A Poor Prospect. General C. H. Van Wyck and wife came in this morning from Nebraska City and are stopping at the Paxton. The general touched briefly on the political situation, and said that he did not look for any great things at the hands of the legislature, as the body was very unfortunately made up so far as the enactment of good legislation was concerned, as neither party had a majority, and it would be difficult to hold any one of them responsible. He thought that it would encourage bartering and rescality, and declared that the prospects for any good at their hands were very slight, as it was only a thread that held anything in place. He doubted if people were any more honest now than they always have been, and said that the ringsters and corporations had always been able to buy whatever they wanted in the legislature. "Folks must learn one thing," he said, "and that is the word 'party' don't mean anything but rob the people. That is all that party means, and when they find it out there will be a chance to do something. If they had done it before Gould and Vanderbilt made their millions, we would have had things different now, but majority, and it would be difficult to hold we would have had things different now, but it looks as if it would take the coming of an other Jesus Christ to straighten things out, and I don't know as even God Almighty

"WHERE DIRT GATHERS, WASTE RULES."

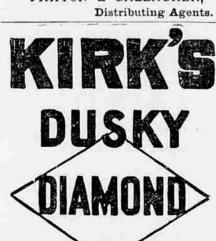

#### GREAT SAVING RESULTS FROM THE USE OF SAPOLIO

the summer of 1891 I was attacked in Minneapolis with rheumatism in my knee, which lasted me for four months in spite of every known remedy that I could use, including Russian and elec-tric baths, and the use of the waters at a famous Hot Spring. While in San Francisco I was advised by telegraph to use LONDONDERRY LITHIA WATER freely. I returned home with no apparent improvement, and began the use of the LONDON-DERRY LITHIA WATER, and, to my surprise, in a few weeks had en-tirely recovered and have never been troubled in the least since. I have no doubt that the primary cause was some derangement of the kidneys, and I cannot commend the waters too highly.' By O. F. PRESBREY, President "Public Opinion" Publishing Co.
