## COMMERCIAL AND FINANCIAL

Outside Orders Were Scarce in the Wheat Pit Yesterday.

IN CORN WAS STEADIER

Initial Trades Were at About the Final Quotations of Thursday-Buying Was Supposed to Cover Short Sales.

CRICAGO, Ill., Dec. 50.-The annual jubilee interfered with business today. Outside or-ders were scarce in the wheat pit. There was some talk about what the visible supply statement would be tikely to show and it was expected there would be an increase of about 1,500,000 bu. The receipts in the northwest were smaller, thus confirming reports that the heavy movement in that section had ceased. Farmers' deliveries in the northwest were very tions on side trucks are about cleaned up. Finetuations were confined within he range and the closing was about 'se lower than the

closing prices of yesterday. In corn the feeling developed, was steadier and values ruled somewhat higher. Initial trades were at about the final quotations of yesterday, easier, and sold up a fraction more. when the demand improved and on buying by parties supposed to be acting for the country, the price advanced %c, cased off slightly, ruled steady and closed %c higher. The buying was supposed to cover short sales made some time back against crib corn, holders now taking their profits and standing long against the same. There was some buying in May and selling of July at about the same flgures.

The demand for oats was sufficient to absorb the supply and cause an advance of %c. After a slight reaction the market closed steady at about top flgures.

The provision market was strong and from 10c to 25c higher for pork, 2%c to 5c higher for lard and from 7%c to 15c higher for ribs. The improvement was attributed to the statistics of the hog-movement.

Estimated receipts for tomorrow: Wheat, 198 cars; corn, 284 cars; oats, 155 cars; hogs, 12,000 head. Monday, 18,000; next week, 130,000.

The leading futures ranged as follows: parties supposed to be netling for the country

Omaha Produce Market. There was a little more life to the market wing to the fact that the week is drawing to close and buyers were laying in their sup-lies for the Saturday's trade. The market is owing to the fact that the week is drawing to a close and buyers were laying in their supplies for the Saturday's trade. The market is getting pretty well cleaned up again after the Christians glut and ought to be in good shape for next week. The cold weather was a great thing for the shippers of produce as it enabled poultry to be held until there was a market for it without very mucfi loss. An old commission dealer observes that there does not appear to be so much of a demand for poultry and other produce for New Year's day as there was a few years ago. Either the people do not set as much store upon the holiday as formerly or they do not cat as much as they did. Prices are still low on most all kinds of produce. With the close of the old year the game season goes out. After that rabbits will be about all that will be left for the lover of wild meat.

Applass—Good apples are quoted at \$3.50\frac{3}{2}\$.

Bananas—Quotations are: Fair to good hipping stock, \$2.00\frac{2.50}{2.50}\$ per bunch.

Bittrike—The market does not show any material change and has not for some time. The majority of the sales of fair to good country butter are made at about 16c. The choice country goes to the retail trade at about 18c.

Cranserries—Quotations are: Bell and cherry \$8.50 per lobit; bell and bugle, \$9.50; late Cape Cod, \$10.00. The arrivals on the market are light.

Celegy—Harket steady; bulk of the sales of bright stock, 22\frac{924c}{2}.

Game—The season for prairic chicken, venison, etc., closes on the first of the year. Small rabbits \$7.5c; lack rabbits \$1.50.

HAY—The demand is light and the supply large. No 1, \$6.00\frac{6}{6}.25\$ and No 2, \$5.75.

Hosey—the market is firm, good white clover honey being scarce at 17c.

Traders' Talk.

CHICAGO, III. Dec. 30.—Counselman & Day to Cockrell Bros. Commission company: The year 1892 closes with the anarkets showing a firm tone and indications point to a large and prosperous business for Chicago in 1893. Trading on change was considerably interrupted by horseplay and after 12 o clock commission merchants found it tedious and often impossible to execute orders. Wheat closed firm at ½c decline, corn was strong, oats ½c higher, pork excited at 22½c advance, lard firm and quiet and 5% 10c higher and ribs active and 15c over the latest prices yesterday. The markets are growing broader with increased public confidence and interest and the professional trade is becoming less conspicious in the increased volume of business.

