AROSE OVER A QUESTION OF SIDETRACKS

Reported Attempt of the Union Pacific to Block the Interstate Bridge Work-Peaceable Settlement of the Trouble-Railroad Notes.

For a time yesterday it looked as if the contractor for the temporary work of the Omaha Bridge and Terminal company's bridge would have a fight on his hands and the working forces on the bridge were given to understand that resistance to the encroachment of the Union Pacific would be expected of them.

The Milwaukee Bridge company, which has the contract for building the taise work on the East Omaha bridge, in order to materially lessen the work of transporting pites and timber for the bridge, asked permission of the Union Pacific to build a spur from its tracks to the bridge

After some consultation permission was given the contractor to go ahead with the building of the track and material was furnished by the East Omaha company for that purpose.

Yesterday morning a force of fifteen men, employed by the Union Pacific, came on the scene and commenced building the spur against the wishes of Engineer Ross of the Terminal company. President Potter of the Bridge and Terminal company was notified and he at once gave orders to resist the Union Pacific's attempt to put in the spur with its own material, it having been understood that the East Omana company would supply the material to the Milwaukee Bridge people

to build the switch.

This action of Mr. Potter's caused all sorts of rumors to be heard on the streets regarding the encounter and it was asserted that two or three people had been killed in the efforts of the Union Pardie to accomplish it designs.

Pacific to accomplish its designs.

Mr. Potter later went out to the bridge site and found that there was a misunderstanding as to what the Union Pacific had intended by its effort to build the switch. the object being only to protect its right of way of 100 feet, which, it is claimed by the latter road, passed with the right to enter East Omaha. And thus ended a tempest in

Scoysmith & Co., who have the contract for the substructure, are a month behind their contract, due to their inability to get the steel plates and caisson for the pivotal the steel plates and caisson for the pivotal pier from the Carnegis mill at Homestead, on account of the strike. They have made a contract with the Homestead mill to have the caisson ready and set up on the ground by December 1 under a forfeiture of \$100 per day, and it now is the prevailing opinion that the material will be on hand by that time. Sooysmith & Co. must be out of the way by February 1 so, that the superstrucway by February 1 so that the superstrucpeople may complete their work by May 1, that trains may be running by the 1st of June.

It is the intention of the company to erect

a motor line and one track on the temporary structure immediately upon the completion of the bridge, the permanent work going steadily on in the meantime. Mr. Potter when seen this morning said

that everything was looking faverable for the enterprise which was building without the aid of a single railroad corporation.

TO SETTLE THE RATE TROUBLES. Suggestions Made at the Meeting of the

Western Passenger Association. CHICAGO, Ill., Nov 28.-Action was taken today by the roads in the Western Passenger association that is calculated to hasten a settlement of the rate troubles in the territory east and southeast of Chicago. A meeting was held to con-

sider the situation as affected by the scalper tickets sold from points in Ohio to the lower Missouri river points, based on cut rates to Chicago and St. Louis and which with extended limits are beginning to flood the Chicago and St. Louis markets to the detriment of sales of the local lines. The Chicago & Alton was present and participated in the discussion. Some one suggested that the eastern roads be notified that all lines leading westward from Chi-cago, Peorla, Bloomington and St. Louis would require their full proportions of the standard tariff rates on all tickets soid through these gateways to Missouri river points, or to St. Paul and beyond, and will not participate in the war rates growing out of differences between eastern roads.

Agent Charlton's Suggestion. General Passenger Agent Charlton of the Alton was in favor of going further than this. His company he said, was willing that Chairman Caldwell shall be authorized to notify all eastern connections that might involved in local differences ing rate wars in their territory that during the term of such dis-turbances, they should suspend ticket sales over all western roads from Chicago, St Louis and Bloomington, and that such tickets must remain off sale until the rates should be restored to their normal condition and agreed standard limits.

