# TWO OBJECTIONABLE ITEMS Amendments That May Defeat the Sundry Civil Bill. APPROPRIATION COMMITTEE UNEASY Holman Declares His Intention to Demand Cloture for the Measure-Bland Announces His Oppo-

sition to the Bill.

### WASHINGTON BUREAU OF THE BEE, ) 513 FOURTEENTII STREET. WASHINGTON, D. C., Feb. 24.

Members of the appropriation committee Bre beginning to feel apprehensive about the passage of the sundry civil bill in the house. The senate has added two amendments which will excite lively opposition. One is the Sherman amendment authorizing the treasury to issue 3 per cents, which will be opposed by Mr. Bland and his free silver followers. The other is an appropriation to reimburse the state of Nevada \$110,000 for money expended for suppressing the rebellion, which is opposed by all the southern brigadiers and by the economists who urge that if this claim of Nevada is paid other states will present similar claims aggregating an enormous amount.

Mr. Holman has declared his intention to demand cioture for the bill. This is the result of Mr. Bland's warning that if the committee on appropriations expected to pass the sundry civil bill at this session of congress it would be well to bring the bill before the house at the earliest practicable moment, as he intended to have it fully considered, thereby indicating his purpose to filibuster against the Sherman amendment.

### Trouble Over Indian Schools.

Secretary Noble has positively "sat down upon" all efforts to create the Indian school at Chamberlain, S. D. An appropriation for the purpose of purchasing lands and the building of Indian schools at Chamberlain and Rapid City, S. D. was made some time and Rapid City, S. D., was made some time ago by congress. The selection of a site for the Rapid City school was made months ago and promptly ratified by Secretary Noble. When the re-port of the Indian school supervisor upon the Chamberlain site was received about the time the Rapid City report came in, it was laid aside "for investigation." Secretary Noble discovered that the site selected was in the vicinity of lands owned by parties he did not like, and he therefore by parties he did not like, and he therefore concluded that there must be something wrong. He could not see how a site might be honestly or properly selected if it bene-fited any one, and so he refused to approve the selection of land, declaring that there

was in the selection a "real estate specula-tion." A week or two ago Inspector Parker vis-ited Chamberlain again with a view to mak-ing another selection and as remote from the first one as possible, so as to circumvent any possible real estate scheme. He made a se-lection far away from the first one in the opposite direction from the town. The land and terms were satisfactory and so he reand terms were satisfactory and so he re-ported in favor of its acceptance. But Sec-retary Noble, not to be outdone by facts or fairness, has refused to even permit the last report to come to his desk, directing Acting Indian Commissioner Bell to refer it to the files for the next administration. Mr. Bell appears to be in full sympathy with this remarkable pol-fey, and is out of humor and loses his ac-quired courtesy whenever a newspaper cor-respondent inquires about the subject. Thus the law of congress is defied and

Thus the law of congress is defied and Chamberlain is, for the time at least, ker.t out of its Indian school. There is a strong current of indignation here over the manner in which the Interior department has acted toward Chamberlain's interests.

### Warren's View of Beckwith.

Senator Warren of Wyoming arrived last night from a brief trip home and was on the floor of the senate today. In discussing af-fairs political and otherwise today he said; "I am just informed by a private telegram of the appointment as senator of A. C. Beck-with by Governor Osborne, which gives the democrats another senator should he be seated. Mr. Beckwith has resided in Wyning about twenty-five years 1 have known him for many years. He is a man of considerable wealth and property interests in Wyoming. He is a merchant and owns several stores. While governor I appointed him a member of the State Insane Asylum commission and he is now a World's fair commissioner. He is considered a shrewd business man, is over 60 and is married. "Wyoming is rapidly becoming a great wool producing state. Our farmers conse-quently are very much interested in future tariff legislation. Although we have very rich mineral deposits they have not been developed as rapidly as have those of some of our sister states. In coal alone, some of which is of a superior quality, we have over 80,000 square miles which have been tested. We have been devoting our attention largely to cattle, but now, I think, our mineral resources will receive attention as cattle are not as profitable as formerly."

cierks to senators not chairmen of commit-tees was agreed to. The amendment re-ported by the committee on appropriations striking out the paragraph abolishing the Utah commission and substituting \$10,000 for the compensation of five commissioners caused discussion, in the course of which it was announced by Mr. Gorman that it was the mission of the democratic party, which was just coming into power, to un-load all useless offices and throw them over-board. Him its Good Features. WASHINGTON, D. C., Feb. 24,-Discussing Mr. Voorbees took a view of the question different from that taken by Mr. Gorman. He was satisfied, at the end often vears, that the commission had worked good and beneficial results. It had stood as an arbi-trator of justice between contending factions in Utah and protected the Mormons against the appetite for plunder of the Gentiles. The question was now whether the work of the commission was not whether the work of the his measure introduced in the house today, Mr. Harter said this afternoon: "That bill has several merits. The application of Dr. Warner for a place on the pension board at Butte, Neb., has been antagonized by Dr. Morse, secretary of the board at Ainsworth.