CHICAGO, III. Dec. 30.—Kennett, Hopkins & Co. to 8. A McWhorter: Today's wheat market has been decidedly of a holiday character. Trading was small and mostly local. Chicago seems to be playing a lone hand in wheat and to depend but little on the outside world for news. Cables were higher, but the advance was simply a recovery about equal to yesterday's decline. Receipts at Minneapolis and Duloth showed a decrease, being only 390 cars, and Duluth was much firmer than Chicago, showing an advance of a haif cent-or and the first than Chicago from points naturally tributary to the discount of July wheat under May being reduced 1½c a bu. The contract grades of wheat in Duluth and Minneapolis have been at an undue discount as compared with Chicago. This fact is causing large shipments of wheat to Chicago from points naturally tributary to Minneapolis and Duluth. Not more than 60 per cent of this wheat will grade Chicago contract, but the balance is being received by parties having cleansting houses and by a little manipulation we are able to raise the grade, and we may expect a material addition to our stock of contract wheat from that source. Corn and oats have been firm but not active and there is but little ne

London Financial Review.

[Copyrighted 1892 by James Gerbin Beneatt.]

London, Dec. 30.—[New York Herald Cable—Special to The Bee.]—The sertlement chiefly engaged the attention of the Stock exchange today, and in this connection no difficulties have been reported. Business for the new account has been restricted. Consols relapsed \$\frac{1}{2}\$d on realizations, but Indian rupee paper maintained a rise of \$\frac{1}{2}\$d. Foreign government securities lose their irregular appearance. More steadiness was reported on the Paris bourse. Foreign railways were more or less firm all day and close their best, Hull Barnsley and North British deferred advanced 1 per cent, North British preferred \$\frac{1}{2}\$ per cent and nearly all others from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. The tendency of Americans was decidedly better in response to the improved tone in New York. In a few instances prices relapsed slightly from their best points but a general advance was established including 1 per cent in Lake Shore, \$\frac{2}{2}\$ per cent in New York Central, Northern Pacific preference, Ohto & Mississippi, and \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent higher and Grand Trunk preference was \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent lingher and Grand Trunk preference. The descence of Mexican first preference 1\frac{1}{2}\$ per cent. There was a good demand for money. Short loans were charge 1\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. The discount market was quiet, two and three months bills were quoted at \$1\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. London Financial Review.

## STOCKS AND BONDS.

Upward Movement Temporarily Checked by Additional Gold Exports.

New York, Dec. 30.—The stock market dis-played considerable strength again today. At the opening of business Manhattan and Lackawanna advanced 12 per cent, while the general list improved to the extent of 14 to 1 per cent. The upward movement received a tem-porary check when it became known that \$500,000 gold had been engaged for shipment to Europe by the steamship Normandie, this having served as an excuse for an advance for the rate for call loans from 6 to 10 per cent. Manhattan declined 314 per cent and Lackawanna 1 4 per cent, but the general list was not materially affected, as it soon transpired the gold shipment was on a special order and that banks and trust companies were willing lenders of money, the rate for which declined

to 3 to 5 per cent. The extreme decline outside of the stocks named was 1% per cent in Reading, which sold down to \$52. The subsidence of the fears about a serious flurry in money over the annual settlement made the market decidedly strong. Manhattan was the special card and sold up from 1484 to 1524/s1524/, leading banking houses having been the principal banking houses having been the principal buyers on the knowledge that the failure of the underground rapid transit scheme will enable the backers of the Manhattan Elevated to secure the facilities for the extension of their system, which they have been seeking to obtain for a long time. American sugar was also prominent, selling up from 1084 to 1104 on enermous transactions. One firm along took over 13 000 shares. Chicago Gas, Northern Pacific preferred, Missouri Pacific and Western Union ranked next in importance, but as a matter of fact the whole market closed strong with an advancing tendency. It is thought that very little business will be transacted at the exchange tomorrow. The members have subscribed liberally to the fund to carry out the usual New Year's festivities. They have secured a Christmas tree twenty-five to thirty feet high-and laden it with presents that are considered appropriate for the leading members of the exchange. A brass band has been engaged to annual settlement made the market decidedly

