Mr. and Mrs. G. G. Burnett of San Fran Mr. and Mrs. G. G. Burnett of San Francisco will deliver a lecture, illustrated with fine stereoptican views, on "Picturesque Europe" and "Picturesque America," at St. John's English Lutheran church, first floor of the Merriam block, 208 Main street, next Tuesday evening. They have been visiting the large eastern cities and are now on their

way home.

Considerable trouble was caused Tuesday evening about 11 o'clock by a crossing of the American District telegraph lines with those of the telephone and gas companies. Nearly every "drop" in the telephone office was thrown down and a number of telephones were burned out in various parts of the city. Some damage was also done at the electric light power house, but it was remedied without much difficulty.

A suit was companied by the Deere-

A suit was commenced by the Deere A suit was commenced by the Decre-Wells Implement company in the superior court today against the Omaha and Council Bluffs Bridge company to recover \$1,808 which the motor company should have unid property owners for paving between the tracks, but which has never been paid. The property is located in Riddle's sub-division, Bayliss' first addition and Stutsman's first addition. The claims have been assigned by the property owners to the plaintiff for the purposes of the suit.

Harley Shill and Willard Foster were ar rested yesterday morning charged with stealing some articles of wearing apparei from W. T. Farrel, a back driver. A search warrant was also issued for the former's house on upper Broadway and the warrant was served by Constable Baker, when the missing stuff was found. Upon trial before Justice Vien the two men proved their iunocence of the theft, stating that they were keeping the things for another man. They were discharged.

A man giving his name as Burbank and wearing a "private detective" badge which had cost him a few dollars at the office of some of the numerous detective agencies that are established all over the country for the purpose of bleeding rustic youths out of their cash, was picked up on the street yesterday afternoon and taken before the chief of police for an examination. At the end of his interview he was discharged, but the sweating he went through has tended ma-terially to decrease his longing for the spice and variety of the life of a detective.

Grand Jury May Have Him. The Swift brothers were before Justice Fox yesterday for a preliminary examination on the charge of burglarizing T. L. Smith's saloon several months ago. Their attorney demanded a separate trial, and by this means he succeeded in saving one of his clients from a term in the penitentiary.

There was no one who saw the burglary actually performed, and the only evidence upon which a prosecution could be based was that of a restaurant keeper named Yapp, whom Ed Swift sold some of the stolen cigars on the night of the burglary. The latter was bound over to the grand jury and his bond was fixed at \$500. M. F. Swift, with

Manawa is All Torn Up Over the Election of Last Monday.

GROSS FRAUDS ALLEGED ON BOTH SIDES

Defeated Candidates for "Municipal" Offices Will Endeavor to Have the Result Changed by the Courts-It is an Amusing Controversy.

The little town of Manawa has an entire registration list of thirty-four voters, but its election last Monday was attended by as much excitement as if the town had been big enough to have motor companies, boodle aldermen and other motropolitan improvements. So great was the stir which it created that it was not until late Tuesday night that the official count of those thirty-four otes had been completed, and it was known positively who was elected. In fact, it cannot be said positively that the question of who is elected is completely settled yet, for the defeated candidates, and especially the defeated candidate for mayor, promise to see that the result as officially announced is de-clared void, and allege fraud on the part of the victors in stuffing the ballot box with rotes cast by persons who had no right to

vote.

The contest for the mayoralty was between Colonel F. C. Reed, of Manawa railway fame, democratic candidate, and Colonel W. H. Beck, independent democrat. The two colonels were out in all their glory election day, and if there was a single wire which remained unpalled it was because both colonels were unaware of its existence. When the count was completed it showed that Reed had two votes more than his opponent, and E. T. Wright and G. Kerns, who were running on the same ticket with him, were also elected. H. H. Hammer, independent candidate for recorder, Peter Rief pendent candidate for recorder, Peter Rief for treasurer and T. A. Wright for trustee, were elected over their democratic antag-oulsts, and there was a tie between John Mikesell and John Collins, democratic and independent candidates for trustee.

Reed Accused of Colonization.

