TO RECULATE IMMIGRATION

Secretary Carlisle Issues New Orders Concerning Incoming Homeseekers.

RIGID QUARANTINE TO BE INSISTED UPON

Queries Upon Which Each Immigrant Must Satisfy the Commissioner-Records to Be Kept in the Office-Requirements of Masters of Vessels.

Washington, D. C., March 13 .- Secretary Carlisle today issued the new regulations regarding the precautions to be observed in admitting immigrants to the United States. The regulations contain seventeen articles, the first ten of which are substantially the same as the regulations now in force. Articles 11 to 15, inclusive, are practically new, made to conform to the new laws affecting immigration passed by the last congress and approved on the 3d of March last. Their most important points areas follows:

Article II enacts that no vessel bringing immigrants from ports where contagious or infectious diseases are prevailing, shall be admitted to entry unless it appears by the certificate of the consular officer at such port that said immigrants have been detained at the port of embarkation at least five days under medical observation in such designated barracks or houses set apart for their exclusive use and that their clothing, paggage and personal effects have been dis-infected before being placed on board.

The above restrictions will also be applied to vessels bringing immigrants from non-infected ports, but who come from infected beautities.

Article 12 requires that there shall be de-livered to the commissioner of immigration at the port of arrival lists of such immi-grants, which shall state as to each of said passengers substantially what is now repassengers substantially what is now required by existing laws and the additional requirements. Whether the immigrant paid his own passage or whether it has been paid by other persons or by any corporation, society, municipality or government. Whether ever in prison or aimshouse or supported by charity. Whether a polygamist. Whether under contract, express or implied, to perform labor in the United States.

Article 13 provides that such lists shall be accompanied by the foregoing interrogatories and answers thereto, in the language of the immigrant, which shall be signed by him in the presence of the agent granting him

in the presence of the agent granting him transportation; and there shall be endorsed thereon, in the language of the immigrant, a notice that, if upon his arrival in the United States, it is found that such interrogatories States, it is found that such interrogatories have not been correctly answered he will be immediately returned; also that he will be required to make oath as to the truth of such answers if it be called for by the commissioner of immigration at the port of arrival in the United States, and that a false oath will subject him to fine or imprisonment.

Article 14 provides that the immigrants shall be listed in convenient groups and no one list or manifest shall contain more than

thirty names.

Article 15 provides that in case of the failure of the commanding officer of the vessel to deliver to the inspector of immigra-tion lists containing the information re-quired, there shall be paid to the collector of customs the sum of \$10 for each immi-grant qualified to enter the United States, concerning whom the above information is not contained in the list, of said immigrant shall not be permitted to enter the United States, but shall be returned like other excluded passengers.

STEERING COMMITTEE.

It Has Practically Completed Its Labors and

the Positions Have Been Decided On. NEW YORK, March 13.-A Washington special to the Herald says: The senatorial steering committee has practically completed its labors. The positions democratic senators will occupy on the various committees during the democratic ascendancy in the senate have been decided upon. Senator Voorhees will be chairman of the committee on finance. Senator Vilas was appropriations, but seniority in service enabled Senator Cockrell to grasp the plum. Senator Gorman is chairman of the committee on printing. Senator Hill has been given the chairmanship of the commit-tee on immigration. Senator Murphy has been made chairman of the committee on relations with Canada. All the populist sena-tors have been given chairmanships of lesser importance. The senatorial steering committee has not disturbed the republican assignments on committees. It is assumed they will keep the places they now have on committees, and by the addition of a demo-erator removal of a republican place the

democrats in the majority.

Senator Brice has been added to the appropriations committee. A new committee has been formed out of the old committee on the president's message transmitting the report of the Pacific railway commission. This committee is now officially known as the committee is now officially known as the committee on Pacific railways, and Senator Brice is named as its chairman. The chairmen of the other important committees, as given by the Herald, are as follows: Agriculture and forestry, Pasco; Ransom, education; labor, Kyle, and civil service, Peffer; foreign relations, Morgan; Indian affairs, Jones; interstate commerce, Butler; Judiciary, Pugh; manufactures, Gibson; military affairs, Walthall; naval affairs, McPherson; pensions, Palmer; postoffices and post roads. Colquitt: privileges and elections, Vance; public buildings and grounds, Vest; public lands. Berry, railwads. Camdon; research Vance; public buildings and grounds, Vest; public lands, Berry; railroads, Camden; re-vision of the laws of the United States, Daniels; territories, Faulkner; transporta-tion, Irby; Pacific railroads, Brice.

IN FAVOR OF THE CARRIERS.

Decision of the Supreme Court that is of Interest to Postoffice Employes.

WASHINGTON, D. C., March 13. The supreme court this morning affirmed the judgment of the court of claims in favor of the letter carriers in the cases of A. S. Post and Frank Gates. These cases were under the act prescribing eight hours as a day's work for letter carriers.