No little surprise was created by Mr. Charlton's proposition, but his views were concurred in by all present. It was decided, however, that it would hardly be generous to serve a notice of that kind on their competitors without previous warning. A resolution was therefore adopted instructing the chairman to advise all lines in Ohio and other states affected by the Ohio river rate war that the lines west of Chicago, St. Louis, Bloomington and Peoria will require full proportions of regular standard rates on through business, and should this action fail to secure them immediate protection he would request the withdrawal from sate of all tickets reading over their lines until such time as the present troubles are

Monterey & Mexican Gulf Matters. NEW ORLEANS, La., Nov. 28 .- The Times-Democrat's Monterey, Mex., special says: The trouble over the management of Monterey & Mexican Gulf railis not at an end. Hon. M. DeGallade, who represents a part interest of the concession granted by the Mexican gov-ernment to General Geronimo Trevillo and de la Garza, for the railroad, announces that he has heard agencies are being estab-lished in the United States and Europe to place on sale the franchises of the orig-inal owners of the roads, to organize a new company and to take over the rights and privileges of the construction commony known as the Monterey and Mexican Gulf ecmpany. He states further that as there are dicial matters still pending in the courts at lonterey and that an agreement or transaction relating to the road will need his ap-proval in order to be valid, and if his rights are not respected in the matter he will appeal to the proper tribunal.

Itailway Notes and Personals. Ben F. Barrows of the Union Pacific has gone to Iowa for a week.

Porter P. Murray of the Michigan Central spent Sunday in the city. J. M. Brown of the Union Pacific went to Chicago on Saturday to join Mr. Lomax.

J. B. Caldwell of the general treight de-partment of the Rio Grande Western rail-way, with headquarters at Satt Luke City, who together with Mrs. Caldwell has been visiting relatives and friends to Chicago and Onana, returned home yesterday afternoon. Mrs. Caldwell will remain in the city until

On December 1 the Union Pacific will dispatch all its trains between Denver and Pueblo from Denver. This has has hereto-fore teen handled from Trinidad and it is thought that the change will very much im-prove the service. The Union Pacific lines from Pueble south will be handled from Trinidad as before.

Trinidad as before.

The railroad men of Omaha tender a reception to Mr. J. P. Leonard, trainmaster of the New York Central & Hudson River railroad at Aibany, and Mr. G. A. Warburton, secretary of the Grand Central railroad department Young Men's Christian association, in the parlors of the Young Men's Christian association in the parlors of the Young Men's Christian association Tuesday evening, November 19.

There is one rallroad in the United States which operates its entire length under the

block system—the Chicago, Milwankee & St. Paul, which has 6,100 miles of main line blocked. The train dispatchers have positive instructions to see that no train, pass-enger or freight, leaves a telegraph office until the preceding train has reached the next telegraph station.

Cook's Extra Dry Imperial Champagne is naturally fermented; there is nothing in it but the juice of grapes. Try it.

HAYDEN BROS. Special for Tomorrow.

entire seven floors, practically placing under one reof the complete stock of twenty-eight stores; you may wander from counter to counter and floor to floor; you will not be urged to buy; everywhere you will receive courteous treatment; rich and poor are alike welcome in our establishment. At every turn you will find sensible and suitable gifts displayed. Our store has never been stocked or greater preparations made for the fast approaching Christ-

Tomorrow evening we will offer suggestions of suitable, practical and useful presentation gifts THE MORSE DRY GOODS CO.

At the Customs Office.

The democrat who has the good luck to step into Collector Alexander's shoes in the Omaha customs office will find that the principles of the party to which he belongs, if rigidly carried out in congress, will "cut the stuffin' " out of his income as collector of the Omaha port of entry. The three principal articles upon which revenue is collected at the Omaha office are tin, crockery and woolen goods. If the democratic part; possesses the courage of its alleged convictions the duty on these articles will be cut so that the receipts of the office will take a tremendous tumble when the reduction in duty begins to take effect.

Omaha wholesalers are beginning to astonish the natives by their immense shipments of goods from abroad, It is only a few months since Paxton & Gallsgher made the largest importation of tea direct from Japan that was ever made by a firm between New York and San Francisco, one day last McCord, Brady & Co. made largest importation of raisins ever made from any loreign port to an interior point in this country, and now comes the Hammond Packing company with a shipment of twenty carloads of extra fine salt direct from Liverpool. This is by far the greatest single importation of sait ever made by an Omaha firm and one of the largest single importations made in years west of New York.

