HOG PRODUCTS CONTINUE TO ADVANCE

Wheat Was Feverish from Start to Finish and After an Early Buige Closed Nearly One Cent Lower-Stocks and Bonds.

CHICAGO, III., Jan. 5 .- The bull eliques in wheat and provisions were working like beavers today. The provision men succeeded in squeezing many lurid expressions and much money out of the shorts, but the cliques in wheat were not so fortunate. The latter bought heavily early in the day, but the government crop report was too much for them. and after an early buige, the market closed %c lower than on the day before. Corn is 14c lower and oats nearly 4c below their yesterday's level. Hog products are away up, pork

67%c, lard 20c and ribs 32%c.

Wheat was feverish from start to finish. The inside openings were from 5c to 5c lower than yesterday's closing, but the market rallied and prices were advanced 5c, ruled easier again, and the market closed from 5c to 5c lower than yesterday. The government report which was made public late yesterday care if the lower opening, influencing larger offer, Lgs and more disposition to sell. The report made the crop of 1892 mearty 515,000,000,000 bu. In the report the department intimated that the crop would not exceed 500,000,000 bu, and it was this excess of 16,000,000 bu. which created the weaker feelings. But there was pretty good buying at the decline, enough to cause a reaction. The buying, it was claimed, was done mainly by the built in the interest of supporting the market and preventing further decline. It was remarked that at the advance the offerings were very free and that some one was feeding the market and preventing further decline. It was remarked that at the advance the offerings were very free and that some one was feeding the market. If the latter is true the market held up pretty well considering that cables were irregular and generally hover and that Bradstreet's stocks showed a fairly good increase. The Cincinnati Price Current says winter wheat is generally protected with snow, few regions exposed, and low temperature threatening late sown portions.

In corn initial trades were 3c under the final figures of the previous sees lon the government report being construed as bearish by a considerable element, who sold necordingly and the price worked down another 4c. The large stocks and liberal offerings at country stations also tended to depress the price. At the decline a number of buying orders came in and on executing the same the market was advanced 3c, ruled steady and closed with 4c loss.

There was a fair trade in oats at a lower range of prices. The government report was regarded as bearish, as it placed the crop much larger than expected at 661,000,000 bu. The buyers of yesterday were free sellers and the market opened weak and prices 3c lower and declined 3c. This brought in liberal buying orders and a rally to opening prices resulted, and the market closed easier, at nearly the bottom with an ecosived du lower than yesterday. The government re-

November and December. Speculative offerings were quite liberal, but the demand was brisk from miscellaneous sources and they were readily absorbed at the advanced prices. Local speculators and manufacturers were credited with quite liberal purchases and the buying orders from outside parties were larger than for some time past. Foreign advices indicated considerable strength in that quarter—a further advance of from 6d to 1s in bacon being reported. The market opened excited at a material advance on the closing prices of Wednesday, and the competition for the offerings suddenly forced prices up quite rapidly. About the middle of the session there was a little pressure to sell and a weaker feeling prevailed temporarily, with prices gradually settling back all around. During the latter part of the session a stronger feeling was again developed and prices railied, the market in a general way closing rather firm. N. M. Ream was credited with being an additional adherent of the buil clique.

Estinated receipts for tomorrow: wheat, \$25 cars; corn, 200 cars; oats, 145 cars; hogs, 23,000 head.

Traders' Talk.