In spite of the fact that to an outsider the offices seem to have been pretty well divided up, the independents are dissatisfied. As a matter of fact the mayor is lord high executioner at Manawa, and the other officers do not have very much to do about running the town. Beck is the proprietor of a "joint" at Manawa, and it would of course be a feather in his cap if he could make and unmake the necessary laws to give his place the prestige of the administration trade. He and his friends being counted out, they now propose to have a recount. They claim that Reed colonized a dozen or so fellows, paying their board bills and other expenses in consideration of their voting for him. Just before the polls closed they claim that Reed ran in two fellows who, upon being question of their voting here is the second to the colonized and they claim that Reed ran in two fellows who, upon being questions. In spite of the fact that to an outsider before the polls closed they claim that Reed ran in two fellows who, upon being questioned, admitted that they had only resided in the state five months, whereas the law provides that they must reside in the state six months previous to their voting. They were turned away, but Reed ran them back and insisted upon their being sworn in. Their votes were then taken, and it afterwards was learned that these two votes were the ones that turned the scale. Beck's friends intend to air this little escapade in the courts if necessary in order to get what the courts if necessary in order to get what they claim to be their rights.

Julius Zimmerli and Frank Hahn have fitted up without a possible exception the firest bar in the state, and now meet their friends in a palace that would be worthy of Bacchus himself. They have secured a long lease on the new building at 545 Broadway, and have placed in it bar furniture that is bewildering in its magnificence and beauty. The wood-work is solid mahogany, cherry and walnut, highly polished, and mirrors and cut glass abound everywhere. The central mirror over the bar is a gigantic plate eight feet wide and sixteen feet long, with four by eight foot glasses paneled on each end, making a stupen-dous mirror eight feet wide and twentyfour feet long. The central mirror plate alone cost nearly \$1,500 and is one of the largest in the world. A fine smoking room and eigar stand is paneled off in the front of the building, and a well furnished reception room eccupies

The gentlemen will conduct a resort for gentlemen, and everything will be of the high character that would naturally be expected from the first glance of the magnificent interior. The finest eigars made will be found in the showcases, and the best wines and liquors to be obtained will be presented at the bar in cut glass.

CITY COUNCIL.

Much Important Business Transacted at its Last Night's Meeting. It was a lonesome looking crowd at the meeting of the city council last evening. Two aldermen were present who, so far as the public knows, never wanted to attend another meeting, and whose wishes were respected by the public. There were two more who were perfectly willing to continue more who were perfectly willing to continue their labors in behalf of the city, but most of the voters couldn't see it that way. There were two more republican aldermen who evidently considered the sitting-down process to have been operated on them personally, and two democrats who had consideration enough for the feelings of their unfortunate companions not to indulge in the feelings of wild hilarity which they must have had. The transaction of business was done in a perfunctory sort of way, and after it was over the members of the council wended their ways quietly homeward.

The committee on streets and alleys made

The committee on streets and alleys made a report with reference to the paving which John W. Paul has asked for on North Twen-*tieth street. There are seven intersections, the cost of paving which would be about \$3,000. The committee reported against the paving, and the report was concarred in. The city engineer asked for further in-

structions with reference to the britge which Alderman Pace had asked to have put in across Indian creek on Mynster street. Pace thought it ought not to cost more than \$3,500, and Van Brunt said this was a good time to construct a bridge, as there were number of contractors who would be willing to do the work very reasonably in order to introduce themselves.

An amendment was made to the ordinance vacating Fourteenth avenue east of Main street in favor of Deere, Wells & Co., requiring them to pay the city for the paving of the entire intersection of Main street and Fourteenth avenue, instead of only one half as was provided in the original draft. The change was made by a party vote, the five republicans voting for and the three demo-

An ordinance providing for the construction of a sewer on Main street from Eleventh avenue to Twelfth avenue, and on Feath avenue from High to Third street, was passed under a suspension of the rules.

The proposed filling of the alley between Fifth and Sixth avenues and between Tenth and Twelfth streets, was brought up by Alderman Graves. An injunction prevents the council from opening the bics for paving this alley, and as the bids for filling are in the same envolopes, the hands of the council are effectually tied. The clerk was authorized to realizertise for bids for filling alone.

