Probabilities of Deliveries Being Slow Whirled Prices Up.

EARLY PRICES OF WHEAT WERE DOWN

Later the Demand Became Brisk and There Was a Steady Advance as Reports of Snow and Steet Continued to Come In.

CRICAGO, Ill., Nov. 25.—The snow and sleet throughout the west whirled prices up today. particularly for grain. Wheat advanced ic. from he to le, and outs half a cent. Provisions opened easier, but closed very firm at some advance.

While the early sales of wheat were close to the last prices of Wednesday, the demand soon became brisk and there was a steady advance. The market got most of its strength from the liberal clearances which were reported from New York-over 500, 00 but for Wednesday-and reports of storms of snow and seet in the northwest, which were expected to cut off deliveries there. Late cables were also a shade firmer and good buying orders were on the market for New York oper tions. The local crowd had apparently sold short on the decided weakness ruled on Wednesday, and on the first display of strength made vigorous efforts to cover. Mitchell, it was allowed, covered fully 250,00 bu,, and others followed in the same line Oudaby was a particularly liberal buyer. Toward the closed the market easel off on free realizing sales. The opening was about from he to he higher than the closing figures of Wednesday, and prices advanced ic, receded from he to he, and closed steady.

As wheat developed strength corn kept in close sympathy and improved. The receipts were extremely light-only 198 cars—and shorts were quick to take alarm. Cudally, Pardrice, Bacon, Counselman & Day, Wright, Bartlett-Fragier and Schwartz—Duppee were buyers. Initial trades were at about Weinesday's closing prees and the market sold up from he to le, when, on realizing the price, worked baca from he to he; changed some, ruled firmer and closed at near the top prices for the day.

In oats there was a better trade and a better feeling. The market opened steady to be better. May weakened he but then advanced he and closed steady at almost top prices.

The provision market was full and featureless all forenoon, but with such bullishness in wheat and corn it did not require the buying of great-quantities to induce the market to come around again in favor of better prices. The lowest prices of the day were made at the opening. January pork started 1245 off since Wednesday, recovered at a loss and mide besides a gain of the innuary part depend at a As wheat developed strength corn kept in

opening. January pork started 12½0 off since Wednesday, recovered at a loss and mide besides a gain of 7½c. January lard opened at a decline of from 5c to 7½c after which it advanced until 5c higher than it closed on Wednesday. Ribs from an early loss of 5c, gained in the end 5c over Wednesday's closing price. There was a good buying of January lard, said to be an foreign dismant.

There was a good buying of January lard, said to be on foreign demand.

Lake navigation is fast drawing to a close and vesselmen are indifferent about senaing out boats. There was a little available room effered and 2% was asked and 2c bid for corn to Buffalo.

Estimated receipts for tomorrow: Wheat, 250 cars; corn, 223 cars, oats, 275 cars; hogs, 20, 400 head.

STOCKS AND BONDS.

Rathroad Shares Weak with Small Transac-NEW YORK, Nov. 25 -The stock market was weak for the railways from start to finish. In the early trading the transactions were quite moderate, but as the afternoon drew to a close the bears made a vigorous at-tack all along the line, and the dealings in leading shares were attended with considerable animation. There was little in the news of the day to affect prices particularly news of the day to affect prices particularly one way or the other outside of the fact that the \$3.0.00 gold will be shipped to Europe tomorrow. Northern Pacific preferred was weakened by the decrease in earnings for the third week of November, and Pacific Mail by statements that the Panama Railroad company will shortly have its own line of steamers. The decline in prices was equal to 2 per cent in Unicaco & Eastern Lilnois, common, 15 in Reading, 15 in Pacific Mail, St. Paul and New England, and from 5 to 1 per cent in the other railways. The industrial group was comparatively firm, except for United States Rubber, common, which sold down 25, to 40. American Sugar advanced on large purchases from 1225, to 120-2 and Distilling. The net losses in Chicago Gas and Distilling.

large purchases from 139% to 110% and reacted to 109%.

The net losses in Chicago Gas and Distilling and Cattlefeeding were merely fractional. Consolidated Gas rose 2% to 12% but later receded to 126 when it becams known that the quarterly dividend had not been raised. The directors declared the usual 2% per cent. The market closed weak for the railways and steady at some reaction for the industrials.

Railway bonds were netive. The Southwestern issues were easier. St. Louis seconds sold at 72% a rise of 7% points from the last previously reported sale.