LIVE STOCK MARKETS,

Cattle Market Quiet-Hogs Sell Lower-Sheep Market Firm.

Sheep Market Firm.

OMAHA, Dec. 30.—The receipts of cattle were 1,000, as against 2,630 yesterday, making a total for the five days of 11,241 head. Prices on anything salable were steadler today, although the trade was pretty dull throughout. There was a very light shipping demand, and, as local houses were pretty well loaded up, buyers were not inclined to improve prices on anything. A fair clearance was however, effected, prices ruling about steady.

Cows and helfers sold about the same as on yesterday, the supply being made up of common and medium weight stuff. Local houses bought quite fully and by noon the pens had been pretty well cleared of all holdings.

The stocker and feeder market was rather quiet as is usually the case on Friday. Sales made show no material change in price from those prevailing the past few days. Representative sales:

Hous-Receipts continue very light, only 4,000 received, showing a big decrease as compared with same day a week ago. Buyers opened the market by bidding prices generally 5c and on some 5c to 10c lower, and the morning passed with but few hogs going over the scales. Later in the day the feeling became stronger and prices at the close were not over a nickel lower than yesterday's general trade. The quality of the offerings were nothing extra, but few choice butcher or heavy weights on sale, the great bulk consisting of light and mixed hogs. Prices ranged from \$6.35 on light and mixed hogs. Prices ranged from \$6.35 on light and mixed to \$5.52\fo on shipping grades, the great bulk of the fair to good stuff selling at \$6.45 with a fair sprinkling at \$6.40. The close was active and stronger with the pens well cleared before midday. Representative sales:

Chicago Live Stock Market.

Chicago Live Stock Market.

Chicago, Ill., Dec. 30.—[Special Telegram to Tur. Ber.]—The market for steers was not a whit improved. It was as dull as yesterday and only a little less weak. The greater part of the supply was weighed at from \$2.90 to \$2.50 for cows, helfers and bulls and at from \$3.40 to 4.75 for steers. The calf market was lirm at from \$2.00 to \$5.75.

At yesterday's decline there was comparatively a steady hog market. There were signs of a further weakening around the opening of business, but prices worked firmer as the morning advanced and finally closed strong. The extreme top of the market was \$5.90. Two or three lots changed owners at that fixure but the offerings did not include many hogs of prime quality and by reference to the published sales it will be seen most of the stuff was weighted below \$6.80. Heavy weights sold principally at from \$5.00 to \$6.80 and from \$6.50 to \$6.60 took the greater part of the light weights. Poor lots of light and mixed weights were closed out as low as from \$6.00 to \$5.75.

Prices for both sheep and lambs are higher than they were a week and at so rough on as some and there they they were a week and at so rough or and so rough on a some a story of the stuff that they were a week and lambs are higher than they were a week and lambs are bridge.

were closed out as low as from \$6.00 to \$5.25 and there were sales of culls at from \$4.00 to \$5.75.

Prices for both sheep and lambs are higher than they were a week ago, not so much on account of any special activity in the demand, as of a scanty supply. The wants of the trade were rather below the average, in fact, but with receipts of only about 3,000 head prices were worked up to from \$3.50 to \$5.50 for poor to choice sheep and to from \$4.25 to \$6.40 for poor to choice sheep and to from \$4.25 to \$6.40 for poor to choice lambs. Although the quality of the offerings averages much better than it did a few weeks ago, there was little stock that could properly be classed as choice, and sales were largely at from \$4.25 to \$5.00 for sheep and at from \$5.50 40 \$6.20 for lambs. Fed western sheep sold as high as \$5.15 and some choice fod Mexicans fetched \$5.30.