It was contended by the letter carriers that the Postoffice department, in construing the act, had violated its intent and purpose and was requiring more labor from them than was contemplated. In the Gates case the question was whether

or not the eight hour provision, as applied to letter carriers, meant an average of eight hours a day for a month, the department holding that any deficit in eight hours on Sundays or other days could be set off against nn access over eight hours on other days. The court ruled that this cannot be done, and that the carriers are entitled to extra pay for any over time on any single delivery. In the Post case, the position taken by the

United States was that eight hours should consist of time employed in the actual distribution and collection of mail and that the carriers could not recover extra pay for other service within the postoffice performed by them in connection with duties imposed

on them by the postmaster.

The court holds that this position is untenable and that the carriers are entitled to extra pay for over eight hours work under circumstances.

Justice Brown rendered the opinion Will Attend the Navai Review.

WASHINGTON, D. C., March 13 .- The president and the members of his cabinet will attend the Columbian naval review at New York if the state of public business will permit. If the president finds he cannot go he will send Scoretary Herbert as his representative. Want Him Buried in Maine. Washington, D. C., March 13 .- Acting under the terms of a resolution adopted by the legislature of Maine, Governor Cleves has written Mrs. James G. Blaine requesting permission for the state officials to remove the remains of her late husband from Oak

Hill cemetery in this city to Augusta, Me. As the resolution was adopted by the legislature it was understood that the people of the state would provide a monument to mark Mr. Blaine's final reating place in case the effort to secure the removal of the remains was successful. Mrs. Blaine has not yet made any reply to the request,

MONETARY CONFERENCE,

Senator Teller Introduces a Resolution Favoring Its Reconvening. WASHINGTON, D. C., March 18.-Senator Teller has prepared a resolution, which he will offer in the senate at the next meeting, expressing the sense of the senate in favor of reconvening the international monetary conference at Brussels next summer Senator Teller says he is satisfied that there has been a change of sentiment in Europe respecting the monetary question since the conference adjourned. He finds evidence of this change in debates in Parliament and in this change in debates in Parliament and in contributions to the leading financial papers in the world. It is plain to him that delegates from European countries began the conference under an erroneous impression as to the policy of the United States. Lately it had been made clear that the purpose of this country was not primarily to reap the benefit of an enhanced price for silver, and recent contributions to literature on the subject, notably an article published by Prof. Andrews, have made it appear that the value of the entire annual silver product is absolutely insignificant as compared with is absolutely insignificant as compared with the value of the products of certain lines of manufactures and agriculture. The resolu-tion which Mr. Teller proposes to offer would not be exceptional under the practice touch-ing propositions which the senate is likely to follow, and the senator expects to include the matter referred to as part of his re-

marks upon the subject.

Washington Notes. Washington, D. C., March 13.-Messrs. Warner and Thayer of Detroit, Mich., saw the president in the interest of Levi T. Griffin of their city, whom they want to succeed Judge Howell Jackson as United States circuit judge. It is rumored that ex-Congressman Wheeler of Michigan has been se-

lected for commissioner of pensions.

It is said that General Bragg of Wisconsin will be offered the Portuguese mission. It is now held by ex-Senator Pierce of North Dakots.

Just as the president was going down to the East room to hold his public reception today a telegram was handed him by a well today a telegram was handed him by a well known newspaper man, announcing the death of Mr. George W. Hayward in Buffalo, one of Mr. Cleveland's closest friends. "I am very sorry to hear it," said he, "although it is not entirely unexpected," and then he proceeded on his way to greet several hundred men, women and children. A large sized rocking chair, made from "Old Jackson hickory," was delivered to the white house this afternoon. It was a present from Mr. Shed Hardin of Spaulding county Ohio.

county Ohio.
Immediately after the adjournment of the senate the democratic caucus committee met to put the finishing touches on the list of committees as agreed on Saturday, the re-port to be made to the full caucus tomorrow morning.

There was a notable decrease today in the number of visitors at the Postofflee and In-terior departments. Secretary Smith has issued an order announcing that hereafter he will receive visitors between the hours of 10 a.m. and 1 p.m. except Tuesday and Fri-

days, which are cabinet days, and on cabinet days from 10 a.m. to 12 m.

Custom receipts are increasing, and during the month of March it is anticipated that they will foot up \$18,000,000. For the first ten days of this month the receipts at the port of New York from customs aggregated \$4,206,000 as against \$3,905,000 for the corresponding period last year.

They Realize Their Position

Washington, D. C., March 13.-The fact that the republicans are in the minority in the senate was, as Mr. Manderson said, presented to them very forcibly today. From that side of the chamber emanated a resolu-tion restricting the work of the senate during the extracting the work of the senate dur-ing the extraordinary session. This was op-posed by the democrats and especially by Mr. Cockrell. Although it was intimated that the republicans feared their opponents would take some advantage of them during this session, republican leaders deny that they had in view anything beyond a desire to stop debate on subjects entirely foreign to the business for which the senate was called. Some of the democratic leaders say the only reason the resolutions were opposed was because their passage would be som what in the nature of a confession on the part of the democrats that they could not handle the susiness of the senate properly

. Work of the Senate.

