Wheat Opened Higher Than Thursday's Closing Figures and Remained Firm.

CORN FLUCTUATED WITH WHEAT

Continued Severe Weather Alarmed Shorts and There Was Some Effort to Cover Early Which Started the Market Up.

CHICAGO, Ill., Peb. 3 .- The uncertainty as to the anti-option bill kept the market in very unsettled condition today. Wheat opened from 42 ic higher than yesterday's closing prices and closeff 'ac over yesterday's. Corn closed the same as yesterday, after fluctuating with wheat. Pork opened be higher, advanced from 70c to 721ge and closed firm. Lard and ribs followed pork.

Wheat showed a little better tone today and averaged a shade higher, perhaps, though it has also sold lower. It got its first strength on the weather. It is still very cold thoughout the country, with some severe weather in the southwest and the sleet storm has spread a crust of ice over a vast area of the winter wheat belt. This made shorts rather nervous and there was some effort to cover early, which started the market up a little. But the antioption bill is still, a menace to trade and after the first exhibition of strength the trade became extremaly dull as operators were inclined to await the result of the struggle in the house over the Washburn bill. The opening was ite higher than yesterday's close, but the improvement was of short duration. A number of traders thought it would be time enough to take note of the damage to crops when such is ascertained to be the case, and

therefore, the advance of Me was partly lost. The receipts at Chicago were 179 cars, com-pared with estimates of 140. Liverpool was noted dull and Ed lower for red winter. Minneapolis reported receipts of 122 cars and Duluth eight, compared with 275 cars on Friday last and o 2 on the corresponding day of 1892.

About an hour after the opening dispatches from Washington came thick and fast concerning the proceedings of the house on the anti-option assure and business then was generally suspended for over an hour, while the monbers discussed the prospects of the bill. The market during that time remained about steady at 771sc for May and 77c for July.

about steady at 77% for May and 77% for July.

There was a spart to 77% for May about an hour from the close of the session. The price, which held firmly around 77% during the last half hour of the session, rose for a moment to 7%, while trading at from 77% to 78% was brish.

The corn market opened flum at from 47% c

ment to 75c, while trading at from 77% to 78c was brish.

The corn market opened firm at from 47% to 47% to

followed brought out a good deal of long stuff held by the commission houses and on narrow margins, but the demand which sprang up for lard on the decline helped in the advance which followed. May pork opened with transactions at \$19.30 and \$19.35, and immediately thereafter declined to \$19.00, with a recovery to \$19.55 near the close. May lare, which closed yesterday at \$11.35, dropped to \$11.22; and rose again to \$11.62; May ribs opened at \$0.925 and sold as high as \$9.975, then declined to \$9.80 and afterwards became strong and advanced to \$10.125.

Estimated receipts for tomorrow: Wheat, 160 cars; cyrn, 270 cars; oats, 145 cars; hogs, 9,000 head.

#### STOCKS AND BONDS.

Securities Were Somewhat Narrow Yesterday, Except in a Few Specialties.

NEW YORK, Feb. 3.—The stock market was mewhat narrow today and rather feverish. with a general drooping tendency except in specialties, whose strength was something of factor in maintaining prices, especially late in the day. The industrials were comparatively quiet, although large trading in Distillers was noted, with a range of 2 per cent for the day, but the final change was for a small fraction. The developments of last evening naturally brought the Richmond & West Point stocks, together with the stocks of its alifed roads and Reading and its allies to the front. The interest centered more especially in the Richmond & West Point shares, the buying being very free and the common stock rose I per cent and the preferred about 2 per cent. Later in the day the buying extended to the East Tennessee shares. all of which showed material improvement, while throughout the day the Chesapeake & Ohio common stock was a prominent strong feature upon the theory that the reorganization being under the management of Drexel, Morgan & Co., would bring them into closer relations with the Richmond Terminal system, to their mutual advantage. A final gain of 1½ per cent was established in the common stock.

