Trouble Expected in the South.

Sr. Josepa, Mo., Nov 29.-The committee

of the Order of Railway Telegraphers which

had been for two weeks working on a

schedule of wages for Chicago, Rock Island

& Pacific employes, completed its work and

left the city for Chicago to present the

schedule to the heads of the road. It

calls for a minimum of \$45 per month on

both main line and branches and for an in-

crease of from \$5 to \$15 per month for all

scale paid for day work.

Li case the request of the committee of telegraphers is not granted, arrangements

have been completed to order a strike over the entire Rock Island system. Organizers

for the Order of Railway Telegraphers have been at work on the Rock Island lines for the past six months, and it is claimed that

5 per cent of the operators now employed by he system are members of that organization.

Every branch of the Rock Island system was

represented at the meeting here, and the men were a unit in demanding that the

MINOR MENTION.

N Y. Plumbing Co. Council Eluffs Lumber Co., Coal. Mr. and Mrs. Kline of Keokuk are the guests of Superintendent Rothert at the deaf and dumb institute.

Permit to wed was yesterday granted to M. M. Trobough and Hattie A. Valastine, both of this county.

Six cars of cattle from Coin, fa., came in from the south last night via the Wabash, consigned to Chicago over the Rock Island. The case of Spooner vs. the city was still on trial in the district court yesterday, Judge Smith presiding. The hearing dragged, owing to the difficulty of getting witnesses into court when wanted.

A plat was yesterday filed for a new addition to the city, to be known as Broadway Pince. It is located on upper Broadway, corner of Euclid avenue, near Crittenden's Piace. The owners are C. T. Officer and A.

Pottawattamie tribe, No. 21, Improved Order of Rod Men, will meet this evening in regular council in their wigwam, corner of Broadway and Main street, at the eighth run, for work in the adoption degree and the election of officers for the ensuing term.

J. H. E. Clark and family left yesterday Topeka, Kan., where they will remain the greater part of the winter in the hope of benefiting Mr. Clark's health. It is probable that the severer part of the winter will be spent in Florida. In the meantime the business of the Carbon Coal company will be looked after by Mr. J. E. Mevers.

Mrs. Mary Merrill, aged 63 years, died vesterdey afternoon at her residence, 256 Vine street, from blood poisoning, after an illness of only four days. She has been a resident of the city a long time and was a member of the First Baptist church. She leaves a husband and eight grown children. The notice of the funeral will be made later. Sheriff Hazen is still on the watch for an attempted jail break. About to clock vester-day morning he heard a sawing sound and attempted to locate it, but failed. It seems that the prisoners have got possession of som.saws and are trying to get their work in on the siv. It will have to be very siv. There are but six prisoners in the jail now, but there are among them several desperate fellows who have bud experience.

Justice Hammer was yesterday busy lis-tening to the cases of Mrs. Mary Larsen and Mrs. Peterson for stealing corn from a field owned by James Paxton, and connected with the stock yards. The women were discovered with their aprons filled with corn, but they deciare that they were only gleaners who were picking up what the regular huskers had dropped or overlooked. The testi-mony was so mixed that the justice con-cluded to sleep over it for one night.

At a businers meeting of the First Congregational church on Monday night the official announcement was made that Rev. Mr. Sharp of Foxboro, Mass., had ceneiuded to withdraw his acceptance of the call to become its pastor. The reasons were stated rather fully in the form of correspondence, out amounted to chiefly a statement of the fact that the condition of his family matters was such that they could not at present undertake so great a coange and so long a move. The disappointment was great to the church, but preparations were made to sup ply the pulpit regularly until some other pas-tor can be secured.

Death of Mrs. Thickstun.

