Democrats Getting Together to Take Cognizance of Coming Plander.

A meeting of the democratic central comnittee of the Ninth congressional district was held last evening in room 507 of the Grand hotel. Those present were Chairman S. B. Wadsworth of Council Bluffs, F. B. Bradley of Audubon, W. W. Merritt of Red Oak, J. B. Whitney of Harlan, P. P. Kelly of Glenwood, J. K. McGavern of Missouri Valley, L. Delano of Atlantic and John Whitfield of Stuart. Judge J. E. F. McGee of Council Bluffs also had a scat in the conference by reason of his being the defeated candidate for congress at the last election. The object of the meeting was to come to

some conclusion concerning the recommenda-tions which should be made to Presidentelect Cleveland with reference to appoint-ments to the offices which will become va-cant as soon as the heads of the present incumbents fall into the basket. Hon Thomas Bowman was not at the meeting, for, al-though he is commonly understood to be very uch on the inside with the incoming presidenthe has given it out that he does not care denthe has given it out that he does not care to have anything to do with providing official positions for the starving democrats, by recommendation or otherwise. He is per-fectly willing to leave the responsibility with Judge McGee, whose right it is to make recommendations by the law of common usage. Ever since election applicants for the post-offices and other yacant positions have been fighting for places of vantage at the trough, fighting for places of vantage at the trough, and their plaintive bleatings have become somewhat wearisone to the judge. Last night's meeting was therefore called with a view to placing a share of the responsibility upon the shoulders of the members of the central committee, who decided upon the course of action to be pursued in the matter. What took place behind the scaled doors of room 507 will probably pages believed to the course of the cours 507 will probably never be known until the appointments are made.

Mr. Bowman's willingness to be counted out is ascribed by his friends partially to the fact that he has about decided to leave for Variety providing he can dispose of business interests here. It is stated that he has his eye upon a partnership with a gentleman of New York in the manufacture of

New Plans for Building Up Home Industries Talked Over-At a meeting of the executive committee. of the Manufacturers and Consumers association yesterday afternoon the following were elected members of the association: O. A. Cooper, miller, Humboldt: Fred Beaulien. cigar manufacturer, Falls City: W. H. Palmer, manufacturer electrical supplies, Omaha; Heibel & Davis, elevator supplies.

Mr. Rees of the finance committee reported that bills contracted by the executive committee were presented to his committee for approval without anything to show whether they had been authorized. It was voted to require the president to certify to the correctness of all bills before they were presented to the binance committee which will then pass upon them thus putting a double check upon all accounts of the asso-

The secretary reported that the furnishings for the new Adams Express company's office in Omaha had been let to a Kansas City manufacturer instead of to a Nebraska house. The secretary was instructed to write the Omaha agent of the express company and ask av ex-planation of the affair. The members ex-pressed themselves as of the opinion that as the Adams Express company was securing a great deal of business in this city it should great deal of business in this city it should return the compliment by letting Omaha firms do the work for the company here. President Page stated that a good many of the members were in favor of sending the secretary out into the state to call upon the

retail merchants in all lines of business and urge upon them the advantages of patroulz-ing Nebraska manufacturers. The presi-dent said that he did not feel like taking the dent said that he did not feel like taking the
responsibility of the move upon himself, and
wanted an expression from the members.

After a therough discussion of the subject
by a unanimous vote the secretary was instructed to get out into the country at the
earliest date possible. He will remain out
the first four days of each week, spending
Friday and Saturday in Omaha. It is proposed that the secretary call upon posed that the secretary call upon the merchants and learn what lines of goods they are carrying and where lines of goods they are carrying and where they are not doing so try to induce them to handle Nebraska goods, informing the mer-chants as to what goods are being made in the state by members of the association. The secretary will make a list of the differ-ent lines of goods not handled by each retail merchant visited and notify all the members of the association making those goods. All the members present at the goods. All the members present at the meeting expressed themselves as of the opinion that a great many retail merchants could be easily induced to put in full lines of Nebraska made goods if the matter was only brought to their attention in the way of believe a move to build up the industries of

being a move to build up the industries of the state. Propositions from parties owning the block between Ninth and Tenth and Farnam and Harney streets, offering the same as a site for an exposition building and market house were read. The members of the committee smiled as the secretary read the values placed on the property, and instructed him to drop the matter so far as that location was concerned, on the ground that the prices asked were exemblant.