The opening of the Reading was strong, but

the market was soon supplied with long stock from Philadelphia and from the First National bank people here. After reaching 50%, the stock retired I per cent under this pressure but railled to 50 at the close, with a loss of only 5 per cent. New England was a more substantial gainer, from the circulation of the story, and after fluctuating between 40%47%, closed with a gain of 1 per central 48%. A marked feature of the day was the renewal of the strong buying of Orosla, which was carried up 3% per cent to 57%, and after retiring a large fraction closed with a net gain of 2 per cent. Among the specialties Manhattan was again a feature, the buying being excellent, and it advanced steadily from 162 to 168, closing at the top figure with a gain of 6% per cent. Weak spots are seen in American Tobacco, which suffered from a withdrawal of the elique manipulation, and I Pac fle Mail. Tobacco lost 14 per cent and Pacing Mail 14 per cent.

The general market was higher at the opening, but the Induence of the gold shipments was seen in the drooping tendency immediately imparted to prices. Concessions were small, however, except in the stocks mentioned, and the persistent strength among the specialties imparted a stronger tone to the whole lost later in the day. The close was therefore, firm, but the changes for the day were leregular.

The Post says: Two general neutralizing

therefore, firm, but the changes for the day were irregular.
The Post says: Two general neutralizing conditions overshadowed the market today and left prices free to follow their particular bent. The averse circumstance was the withdrawal of gold for a consignment of some magnitude by temerrow's steamship, \$2,500,000 being the amount expected to go. There had been a belief that the weakness of exchange would obviate the necessity for the shipment. The favorable circumstance was the report that a large shipment of American securities would also go by tomorrow's steamship, and it was asserted that this would in a measure offset the gold shipment on its influence on the money market. At any rate, dealings were not danpened by the gold shipment as they have been many times in the past.

only moderate and, as on Thursday, it took all day for them to arrive. The five days' recelpts foot up 15,500 cattle, 17,000 hogs and 5,000 sheep, against 15,947 cattle, 21,839 hogs and 3,801 sheep the corresponding five days last week. The cattle market was fairly active and generally stronger all around. Offerings were not excessive and included a larger than usual

percentage of good to choice beef steers. There

percentage of good to choice beef steers. There was an active shipping demand and local bouses all wanted some cattle, so that sellers found little difficulty in disposing of desirable offerings at a 10-cent advance. Good to choice 1,200 to 1,500-lb, steers sold at from \$4.60 up to \$5.40, fair to good 1,000 to 1,200-lb, steers at from \$3.80 to \$4.35, with common to fair stiff around \$3.50 and \$3.75. Trade was brisk and a fair clearance effected.

Cows and heifers sold strong to a dime higher than Thursday at from \$1.25 to \$3.85, the hulk of the decent stuff at from \$2.40 to to \$3.00. Rough stock of all kinds sold at good strong prices, sales ranging from \$2.00 to \$4.50. Common large to choice year calves were in good demand and firm at from \$2.00 to \$6.50. Everything in this line changed hands briskly and little of any consequence remained unsold in the pens over moon.

The Bee.1—Firmness continued a feature of the cattle market. Of useful shipping and export steers not enough were offered to fill the orders that were on hand and of good butchers and canners' stock there was also an inadequate supply, with the result that those descriptions were closed out and at better prices than were paid on the day before. But while they sold specially well there was a good market for all grades. If trade dropped a little it was by reason of the advanced views of holders. Sales were on a basis of from \$3.40 to \$0.25 for very common to extra steers, from \$2.50 to \$4.15 for stockers and feeders, from \$1.60 to \$4.00 for poor to extra cows, heifers and bulls.

\$1.60 to \$4.00 for poor to extra cows, helfers and balls.

The range of sales of hogs was no higher than for Thursday, the average of prices was a trifle better, few heavy weights seiling below \$5.00, and the popular prices for medium and light weights being from \$7.90 to \$8.20, and from \$7.70 to \$8.20, and from \$7.70 to \$7.90 respectively. There was a good demand for eastern account, and as local packers also took hold in an interested way, the pality \$17.000 hogs were quickly out of first hands. The close was firm at from \$7.50 to \$8.30 for moment to prime light. \$7.75 to \$8.30 for molved and needlan, and from \$7.90 to \$8.45 for heavy. Pigs and culls were quoted at from \$5.00 to \$7.25. There was a sale yesterday at \$8.47 \(\frac{1}{2}\), and one today at \$8.45.