London Financial Review. (Copyrighted 1892 by James Gordon Bennett.) LONDON, Nov. 23.—[New York Herald Ca'le Special to THE BEE.]—Business was quiet on

the Stock exchange while the markets did not present many features of interest. Consols improved it il. Foreign government secutities close somewhat irregular. Home railways close du i, but attention has been centered in Brighton deferred which was free y offered and leaves off at a decline of 1% per cent owing to the decreased daily traffic statement. Changes established in others are few sind quite unimportant. Americans were more or less dull all day, due to fears of a gold scare sprinzing up in New Yors. Just at the extreme close the general tone hardened a little, but prices have not railied, so that most descriptions close at a decline of 1 to 3 per cent. Dealings, however, have been greatly restricted. Can idland are stronger than they have been, especially Canadian Pacific, which is 5 per cent higher Grand Trunk issues have all but recovered the early decline. Money was quiet. Snort loans were obtained at 14 to 13 per cent. In the discount market not many bills have been bringht forward. Those at two and three months were quoted at 24 to 24 per cent.

Hoos—The run of hogs was not overly large, but they were late in arriving. On the early market with 35 loads in sight prices ruled about a nickel lower than Thursday, but on the late market with about 70 loads reported in, prices were from 5c to 10c, and mostly about the lower. Advices from Chicago were very bearish, and with no shipping demand to speak of, the market being almost entirely in the hands of local buyers, naturally slumped. Good to choice butcher weight and heavy hogs sold from \$5.65 to \$5.75 with fair to good light and mixed hogs at from \$5.55 to \$5.05. The market grew considerably weaker toward the close and some dozen or more loads were left unsold. Sales were largely at from \$1.60 to WYOMING CATTLE.

Chicago, Ill., Nov. 25.—[Special Telegram to The Reel.]—For a Friday the supply of cattle—19,000 bead—was unprecelentedly large, but the total for the week is some 11,520 head less than for the same time last week. Poor and common stock was rather too plentiful and holders were bothered to unload at ful; rates, but eattle that were good enough to send east on the hoof were strong at the advance gained carlier in the week. Few prime steers were to be seen. Cows. bulls, common half fatted steers and range cattle predominated. Of the last named alone there were 7,000 head and the bulk of them were fit for canning purposes only. Those who were seeking prime eattle were unable to complete their orders and had to "fill out" with something a little lower down. The range of quotations was from \$1.00 to \$3.50. There was very little trading above \$5. and not a large amount below \$5.75. Cows and bulls sold on a basis of from \$1.00 to \$3.50. There was very little trading above \$5. and not a large amount below \$5.75. Cows and bulls sold on a basis of from \$1.00 to \$3.50. The way hogs were dumped into the yards today was a surprise to everybody. The number, at first estimated at 49.000, far exceeded expectations, but later arrivals swelled that total by at least 7,000. As there were about 15.000 state hors it will be seen there was a supply of about \$2.00. That prices were lower, therefore, goes without saying. They started in at a decline of 10c, but as the estimates of the receipts were gradually depressed and by 10 o clock the market was off from 15c to 20c. At the close it was difficult to draw out a bid of more than \$5.85 for the choicest although the decline in that grade was less than in the poorer kinds. The greater part of the work was done at from \$5.40 to \$5.00 for medium and heavy weights. As high as from \$5.85 to \$5.90 was pind early for a few assorted heavy and medium, and there was the usual "scalping" in culls and piles at from \$5.85 to \$5.90. Thousands Financial Notes. LIVE STOCK MARKETS. Light Supply and Lively Demand for Cattle

against 18.411 cattle, 2),214 hogs and 1,884 sheep

The cattle market in general was rather active and prices in the main full strong. Offerings were rather light and made up largely of half fat and short fed native cattle. There were very few westerns on sale and what few there were were nothing extra. One bunch of choice 1,380-1b, corofed steers brought \$5.20, but there was scarcely anything else here worth within a dollar a hundred of them. The general run of short fed and partly fatted steers sold at from \$1.35 to \$4.30, with very common stuff as low as \$4.10. The westerns sold largely at \$4.00 to \$1.40, with quite a string of light thin Texans at \$2.15. It was an active market and a wood clearance was effected.

There were in the neighborhood of thirty-five loads of cows on sale and the trade was brisk, with prices as a role rather stronger. Poor to very good cows and heifers sold at an extreme range of from \$1.25 to \$2.60.50, the bulk of the decent stuff seiling at from \$1.81 to \$2.85. There was a very moderate trade in bulls, Offerings were rather light and made up
