SMALL PROFITS FOR THE PRODUCER

Corn Trading Was Rather Spasmodic with a Liberal Business Eventually Scored, Prices Moving Down Fractionally-Stocks and Bonds,

CHICAGO, IR., Feb. 27.—The lowest prices since the harvest, were made today for wheat, corn and onts. No. 4 spring wheat to the number of twenty-one cars was sold at 50c per bushel. At that rate the farmer who raised the wheat would not realize over 35c per bushel for that, if it came from any great distance. Compared with Saturday's closing prices, wheat is Me lower and corn and outs each Me off. Provisions were firmer and higher and closed with the following gains: Pork, 124c:

lard, 17 ye and ribs 15c. The mild weather was accepted by many as e harbinger of an early spring and probably had some influence upon the minds of traders. The selling of May wheat and buying of July on Saturday by parties who were supposed to represent the so-called bull clique also tended to upset the previous popular estimate regard-ing the intentions of the heavy longs toward

It was also the general opinion that the vis-It was also the general opinion that the vis-ble supply would not show much if any de-crease. In the latter respect the crowd was in error, for the decrease as published later in the day was 751,000 bu, compared with a de-crease a year ago of 302,050 bu. This had a reviving effect for a while, as did the low tem-perature prevailing in the northwest. A severe freeze-up following the recent cold weather was regarded as a dangerous element. But on an advance there seemed to be a general desire to sell, under which the market became decidedly depressed.

Torserts of his grock's still in farners, hands

general desire to sell, under which the market became decidedly depressed.

Reports of big stocks still in farmers' hands in the northwest and declarations that the Chicago market was relatively about 5c out of line with the other principal wheat centers caused general discouragement among the longs, and there was free Haudation. A severe decline which followed was started by the selling of 200,000 bu, of wheat by Counselman & Day, 100,000 bu, of which was long wheat sold for New York account and the other 100,000 bu, was sold short for a customer in the northwest. The house being supposed to be in touch with the clique their selling had damaging effects, particularly when at 76c there was still no sign of support from the clique. The market opened about 5c lower than Saturday's closing, advanced 5c, then ruled steadier and the closing was from 5c to 5c lower for May and July decilned 5c, then ruled steadier and the closing was from 5c to 5c lower for May and 5c lower for July than the closing figures of Saturday.

Corn trading was rather spassmoodle with lib-

closing was from \$\frac{1}{2}\$c to \$\frac{1}{2}\$c lower for May and \$\frac{1}{2}\$s lower for July than the closing figures of Saturday.

Corn trading was rather spasmodic with libgral business eventually scored, prices moving down fractionally. There were few or no elements apparent, with the situation in the general drift of sentiment one of bearishness.

Sorts' covered fairly on the soft spots and this tended to prevent any serious decline. Free liquidation by longs in oats caused a heavy feeling. The market closed easy at \$\frac{1}{2}\$c above the lowest figures with a net loss of from \$\frac{1}{2}\$c to \$\frac{1}{2}\$c. A trade was made in July for the first time at 1c under May.

The provision market opened strong on the small receipts of hogs but the slump in grain finally affected prices and the close was at about medium figures.

Estimated receipts for tomorrow: Wheat, \$10 cars; corn, \$425 cars; oats, 300 cars; hogs.

ume of business was in keeping with the conservative tendencies in trade and with the
condition of the market. Goods are still relatively scarce and except in special instances
of undestrability of goods, highest prices
have to be paid to secure any near delivery.
The replenishing request is steady for moderante parcels of staple cotton, brown, bleached

STOCKS AND BONDS.

Securities Were Active but Entirely Free from Excitement.

New York, Feb. 27.-The stock market was quite active today, but almost entirely free from excitement, but liquidation in many many stocks continued and the bears were active in different portions of the list giving the market as a whole a drooping tendency throughout most of the day, while a few stocks were materially depressed. Movements were irregular throughout the day, and here and there substantial gains were established. The bardening tendency of money restricted buying for the long account, and the unfavorable bank statement intensified the anxiety in regard to money rates in the immediate future.

Late in the day 8 per cent was reached in call loans, which gave the principal incentive to a vigorous drive at Reading, although a rumor that the report of the receivers would be unfavorable was used to depress the stock to the lowest point yet attained since it began to decline. Sterling exchange rates were so what easier and sterling loans were affected, which led to the abandonment of the proposed shipment of gold tomorrow and to the impres-

which led to the abandonment of the proposed shipment of gold tomorrow and to the impression that no more would go out this week. Buying of stocks today was principally for the short account. Opening prices were in almost all cases slightly lower, and fractional concessions were general in the early trading.

The grangers were weak, and Burlington retired 1½ and Rock Island 1 per cent, but Sugar was taken in hand by the insiders, and after selling down to 116½ it was lifted to 118, and it is said the stock was used as collateral for sterling loans today. The entire improvement was maintained until late in the day, when in company with the decline in Reading it was let off to 119½ cat the close, at which point it showed a net gain of 2½ per cent.

The only other stocks to show any marked strength during the day were New England and Northern Pacific preferred, each of which closed with a gain of 1 per cent. After a fractional reaction from its best price, the coal stocks were sold early in the day, the selling being accompaned by a rumor that the sales agents would recommend a decrease in coal prices for the month of March. Lackawanna raised 1½ per cent, though the others were fairly maintained. The final drive at Reading, however, left it 2½ per cent lower for the day. Bears attacked General Electric toward noon and for a time it was the weak feature of the list, dropping from 107 to 103½, and after a rally to 105 it again retired, closing 2½ per cent. Eric became prominent late in the day, when it also was made the object of a rumor of a receiver-ship. It failed to rally and closed 1 per cent lower and Chicago Gas 1½ per cent. Eric became prominent late in the day, when it also was made the object of a rumor of a receiver-ship. It failed to rally and closed at 21½ with a loss of 1½ per cent. The general market dropped, but moved within narrow limits, and the close was heavy at the lowest prices.

