The impression prevails in Chicago that Paderewski is an Irishman.

Some of the mines are now producing silver at 25 cents an ounce and making money.

It is gravely announced by that great geographical authority, the London Times, that Mr. Cleveland is hunting "in the Adirondacks in Mexico."

Associations to promote the improvement of public roads are being formed all over the country, and it really looks as if something were going to be done.

The Charleston News and Courier says that "whatever policy Mr. Cleveland pursues it will be the correct policy."

Some idea of the growth of the general business of the city may be had from the fact that the railroads centering here received and forwarded one-third more freight last year than during the previous year.

The open hostility of the president-elect to Mr. Murphy as a candidate for senator from New York is in bad taste.

The business failures during 1892 were 25 per cent less than during 1891, and the total liabilities were only \$114,000,000 as against \$189,000,000 for the previous year.

The steering committees that are trying to direct the independents remind one very much of a lame man trying to lead a blind one.

There could be no better proof of the prosperity of this city and the expansion of its business than is afforded by the increase in the business of the post-office.

Nothing has so stirred Chicago society in a long time as the circulation of a brewery advertising card containing a picture of Mrs. Potter Palmer.

There are now over 1,300 private claims on the calendar of the house of representatives which have passed the committee stage.

It appears that the liberal party, which has stood for unrestricted reciprocity, is drifting away from that idea, under the impression that it is unattainable.

THE REAL STATE LEGISLATURES.

The real congresses of the people will soon be in session in most of the states. The national legislature represents the people of the union collectively. Its duty is to consider what is required in legislation for the general welfare, and the federal constitution prescribes and limits its authority.
