THE ANTI-OPTION DISCUSSION.

The most important contribution thus far made to the anti-option discussion either at the last or the present session of congress, is the speech of Senator George of Mississippi, which occupied parts of three days.

In concluding his speech, Senator George said that the producers of cotton, wheat and corn are entitled to some consideration at the hands of the American senate.

As between the millions of our people who are engaged in agriculture, contributing annually by their industry hundreds of millions of dollars to the wealth of the nation, and the few speculators who do nothing for the general good, aiding not a dollar to the nation's accumulations and in nowise improving its development, the American senate ought to have no hesitation in deciding which interest has the stronger claim to its consideration.

GOING AFTER MEXICAN TRADE.

The announcement is made that a party of representative manufacturers and merchants of eastern cities will shortly visit Mexico and pass a month in that country making a personal investigation of its commercial needs.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P. M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Centre, Kans.

La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. Williams, Cook City, S. Dak.