It is pretty hard for people who live in a farming community where \$25 an acre is considered a big profit to be told that farmers in North Galveston are making from \$225 to \$1,000 an acre each year in raising pears, plums, strawberries and all small fruits and vegetables. They do not have to work half as hard as the northern farmer, either. The North Gaiveston Association, through their local agent, Franklin F. Williams, Omaha, is making remarkable offers with their property, both for settlement and investment purposes. Drop a line to Mr. Williams, or, better still, call upon him and get full particulars about this property.

George Fanss' Trial.

Yesterday was the day upon which George Fauss was to have been placed on trial in the district court, charged with the murder of his mistress, Laura Day. When the case

was cailed, the prisoner was not ready.
It was announced that he was seriously all and a certificate from the county physician confirmed the announcement. Fauss has a throat affliction that is causing him some trouble, and that in connection with the vorry over the outcome of the trial landed him on his back. The case will come up next week and a stubborn light is promised, as Ward & Hopkins, the restauranteurs, have come to the rescue of the young man and have put up the money to assist in the defence of the young criminal.

BUBLINGTON, Ia. April, 4,1891.
Dr. J. B. Moore—Dear Sir: Have been troubled with catarrn in my head and face for three years—at times was unable to hear had a constant ringing in my ears and for two years was almost deaf. Have tried sev-eral so-called remedies and been treated by regular physicians and noted specialists, but failed to get any relief. I tried one bottle of Moore's Tree of Life Catarrh Cure. It gave immediate relief and effected a permanent immediate relief and effected a permanent cure. I heartly recommend it to all suffer-ers of this disease and will cheerfully give any further information on being addressed at my home, No. 22 Sweeney ave., Burlingon, Ia. For sale by all druggists.

R. L. Rain. For sale by all druggists.

Fined for Spoon Stealing. William Lawson took as souvenirs of his visit to the Balduff confectionery establishment four silver spoons. Judge Berka assessed the articles at regular holiday prices and Mr. Lawson will contribute to the municipal coffers \$30 and costs.

Every man, woman and child who has once tried that specific, Dr. Buil's Cough Syrup, cannot say enough in it i praise.

FOR A NEW BILL OF RIGHTS PHYSICIANS FIRST

Charter Amendments at Work.

Several Sections Taken Up for Discussion and Revision Last Night-No Very

Startling Changes Proposed So

Far-The Session. The city charter amendment committee

met at the city hall last night and began in earnest its laborious task. Mr. John D. Howe wanted to decline, but finally consented to serve. A letter was read from G. M. Hitchcock, asking that he be excused from service on the committee, and his request was granted, and Major D. H. Wheel er elected in his stead.

The committee organized by electing Councilman Steel chairman and D. H. Wheeler secretary. A motion was passed requesting members of the legislature to be present at the meetings and the city officials were invited to send in suggestions.

There was some difference of opinion as to the most convenient time for holding the sessions of the committee. A motion that the time be set at from 3 to 5 p. m. daily was opposed by the legal members of the committee, as they could not get out of court at 3 o'clock. It was finally decided to meet on Monday, Wednesday and Friday evenings of each week at hulf past 7.

Started on the First Section. The secretary read the first two sections of the charter and they served as a text for a lengthy discussion. The first section provides that all cities now having a population of 80,000 shall be cities of the metropolitan class, and all hereafter attaining that popuinttou shall also be entitled to that dis-tinction. The second section is an apparent repetition as it provides that any city which shall hereafter attain a population of 60,000 shall be declared cities of the metropolitan class upon the certificate of population by the mayor. The committee finally decided to recommend that the clause in the first section relating to "cities hereafter, attaining, etc." should be striken out and the second section amended to read 80,000 instead

of 60,000. Chairman Steel thought that the idea of having the boundaries of wards defined should be called in. He said that as it was now every councilman was working for his own ward and as a result some wards got paving and other improvements which they were not entitled to while others want begging. Mr. Wheeler contended that the system of electing councilmen from wards was the bestas it gave every part of the city a

representative in the council.
Mr. Wharton sided with Mr. Wheeler. If there were no wards a lot of politicians could got together and some one part of the city would own the entire council to the detriment of the other localities. The pres ent section relating to wards was finally allowed to stay.

