terests of his dusky clients some weeks ago and will represent them until they arrive at a settlement with the government. The names of the four chiefs now here are White Horse, Paw Paw, White Water and John Cleghorn, the latter being the interpreter. All are fine specimens of the Otoe tribe and are above the average in intelligence. They return to Okchowa tomorrow. Perhaps the most important change made yesterday was that governing the Board of Public Works. The old section is com-pletely done away with and an entirely new plan has been adopted. The powers of the board are about the same as heretofore, and there is no material change in that regard. Under the new order of things the board will consist of a chairman, who will also act return to Oklahoma tomorrow. The will of the late James Edwin Jones of Wrington, England, has been filed for pro-bate in this county, where the deceased owned considerable property. The docu-ment is a peculiar one, ornamented with as secretary of the board, at a salary of \$2,000 per year, and two other members, one of whom will be sewer inspector and the other mammoth seals of her majesty's high court of justice, and is absolutely devoid of puncstreet commissioner, each of whom shall re-ceive \$2,000 per year. They shall be ap-pointed on the first Monday in May this

In shoes than in anything else that you buy. You can't detect them. Goodyear and Wardwell welts parade as hand sewed-split leather as full stock-oil cloth as patent leather-American calf as French-and a late wrinkle adds the smell of Russia leather to a piece of calf tanned by some enterprising yankee down east. Your safety lies in buying of a house that you can trust-one that will give you new shoes or your money back if your shoes don't wear as they should. We do that very thing -pay back your money if your shoes go back on you too soon. We sell shoes for what they are. Wardwell welts are Wardwell welts; Goodyear welts are Goodyear welts and our hand sewed shoes are sewed by hand, every stitch. ,We sell shoes that wear. That's the first point we insist on from the men who make our shoes -wearitivity. It s done more to build up our shoe business to it's present magnitude than any other one thing. Our early spring purchases of shoes are here today-in the new shapes as well as the old standbys. The workingman's shoe at one twenty five, with solid leather insoles and counters. The solid American calf-made with genuine Goodyear welt, at two dollars and fifty cents-the best shoe for the average man ever made. The dressy three ninety shoe-made of the finest of selected stock-American calf-the equal of any six dollar shoe shop shoe; the genuine, every stitch by hand French calf at five dollars and a half (two dollars under the shoe stores). All these and many more kinds of shoes are here today in lace and congress-in all sizesin all widths-in all styles of lasts-in all toe shapes from the peaked point of the dude to the wide toe of a best girl's dad-in plain or tipped: Also swell shapes in enamels and patent leather tips.
