Grain Manipulators Gave Prices a Chance to Slide Yesterday.

WHEAT WENT OFF AND CLOSED LOWER

Corn Was Steady and Firm Early but Later Became Weak and Declined Nearly One-Half Cent-Stocks and Bonds.

Cricago, Di., March 13. -The manipulators stood from under today and grain prices moved down. Wheat went off le from top prices and compared with Saturday is Mc lower for May and Mc lower for July. Corn and outs, 4c; pork 27% and lard 30c lower

for May. Ribs gained 25c.
The receipts of numerous reports of crop damage from large sections of the country in Indiana, Illinois, Missouri and Kansas caused some demand for July wheat. The buying was led by what are called "clique houses," and Bennett, who was supposed to be acting for the clique, was selling. May at the same time. If the trade referred to is to be taken as representing the policy of the manipulators. It would seem to indicate that they prefer in the meantime to restrain the crowd in the buying of May, possibly with the hope that further confirmation of the crop damage would exalt the present position of May wheat to the level of legitimate value.

There was an increase of 15,000 but in the visible supply, against a decrease on the corresponding week a year ago of 73 s.55 s hull the was after the posting of the latter result that wheat dropped to the lowest figure. The decline was not in consequence of the visible supply statement, however, which was about is had been expected. The selling of some May wheat by Counselman & Day started the break and that was adouted as the possible liquidation of some more clique wheat. Bald-Equidation of some more clique wheat. Raids win-Faraure jumped on the market for Pardridge at the same time and the crowd sailed with the tide. Armour & Co. were also free sellers of May wheat.

The opening was from he to be higher for May partly or cold wave talk, but quickly recoded with only slight fluctuations le for May, recovered he, again cased off and the closing was at the lowest quotation of the day.

Corn was steady and irm early, but her

May, recovered by again eased off and the closing was at the lowest quotation of the day. Corn was steady and brue early, but later became weak and declined nearly, but later became weak and declined nearly by the weakness in wheat and provisions and increase in the visible supply. The opinion was entertained by many that the short interests had been pretty well climinated in the last week or ten days, and the market was in a waiting attitude. Those believing that prices are high enough pointed to the fact that the local stock, inclinding corn loaded into vessels, is greater by 190,000 but than a week ago, in spite of the small character of the daily receipts.

Oats followed the ups and downs of the corn market. Business was light.

Hog products were fairly active, but decidedly weak and lower. The hog receipts were 21,000 head, where 17,000 had been looked for. Wright raided the market for pork and sent prices off. Then Ream and others boundt and turned the market, but the gain was not held. There was raiding of May lard by Crittenden to the low point. Reasley sold lintely 2,000 theres.

Estinated receipts for tomorrow: Wheat, 270 cars; corn, 190 cars; oats, 142 cars; hogs, 15,000 head.

The leading futures ranged as follows:

STOCKS AND BONDS.

Trading for the Week Opened Quiet in Wall Street. NEW YORK, March 13.-The week opened ulet in the Wall street markets. The only

important fluctuations were in the industrials. which still absorbs the bulk of the speculative interest. The market for western stocks was quiet on the whole and somewhat firmer, chiefly because of advices from Chicago that the backbone of the strike had been broken. On dispatches to this effect, and that the employes had signified their willingness to compromise, there was a fair demand for the grangers, which improved from 4 to 1 per cent. The rise was partially lost near the close, when the rate for money suddenly advanced to 15 per cent and Sagar broke badly on rumors that payment of the extra dividend on the common stock would be enjoined by preferred stockholders on the ground that it places future dividends on their own stock in

places future dividends on their own stock in jeopardy.

The Coal shares and New England also moved up from 1 to 1½ per cent, but subsequently lost most of the advance. New England sold down from 27¼ to 25½ and closed at 25¼, against 26% on Saturday. The doubts surrounding the result of the New England election operated against these stocks this afternoon. Sugar and General Electric were among the features of the industrials. Sugar declined to 103% and after railying to 104%, gave way to 102%. General Electric, on heavy purchases by leading banking houses here and in Boston, sold up from 100 to 104½ and ended with a gain of 2½ per cent at 102.

in Boston, sold up from 100 to 104% and ended with a gain of 2½ per cent at 102.

The rise was due to the denial of rumors which have gained currency of late, deregatory to the company. It is stated on excellent authority that the annual showing will be favorable and the regular quarterly dividend of 2 per cent will be paid. The other industrials which had advanced ½ to 2¼ per cent in the early trading gave way to the extent of ½ to 1¼ per cent in sympathy with the break in Suzar. The market closed weak, but with the railway list on a slightly higher range than on Saturday.

Saturday.
The Post says: Today's money market remained in a somewhat nervous condition, reed not by last week's extravagant bids for dected not by last week's extravagant bids for call loans, but by much irregularity and an average rate of nearly 10 per cent. The com-paratively small returns of funds from the in-terior by today's mail was partly the cause of this and Saturday's bank stampede. Stock market prices did not directly reflect the course of the money market, but sterling ex-change opened the week in a state of complete demoralization.

course of the money market, but sterling exchange opened the week in a state of complete demoralization.