Receipts—Cattle, 12,000 head; hogs, 21,000; sheep, 6,000.

The Evening Journal reports:

Thousands sink into an early grave for want of a bottle of Dr. Bull's Cough Syrup. This great remedy would have saved them.

DUN'S REVIEW OF THE WEEK

in the Country's History.

1892'S LARGE VOLUME OF BUSINESS

Figures That Are Startling in Their Denominations-Trade Conditions Good and Growing Better-Reports of Prosperity from All Sections.

NEW YORK, Dec. 30.-R. G. Dun & Co.'s weekly review of trade: The most presperous year ever known in business closes today with strongly favorable indications for the future. From nearly all points comes the report that the holiday trade has been the largest ever known, and, while the wholesale trade is not usually active at this season of stock taking, it is now remarkably large. Settlements through clearing houses outside of New York in December were apparently the largest ever made in any month, exceeding last year's by more than 10 per cent. For the year the volume is also about 10 per cent larger than last year, and the largest ever known. Railroad earnings in December show an increase of about 3 per cent over last year, and for the year an increase of about 5.5 per cent. For-cien trade has been smaller than last year in volume of exports at New York by \$7.800,000 in value for the past four weeks and at cotton ports about \$60,000,000 less, but imports at New York have been \$3,000,000 larger and the month still shows a great excess of exports. For the year the excess of merchandise exports has been not far from \$70,000,000, with the largest imports and the largest total of exports and imports ever known in any year. Increases in All Lines of Trade.

The year closes with all woolen, cotton

The year closes with all woolen, cotton and silk machinery fully employed and unsold stocks of goods much lighter than usual, while the demand for the coming season already exceeds the capacity of many mills. The orders in dry goods are extraordinary. Sales of wool at the chief markets have been 300,000,000 pounds against 246,000,000 last year and foreign imports have occur the largest ever known, with a domestic supply but slightly behind the largest. Shipments of slightly behind the largest. Shipments of boots and shoes from the east have been per cent larger than last year and nearly per cent larger than in any previous year while the increase in dry goods has been over 40 per cent.

Business at Chicago is good in all lines. especially in heavy dry goods. A decrease appears in sales of securities and real estate, and, for the week, receipts of hogs and land, wool and flour, seeds and dressed beef show considerable decrease from last year, but in-crease appears in cattle, corn and hides, and

receipts of barley, oats, cheese, butter and wheat are more than double. Holiday trade was very good at Milwaukee. Business at St. Paul exceeds last year's, and is large at Minneapolis. Business at Omaha and at Kansas City is satisfa tory.

The iron trade is weaker. The demand for finished products being at present light. But steel rails have been reduced to \$29 per ton, and sales of 78,000 tons have followed. This great industry has been much affected by the market for securities, which has been depressed for some months by foreign selling and monetary uncertainties, so that companies have been restricted in changes of rates and supplies. But for the past week stocks have been stronger, gaining about \$2 per share in average price. Speculation in products has been comparatively inactive, though wheat has been advanced by the western pool nearly 2 cents. Corn has been strong with diminished receipts.

diminished receipts.

The year 1852 was remarkable for fewer failures than ever occured in any other year since 1886, the number reported being 10.344 or 1,029 less than in 1891. The indebtedness of firms failing was but \$114,000,000 in 1892 against \$189,000,000 in 1891 and about the same in 1890. The average liabilities of firms failing in 1892 has been only \$11,000, the lowest transparence expected since 1878. In 1892 only average reported since 1878. In 1892 only one in every 113 trades failed, against one in every 93 in 1891, and one in every 102 in 1890.

