

THE REVIEW OF THE WEEK

Business for the New Year Opening Well in All Branches.

TEXTILE MANUFACTURERS KEPT BUSY

Their Stocks Sold Ahead for Many Months—Close of the Most Prosperous Year in That Line Ever Known—Reports from Cities.

New York, Jan. 6.—R. G. Dun & Co.'s weekly review of trade: The business of the new year opens well. In every part of the country, and especially in almost every branch of business, the traders are looking forward to a year of large transactions. But in financial circles the year opens with considerable feeling of uncertainty owing to the revival of gold exports, which will be about \$2,000,000 for the current week, and the old doubts about the action of congress.

At Boston jobbing trade in dry goods is more active and the woolen mills full of orders. Trade in shoes is steady. Business in leather and wool is more active. In groceries good.

At Philadelphia iron is weak and the wool trade is quiet.

At Pittsburg iron is more dull and weaker, but glass moderately strong.

At Cincinnati the advance in spirits is maintained and the tobacco trade healthy. Business is remarkably good at Cleveland, and products in demand.

At Detroit business begins well.

At Indianapolis money is close and inactive, and pork packing the past year has been 90 per cent in excess of the year before.

Trade at Chicago is fair in volume with speculation in products, and stocks and money in strong demand at 4 per cent.

Trade at Milwaukee is moderate, with money in good demand, as at St. Paul, though trade is quiet and collections slow there and at Minneapolis.

Business at St. Louis strong.

At Kansas City the jobbing trade is good, receipts of live stock fair, and of grain light. In southern cities business is generally quiet.

At New Orleans business is fair, the supply of money ample, cotton steady and sugar in good demand.

Wheat Takes a Drop.

The government crop report started a little stronger buying, but wheat soon reacted to 77 cents, a decline of nearly 1/2 cents for the week. Western receipts in three days were over 2,000,000 bushels. In the east receipts, corn gained over 1 cent for the week and oats also, while pork rose 10 cents, lard 30 cents and hogs 50 cents per 100 pounds.

Coffee is unchanged, with a slight decline, but cotton shows no change with sales of 500,000 bales. Speculation in stocks is depressed by monetary anxiety. Government bonds are in demand, and make the money market easier, but bankers expect exports of gold to keep up.

In iron a weak market is shown, with reports of reduced prices for pig and some southern concerns. Deliveries of rails for the past year were but 1,300,000 tons. Markets are irregular, but the company is in structural and sheet iron a large business is in prospect. The change in relations of the Lohr and Reading does not affect prices of coal. Copper and tin are well supported, lead weak.

Shipments of boots and shoes for 1892 were 2,700,245 cases, against 3,414,343 last year and 4,533,268 the year before.

The most prosperous year ever known in the textile manufactures leaves the full production of most mills sold for months ahead, and the new year opens with great strength in woolsens and cottons. Above all monetary uncertainties, the enormous demand for textile fabrics appears to be assured for months to manufacture and trade in these branches.

The business failures occurring throughout the country are not so numerous as in the number 340, as compared with a total of 425 for the corresponding week of last year.

BRADSTREET'S BUSINESS REVIEW.

Trade Steady and Future Prospects Bright—An Encouraging Outlook.

New York, Jan. 6.—Bradstreet's will say: Stock taking and spring trade preparations have imparted a tone of quiet to most lines of business. Exceptions to this, however, are found in the distributive demand for coal, clothing, and boots and shoes, stimulated by the present coal snap.

New England mills were active in 1892. New mills, increased production, large profits and low prices were the feature.

The cotton goods production was the largest ever known, advanced in cotton mills were also a feature. Outlook for 1893 is generally favorable to a heavy production at low prices.

The new year opens quietly, but with good promise. Colder weather has had a stimulating effect upon the distributive demand for coal, clothing and boots and shoes at leading western centers, particularly from Chicago, Detroit, St. Joseph and Minneapolis.

Cattle and hogs are active at Kansas City at higher prices.

The iron is in less and kindred trades are dull, coal cars on northwestern railroads all employed. Lumber is weak at Cincinnati. Heavy machine manufacturers anticipate a heavy year's business.

It is a season of quiet preparation at the south. Reports from there deal more with last year's reviews and this year's prospects with activity attached to the new year. Cotton is firm, but in better demand. Cotton ginners are still agitated about prohibitory legislation.

Supply of Wheat.

At what was expected the decrease of available wheat, exclusively reported to Bradstreet's, proves to have only temporary effect. For the week ending December 31, the increase was 2,188,172 bushels. For the fortnight, however, the net gain is only 500,000 bushels, while the "official" visible supply has risen 2,500,000 bushels, or nearly 2,000,000 smaller total stocks. Exports of wheat from the coast this week (four included), equal 3,600,000 bushels, against 2,917,000 bushels last week. The total exports for 1892, 2,076,000 bushels in the same week two years ago, and 2,137,000 bushels three years ago.