Cnicago, Ill., Jan. 5.—Kennett, Hopkins & Co. to S. A. McWhorter: Mr. Dodge saw proper to give out yesterday the government report which he usually issues on the 10th of the month. It is stated that the wheat crop was about 516,000,000 mensured bushels, or 500,000,000 weighed bushels. Traders saw proper to consider this estimate as bearish, although it was not different from his former estimates, and they sold the market down to 7½c on curb, and it reached 78½c, at which it opened this morning. Cables have not shown strength today and closed at a decline of about 1 penny in Liverpool. Today's market has been fairly active, with an easier undertone but the bull contingent still cantinue their purchases which was sufficient to prevent any considerable break. The receipts at Minneapolis and Duinth were light, only 378 cars. Bradstreet's report of available stocks showed an increase of 2,180,000 cast of the Rockles and a decrease of 880,000 cast of the Rockles and a decrease of 880,000 cast of the Rockles and a decrease of 880,000 was considered bearish and has led to free selling by both local operators and outside commission houses. The trading in both corn and oats has been light and without special feature. Hogs opened at the highest price yet reached for many years. The result was an exciting and very active provision market. The world's supply of lard shows only 111,000 therees, against 297,000 therees January '92. It was, therefore, not surprising that shorts were alarmed and bought heavy, and many outside operators were luying stuff for long account because the price of hogs was so much higher than the current market for provisions. We cannot advise buying for long account, but would avoid the short side as dangerous even on the present advancement.

CBICAGO, Ill. Jan. 5.—F. G. Logan & Co. to Duncan, Hollinger & Co.: Wheat opened active at 78 4c, sold up to 78 kg and closed at 184 child. The rovernment report was considered bearish and in

leading active shares were strong on the early dealings on coverings of the shorts put out

the opening figures except thicago Gas which was heavily pressed for sale, declined from 88% to 86%.

The market was slightly lower after 12 oclock, and the changes were only fractional, even for the fractional industrials, which, while showing a fendemy to advance, failed to recover much of the previous loss. The pressure on Roading, however, was lifted, and it rose to 51 against 40% at the opening. Northern Pacific preferred showed most weakness, and at 45% was down by per cent, but no other stock dropped so badly. The uncertainty as to gold exports served to stop the disposition to buy which the general bullish feeling on the street encouraged, and transactions were gradually restricted, while wide fluctuations disappeared from the market entirely. The last hour again developed realizing sales, and Chicago Gas was let off to 86, while changes in other stocks were confined to fractional amounts. The close was quiet, but heavy generally at or about the lowest figures of the day.

The Post says: In spite of the confident expectations to the contrary. It was made known today that \$1,000,000 specie and probably more would go out by Saturday's French steamer. It is well known that sterling exchange le at present below the normal gold shipping point—lower, in fact, on actual rates than at any time in the last two months when gold had been shipped. What has, however, materially altered the situation is the steady decline in Parls exchange on London. It is more than a fortulght since these rates went below the gold shipping point, and yet not a penny of specie has been reported as shipped in the meantime from Great Britain to France. This singular fact makes plansible the theory that the projected shipments are in their nature a "triangular transaction," the trade in specie between New York and Paris being eventually cleared in London.

LONDON, Jam. 5.—[New York Herald Cable—Special to The Bee.]—Speculation on the Stock exchange, except in a few special securities, has been quiet, but high class investment stocks were in good demand. Funds were unchanged, while Indian rupee paper has given away [4]. Foreign government securities closed flat on reported difficulties on the Paris bourse. The feature was a fall of 1½ per cent in Spanish and French bonds. Rentes have given away from ½ to 1 per cent, and all other international stocks ½ to ½ per cent. With one or two exceptions, home railways close firm. Brighton deferred fluctuated considerably and leave off ½ per cent higher. Great Eastern and Northeastern have been in marked request and close 5 to ½ per cent. siderally and leave off \$\frac{1}{2}\$ per cent higher. Great Eastern and Northeastern have been in marked request and close \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent higher, respectively. Americans have shown more or less depression. Norfolk & Western preference has fallen 5-9 per cent, Northern Pacific preference. Union Pacific, Wabash preference, Wabash debenture and Chleago & Milwaukee fell \$\frac{1}{2}\$ per cent and a few others declined \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent, but Alchison income bonds and Louisville & Nashville are still \$\frac{1}{2}\$ per cent higher. Canadians met with a moderate amount of support and a trifling improvement is established in Canadian Pacific and Grand Trunk preference. Money was again quite a drug. Short loans were easily obtained at \$\frac{1}{2}\$ to 1 per cent. The discount market was quiet, two and three months bills were quoted at 1 to 11-16 per cent. Discount houses reduced their allowances for deposits to 1 per cent for call and 1\$\frac{1}{2}\$ per cent on notice.