CLEARING HOUSE STATEMENTS.

Omaha Makes Another Good Showing-Re ports from Other Cities. New York, Dec. 30 .- The following table, compiled by Bradstreet, gives the clearing house returns for the week ending De cember 29, 1892, and the percentage of increase or decrease, as compared with the

"Last week's totals. BRADSTREET'S REVIEW OF BUSINESS. Continued Holiday Dullness Has Caused a Slight Depression.

New York, Dec. 30.—Bradstreet's tomor-row will say: The features of the general trade situation this week are found in the continued holiday dullness, stimulus as to the coal trade due to the cold snap, and the announcement that the pig iron stocks are oversold, competition by makers for orders for manufactured iron and the cut of \$1 by the steel rail combination, lower prices for soft steel at St. Louis, for rice at New Orleans, cotton at Boston, and corn and outs with small advances on wheat, hogs and silk goods, and steady quotations for wool, cot-ton, sugar and cattle.

The close of the year finds the speculative

trade seasonably quiet, while the prospect
for distribution in 1803 is regarded favorably
in New Orleans, Birmingham, Galveston,
Memphis and Richmond, Atlanta dealers
say regulars have small stocked. say retailers have small stocks. Some ex-citement exists among Charleston dealers owing to the new liquor law. The total vol-ume of general trade at the south is believed to be in excess of that of 1891. Southern iron furnace stocks are the lowest for thir teen months and are regarded as normal, there being but two weeks' supply. Seasonagle quiet is noticeable at western

conters, while without exception a good trade is anticipated early in 1893. The Pacific coast is very dull. The wheat promise in California has been helped by

rains this week.

The unexpected decrease of 1,651,600 bushels of available wheat east of the Rocky mountains stimulated prices and trade simultaneously, because it was unexpected in the control of the pected and to some people inexplicable. The missing wheat had been shipped from north-western elevators and no doubt will in part reappear again. Snow storms and Christmas celebration caused part of the appar-ently heavy decline. But it is about time for regular weekly decreases of available wheat to show themselves. Experts from both coasts this week (flour included) equal 2,917,000 bushels, against 4,247,000 last week, 3,106,000 bushels one year ago, 1,031,000 bushels in the week two years ago and 1,898,

000 three years ago.

There has been no striking changes
Dominion trade circles.

WAIL STREET FOR A WEEK. Speculation Distinguished by Its Dullness

and the Absence of Marked Features, New York, Dec. 30.—Bradstreet's Weekly Wall Street Review says: The speculative movement has been distinguished only by its duliness and the absence of any general feaduliness and the absence of any general fea-tures. The approach of January I with its changes and settlements has a restraining in-fluence upon bullish feeling, which was rein-forced by the remembrance of the recent squeese in the money mar-ket. On the other hand the decline of exchange \_rates seemed to dimin-ish the sense of apprehension in regard to the financial situation, which overhangs the "street," an even the engagement on Friday of \$500,000 gold for export failed to create an impression, it being regarded as the outcome of past business exchange and not of the actual conditions which govern that departactual conditions which govern that depart-ment, because exchange may in fact be ascribed to the exceedingly stack inquiry for remittances, though it is understood that offerings of commercial bills have increased and that the bankers are less apprehensive n regard to the continuance of a high level of exchange accompanying their drafts after January I. The money market was favorably affected by these considerations as well as by the more positive indications of a very large flew into the treasury.

Wool Statistics.

Boston, Mass., Dec. 30.—The Commercial Bulletin will print tomorrow in its annual statement, with its review of the wool trade of the United States, the following interesting comparisons with 1891: The number of sheep in the country increased from 43,439,300 to 53,430,900. The United 43,430,300 to 33,430,300. The Children States clip increased from 137,175,173 to 333,018,305 pounds. The total stock in the country is but 68,354,000 pounds domestic, and 18,388,375 pounds foreign, against 78, 991,400 pounds domestic and 21,154,866 pounds foreign on December 31, 1891. The con-sumption of all grades of wool by American mills show an increase of 58,000,000 pounds

New Industries in the South CHATTANOOGA, Tenn., Dec. 30.-The Trades man has compiled reports of new industries established during the year-1892 in the states of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisinna, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia and West Virginia, The total is 2,440; 323 less than for 1891; 508 less than for 1890 and 141 less than for 1889.