The secretary then exhibited cuts of the Central market of Minneapolis, and stated that Peycke Bros, had suggested that if the association would put up a building in the right location they would rent several of the ground floor store rooms for their business. The same firm was also represented as saying that the produce commission men had talked of the advantages of having a large block where they could all locate, and that the manufacturers could no doubt induce them all to move into their building. According to this plan the second floor of the building would be used for expositions and other purposes requiring a large hall. that Peycke Bros, had suggested that if the

at a reasonable price.

The committee next turned its attention to the cigar question. It was stated that the Omaha cigar manufacturers were complaining of not receiving the benefit they should from the home patronage movement. That while laboring men had done a good deal in the way of losisting that the retail dealers give them home made cigars, thus creating a demand for five-cent goods, the business men of the city had done very little It was asserted that some business men who talk very loudly in favor of home patronage when their own goods are under consideration call for some eastern brand when it comes to buying cigars. The subject was discussed at great length and a variety of opinions expressed. Some thought that the eight manufacturers should drum the retai cigar minufacturers should drum the retail trade bard, and push their goods to the front in that way. Others suggested that they put men on the road and try conclusions with eastern manufacturers out in the state. The members of the committee stated that the association had given the cigar men everything they had asked for and would do more if they know what to do. It was left with Mr. Trostler to see the cigar men and try to de-Trostler to see the clear men, and try to de-vise some plan by which clear manufactur-ing in Omaha could be put in a more pros-

## VETOED JENSON'S CONTRACT

Conditions May Change Before the Sewer Work is Required.

MAYOR BEMIS FILES OTHER OBJECTIONS

Grading of Thirty-Second Street Will Be. Rushed Through Regardless of the Views of the Chief. Executive.

Two veto messages from Mayor Bemis and the transaction of a variety of business of minor importance marked last night's meeting of the council. Matters were hastened through as rapidly as possible and a number of things were referred to the good judgment of the new council. When the roll was called President Davis and fifteen mem-

bers were present. The first document received was a message from Mayor Bemis vetoing the contract of James Jenson for sewer repairs during the coming year, on the ground that the contract was not entered into judiclously, as Jenson will not be required to do any work until next spring, when the conditions under which the centract was made may be materially changed. The veto was sustained. Mayor Bennis also vetoed the ordinance providing for the grading of Thirty-second street from Hamilton to Franklin streets because the grading district was too small.

Mr. Specht ascerted, on hearing the veto message read, that Mayor Bennis owned property in the district and had a personal interest in the matter. Messrs, Howell and Elsasser took views antagonistic to the mayor, and after some discussion the ordinance was passed over the veto by a vote of 13 to 3, Messrs, Bechel, Edwards and MeLearie voting against such action and Mr. until next spring, when the conditions under

Learle voting against such action and Mr. Burdish being absent. The contract and bend of E. Benedict for The contract and bend of P. Bendert for permanent sidewalks was rejected by the same vote of 13 to 3, because the price of stone was 5 cents higher than last year. The Board of Public Works was instructed to readvertise the contract.

To Handle the City's Cash. The mayor, in a communication, informed the council that all the national banks of the city had bid 2 per cent for the city deposits. The municipal authorities, he added, have no option in the matter, and must make the contracts even though the banks bid as low as 1 per cent. He advised the council to make contracts with the banks under which the city retains the right to make new arrangements regarding its bank deposits after July 1, 1893. The recom-mendation was adopted, and the city attorney was instructed to prepare the neces sary papers.

Many resolutions were introduced and adopted, among them being one providing that the Ketchum Furniture company be paid \$150 instead of \$250 for the counter in the gas inspector's office, according to Mayor Bemis' suggestion. Mr. Chaffee in-cidentally remarked that all the accounts of the company should be audited in the same

way.

That row with the water company was settled temporarily by the company's entire account being paid. The trouble grew out of the failure of the company to remove certain fountains and to put in certain intermediate hydrants. By obeying the council's mandates the company would lose money, and it did not make the changes and sent in its hills just the same us core. At least some of did not make the changes and sent in its bills just the same as ever. At least some of the councilmen say so. To punish the company it was proposed to deduct \$320, the difference which should have appeared in its accounts. After much discussion it was decided to pay the company in full and let the next council settle the vexed question.

A big batch of grading bills were respectfully referred to the next council.
