Wheat Went Down With a Great Crash Yesterday.

LONGS ATTEMPTED TO TAKE PROFITS.

Corn Broke Readily When it Received Encouragement from the Wheat Pit-Trade Was Large but a Nervous Feeling Prevailed.

Concago, Ill., March 3.-Wheat came down with a crash today. It was near the end of the session and the outcome of a semi-panic caused by a number of longs simultaneously attempting to snatch their profits when the market reached 79c for May, an advance of 13c over last night's closing figures. The price almost shot down from 79c to 77%c, losing all today's advance and tic additional.

July was less bullish early than May and not quite as weak on the break. It closed at , after selling at 77c in the morning. Corn broke readily when it received encouragement from the wheat pit. Compared with yesterday's price May corn is %c lower. Pro-v sions were strong, but the gains in the end

were limited to 25se in pork, 5c in July lard Trade was large in the aggregate but spasmodic and the feeling nervous. The market was irregular at an advance of from 40 to 50. Prices received by, then railled 40 and yielded to previous inside figures, but advanced 50, received 50, then advanced 40, but weakened and declined 150 and closed weak at the inside prices with a loss of from 50 to 30 from yesterday. Although there was good buying at times by outsiders there was not the urgent demand for shorts that cut such a figure yesterday. The local traders were disposed to follow any big leader and the highest prices were made on the bidding by one of the largest holders. There was good selling by some of the largest buyers of July and selling on the break by the largest shorts.

A feature of the trading was the free selling for July causing it to sell at one time at 250 under May against 150 yesterday. There was considerable comment over the fact that other markers falled to follow the buige here to any extent. Trade was large in the aggregate but spas-

considerable comment over the fact that other markets failed to follow the buige here to any extent.

In corn at the opening fair firamess was felt, prices indicating a gain of about 14c over yesterday's closing figures. This was due largely to the strength in neighboring pits, with a few outside buying orders here. The shorts were maturally a little nervous after the good advance and were inclined to cover. The initial advance did not hold, however, the support proving inadequate even in the light of stronger cables and a fair cash demand for relatively small spot offerings. A few prominent operators identified with the bear party entered as sellers and their offerings proved too much for prices, which sold down from 15c to 15c. later recovering feebly. The final weakness was in line with the down turn in wheat, with general and heavy selling, which placed prices at the close at the lowest point of the day.

There was not much demand for shorts in oats, except for a period at the opening, when the highest prices were recorded. It soon subsided, and a little more pressure to sell caused weakness and a decline of 15c, and the market closed easy at about the Inside prices.

The provision market was fairly active. The receipts of hogs were 18,000, against estimates of 15,000. That started an advance of 10c for pork, 5c for lard, and 21sc for ribs.

Pork dee lined 221sc from the opening price but soon recovered its earlier tone and from the low point rose 50s per barrel, 25c of which it lost again in the latter part of the session. Lard was stendy, with Hately taking advantage of hard spots to sell a moderate amount, The Cudahy Packing company were sellers of pork on the advance, but got much of the business through Schwartz-Dupce and the North American Packing company. There is a constant demand for cash ribs at the price being realized for the May delivery.

Estimated receipts for tomorrow: Wheat, 190 cars; corn, 210 cars; oats, 160 cars; hogs, 10,000 head.

STOCKS AND BONDS.

Securities Showed More of a Professional Character Yesterday Than Usual. New York, March 3.—The stock market howed more of a professional character today, but covering by the shorts was apparently concluded, and this element of strength being removed prices fell off of their own weight at first, but the deciine was accelerated later by bear selling in addition to which the traders were again inclined to go short of the list. Apart from Reading, New England and Northern Pacific preferred, there was little special feature in the railroad list, while Sugar monopolized attention among the indus-trials. The brokers identified with the leading bear operations were persistent sellers of Sugar during the forenoon, but Mr. White came into the market as a buyer and the story

was circulated that the dividend will post-

lvely be 54 per cent, giving color to the late riumors and justifying the action of those who have been so confidently offering 5 per cent for the dividend of late. There is no assurance there will be anything more than 3 per cent, however, and the event alone will reveal whether the offerings were a speculative dodge or made entirely on official assurance. The general market showed some strength at first on continued covering of shorts, but this demand was soon satisfied and while little pressure was brought to bear, prices retired all along she line.

Later reports were that Reading's floating debt has reached the enormous figure of \$17,000,000, and, while not qualified in any way, had a decidedly depressing effect in conjunction with other reports of an unfavorable nature. Doubt was thrown upon the control of New England, after an early advance of 1 per cent, retired 24 per cent. The poor showing of earnings made by the granger roads led to decilnes of from 1 to 15 per cent, and Union Pacific, Louisville & Nashville and Northern Pacific preferred all declined over 1 per cent, the last named, however, being raided on a rumor that a trust company lind decided to sell a block of the stock held as collateral.

With the appearance of inside support on Sugar the traders again displayed a disposition to work for a raily, but money became scarce and 15 per cent was exacted for loans running till Monday. This put a damper on the, bnying seatlment, and while Sugar was carried back to its best figures, the rest of the market was sluggish and closed barely steady at only slight gains over the lowest figures. The Post says: It appears to be the general impression among the banks that interest from fustrials, which are received none too willingly in collateral now. But it is open to question whether the week's currency with rawals and gold shipments are by any means sure to affect the street rate for money in the absence of large stocks speculation. The plans of the gold exporters certainly do not seem to be counting on a

preferences have also given way 45 to 45 per
cent. There was a fair demand for money.
Short loans were charged 115 to 135 per cent.
The discount market was very easy; two and
three months bills were quoted at no better
than 135 to 17-16 per cent.

OMAHA LIVE STOCK MARKETS. Cattle Trade Generally Stronger-Hogs Active and Higher. FRIDAY, March S.