Pleasure and Profit. The desire for residing in a climate posses

ing qualities alike adapted to the benefits of people of weak lungs, catarrh, delicate throats, etc., is growing stronger from year throats, etc., is growing stronger from year to year. The mere accumulation of money at the expense of health is not regarded in the same favor as formerly. The combina-tion of pleasure and profit is now regarded as most desirable. In no place in America is there a point where this combination ex-ists to a greater degree than Galveston ists to a greater degree than Galveston county, Texas. The wonderful growth of North Galveston and the handsome profits that are being steadily made there, both by capitalists and men of small means, has been attracting the attention of investors from all parts of the United States. The literature of the North Galveston association giving fully detailed information on the subject can be obtained from Franklin F. Williams Omaha, Neb., local agent of the association The address of the general office being the North Galveston association, box 963, Min neapolis, Minn.

For the Jacksonian Banquet. The annual dinner of the Jacksonian club will be given Saturday evening, January 7, at the Paxton hotel. The affair will be upon a very elaborate scale, and one of the most memorable of the annual banquets of the club.

A meeting was held last evening and the

members of the club arranged for the coming event. It was decided to issue 350 invitations, and it is expected that plates will be laid for 200 guests at \$5 per plate.
Invitations have been forwarded to Hon, John C. Black of Illinois, ex-commissioner of pensions; Representative McKenzie of Kenzie of Kenzi beasions, Representative McKenize of Ken-tucky, Governor Boies of Iowa, Governor Boyd, Hon, W. J. Bryan and J. Sterling Morton. The invitation committee is hope-ful that each of these distinguished disciples of democracy will accept the invitations and

be present at the dinner. The committee on program was appointed and will be early at work arranging for the speakers, and will announce later what they have agreed upon.

The "No. 9" Wheeler & Wilson will not break the thread nor impair the stitching if run in the wrong direction. Sold by Geo. W. Lancaster & Co., 514 S. 16th street.

ANNOUNCEMENTS. Mile. Rhea will close her limited engagement at Boyd's theater with two performances, a matince at 2:30 this afternoon, when she will repeat "Josephine, Empress of the French," and tonight at 8, when she will be seen as Beatrice in Shakespeare's brilliant comedy, "Much Ado About Nothing," Mile. Rhea's performance takes on very much the appearance of society events, and she is always greeted by audiences composed of haut ton of upper tendom.

Sunday evening at Boyd's theater that popular romantic actor, Mr. James O'Neill will make his first Omaha appearance in four years, and with a new play, "Fon-tenelle," the drama in question, has met with unbounded success wherever presented, and according to report is even stronger than the well known actor's famous "Monte Mr. O'Neill is supported by an uncristo." Mr. O'Nell'is supported by an un-usually large company, and the scenery is from designs and was painted by Reid and Fox of the Fifth avenue, theater, New York, and the correct historical costumes are by Mme. Thompson and M. Hermann of the metropolis. Sale of seats commences

The Workingman's quartet and the Twin City trio in the powerful melodrama, "Master and Man," bring the usual encores that accompany good vocal music.

Messrs. Simms and Pettit certainly scored a dramatic success when they placed "Mas-ter and Man" before an English and American audience. The play deals with labor and capital on an arbitrary basis and is in-teresting and instructive throughout. At

mencing with New Year's matinee (Sunday) January I, Monday, Wednesday and Satur No use to deny the fact that Salvation OII is fast taking the place of all other liniments.
