Few Events Requiring More Than a Casual Mention in Passing.

SECOND WEEK IN LENT PROVES DULL INDEED

Dinner Dances Cause Heartburnings and Dire Quarrels-The Women Who Have Contributed to the Flag-Chat of Well Known People.

Society is in the doldrums. There have been few affairs in the social world, and these have been supon a small scale, consonant with the season of . Lent. The smart set are resting from their arduous labors of the pre-Lenten season and gathering strength for the after-Easter period, which at present does not hold out any glittering promises.

There is also a tendency on the part of certain society leaders to draw the imaginary line which separates the sheep from the goats still closer, and the outcome is being watched with considerable interest by the followers of Dame Fashion. Much of this condition is largely due to

Much of this condition is largely due to the dinner dances which were given before Lent, and the beart burnings and dire quar-rels resulting from the attempt to draw a line between the elect and nonelect are still fresh in the memory. The fact is, the dinner dance has furnished too convenient an excuse to "draw the line" not to have been eagerly selzed by the ex-clusive "thundeed or se" that have consti-

clusive "hundred or so" that have consti-tuted themselves, as it were, the inner circle of society. But like every other new fashion of society. Furthice every other new lashout other sets will take up this latest fad and by next winter it will undoubtedly be such a general form of entertaining that it will cease to be peculiarly distinctive.

A Birthday Party.

Monday last, the 20th of the month, was the sixty-eighth anniversary of the birth of Mr. James Bonner, and a party of friends were entertained at his home, Twenty-fifth and Cassius, in honor of the event. Assisted by Mrs. Bonner, the host, who bears his sixtyeight years of life passed as lightly as most men do two score, exerted himself to assure a good time for everybody, and unqualifled success attended his efforts. The tokens fed success attended his chorts. The tokens of friendly esteem, congratulations on years passed and wishes for many healthful and happy returns of the birthday presented him were many, beautiful and useful, in-cluding books, paintings and china ware. High five was played with all the enthusiasm invariably evoked by the handsome prizes being won by Mrs. W. T. Bonner, Mrs. Woodward, Miss C. Clarke, Mr. J. P. Linn, Mr. J. W. Johnston and Mr. J. O. Slatter. Refreshments and a continua-tion of the fun led to the birth hour of an-other day, and all left in possession of a pleasing memory of the pleasantest of even ings. Those present were: Messrs. and Mcsdames W. J. Hunter, W. E. Berry, A. W. Hedgocck, J. W. Johnston, G. W. Cooper, F. H. Garvin, W. T. Bonner, R. H. Jenness, F. H. Raiffe, J. O. Slatter, W. B. Hon. J. Sterling Morton for Secretary of Agriculture.

SKETCH OF A NOTABLE POLITICAL CAREER

The Sage of Arbor Lodge" Has Been a Moses to Nepraska Democracy-Father of Arbor Day-Student of Nature.

Hon. J. Sterling Morton, who has been seected by Mr. Cleveland for his secretary of agriculture, may not be as well known to the nation as some other gentlemen who have been mentioned in connection with that office, but he is a veteran in the cause of democracy and has had a remarkable career. It has been his misfortune to have lived in a state overwhelmingly republican, thus preventing him from achieving those positions which would have attracted the attention of the whole people, but to the democrats of Nebraska he is a political Moses who has been called on to lead many a forlorn hope Governor of Nebraska while a territory, twice a member of territorial legislatures. once elected delegate to "congress and unseated, nominated four times for governor and once receiving a majority on the face of the returns, once nominated for United States senator, Mr Morton has had a notably busy political career for a man

nating convention. Governor Morton was born at Adams, Jefferson county, N. Y., in 1832, and two years later his family moved to Albion. Mich. He attended the public schools of Albion and at the age of 18 entered Michigan university at Ann Arbor. During his senior year, in 1854, a college quarrel resulted from the removal of the professor of materia medica. At a public meeting in the court house young Morton, a friend of the deposed instructor, made a spirited speech in his instructor, made a spirited speech in his defense and roundly scored the board of regents and some of the faculty. For this

act Morton was expelled from the university. He thereupon entered Union college at Schenectady, N. Y., and graduated the same year. Among the young man's early schoolmates

For a wedding journey they started immediately to find a home on the frontier in Nebraska. They first located at Bellevue, then a promising town five miles below Omaha, and a formidable rival to the latter until it lost the terminu of the Union Pacific railroad, but six months later the young couple removed to Nebraska

City. He made a contract with a town lot com-pany to edit the Nebraska City News at a salary of \$50 per month. He had gained some experience while in college writing for various papers, but chiefly for the Detroit Free Press, then edited by Wilber F. Story, afterwards of the Chiengo Times. He con-tinued in this work for a year, and also did editorial work at intervals until 1877. After stumping the terri-tory in a series of joint debates with his opponent he received a majority of fourteen votes and was certified as delegate. The war came on, his party was in the minority, his opponent contested the seat and he was ruled out because of irregularities. At the urgent request of his wife he re-fused all nominations for the next five years, but in 1860 the democratic state convention nominated him for governor, although he was not present and had not sought the honor. Nebraska had just been admitted as a state and he accepted the nomination.

Early in his residence in Nebraska Gov-ernor Morton became impressed with the need of cultivating trees in the prairie states, and he not only made a bower of the grounds about his own home but he urged his fellow citizens by speech and by news-paper articles to do likewise. In 1872 he introduced a resolution in the state agricul-tural board proposing that a day be set apart for the planting of trees by the people of Nebraska. That was the organized beginning of Arbor day, and two years later Governor Furmas issued, a proclamation setting aside Furnas issued a proclamation setting aside Furnis issued a proclamation setting aside a holiday for tree planting. Since then many western states have adopted the idea and made the annual event a legal holiday. While Mr. Morton has been a gentleman

farmer rather than a horny-handed son of the soil, he has been practical, scientific, advanced and moved by the highest of neigh-borly motives. He has studied Nebraska soil and elimate for the pleasure of telling the people of his state what their lands were best adapted to. He planted and reared an orchard to refute the statement that fruit could not be grown in the state. In this connection he has been sprominent in the Amer-ican Forestry association. He is concededly a high authority on forestry and agriculture, because he has followed them with the zeal of an enthusiast and the trained observation an educated student!