Domestic trade generally is quiet. A new feature, however, is found in the stimulation of the demand for dry goods, clothing and boots and shoes at Montreal by the prevalent weather.

The banner year for bank clearings has just closed. The aggregate for sixty-one cities was \$2,284,248,372, an increase of 0.1 per cent over 1891. Only twelve cities show a decrease from last year, most of them being in the southwest and on the Pacific coast. New York clearings aggregated \$96,022,400, 29.9 per cent of the total, against an increase of 8.6 per cent in 1891, but a decrease of 2.1 from 1890. Chicago now holds second place in the volume of bank clearings.

ment in a few specialties, Manhattan, Sugar and Union Pacific being the most notable of the bull features, while a part of the effects of bearish speculation in some of the industrial stocks, such as Chicago Gas and Distillers, the action of Reading stock and junior securities, has been the greatest obtainable factor. The announcement of a loan of \$1,000,000 as \$2,000,000 in gold would be sent to France today was not anticipated, the excess being so great that the question could only be asked in conjunction with the documents of each going between Paris and London. At the same time it would seem that the apprehensions of the market has been increased by an outflow had partly discounted the effect and the market was relatively steady in the face of the announcement.

Foreign speculation continues to be restricted to the narrowest limits. The fact that a considerable amount of Union Pacific branch line bonds had been purchased by the representatives of stockholders of the property is regarded as a matter of more than temporary interest, while the belief that a large foreign house has been established in New York, and that Reading has also been accepted as a sign that European capitalists are more inclined to interest themselves in our corporate securities.

Pneumonia. At no time in the history of the country has pneumonia been so prevalent, as during the winter months of the last two years. In times past a common cold was not considered a serious ailment, but the recent great tendency of colds to result in pneumonia has made people apprehensive. The trouble is that colds are not always properly treated, or treated with containing opium, while cherry or chloroform should be used, as they have a tendency to dry up a cold, whereas a mucous membrane, containing opium, relieves. It has been observed that when Chamberlain's Cough Remedy is used the cold never returns in pneumonia. The reason is that the mucous membrane which lines the throat and lungs to a healthy action, causes a free expectoration, throwing off the poisonous matter, and inducing a tendency toward pneumonia. For sale by druggists.

Miss Merrill in "Frou-Frou." An actress who may one day be a great artist in her profession in Omaha at the Grand old evening. Her name is Madeline Merrill and her chosen artistic sphere is emotional comedy. She is young and ambitious and is on her first starring tour. Sardou's "Frou-Frou," is an emotional comedy that traces the best abilities of the experienced in its perfect presentation. In the title role Miss Merrill exhibited considerable talent and much intelligence. Her faults, if they may be called so, were of omission rather than commission. All the time she was in the play, she was a perfect filling in. Miss Merrill has a fine stage presence and her enunciation is perfect; study and experience may carry her to the forefront in her profession, but she has a scene with her sister, Miss Merrill's Frou-Frou was too reserved; while the speeches were emotional her manner was staid and her actions were unbecomingly restrained. In the interview with her wronged husband, she was much better, almost admirable indeed, displaying emotional powers of considerable force.

The company supporting Miss Merrill is passable, and the comedy was nicely set.

Mockridge Young. The concert given at Young Men's Christian association hall last evening by Mr. Whitney Mockridge and his company was the most enjoyable event of the season. Without exception, composed of vocalists of more than ordinary ability who fully deserved the enthusiastic accolades they received.

How It Became Popular. When people find an article much superior to anything of the kind they have ever before used, they are almost sure to tell their friends about it, and especially if they know of some friends who need such an article. Dealers also soon learn the true value of their goods, and when they have an article that is most enjoyable, they invariably mention the fact to their customers. This accounts in a great measure for the large sale on Chamberlain's Cough Remedy. Here is an instance of how it became so popular. A citizen and business man of Ormsburg, Mo., has been selling Chamberlain's Cough Remedy for several years and recommends it to his customers and associates. His experience has proven to be the best for colds, cough and whooping cough. He says it is the most popular medicine that he handles, and gives the best satisfaction. 50 cent bottles for sale by druggists.

JACOBS OIL. THE WORLD'S GREATEST REMEDY FOR RHEUMATISM, BRUISES, SORE THROAT, COLIC, AND ALL AFFECTIONS OF THE NERVOUS SYSTEM. Cures Pain Promptly.

DR. E. WEST'S NERVE AND BRAIN TREATMENT. Cures Rheumatism, Neuralgia, Headache, Nervous Prostration caused by overwork, indigestion, loss of sleep, loss of power in stomach, bowels, and all Female Weaknesses, Involuntary Losses, Spasmodic Convulsions, Epilepsy, and all other Nervous Disorders. Guaranteed to cure or money refunded.

