TO PERMIT RAILROAD POOLING

Majority Report from the House Commerce Committee Favoring the Bill.

MANY OBJECTIONS FROM THE MINORITY

Messrs, Lind and Mallory Give Their Reasons for Opposing the Proposed Measure -Dangers Attending on the Passage of Such a Law.

WASHINGTON, D. C., Jan. 17 -- Mr. Patter son of Tennessee, in the report of the majority of the house commerce committee on the bill allowing pooling, says that on one hand it has been insisted that to allow such apportionment would enable roads to maintain high rates. On the other hand it is contended it would result in a more equal conduction of the business of these transportation companies; would not increase rates and would have the effect to prevent rebates and discriminations against

small shippers. The committee is of the opinion that under the arrangement provided for pooling no harm will befall the public, and an opportunity will be given to intelligently solve a much mooted problem.

Protest from the Minority.

Mr. Lind of Minnesota and Mr. Mallory of Florida represent the minority, and report that they feel in duty bound to protest against the pooling section of the bill, and call attention to the objections to it. It proposes, they say, to legalthe story of the second st and gross earnings among the carriers them-selves, but also authorizes the carriers to divide and apportion these among other carriers. Under these provisions stockholders will be as much at the mercy of the railroad managers as will be the public. The Standard Oil company, the dressed beef combine and other monopolies can obtain rebates by contracts enforceable in the courts instead of by stealth and concealment, as heretofore. Railroad transportation is a natural monopoly. The element of competition is wanting. The bill takes away the only safe-guard that we have had heretofore against railroad extortion. The competition of water routes has always been a thorn in the side of traffic associations and pools. It has side of traffic associations and pools. It has frustrated many well laid schemes to op-press the public. This embarrassment the bill removes. The annual million dollar bonus to the Pacific Mail Steamship com-pany to refrain from competition may here-after be paid in pursuance of law. In con-clusion, it is said to be unfair to the Inter-State commission to subject them to the im-portuning and ucreasure that this bill would portuning and pressure that this bill would impose upon them should it become a law.

To Increase the Circulation.

In the house of representatives Brosius of Pennsylvania introduced a bill to authorize the refunding of the 4 per cent bonds to increase the circulation of the national banks. and to discontinue the purchase of silver bullion. It authorizes the secretary of the treasury to issue, in sums not ex-ceeding in the aggregate \$500,000,000, registered bonds in demoninations of \$50, or multiples thereof, redeemable in coin of standard value at the pleasure of the United States after forty years from the date of issue, and bearing interest at the rate of 2 per cent. Such bonds shall be exempt from taxation. The secretary shall dispose of these bonds by exchanging them for the 4 per cent bonds now outstanding. Every national banking association that shall trans-fer to the treasury bonds authorized under this act shall be entitled to receive circulating notes equal in face value to the par value of the bonds so deposited, and par value of the bonds so deposited, and shall, in lieu of the tax assessed upon the cir-culation of national banks under existing law, pay to the treasurer of the United States on January 1 of each year a duty of one-fourth of 1 per cent upon the average amount of its notes in circulation during the previous year. The law providing for the purchase of silver bullion is repealed.

WOMAN'S SUFFRAGE ASSOCIATION.

Yesterday's Proceedings Confined to Reports -- Washington Notes.

WASHINGTON, D. C., Jan. 17 .- This morning's session of the National American Woman Suffrage association was called to order by the president, Miss Susan B. Anthony. It was decided to hold the national conventions of the association in Washington every alternate year at the beginning of the long session of congress, and ginning of the long session of congress, and that on intervening years the convention should be held clowhere in the discretion of the executive committee. The rest of the session was consumed by the reading of

reports. The house committee on postoffices and post roads today acted favorably on the sen-ate bill to reclassify salaries of railway postal clerks. The bill fixes the salary of railway postal clerks as follows: First class, \$800 per annum; second class, \$1,000; third class, \$1,200; fourth class, \$1,300; fifth class,

1.500; sixth class, \$1,600, and seventh class, 1.800. Annual Meeting of the Nebraska Board of Agriculture at Lincoln.

WORK OF PREVIOUS YEARS REVIEWED

Exhibition of Last Year Was Not a Financial Success by Several Thousand Doflars-What the Organization Now Requires.

