

THE DAILY BEE

F. BOSWATER, Editor.

PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday) One Year, \$ 8.00

Omaha, The Bee Building. South Omaha, corner N. and 26th Streets.

ALL COMMUNICATIONS RELATING TO NEWS AND EDITORIAL MATTER SHOULD BE ADDRESSED TO THE EDITORIAL DEPARTMENT.

BUSINESS LETTERS. All business letters and communications should be addressed to The Bee Publishing Company.

THE BEE PUBLISHING COMPANY.

SWORN STATEMENT OF CIRCULATION STATE OF NEBRASKA.

George B. Trachtenberg, secretary of THE BEE Publishing Company, does solemnly swear that the actual circulation of THE DAILY BEE for the week ending February 4, 1893, was as follows:

Table with 2 columns: Day, Circulation. Sunday, January 31, 26,045; Monday, January 29, 23,773; Tuesday, January 30, 23,833; Wednesday, February 1, 23,773; Thursday, February 2, 23,825; Friday, February 3, 23,889; Saturday, February 4, 24,203.

Sworn to before me and subscribed in my presence this 4th day of February, 1893.

Average Circulation for January, 24,347

THE number of democrats recently brought to light who are too poor to enter the cabinet is surprisingly large.

THE St. Louis Globe-Democrat is of the opinion that the opposition of Clarkson is a sufficient reason for the confirmation of Judge Jackson.

JUDGING by the attitude of Mr. Cleveland on the subject, a special session of congress will be the inevitable result of the failure of the attempt to repeal the silver bill.

THE Omaha police authorities are proving that they are entirely in earnest in their determination to rid the city of suspicious characters and put a check upon crime.

THE contribution of Russia to Great Britain's imports of wheat and flour during the past year was only 18 per cent, while that of the United States was 45 per cent, and Russia is a wheat country, too.

THE city treasurer has sold \$185,000 worth of 5 per cent school bonds at a premium of \$10.47. This is only another straw that indicates the financial standstill of Omaha at home and abroad.

THE stockgrowers of Douglas county meet at Valley next week. They have prepared a program which will attract many of the stock breeders of the state who are deeply interested in the work of breeding the best grades of stock.

A BILL before the Illinois legislature providing for the reduction of street car fares to 3 cents in Chicago. Considering the big dividends paid by the street railway companies in that city on stock that has been watered with the greatest prodigality this rate would not bankrupt them.

THERE is no longer any doubt as to the attitude of the Pennsylvania legislature in relation to cigarettes. The lower house has just passed a bill, by a vote of 150 to 28, prohibiting the manufacture and sale of cigarettes in that state.

THEY are having lively times in the Wyoming legislature trying to elect a senator. It is now charged that a republican senator has been abducted and a democratic senator dragged to prevent them from voting, and vigorous investigations have been started.

A BILL has been introduced in the legislature of this state providing that all bulls within the borders of Nebraska shall be dehorned after they are two years old. The purpose is to render the animal harmless, but stockmen who are familiar with hornless cattle, such as the Polled Angus or the Galloway, will smile at this idea.

A CORRESPONDENT of THE BEE in Scotts Bluff county expresses opposition to Senator Darner's irrigation bill, and says the people of that county do not approve its provisions. He represents that the settlers on our western border do not want to be taxed to help support a board of irrigation officers.

THE prediction of Thomas A. Edison that Chicago will be the London and New York of the Liverpool of this country within half a century may not be realized, but there can be no question that the center of population and business activity is rapidly moving westward, and that the cities which have within a few years sprung up midway between the oceans will be densely peopled when most of the old cities of the east which are of corresponding size at present will be but little larger than they are today.

REPUBLICAN BOURNISM.

In times past republicans always banked on the stupidity of the democratic party and its limitless capacity for blundering. For the twenty years from Lincoln to Garfield the democratic party made it its sole aim and object to oppose anything the republicans proposed, whether it was right or wrong.