About Filling Vacancies, Mr. Steel said that section 10 should be so amenged as to do away with the power of the

mayor and council to call a special election election was expensive and some other and cheaper way should be provided.

Mr. Howe moved that the clause relating to special elections be stricken out with

lew to leaving the power to fill vacancies in the hands of the mayor and council. Mr. Wharton thought that such a provison would be apt to result in lively differences between the mayor and council. After

some further discussion, Mr. Howe's motion Section 17, which provides for the creation f such new offices as may be deemed necessary by the mayor and council, called up Mr. Taylor, with a demand for some limitation in this respect. The section allowed the council full license to increase the city official extravagance as a means of reward-

ing political friends. Mr. Howeil maintained that contingencies some additional office without delay and there was no other way to provide for such

emerg ncles. Several other members declared that this power had resulted in adding much unnecessary expense to the city and increased taxa-

don. Mr. McLearle maintained that such declarations were in the main untrue and unjust. If any one knew of any man who had been given employment by the city when it was not necessary he wanted them to specify instances and not induige in broad statements which had no founda tion in fact.

No final action was taken on this section and a list of all the employes of the city will be submitted at the next meeting in order that the members may decide whether or not the council has abused its power. The committee aujourned to meet at 7:30 o'clock Wednesday evening.

Coughs and Colus. Those who are suffer ing from coughe, colds, sore throat, etc., should try Brown's Bronchial Troches, Sold only in boxes.

> Drs. Copeland & Shepard have for years been perfecting a system for treating catarrh and its kindred disorders, with the result that they have developed a form of treatment so far superior to any other known that it needs only to be contrasted with other systems by a personal test to show its great value and

They also treat with marked success all chronic discuses of men, women and chil-

This includes asthma, acites, or dropsy; aphasia, loss of voice; anorexia, or loss of appetite, often caused by catarrh of the stomach; all diseases of the lungs -tuberculosis, or consumption, in its early stages (curable cases), positively cured by the New Lung Remedy; infiltration of the lungs, causing tightness, short breathing, etc.; diseases of the liver, kidneys and spleen, diabetes melites or watery condition of the blood; acute Bright's disease; diseases of the bladder; heart disease, valvular and functional; mitral insufficiency, producing dropsy; shortness of breath and general debility; stomach trouble in all its forms (success in treating catarrh of the stomach is phenomenal; bowel complaints, chronic diarrhoea, catarrh of boweis, chronic constipation, etc.; rectal diseases scientifically treated—hemorrhoids, rectal disease, fistula, lapsus of the bowels, etc.; blood disorders, syphilis in its primary and secondary stages absolutely sured; scrofula and its effects, eczema, etc.; special attention to ulcers of long standing. Diseases of the eve and ear are treated

with the latest scientific methods and appliances. Diseases of women treated by physi-

cians who have made lifelong studies of this branch of work.

WHAT A BUSINESS MAN SAYS.

"I Am Better Than I Ever Was in My Life."

Mr. O. E. Comstock, of the firm of Comstock & Ford, merchants, Gallatin, Mo., came to Omaha for medical treatment by Drs. Copeland & Shepard. Speaking of his disease and cure Mr. Comstock says:

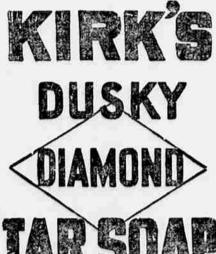

MIC O. E. COMSTOCK. "Catarrhal disease had affected me for many years My nose was entirely stopped up. I breathed wholly through my mouth, which was as a result, parched and dry. The usual symptoms of enterm gave me great discomfort and impaired my general health. resorted to various treatments but got very scant re lief. When Dr. Shepard examined me he found both nostrils filled with polypi, or mucus tumors, which he stated, often accompany catarrh. A clothespin of my nose could not have closed it lighter than it was. Dr. Shepard at ones entirely removed the tumors without pain and placed me upon treatment which used at home. I will say to you I am very much re-lieved and am beiter than I ever was in my life. My nose is open and clear and my catarrh gone. I cannot seak too high v of Drs. Copeland & Shepard and
