BIG RUSH FOR GOLD AND DIAMONDS

Utah Placer Fields and Idaho's Diamond Diggings—Development in Wyoming—Summary of Northwest News.

The distance to be traversed by the animals is more than 1,000 miles, and Fordyce hopes to accomplish the trip in about six months. He thinks he will not suffer from loss of weight.

Mineral Magnets

Two sections of the great west are now attracting uncommon attention and drawing the usual influx of prospectors—the diamond fields of Idaho and the placer fields of southern Utah.

Reports from the diamond fields of Idaho are not all of a favorable character, and it is well they should not be. Exaggeration is the bane of new camps.

Along the Coast

The returns of the salmon pack of British Columbia for the season of 1892 show a total of 221,797 cases, as compared with 312,211 cases for this season of 1891, a decrease for 1892 of 90,414 cases.

The contracts for the extension of the Spokane Falls & Northern railroad from Northport to the international boundary have been awarded and work begun.