At 1:30 yesterday afternoon death came to the relief of a patient sufferer whose Christian fortitude has sustained her uncomplainingly through years of constant pain. At that hour Mrs. Thickston, wife of Rev. T. F. Thickstun, died. Death came swiftly and silently, and she vielded to his emprace without a struggle, passing away as quietly as a limid child vieles to sleep, with no more perturbation than the flitting of the vague dream images across the pillow of the half-asteep infant. She became unsconscious at 10 o'clock Monday night, and remained in that condition until the end. The physicians had led the friends to avandon hope, and all were prepared for the final scene, although hoped that it might be delayed a

There has seldom been a death in the city where a larger number have felt, and felt more keenly, the herevement than has been occasioned by this event. Mrs. Thickstun was one of the pioneers of the city, and dur-ing all the long years she has lived here there are few who have not felt the impress of her character, the influence of her Christian spirit and been benefited and elevated She was 64 years and 5 months old and has been a resident and constant worker here since July, 1868. Council Bluffs was a small ind straggling village at that time, with no Baptist and few other churches, and she went to work earnestly with her husband to establish a congregation of the church in which her husband was an ordained min-ister. Those first efforts resulted in the founding of the present First Baptist church. It was an onerous task and required years of bard and patient labor and constant sacrifice. In 1875 and 1878 she made two trips through the east soliciting aid for the little western church, and raised more than onehalf of all the money expended for the erec-tion of the present building. None of the older citizens who are familiar with the work will discredit the statement now that to this frail little woman more than to all others is the public indebted for the establishment of the church and the building of the present structure. That she did not do this work without fearful sacrifice is also true, for at that time she land the foundation of the pulmonary disease that has slowly developed until it reached a fatal termination yesterday, and in the presence of husband and children came rest, after more than five years of constant sufferior and believe. years of constant suffering and kelpless

Mrs. Tuickstun was born at Casadaga, Chantauqua county, N. Y., where she was educated and fitted for the work she fully secomplished. In the New York village she spent her girihood and there, on July 7, 1852, she was married to Rev. T. F. Thickstun. They came west, and for a time livet in Waverly, Ia. but came shortly after to Council Bluffs. Three children were born, all of whom are living, and all but one stood by the bedside and watched the life of the loved and honored mother quietly pass away. The Mrs. H. A. Ballinger and W. L. Thickstun of Council Bluffs. Mrs. DeKay was at her home in Atlantic and had been summoned. The funeral will take place tomorrow at 2 o'clock from the First Baptist church.

Two Young Men Raise Corn Together and Get Into Trouble.

FINE SRADING OF THE LAW ATTEMPTED

Peculiar Circumstances Surrounding the Arrest of W. B. Maxfield and W. D. Nichols-Erevented from Harvesting a Crop of Corn by Imprisonment.

Some fine hair splitting was done in the superior court yesterday. W. B. Maxfield and W. D. Nichols, two young men who were seeking to secure their liberty on a writ of habeas corpus. It seems that last spring the two went into partnership in the cornraising business. They jointly hired sixty acres in Lewis township and agreed to work it together, each to take half the crop. A few days ago Dr. Montgomery, who had a judgment against young Maxneld, had an execution Issued, and Constable Wesley levled on his share of the corn, which was still undivided and in the field. After the levy

Nichols concluded that he ought not to be deprived of his part of the corn, and so he proceeded to husk and take it. Maxifeld and three others were also at work busking and removing the corn when Constable White appeared on the scene and arrested the five for larceny, The three helpers were discharged, but Maxie'd and Nichols were held to answer to the grand lary. Maxfield claimed that he was simply working for Nichols, and that they were getting in Nichols' part of the crop, intending to leave one-half of the crop. in the fleid to await the result of the levy Nichols claimed that ne certainly had a right to take his own corn, while the other side claimed that all the corn was in the hands of the officer, and could not be taken except by theft.

They Need Attention.

The water works inspectors, gas inspectors, or rather the gentlemen who inspect the various meters, and all other inspectors who have occasion to go into the celiars of business and private houses tell the same story, and that story ought to be repeated to the Board of Health. It is to the effect that in many of the basements there are conditions that ought to be very favorable for the development of typhoid, diphtheria, cholera and other diseases that have their origin in unsanitary conditions. With the certainty of a visitation of cholera here next summer it would be well for the citizens to join with the city in a good sapitary condition.
