Wheat Surprised Speculators Yesterday by Declining One Cent.

CORN WAS INCLINED TO IMPROVE

Liberal Purchases by Prominent Commission Houses, Aided by the Provision Interest, Kept All Cereals Strong but Wheat—Stocks and Bonds.

CHICAGO, Ill., Jan. 20.—Wheat today sold in the high point of last week, and though falling somewhat a fraction lower than last night. The firmness in other articles was in marked contrast. Corn closed with a gain of 1/2 cent, 1 1/2; pork, 3/4; lard, 7/8, and ribs, 2 1/4.

The best wheat buyer early in the session was the Partridge and for a time took about all that was offered and held the market. But cables came in earlier, the selling became liberal and Partridge's order drew out. The market deprived of support became heavy and went about 1/4. Liquidation by longs and the closing out of trades through exhaustion of margins was still going on and there was no demand.

The movements of Cudahy's brokers were watched very closely but no evidence could be obtained that the big speculator was buying any wheat. During the last hour the market gave some indications of strength on free buying by scalpers and covering by shorts. The opening was about 1/2 lower than yesterday, but became stronger and prices were advanced 1/2, ruled weaker again and then declined.

There was a steady decline in the price of wheat, but the market was not so much affected as yesterday. The price of wheat was 1/2 lower than yesterday, but the market was not so much affected as yesterday. The price of wheat was 1/2 lower than yesterday, but the market was not so much affected as yesterday.

OMAHA PRODUCE MARKET

The monopoly of the market during the past few days has been broken and it is thought that a change might be welcome. The change came today in the shape of a break in the egg market. The warm weather and the increased receipts were too much for the high price which had been maintained.

DUN'S REVIEW OF THE WEEK

Gold Weather Has Interfered to Some Extent with Business.

CONFIDENCE IN THE FUTURE PREVAILS: Textile Mills Fully Employed and Other Industries Fully Engaged—Reports from Various Cities—Business Failures Occurring During the Week.

NEW YORK, Jan. 20.—R. G. Dun & Co.'s weekly review of trade: The weather appears to account in part for the somewhat general shrinkage in business, in many branches checking purchases, and in others...

At Boston the dry goods trade is excellent, western stocks being low. Cottons are sold far ahead, the demand exceeding the supply, and woolen mills are fully employed.

At Philadelphia iron is in better demand. At Pittsburgh the weather affects coal deliveries, and some mills are working part time but iron is weaker.

Trade at Cleveland is good for the season, with a large demand for rolled products, and Chicago reports a general clearing up of winter goods and liberal purchases for the spring with heavy retail trade.

At Omaha business is better than last year and collections are good. At St. Joseph trade is good and collections fairly prompt.

In trade is very good at Kansas City except where there is a general clearing up of winter goods and liberal purchases for the spring with heavy retail trade.

At Denver trade is fair, but at Salt Lake is good, but collections slow.

CLEARING HOUSE STATEMENTS

Omaha Shows Another Large Percentage Increase—Reports from Other Cities.

NEW YORK, Jan. 20.—The following table, compiled by Bradstreet's office, gives the clearing house returns for the week ending January 19, 1913, and the percentage of increase or decrease, as compared with the corresponding week last year.

Table with columns: CITIES, CLEARINGS, PERCENTAGE. Lists various cities and their clearing house returns for the week ending Jan 19, 1913, compared to the same week last year.

Domain of Canada

Table with columns: CITIES, CLEARINGS, PERCENTAGE. Lists Canadian cities and their clearing house returns for the week ending Jan 19, 1913, compared to the same week last year.

What is 1/2 cent weaker, with large receipts and small exports, and it is still noteworthy that the western deliveries are in considerable excess of the eastern. There are 1 1/2 cent and eastern 1/2 cent higher.

Cotton fell 1/2 cent, but recovered a shade with large sales, anti-option reports affecting the future more than any change in actual supplies.

Pork products are somewhat stronger, coffee advances with large sales, and scarcity of eggs causes high prices here and at Boston.

On the Stock Market: The stock market has been strong and especially in Manhattan, Western Cotton has some of the industrial showing an advance of nearly 2 per cent for the week.

Money has fallen to 2 1/2 per cent on call, with large receipts from the interior. While Europe's necessities and foreign sales of stocks have caused further exports of gold, no less than \$4,000,000 being reported as being shipped to Europe.