Proposals for Lighting the Suburbs of the City of Omaha. According to information from the chairman of the special committee on gasoline lighting, the proposals for lighting the suburbs of the city were not definite enough, and at his request the advertisement for proposals was reissued, and sealed bids will be received at the office of the city engineer on January 12, 1893, at 10 o'clock a.m. The proposals should be made on the following conditions: That the lighting be by gas, electricity, or electric lights, for lighting the following streets: Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth, Twenty-first, Twenty-second, Twenty-third, Twenty-fourth, Twenty-fifth, Twenty-sixth, Twenty-seventh, Twenty-eighth, Twenty-ninth, Thirtieth, Thirty-first, Thirty-second, Thirty-third, Thirty-fourth, Thirty-fifth, Thirty-sixth, Thirty-seventh, Thirty-eighth, Thirty-ninth, Fortieth, Forty-first, Forty-second, Forty-third, Forty-fourth, Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth, Forty-ninth, Fiftieth, Fifty-first, Fifty-second, Fifty-third, Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth, Fifty-ninth, Sixtieth, Sixty-first, Sixty-second, Sixty-third, Sixty-fourth, Sixty-fifth, Sixty-sixth, Sixty-seventh, Sixty-eighth, Sixty-ninth, Seventieth, Seventy-first, Seventy-second, Seventy-third, Seventy-fourth, Seventy-fifth, Seventy-sixth, Seventy-seventh, Seventy-eighth, Seventy-ninth, Eightieth, Eighty-first, Eighty-second, Eighty-third, Eighty-fourth, Eighty-fifth, Eighty-sixth, Eighty-seventh, Eighty-eighth, Eighty-ninth, Ninetieth, Ninety-first, Ninety-second, Ninety-third, Ninety-fourth, Ninety-fifth, Ninety-sixth, Ninety-seventh, Ninety-eighth, Ninety-ninth, One hundredth.

SEWER PROPOSALS. Sealed proposals will be received by the undersigned on or before 12 o'clock p.m. January 13th, 1893, for the construction of sewers in the following districts: Nos. 175 and 176 in the city of Omaha, and Nos. 332 and 333 in the city of Lincoln, respectively, according to plans and specifications on file in the office of the Board of Public Health. Each proposal to be made on the blanks furnished by the board, and to be accompanied by a check in the sum of \$500, payable to the city of Omaha, as evidence of good faith. The board reserves the right to reject any or all bids, and to waive defects.

THEO. OLSEN, Controller. Omaha, December 30, 1892.

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's, only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equaled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarman, 33 William st., New York City.

Will Cure You

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

IT IS NOT WISE TO COUNT THE COST WHEN YOUR HEALTH IS BAD. Wouldn't it cost less to CURE You now than LATER ON? As you value your life don't neglect your health. Give your system a course of Ayer's Sarsaparilla. If you consult DR. SEARLES AND SEARLES CHRONIC NERVOUS AND PRIVATE DISEASES. Blood, Skin and Kidney Diseases, Female Weaknesses, Lost Manhood CURED.

DR. SEARLES AND SEARLES CHRONIC NERVOUS AND PRIVATE DISEASES. Blood, Skin and Kidney Diseases, Female Weaknesses, Lost Manhood CURED. PILLS, PASTILS, FISSURE, permanently cured without the use of knife, heat or caustic. All maladies of a private or delicate nature of either sex, treated with the most successful results. Call on or address, with stamp for Circulars, Free Book and Recipes, 118 South 15th Street, Omaha, Neb. Next door to Postoffice.

SPECIAL ORDINANCE NO. 1743.

An ordinance levying a special tax and assessment upon certain lots, parts of lots and real estate in the city of Omaha, for the re-erecting of wooden sidewalks. Whereas, the owners, respectively, of the lots, parts of lots and real estate hereinafter described, have failed to repair said sidewalks, and whereas, such sidewalks have been duly repaired by the city, and the several lots, parts of lots and real estate hereinafter described, are situated within the limits of the full amount of the special tax and assessment herein levied, by reason of such improvement, and the same is assessed upon each of said lots, parts of lots and real estate, as follows: J. H. Folsom et al. 1/2 blk 7 City of Omaha 2 79 Meyer Holman et al. 1/2 blk 20 1 83 Lewis Schroeder et al. 1/2 blk 23 1 83 A. C. Adams 1/2 blk 24 1 78 M. W. Pratt 1/2 blk 4 blk 23 1 93 One-half lot 1/2 blk 23 1 93 J. Christensen et al. 1/2 blk 23 1 93 Omaha & Northwestern Ry. Co. 1 86

DR. E. WEST'S NERVE AND BRAIN TREATMENT. Cures Rheumatism, Neuralgia, Headache, Nervous Prostration caused by overwork, indigestion, loss of sleep, loss of power in stomach, bowels, and all Female Weaknesses, Involuntary Losses, Spasmodic Convulsions, Epilepsy, and all other Nervous Disorders. Guaranteed to cure or money refunded.