This was the course of republicans in the Kansas legislature two years ago, when every bill and measure passed by the populist house, good, bad and indifferent, was voted down indiscriminately by the republican senate.

Will Nebraska republicans in the legislature emulate the example of the Kansas republican bourns? The action of the republicans in the senate on the labor trouble resolutions seems to indicate that they will.

The populists of the house passed resolutions proposing an inquiry into the labor troubles at Lincoln with a view to bringing about a peaceful settlement by arbitration.

The resolutions were harmless, and certainly did not encourage anarchy or disorder. If the republican senators did not approve the wording they should have suggested amendments as might have been offered such amendments as might have suggested themselves.

NO MORE RECURRENT JUGGLERY. A bill to recount the ballots cast for and against the amendments to the constitution relating to an elective railroad commission and the investment of the permanent school fund has passed both houses of the legislature.

As the bill under consideration allows several years for full compliance with its provisions, in order that the burden of expense may not be too severely felt, it is desirable that the law should be put into operation as soon as possible.

PUBLIC HEALTH AND POLITICS. Partisan bias may have somewhat exaggerated the inefficiency of the Tammany quarantine system in New York, but the fact that the New York Academy of Medicine has without a single dissenting voice condemned that system as managed last fall by Health Officer Jenkins and his lieutenants affords sufficient proof that it does not command itself to the best medical authorities.

THE proposition to recount the vote is an attempt to follow the dangerous precedent of 1883, when the amendment increasing the pay of the members of the legislature from \$3 to \$5 a day and extending their session from forty to sixty days, was declared carried after a recount of ballots from one or two counties in which a miscount had been alleged.

THE bill just passed by the legislature invites a repetition of the high-handed imposture of 1883 on a larger scale. In 1883 the recount only included a couple of counties and the shortage in votes was only a few hundred. Now it is proposed to recount every precinct in the whole state, and more than 20,000 votes will have to be conjured up somewhere or somehow to give the amendments the necessary majority.

THE prediction of Thomas A. Edison that Chicago will be the London and New York of the Liverpool of this country within half a century may not be realized, but there can be no question that the center of population and business activity is rapidly moving westward, and that the cities which have within a few years sprung up midway between the oceans will be densely peopled when most of the old cities of the east which are of corresponding size at present will be but little larger than they are today.

to go before the people of this state with false and defamatory stories about the elections in Omaha. The Douglas delegation in the legislature owe their election to the republicans of this county. There is no foundation in fact for the contest made and Mr. Lobock wants the senate to count the ballots and canvass the vote in order that the libels may be refuted.

MEASURE FOR SAFETY APPLIANCES. The debate in the United States senate on Tuesday upon the bill to promote the safety of employes and travelers on railroads by compelling the latter to equip their cars with automatic couplers and continuous brakes, and their locomotives with driving wheel brakes, was somewhat disappointing to the friends of the measure.

A PRESS dispatch now going the rounds is freighted with great import to democratic patriots who have been tottering and sawing wood for the party for the past generation. Mr. Cleveland is quoted as saying that he will not appoint democrats to office who drew salaries under his first administration.

NEBRASKA AND NEBRASKANS. A man from Wyoming is about to start a democratic paper at Sidney.

RECALL SERVICES ARE IN PROGRESS at Sidney, Nebraska, for the purpose of electing a democratic representative to congress from the state and many conversions are reported.

THE election contest over the county attorneyship of York county, instituted by W. P. Harr, republican, against Sidney Dodge, independent, has been dismissed.

FIVE HUNDRED people participated in the mass meeting at Hubert which declared in favor of Dr. R. K. DeWitts for congressman under the coming administration.

PETER SHULTZ, a farmer's lad living a few miles from York, who was recently severely bitten on the leg by an enraged hog, is in a serious condition now and is liable to lose the member, which is in a frightful condition.