SHEEP—The three loads received were billed direct to Swift & Co. and not offered on the market. Desirable muttons and feeders continue in active demand at steady to strong prices. Quotations are as follows: Fair to good natives, \$3.25@4.50; common and stock sheep, \$2.25@3.50; good to choice 40 to 100-B lambs, \$450@5.00.

OMAHA, Jan. 5.—Receipts are not by any means heavy, but the four days' supply shows an Increase on the same four days' supply shows an Increase on the same four days last week of 7,000 hogs and 800 sheep. Cattle receipts are about the same, and less than 10,000 head. It was a bullish day throughout, but the interest centered principally in the hog trade where the 87 mark was reached. Ice higher than hogs ever brought before on this market. The supply of cattle was not large as to quantity and nothing extra as to quality, but with light receipts, stronger eastern markets and a good speculative demand buyers were not inclined to be too captions or exacting and sellers had no trouble in working off anything useful at substantially stronger prices than were the rule Wednesday. Fair to very good 1,100 to 1,300-lb, steers sold at from \$3.75 to \$4.55, with poor to fair stuff from that on down to \$9.00. Business was moderately active throughout, and a good clearance was effected.

Cows sold strong to a dime higher at an extreme range of from 75c to \$3.50, although \$2.00 to \$2.50 bought the bulk of the fair to good stnff. Bulls, oven and stags were generally active and unchanged at from \$1.50 to \$3.90. Calves firm at \$2.40 to \$5.00.

A light business was transacted in stockers and feeders, but prices ruled strong on all suitable offerings. Country buyers were scarce, but the regular dealers had orders they could not fill, the cattle not being here. Quotations are unchanged. Representative sales:

Chicago Live Stock Market. Chicago Live Stock Market.
CRICAGO, Ill., Jan 5.—[Special Telegram to THE BER.]—Prices for cattle were generally strong today. Choice shipping steers were in scanty supply, and while something strictly prime would no doubt have sold well up toward \$6.00, there were exceedingly few sales over \$5.25. From \$3.50 to \$4.85 hought most of the steers, and from \$2.00 to \$2.75 was the range at which the largest part of the cows and bulls changed hands. Prices for hogs touched \$7.35 today, which is 20c above the highest figure previously paid. The general market shows a less pronounced advance than indicated by the above figures. Choice to extra grades made a greater gain than did the best sorts. The average improvement in hogs was a

The average improvement in hogs was a big 15c. Sales were largely at from \$7.00 to \$7.20, \$6.95 to \$7.10 for medium weights and from \$6.90 to \$7.05 for light. Searcely anything sold below \$6.85 nor were there many sales at better than \$7.20. The buoyancy of the market continued to the close when quotations stood at from \$6.90 to \$7.10 for common to choice light and at \$7.30 for poor to choice heavy weights.

stood at from \$6.90 to \$7.10 for common to choice light and at \$7.30 for poor to choice heavy weights.

The sheep market continued to weaken under the burden of supply. Upward of 4,000 head were left from Wednesday's stock of 12,526 head and fresh receipts which were again very liberal made a total supply of about 15,000 head. Trade was dull and heavy from the start. Buyers demanded further concessions from Wednesday's reduced prices and easily filled all orders at from 10c to 15c decline. Cholee to prime lambs sold at from \$5.75 to \$6.10 up to good grades at from \$5.00 to \$5.60 and light feeders at from \$4.00 to \$5.60 for good to choice native nuttons, \$4.80 to \$5.10 for choice to prime westerns, \$3.80 to \$4.60 for fair to good mixed stock and from \$2.00 to \$3.50 for culls and thin to fair feeders.