The sheep trade has been in somewhat better shape than for the previous week, supplies being more in harmony with the demand and prices developing a slight upward tendency. Not all of the recent decline has yet been recovered, however, present quotations being from \$3.00 to \$5.35 for very poor to strictly choice qualities. Fed westerns made up the greater part of the supply and from \$4.75 to \$5.10 was the range at which most of the business was done. Lambs have also sold to better advantage. They were in moderate supply and in good demand. Obroughout, elesing steady at from \$4.25 to \$6.25 for poor to extra. Receipts: Cattle, 7,000; hogs, 15,000; sheep, 4,000.

How it Became Popular. When people find an article much superior to anything of the kind they have ever before used, they are almost sure to tell their friends about it, and especially if they know of some friends needing such an article. Dealers also soon learn the true value of their goods, and when they have an article of unusual merit they will almost invariably mention the fact to their customers. This accounts in a great measure for the large sale on Chamberlaiu's Cough Remedy. Here is an instance: W. L. Needham, a promi-nent citizen and business man of Orrsburg, Mo., has been selling Chamberlain's Cough

Remedy for several years and recommends it to his customers, because in his experience it has proven to be the best for colds, croup and whooping cough. He says it is the most popular medicine that he handles and gives the best satisfaction. 50 cent bottles for

Passage of the Anti-Option Bill Itas Not Affected Trade Gold Exports Cause Monetary Uncertainties Reports from Business Centers.

New York, Feb. 3.-R. G. Dun & Co.'s weekly review of trade says: Actual business is surprisingly large for the season, and yet fears about the future are also large. Congressional uncertainties cause the fears. but the prosperity and the needs of the people make business what it is, and never before has the distribution of products to consumers been larger than it has been thus far this year. Yet it is probably safe to say that rarely, if ever, except in a time of panic, has business been more cautiously and conservatively regulated. Monetary uncertainties are excused by the continued outgo of gold . but the passing of the anti-option bill by the senate has had no effect upon the markets Reports from Cities.

and at Detroit exceeds that of last year. At Chicago receipts of cured meats and wheat are more than three times those of last year, and considerable increase is seen in corn, oats and rye, while in hogs, lard and dressed beef the decrease is large. Trade at Milwaukee is increasing, but col-

ections are retarded. The storm checks retail trade in the region about St. Lons. At Minneapolis and St. Paul teade is fair, and similar conditions appear at Kansas

At Little Rock collections are slow, but at At Little Rock collections are slow, but at Mobile trade is very satisfactory.

Business at New Orleans is quiet, money in demand and easy, cotton quiet and sugar strong, and trade in rice improving.

While there is much cutting of rates by the railroads and the movement of freights has been greatly interrupted by the west's

Demands for Textile Fabrics.

The wonderful demand for textile fabrics is unabated. For brown and bleached cottons the market is said to be the best for twenty years and some makes of sheetings have advanced. The trade is low and medium grades of men's woolens are about clos-ing at the time when it is usually opening and the demand for fine goods is less strong probably because of anticipation of tarial changes, the general tendency is clearly toward greater economy in manufacture. Trade in boots and shoes is very active. Prices for manufactured products in iron and steel are depressed beyond all precedent, nevertheless the sales continue remarkably large and the volume of business greater than in any previous year.

The stagnation in steel rails has been

broken by the placing of orders for 60,000 tons by the Pennsylvania railroad, and in plates orders for 20,000 tons have been placed for the Crames at Pittsburg mills, though at very low prices. Large structural ontracts have also been placed for buildings

in New York.
While \$2,500,000 in gold has been ordered for shipment today, and the amount may be larger, receipts from the interior are so heavy that money mar-kets are not disturbed and foreign exchange is slightly lower. Produce exports are \$10,000,000 less than last year since January, and there is also a decrease at cotton points, in spite of the advance in prices The uncertainty about the monetary future retards business engagements, but in other respects trade is most satisfactory, and per
