A VETERAN OF THE WAR.

An Old Soldier and Well Known Citizen Confirms and Emphasizes a Former Complimentary Reference.

About one year ago the friends of Mr. D. Fluck were gratified by newspaper announcements of his final recovery from serious ill health due to catarrhal troubles covering a period of many years.

"While I know by sad experience the wasting effect of catarrh upon the system and how powerfully it undermines the health, I am just as certain that an entirely curable if the right treatment is used. My own case gives the best proof of this fact. My service in the civil war as a volunteer in the 42nd Indiana cavalry inspired my strength and induced the catarrhal disease.

"Twenty months I had been a very miserable man. My suffering was such that it is hard to describe. I had great trouble with my stomach. I was very weak, so that my food caused great pain and distress, and I could eat very little, and sleep very little. When I did eat my stomach would fill with gas, so much so that I thought I would burst.

"I consulted several physicians for relief, but got no better until Dr. Copeland and Shepard took my case. Under their treatment my condition improved rapidly and steadily. I am now better than I ever expected to be again. I eat well and have a good digestion. I sleep peacefully and feel as if I were well and am much stronger.

"These splendid results have stood the test of a year and I have no patient with people who say catarrh cannot be cured. I have had the return of any of my old symptoms and feel like praising Dr. Copeland and Shepard all the time, for their system is I am sure, the best in the world."

COMRADE D. FLUCK, 420 Indiana Infantry. The constant dripping of catarrhal matter from my nose and throat into my stomach made me feel sick, choked up my liver and bowels, and poisoned my whole system.

WEAK AND NERVOUS. My heart was very feeble and irregular. Several times every day I had attacks of palpitation that gave me much distress and alarm. At these times I felt as if I could not live much longer. I could not lie on my left side at all. In this position greatly distressed my heart. I had a feeling of oppression over the heart and pains through my chest and back. My sleep was also very much disturbed and broken.
