

THE SPECULATIVE MARKETS

Wheat Started at Unchanged Figures and Big Receipts.

December Deliveries Coming Today Made Many Attempts to Get Out of That Month—Corn Was in Fair Demand.

CHICAGO, Ill., Nov. 30.—Rumor has it that John Gushy and his following not only got a good deal of what today in the pit, but bought yesterday in addition to their direct purchases. As trading in pits and calls is illegal, confirmation of the latter item is not likely to come from the pit.

The wheat market opened at unchanged figures, but with big receipts in the northwest, wheat and lower domestic markets, with a decided pressure to sell December.

December's available supply showed an increase over the October figure, but it was not so great a factor, as it showed an increase by only 90,000 bu. in all the points outside of the official list.

FRUITS.—The market is steady at 23c for fresh stock. The receipts of apples are heavy, but the quality is not so good as last year.

GRAPE.—There are very few grapes left in the market except a few in the north.

ORANGES.—There are very few oranges left in the market except a few in the north.

PEACHES.—There are very few peaches left in the market except a few in the north.

APPLES.—There are very few apples left in the market except a few in the north.

PEARS.—There are very few pears left in the market except a few in the north.

PLUMS.—There are very few plums left in the market except a few in the north.

Lead each improved about a point. Moderate purchases for London account had a tendency to strengthen the market.

There was an air of quiet prevailing in the produce market. Fresh receipts were not great, but there was a moderate amount of offerings that did not move as freely as dealers like to see.

There was a moderate amount of offerings that did not move as freely as dealers like to see. The market was quiet and steady.