Washington, D. C., March 13.-The senate liscussed for nearly an hour today the resolution offered last week by Mr. Manderson, intended to limit the action of the senate in the present extraordinary session to legislative matters, or to matters requiring co-operation on the part of the house. Mr. Gorman favored that policy, but preferred to have it take the form of unanimous consent rather than of a resolution. Objection to unanimous consent came from the demo-cratic side of the chamber, and the most strenuous opposition to the resolution came also from that side. The question finally went over without any decision, and the senate adjourned until Wednesday.

To Save a Murderer. Washington, D. C., March 13.-W. E Mattingly today applied to the United States supreme court for leave to file an ap-

plication for a writ of error to the District supreme court, and also an application for a writ of habeas corpus in the case of Howard J. Schneider, whose trial and conviction for the murder of his wife has excited universal interest in Washington. Schneider is under sentence to hang next Friday. Chief Justice Fuller directed Mr. Mattingly to have his papers printed immediately for consideration by the court. This action is considered as unfavorable to Schneider. Gold Offerings.

Washington, D. C., March 13.—The Treasury department continues to receive offers of

gold from the west in exchange for small notes, for which there is at present an increasing demand. Several of the offers of gold after they had been made had to be temporarily declined, as it was found that the gold was of light weight, and until those who offered it made up the difference in weight the government could not accept it.

business ability as assignors is sufficient evidence. I think that there has been no attempt on my part to do anything to prevent the creditors from getting as much as possible. The stringent money market was the cause of all this. During the last month I have been standing in the bull rice and have read out \$18.5 00. During the last month I have been standing in the bull ring and have paid out \$185,000 without a dollar of return. Last Saturday they knocked me down for \$4,200. I had money in the bank, but I could not get at it. I believe the liabilities will fall short of \$1,500,000. When the corporation was formed it assumed the fiabilities as well as the assets of S. A. Mr. Converse, one of the assignors, told a reporter he was in no position at present to advance any information relative to the exact financial standing of the corporation. The original incorporated company began business at Portland in 1887, the business up to that time being a branch of B. A. Atkinson's Boston store and under the management of Isaac C. Atkinson. B. A. Atkinson ment of Isaac C. Atkinson. B. A. Atkinson received from the new corporation one-fourth 50,000 shares of its stock as a bonus for his interest, at which time the stock on hand and accounts amounted to \$197,000. The whole of this property was turned over to the new company. Shortly after this the capital stock was increased from \$500,000 to capital stock was increased from \$500,000 to \$1,000,000, and some people in the furniture trade, who held stock and sold both the Atkinson Furnishing company and B. A. Atkinson & Co., report they have received semi-annual dividends of 5 per cent. The assets of the corporation in the outside stores was stated to be \$1,188,982, and the liabilities, besides the capital stock, \$500,204. Since the combination was formed and the consolidated company removed its head-quarters to Boston, the writer is informed that many of the manufacturers of New England (who had been selling B. A. England (who had been selling B. A. Atkinson & Co.) and the present corporation have been requested to take blocks of stocks ranging from \$1,000 to \$10,000, the traders being reminded—that if they could stay in the incorporation they would be likely to receive the bulk of trade in their lines, but the company reserved the right to buy goods where it pleased; however, prices between stockholders and nonstockholders being equal, the possibility was that the former would receive the company's business. ITS ASSETS EXCEED ITS LIABILITIES

It is Claimed the Firm Will Be Able to Pay All Its Debts in Full-Assignees

Boston, Mass., March 13.-The Atkinson House Furnishing company, with fourteen branches in other New England cities, has made an assignment. President Atkinson says the liabilities are \$1,500,000; assets \$3,000,000. The failure was caused by tight money and inability to meet a call loan Saturday. The firm will probably pay its debts in full.

The headquarters of the firm are at Port land, Me. The assignees have already taken possession of the property in the several states. President Atkinson made a personal assignment of property valued at \$250,000. It is now thought the statement of liabilities at \$1,500,000 is far under the fact and that it may be double that. Most of the indebtedness is to Boston people, though some is due New York, Philadelphia and Chicago.

In an interview Mr. Atkinson said: "Of course it is a big failure, but I have reason to believe that the assets will more than cover the liabilities. The fact that I have selected two men of such high standing and

receive the company's business. Financial men looked upon the scheme with more or less criticism and doubt, as it was rumored that very many of the leases of the corpor-ation are pledged to money lenders in New England for loans at a high rate of interest.

Laying aside the idea of expense connected with it, there is another feature that should be considered and that is that the soldiers should not be drawn away from these western posts where settiers would be left exposed to large bodies of Indians. The red men are not slow to perceive an The red men are not slow to perceive an advantage in case they intend to create trouble. It would be at a time of year when the Indians, for instance, in South Dakota, could create a great deal of trouble if they made up their minds to act mean. If the United States had a large standing army like some other countries then it might be all right to concentrate a large number of troops at Chicago, but as the army is only a at Chicago, but as the army is only a mere handful at best the most of the troops are actually needed at western posts, and it would, in my humble opinion, be unwise to attempt to make a great military

demonstration that would require the serv-ices of nearly all the troops in the country for several weeks at Chicago."
