Bric-a-brac Linen Dept. Black Goods

AND CHINAWARE. Absolute Clearance Wanted.

Thousands of pieces were sold last week, in fact nearly all of it, and we fully expect Monday to sell the balance. Such a sacrifice of beautiful ware has never before been heard of in Omaha or anywhere else. Such prices announced in New York for the same article would jam the largest houses over with sure buyers.
Our prices are: 4c, 6c, 11c, 13c, 18c, 23c, 29c, 33c, 53c. Each price represents a variety of the most useful pieces for any room in the house as well as the dinner or tea table. Two or three lines, that we have most of, we sacrificed still further, at a price for Monday that is simply next to making you a present of them.

For Instance:

Japanese rose jars positively worth \$1.50 or \$2.00 and decorated all over by hand, go at 30c. The cartage from Japan to Omaha alone would reach this amount per piece. Also a lot of cups and saucers at same price.

Another Instance:

Covered vegetable dishes, cracker jars, teapots of the highest quality china and daintily decorated, worth \$2.50 up to \$4.00 or more, all go at \$1.35 each.

Sets of cream and sugar of the same high quality go at \$1.48.
Meat platters of the same quality go at 78c and 98c.

Still Another:

A large lot of handsomely decorated tea plates all go at 13c each and worth three times the price.

And Another:

In a beautiful lot of Japanese cracker jars that would sell at \$5.00 or \$6.00 each, all go at \$1.68.

We also have four beautiful umbrella stands worth \$8 or \$10 each, which will go at \$3.75. Two lots of parlor ornaments go at 16c and 48c.

These are the prices that we expect will close up the department for us by Monday evening.

Our large pieces of bric-a-brac have nearly all disappeared. We have a few choice pieces that will undoubtedly go Monday at the prices marked.

His classmate, Dr. Oliver Wendell Holmes, said of him: "Fate tried to conceal him by naming him Smith." He is a clergyman, but seldom preaches now. News items follow: "Fate tried to be vigorous enough to take the train into Boston occasionally, although he is disinclined to make long journeys."
General Butler was probably the owner of more land than any other citizen of the United States. It is located in various states, north and south. He owned immense tracts near Paget sound, where such property is valuable. He owned both sides of the great falls on the Potomac. BISHOP BOWMAN'S VICTORY.

Decision Rendered by the Supreme Court in the Evangelical Church Case.
DES MOINES, Ia., Jan. 21.—[Special Telegram to THE BEE.]—Judge Conrad of the district court passed upon the injunction suit known as the Evangelical church case today. The decision recites a most complete history of the contest from the Buffalo general conference in 1887, which he held was the law ful one, to the conference of the Des Moines district held at the Kirkwood house in 1891 by Bishop Bowman, holding that the latter conference was regular and its transactions legal. This ruling makes the annual conference held at Trinity church at the same time irregular and its appointees unlawfully chosen. The decision is therefore against the five conferences which withdrew from the general conference and against the Dubs faction and against the local congregations of the three church bodies whose properties were in contest between the Bowman-Esher faction and the Dubs faction.

QUESTION OF VERACITY.

Lincoln Called Upon to Pay the Sun Vapor Company Damages.

OTHER FEDERAL COURT LITIGATION.

Unique Amendment Proposed to the City Charter in Order to Reform Chronic Drunks and Police Court Characters.

LINCOLN, Neb., Jan. 21.—[Special to THE BEE.]—The city of Lincoln is defendant in a suit for \$2,000 damages instituted by the Sun Vapor Lighting company of Canton, O., for breach of contract, now on trial in the United States court. The city had entered into a contract with the plaintiff to light the streets for one year with the privilege of renewal for five. Shortly before the year expired the council began talking electric lights, and entered into a contract with a local electric light company. The new lighting company didn't get in running order in time and nothing was said to the Sun Vapor people about amending their contract until a month after the year had ended, when they were notified to shut off their gasoline lights. They declined for several months, but finally did so. They claim that as the city didn't tell them to stop at the end of the first year it was constructive notice that they wanted them to continue for four years. The case has resolved itself into a question of veracity as to whether or not the city did notify them to quit at the expiration of the year.

Proposed Charter Revision.

The committee on revision of the city charter held another meeting last night and began the work of closing up their reports. Amendments were suggested to require street railways to grade as well as pave between their tracks; providing that when bonds are issued in any paving district they shall be for only nine-tenths of the actual cost, the other tenth to be paid in cash within sixty days from date of levy; to compel railways to put gates at crossings; to give the city power to construct and maintain a crematory and gas and electric light plant. An amendment proposed, but not acted upon, was to give the police judge power to, in his discretion, sentence drunks to a course in a gold cure institute, the city to bear the expense.