Receipts of all kinds today were moderate. So far this week, compared with last, there has been an increase of 2,500 cattle and 4,000 iogs, while receipts of sheep have fallen off over 6,500 head. The general cuttle market was active and

strong, some buyers said 5c to 10c higher, but sellers generally simply reported it easy to get full Thursday's prices. Receipts were not all heavy and with favorable reports from eastern markets and a good line of buyers on hand the movement was free and trading tolerably brisk from start to finish. There was a marked searcity of ripe heavy beeves, but the general quality of the offerings was very fair. Good 1.200 to 1.400-lb, beeves sold at from \$4.40 to \$4.90, with fair to good 1.000 to 1.200-lb, beeves at from \$4.10 to \$4.40. Poor to fair light and rough stock sold at around \$3.50 to \$4. There was a good healthy undertone to the trade and little of any consequence remained unsold at the close. trong, some buyers said 5c to 10c higher, but

close.

Butchers' and canners' stock sold freely at about steady prices, the best grades firmer, and the inferior grades easier. Sales included poor to good cows and helfers at from \$1.50 to \$3.85, with the bulk of the fair to good stuff at from \$2.50 to \$3.25. Kough stock of all kinds was generally in good demand and strong at from \$2 to \$3.75. Veal calves were firm at from \$2 to \$5.75, with ordinary large calves and yearlings slow at from \$2 to \$4.50.

Fresh receipts of stockers and feeders were not very large but regular dealers who had already quite a respectable supply on hand reported a good demand from country buyers and trade was fairly brisk with prices inclined to firmness on the more desirable grades. Representative sales:

Chleago Live Stock Market. Chicago III.e Stock Market.
Chicago, III., March 3.—[Special Telegram to The Ber.]—There was little change in value of cattle today. The offerings were all taken on a basis of from \$3.50 to \$5.20 for very common to extra steers, from \$1.75 to \$4.25 for cows, heifers and bulls, from \$2.50 to \$3.40 for cows, heifers and bulls, from \$2.50 to \$7 for calves. From \$2.25 to \$3.50 for cows and bulls and from \$4 to \$5 for steers , ere the prevailing prices.

stockers and feeders and from \$2.50 to \$7 for calves. From \$2.25 to \$3.50 for cows and bulls and from \$4 to \$5 for steers ..ere the prevailing prices.

Prices for hogs were higher. They advanced from 10c to 15c almost immediately after the beginning of operations and holders did not find it necessary to make any important price concessions later in the day, though the close, as is most often the case, was a trille weaker. There was an active demand from shippers and the local demand also developing some vitality, sellers had things their own way. Heavy hogs sold largely at from \$8.25 to \$8.35, mixed and medium principally at from \$8.10 to \$8.25, while the greater part of the light weights fetched from \$7.85 to \$8.35 to \$8.40 and at \$8.55. Little pigs and culls sold at from \$5 to \$7.50.

There was nothing specially new to be said of the sheep market. It was not less active than on preceding days of the week and was quite as firm. Prices are substantially higher than they were one week ago. They have made a gain of fully 25c per 100 lbs., present quotations being from \$4.75 to \$6.50 for lambs. DUN'S REVIEW OF THE WEEK

Unusual Demands for Money Come from the West and South.

WAITING ON THE NEW ADMINISTRATION

Business Men and Speculators Anxious Concerning Cleveland's Policy-Industrial Production Has Never Been Surpassed at This Season of the Year.

New York, March 3.-R. G. Dun & Co.'s weekly review of trade: The great feature of the past fortnight has been the unusual demand for money from the west and south, which has drawn large sums from New York and telegraphed reports show that while money is tight at only one or two small points, there is a strong demand at Boston and Detroit, Chicago, where the drain from the west is heavy, and at Milwaukee, and a fair demand at St. Joseph, while money is fairly easy at Cleveland, in light demand at Philadelphia and Kansas City, and also easy with light demand at Mobile and New The large withdrawals from this city

under these circumstances are by many men attributed to distrust of specultive operations here. The situation is, to a large extent, waiting on the action of the new administration, but it is evident that a better feeling has prevailed during the past few days, and rates here, after rising from 4 to 6 per cent, have fallen to 5 per cent. Speculative markets have waited for

developments. The defeat of the antioption bill was followed by an improvement In grain, and while wheat had fallen 25 cents, it has since risen 2 cents; sales for the week being 22,000,000 bushels. Corn is one, half and oats three-fourth of a cent higher but pork products are slightly lower. Cotton declined an eighth, because the expected settlement of the English strike did not come. Butter and eggs have declined sharply, and copper is weaker at 12 cents, and lead at 39 cents though speculation has lifted tin to \$20.37.

The dry goods trade is stronger. Cottons are stronger, sheetings being all sold ahead and business in carpets being sold ahead. and business in carpets and wool knit goods is especially large. The iron business con-sumption is enormous, but production relatively greater, and concessions are frequent for pig. not of the best grades, while bar is at the lowest point ever known. Plats are demoralized in price, though the mills are busy and structural works are quite well employed.

In general the industrial production has never been surpassed at this season.

The business failures number 251, as compared with a total of 230 last week.

His Faith Well Founded.

His Faith Well Founded.

Bisseri., O., Nov. 20, 1802.—I desire to say that I have great faith in Chamberlain's Cough Remedy for the cure of throat and lung troubles; also for croup—E. W. McCollum. There is good reason why Mr. Collum should have confidence in this remedy. It will cure a severe cold in less time than any other treatment. There is nothing that will loosen and relieve cold so quickly. It will not only cure croup, but if used as scon as the first symptoms occur it used as soon as the first symptoms occur it will prevent the attack. 50-cent bottles for sale by all druggists.
