Traders in Wheat Treated to a Series of Surprises. WILD FLUCTUATIONS IN THAT CEREAL.

After Declining Nearly Three Cents Per Bushel It Recovers Most of the Loss - Cause of the Rapid Changes.

CHICAGO, Ill., Feb. 15.—Wheat today fell nearly 3 cents a bushel and shot up again 1 1/2 in ten minutes.

Traders were agitated. The break occurred without the slightest warning, just at the close of the day. In the upward movement the buyers were somewhat surprised.

The final action in wheat came like a lightning bolt at a preliminary session in London. In an instant, where all had been peaceful, Norman B. Farnham seemed to be the leader of the vigilantes.

The market was very quiet and there was almost no change worthy of note in the market. Prices on everything were about steady.