LANCOLN, Neb., Jan. 17.- [Special Telegram to THE BEE. |- The annual meeting of the Nebraska State Board of Agriculture was called to order in the University chapel at 4 o'clock by President Jensen. The attendance was good. Chancellor Canfield welcomed the board in a neat speech, which was responded to by Mr. Jensen. The president did not have his report ready, but the treas-

urer and secretary submitted theirs. Secretary Furnas reported receipts for the year 1892, including the \$2,000 annual appropriation from the state, of \$41,743.15; expenses, premfums, etc., \$20.374.26; other purposes, \$22,792.60. The report also contained an interesting summary of the crop statistics, which show 13,273,443 acres under cultivation in the state. The increase of

products of the two beet sugar factories was

placed at \$90,000 pounds. The matter of holding a fair this year was dilated upon by the secretary in his report of the Western District Fair association. Illinois had tried the experiment of passing a fair for a year with her fat stock show and it was a disastrous experiment. He recommended that one be held. The auditing committee handed in its re-

port showing everything in good order, and a number of committees were appointed, long them being one to impress upon the legislature the necessity of providing a hall at Lincoln where the various state societies could meet. Pending the report of the committee on credentials, an adjournment was

taken until 9 o'clock tomorrow morning.

taken until 9 o'clock tomorrow morning. The board of managers was in session the greater part of last night closing up the business of the previous year. The secre-tary's report shows that the fair of last year failed by a little over \$3,300 of paying ex-penses. This, in spite of the fact that the attenduces and execute year. penses. This, in spice of the fact that the attendance and receipts were much larger in 1892 than the year before. Secretary Furnas explains that this paradoxical con-dition of affairs as due to the fact that the speed premiums were greater by \$4,000, entrance fees smaller, and that fully 90 per cent of the premiums offered were paid, whereas the average is only about 75 per cent, that being the percentage of exhibits to premiums offered. Again a number of

improvements were made in the stock pens, and additional accommodations provided in other departments. *

other departments.
Sugar beet premiums were awarded as follows for the best quarter acre: Jacob Weber, Orleans, \$50; Fred Roby, Grand Island, \$45; J. M. Armstrong, Greenwood, \$42,50; James Loghrey, Geneva, \$40; Alonzo Sherwood, Nonpariel, \$37,50; John McCon-nell, Somerset, \$35; F. McCoy, Alliance, \$32,50; Francis Jones, Hampden, \$30.
The talk which was mevalent vesterday.

The talk which was prevalent yesterday of dispensing with a fair this year has about died down. Nearly all of the members who arrived today are emphatically in favor of a fair, and Secretary Furnas says that there

will be one without any slip. The corn show in Grant Memorial hall is a big success. Nearly all the exhibits were in place this morning, and the hall presents a pretty sight. Among the exhibits is one prepared by Secretary Furnas for the national congress of farmers. Others repre-sented are W. R. Arburn, Cuming county; Lee Smith of Washington, C. M. Snoke of Richardson, L. Spellman of York, Bob Meese of Lancaster, J. R. McLanhan of Clay, John Lyons of Lyons, A. A. Hard of Elmwood, W. M. Coleman of Red Willow, G.

W. Hawkins of Kearney, besides a number from Saunders. That shown by Hawkins is one of the most extensive and consists of over eighty varieties of corn. Horse Fanciers Meet.

AMUSEMENTS.

Mr. Joseph Murphy and his company are seen at their best in "The Shaun Rhue." The play is one of the best of Irish comedydramas, clean humor, healthy sentiment and the pathos of fate-crossed life are in it blended as in few plays. Last evening at the Boyd the large audience was held and moved by it from curtain rise to curtain fall. Mr. Murphy's Larry Donovan is perhaps the best bit of artistic work he does. His neting in the second act in Lawyer Waddy's office carried his audience to tears from laughter, while in the churchyard, where he sings his "A Handful of Earth," his pathos is fully as moving. Each member of the company is cast to the best advantage, and the result is a play and a performance that only the hy-percritical could finger a flaw in Miss Ella Baker presents a particularly clever study in Jim, and it were needless to particularize further where all is so acceptable.

The canvass that is being made of the house for the repeal of the bill is very im-perfect. The influence of Mr. Cleveland is, of course, very strong, and a great deal of dependence is put in that. A great many democratic partisans who are in favor of the coinage of silver, but whose partisanship is coinage of silver, but whose partisanship is stronger than their convictions upon finan-cial questions, are tired of the constant irritation growing out of the silver agitation, and are ready to go a long way in most any direction they are convinced is most to the

President Harrison's Veto of the McGarra. han Bill Sustained by the Senate.

WASHINGTON, D. C., Jan. 17 -, The antioption bill, which has monopolized almost the whole time of the senate after the morning hour during the present session, and which is expected to reach its final vote tomorrow, was depated today for nearly three hours and then went over without action. annumously elected president for the twen-ty-fourth consecutive time. A vice president from each organization represented was announced. Many delegates desired to hear the anti-option debate in the scante, and an effort was made to secure ad-journment, but opponents of the bill wanted some action taken at once in order that it might have some effect on the senate, if possible, before a vote is reached in that body. With that object in view the following resolution was adopted without a dissent-