The Post says: There was a more rational tone to the stock market during the early hours today, although the opening

OMAHA LIVE STOCK MARKETS,

Week Opens with Light Receipts and a Good Inquiry for All Sorts.

Monday, Feb. 27.

The week opens out with light receipts of all kinds of stock. There were ninecy-nine cars of cattle here, of which about half were good enough for beef. With eastern market stronger and an active demand from both local houses and shippers trade was brisk, with prices unevenly higher than Saturday. Sellers said the market was 10c to 20c higher and buyers claimed a still greater advance. Good to choice 1,200 to 1,350-lb, steers sold at from \$4.50 up to \$5 with fair to good 1,000 to 1,200lb. steers at from \$4.10 to \$4.50. There was a liberal showing of poor to fair stuff that sold at substantially stronger prices from \$4 down to \$3.60. The extremely disagreeable weather rather facilitated business, dealers coming

to terms as quickly as possible, and trading was practically over by noon. Offerings of cows were only fair and the quality nothing extra. The demand, however, quality animng extra. The demaind, however, was good from all sources and prices ruled about 10c higher than yesterday all around. Poor to prime cows and helfers sold at from \$2 to \$3.80, with the bulk of the fair to good staff around \$2.50 to \$3.25. Bulls, oven and stars were generally firmer at from \$2 to \$3.75. There were not very many caives on sale. Prices ruled fully steady at \$2.80 to \$5.75. \$5.70. The regum dealers did the bulk of the trading in stock and feeding cattle, the country demand being decidedly light. Prices ruled steady. Representative sales:

Chicago Live Stock Market.

Chicago Live Stock Market.

CHICAGO, Ill., Feb. 27.—[Special Telegram to THE BRE]—The cattle trade was active at a considerably higher range of prices. There was an advance of from 10c to 20c per 100 lbs., and the average gain was fully 15c. Credit for the gain must be given to the fact that the receipts were far short of the usual Monday's supply, only about 13,000 head coming in. There was a good attendance of the several classes of buyers, and there was not nearly enough cattle to fill the orders in hand. Choice to extra steers were quoted at from \$5.50 to \$6.15, and fair to good grades at from \$4.50 to \$5.25, while from \$3.50 to \$4 was paid for common light. Cows and bulls were in brisk demand, and, being in small supply, brought prices that were satisfactory to sellers. From \$1.75 to \$4.25 was paid for poor to extra qualities.

\$1.75 to \$4.25 was paid for poor to extra qualities.

Hogs looked much better to buyers than last week and they were willing to pay a smart advance on Saturday's prices. Common to prime lightweights were salable at from \$7.60 to \$7.85, mixed and medium at from \$7.00 to \$8.15 and heavy weights at from \$7.00 to \$8.30. The bulk of the light fetched from \$7.05 to \$7.80, and from \$7.80 to \$8 were the popular figures for medium and mixed. These quotations are an advance on the closing prices of last week of from 10c to 15c. There were instances where an advance of 20c was paid and the average gain was close to 15c. Shippers and local packers both wanted stock and quick work was made of the 20,000 head. Stale hogs comprised about 7,000 of the supply. The range was from \$7.45 to \$2.5, culls and little pigs going at from \$4.75 to \$7.80, and \$8.25 being paid for a fewloads of heavy.

Activity and firmness were features of the sheep market. The receipts were large, but there was free buying by local slaughterers and some demand for shipment on the hoof, and the supply was closely bought up. Sales were on a basis of from \$3.25 to \$5.25 for poor to choice sheep and from \$4.25 to \$6.30 for lambs.

"FEELS LIKE A NEW WOMEN."

Nerves jangled and out of tune wring this cry from a tired woman. Many a one feels this wish for a good cry after the dinner is over and the guests gone. There are many trials that beset the faithful housewife and relax

her nervous system. "Four weeks ago," says Mrs. F. F. Vickery of East Auburn, Me., "I was suffering from one of those awful bad headaches, which have been my companion, for the past year, only worse at times. My back ached. I did not sleep well, and I had those frightened nights which only those who are nervous can understand, I did not care whether I ate anything or not-rather not. I felt so tired and had that all-gone feeling, with no strength to do my ensiest home duties. One short flight of stairs took all of the breath and strength I had, and then I could just sit down and cry.

"Every little noise made me jumpand my head snap. My eyes felt as though they were being drawn in through the top of my head. I must confess I was feeling sick. A friend, who had only taken a few doses of Paine's celery compound herself and received much benefit from it, said to me: "Won't you please try some of my compound?" Well, I took some. In three days I was feeling like a new person, got me a bottle, and a perpetual letter of recommendation.

when that was gone I could take a full

"I have gained strength every day, and can eat three or four times a day. I sleep like a log, and my head must be a a new one, as I have not had a headache since I began taking the compound. I can get up two slights of stairs all right now, and feel so much better that I wish every one in the world who ever had these feelings would just try one bottle of Paine's celery compound and be convined of its worth. I cannot say too much in its praise." And Mrs. S. C. Perkins of the same

place, whose portrait is given above, says: "For three years I was in a very weak and debilitated condition. I tried many physicians but could get no relief from any of them.
"I tried Paine's celery compound and

to that I owe my complete restoration to health. My nervous system was a total wreck, and I was unable to do my work much of the time, but now I am doing my own work and can sleep well nights the result of taking three bottles of the compound. I recommend it to all who are suffering from dyspepsia or are 'run down,' I do not think that I could say too much in favor of it.''