ELECTION COMPLICATIONS.

Republicans Now Claim That They Have Elected the Third Ward Alderman. Michael Nolan, a Third ward democrat, comes to the front with some assertions, which, if borne out by the facts, may possibly change the present tied condition of things in the Third ward and give the position to Mr. Gleason, the republican candidate for aiderman in last Monday's election. When he went to vote his mind was so completely filled with the thought of that pro-posed tax levy that he put a check in the square opposite the proposition, but forgot to make any mark on the rest of the ticket. After his ticket had been deposited in the box he remembered what he had done and told the judges about it, asking that he be allowed to change his ballot. This, of allowed to change his ballot. This, of course, was refused, much to Mr. Nolan's disgust, and on counting the votes it was found but seek

found that each candidate had received 265 question now arising is, was that vote counted for Hathaway or was it thrown out entirely? One of the judges who visited the city clerk's office on the night of the election says that it was counted for Hathaway. If this is so, there is but little doubt that the unmarked ballot will have to be thrown out, and in that event Gleason will be alderman by a majority of 1 vote. Other democrats, however, state that the unmarked vote was not counted at all, and that being the case, the present condition of things will not be changed by Mr. Nolan sannouncement. The true state of affairs will probably be ascertained when the official canvas is made this

For some time the Board of Fire and Police Commissioners has been endeavoring to secure needed improvements in the fire department, and it has been successful.

At last night's session of the council the ommittee on fire and water recommended that the board be empowered to make the desired improvements. The report was adopted and the board was instructed to lease the room at Eighteenth and Harney at \$1,000 per annum; to purchase one steam fire engine, one hose wagon, 3,000 feet of hose, six horses and two sets of double harness; to select quarters in the central eastern part of the city for the steam fire engine, and to suitably equip the rooms mentioned. More Land for Parks.

City Attorney Connell sent in a communication in regard to the Parker tract, which it is proposed to purchase for park purposes. While of the opinion that the title may not be absolutely free from doubt, in view of the adverse possession of the land by Mr. Parker for more than ten years, any defects in his title may be remedied. The attorney believes, however, in view of the doubts which exist concerning the title and the possibility that some person laboring under previous exist concerning the title and the possibility that some person labering under previous disability may make chaim to the land, and in view, also, of the fact of the long delay which has intervened from the time the proposition of Mr. Parker was submitted, that if the city now desires this land for park purposes it should be obtained by condemnation proceedings, and all parties who may have, or claim to have, any interest in the land should be made parties.

Judge Lake, the legal adviser of the park commissioners, submitted an opinion also.

Judge Lake, the legal adviser of the park commissioners, submitted an opinion also. He said that he was entirely familiar with the title to the Parker tract, as shown by the county records and the abstract furnished by the executor of J. M. Parker, deceased, and knew that at the time of his death said J. M. Parker had a perfect title in fee simple to said land; and further that in fee simple to said land; and further that for more than twenty five years next before his death said Parker had been in the undisturbed actual occupancy of it, the land being fenced and almost continually in actual cul-tivation by him or his tenants. Judge Lake held that the title which the heirs now ten-der to the city by the deed offered is as good as it is possible for one to have of land. Dr. Miller spoke at length upon the proposition to accept the deed from the Parker heirs in conformance with Judge Lakes' opinion. He urged immediate action as the time is approaching for the board to begin

Mr. Hascall thought that nothing could be gained by condemnation proceedings and favored sustaining the action of the park

commissioners. City Attorney Connell in reply to the city Attorney Connell in reply to the question said that the land had never them purchased by the city, although an agreement had been entered into with Mr. Parker, deceased. He believed it better to secure the title by condemnation proceedings, and in that manner all question of im-perfect title would be quieted.

Mr. Hascall moved that the commissioners be empowered to secure deeds to the Parker tract and confirm the action of the park commissioners in securing such a title. The motion prevailed.

The recommendation of the Board of Health was concurred in by a vote of 12 to 5, and Meat Inspector Beeson was discharged.