LEWEL LEMON, the University Place boy who was shot by his brother, died of his injuries, or of a surgical operation which was performed on him, at the St. James hospital, where he was lying in a room heated to 122 degrees.

ONE MAN KILLED AND FOUR PASSENGERS INJURED, On Feb. 8.—The Big Four passenger train, which left here at 7:45 last night, was wrecked and totally destroyed a mile east of Pana at a late hour.

THE price of groceries has advanced. The gentle hint borne through the air by political Ariels who have been hovering about Cleveland's pillow that the democratic party will vote for repeal of the silver bill must keep away from the back door of the white house when the crumbs are disappearing as fast as the wind doing the business for that beautiful day.

EIGHT years ago the democrats pounced upon the United States treasury with a whoop and a howl of delight at the anticipation of the great loot which was to come. After several months of crooked scheming they discovered that the accounts were out of balance just twenty cents.

WASHINGTON, D. C., Feb. 8.—A story telegraphed from the capital relative to the national quarantine bill this morning, which is given as an index to the feeling of the house on the silver question, is so incorrect that its denial is almost unnecessary.

WASHINGTON, D. C., Feb. 8.—The bill was presented to the house today Mr. Anthony and Mr. Kilgore of Texas began a filibustering campaign against the bill, but the house took the matter in hand, sat down upon the filibusters and agreed to the senate amendment by a vote of 191 yeas to 127 nays.

CHICAGO INTER-OCEAN: Because a man clings to the old-fashioned lamp post it is no sign that he doesn't appreciate the electric light.

INDIANAPOLIS JOURNAL: "I never could understand the attitude of Henry V. in the report, but at a friendly poker game, 'Yes, indeed, the other, 'I once saw a man shot for having five o'clock."

PHILADELPHIA TIMES: The result of jumping at conclusions is proverbially shown in these women readers who first turn to the back of the novel to see how the story turns out.

PHILADELPHIA TIMES: The man who can do half an hour's work in five minutes gets almost the envy of a lot of people who can do five minutes' work in half an hour.

CHICAGO TRIBUNE: "When it comes to revenue cutters," said old Bullion, snipping off another coupon, "there's nothing like a good pair of shears."

EVOLUTION OF A NAME. St. G. & Co., Monthly. Christianed Mary. At 10 called Mattie. At 15 called Mary. At 20 called Moll. At 25 called Molly. At 30 called Mrs. When married, Maria.

THE WAY OUT of woman's troubles is with Doctor Pierce's Favorite Prescription. Safely and certainly, even the most delicate weakness, derangement, and disease peculiar to the sex is permanently cured.

So certain to cure every case of Catarrh of the Bladder, that the doctor who prescribes this medicine says you will be cured permanently, will pay you \$500 cash.

NOT ON THE BILLS.

SENES AND INCIDENTS DURING THE CONATING OF THE ELECTORAL VOTE YESTERDAY.

WASHINGTON, D. C., Feb. 8.—There were some interesting and amusing incidents in the electoral count not recorded in the official proceedings. The strict rules of the house which govern admission to the floor were suspended, and one member, evidently not a friend of female suffrage, remarked: "The floor of the house looks as if the senate would look if the populists of the western states eventually succeed in electing women senators."

BROWNING, KING & CO. Largest Manufacturers and Retailers of Clothing in the World. We Might Use dynamite to blow a hole through that dividing wall and get the two stores into one in that way, but some of us might go up through the roof, then 'twould kick up more dust than the carpenters will. They 'll kick up enough, so to get all the clothing possible out of the way we've made the prices fully 1/4 less than you can get same quality for anywhere else. Our own make, all wool men's suits are now \$8.50; other grades at same relative prices. Boys' suits, \$2.00 and up. Pants, \$1.50, all fine, modern, this season's goods. Look us over this week. Overcoats and ulsters that are built for just this sort of low mercury weather. The prices are way down same as the mercury.
