, however, he telephoned that he would stay another day. Since that time nothing has been heard of him. His wife states that he was Bert Chancy Still Missing.

other day. Since that time nothing has been heard of him. His wife states that he was not financially embarrassed and that she knew of no reason why he should leave the city. A letter was received from his brother today from Omaha, stating that Bert had left that city Tuesday at 10:10 in the forenoon, having bought a ticket for Lincoln. Lincoln in Brief.

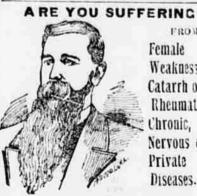

The Board of Health has six cases of scar-let fever and seven of diphtheria under quarantine. It has finally been decided to hold the Eran banquet at the lictel Lincoln next Monday evening. A number of dis-tinguished guests from Omaha are expected.

action of AYER'S Sarsaparilla, when

taken for diseases originating in impure blood; but, white this assertion is true of AYER'S Sarsaparills, as thousands can attest, it cannot be truthfully applied to other preparations, which un; rincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equaled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

Sarsaparilla

the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."-H. L. Jarmann, 33 William st., New York City.

27% Difference The "Royal" the Strongest and

· Whether any other baking powder is equal to "Royal," let the official reports decide. When the different powders were purchased on the open market and examined by Prof. Chandler, of the New-York Board of Health, the result showed that Royal Baking Powder contained twenty-seven

Purest Baking Powder.

per cent. greater strength than any other brand. When compared in money value, this difference would be as follows:

If one pound of Royal Balling Powder sells for 50 cents, One pound of no other powder is worth over

36 cents. If another baking powder is forced upon you by the grocer in place of the Royal, see that you are charged the correspondingly lower price.