The two most striking illustrations of the present ultra-conservatism among city banks are to be found in their course regarding commercial paper and foreign bills. At the moment it is practically impossible to negotiate either, and in both branches customers are foresd to wait for accommodation until the funds lately shipped to the interior again put in an appearance. There is a cessation of gold exports notwithstanding large shipments were arranged for two weeks or more ago, having been practically forced by the banks. In the nature of things, therefore, this interruption of the gold movement can be only In the nature of things, therefore, this interruption of the gold movement can be only
temporary. The fact that it occurred simultaneously with the tenders of gold to the government from the interior banks is likely to
give the treasury a longer breathing space
than had been anticipated, and the daily gain
in the gold reserve may very probably outlast
this week.

this week.

London Financial Review. | Copyriphed 1333 by James Garlon Bennett |
| London, March 13.—[New York Herald Cable — Special to Thesiles.] — Preliminary arrangements for the settlement almost monopolized attention on the Store exchange, so new business has been restricted. Consols were 1-16 per cent easier for the money account. The principal feature in foreign government securities is the firmness in Argentine Sterling loans, which advanced \(\frac{1}{2} \) to \(\frac{1}{2} \) per cent, owing to the premium on gold having further declined. French 3s and Uruguay bonds have given way \(\frac{1}{2} \) per cent, Spanish, \(\frac{1}{2} \)-16 per cent, Fortuguese and Russian 4 per cents, \(\frac{1}{2} \) per cent. With the exception of southern lines, home railways close duil and mostly \(\frac{1}{2} \) to \(\frac{1}{2} \) per cent lower, but Brighton deferred and Southeastern deferred are firm. The former advanced \(\frac{1}{2} \) per cent and the latter part of the day, due to heavy sales in connection with the large special court, however, marked an improved tons, closing fairly strong. Philadelphia & Reading ordinary I per cent. Makssh preference \(\frac{1}{2} \) per cent. Norfolk & Western preference \(\frac{1}{2} \) per cent. Conadians close duil, although little deait in. Canadian Pacific and Grand Trunk prefer-Copyrighted 1303 by James Gordon Bennett 1

ences show a fall of \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. Mexican ordinary and preference have given way \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. There was a fair demand for money; short leans charged 1\$\frac{1}{2}\$ to \$2\$ per cent. The discount market was quiet, two and three months bills being fulloted at \$1\$\frac{1}{2}\$ to \$1\$\frac{1}{2}\$ per cent. New York Money Market.

Hogs Scarce and Lower. MONDAY, March 13.

week opens as usual with fair receipts f both cattle and sheep and a light run of Receipts of cattle, however, were not very liberal, falling fully a thousand head short of last Monday's supply, but then plenty here considering the condition of the trade and the state of other markets.

Chicago had a big run and prices were lower there. In consequence speculative shippers were cautious and it was difficult to realize within 10c to 15c of Saturday's prices. The local demand was not perceptibly diminished, but in sympathy with eastern markets prices were off 5c to 10c on the light and medium weight steers. Business was rather slow throughout, and there were several loads still in first hands at the close.

Cows sold lower in sympathy with beef cattle. The best grades were perhaps not much off, but the general run of stuff sold 5c to 10c lower than Saturday, while it took rustling to work off the common and inferior cows at anything like a decent price. Only one house would take them and then under protest. Butles, oxen and stags sold about like Saturday and there was no quotable change in the demand or prices paid for calves.

There was a very limited amount of stockers and feeders and prices on all but the best grades were lower. The general market was slow at last week's decline with sales of fair to good stuff at from \$3. to \$3.90. Until there is an improvement in the market for fat cattle there is little prospect for a better feeder trade. Representative sales: ize within 10c to 15c of Saturday's prices. The

STAGS. STOCKERS AND PEEDERS. 912 755 923 3 65

The hog market was by long odds the worst of the season. Prices averaged fully 25c lower than Saturday and while some early sales were not over 15c to 20c lower there were instances where 30c to 35c would hardly cover the decline. Shippers took a few of the best hors, but speculators did practically nothing, and although offerings were light local houses experienced no trouble in pounding prices down a quarter. Good heavy and medium weight hogs sold at from \$7.30 up to \$7.45 with light and mixed stuff at from \$7.20 to \$7.30. About everything changed hands before the close, the bulk selling at \$7.25 and \$7.35 as compared with \$7.50 to \$7.50 staturday, and \$7.75 to \$7.55. a week ago. Hogs are now nearly a dollar lower than the

Chicago Live Stock Market. Chicago Live Stock Market.
CHICAGO, Ill., March 13.—[Special Telegram
to THE BEK.]—The cattle market was duit and
drooping. There was a fair amount of trading
at a decline in common and medium sorts of
from 10c to 15c from last week's quotations,
but a large number of cattle were left in
seffers hands and they were fearful that they
may be required to make further concessions
tomorrow. Choice shipping steers showed
less change than did other descriptions, but
they were not wanted at former prices. Sales less change than did other descriptions, but
they were not wanted at former prices. Sales
were mostly at from \$3.75 to \$4.75 for steers
and at from \$2.15 to \$3.15 for cows and bulls.
The bog market was from 10c to 15c lower today than on Saurday, dropping to from \$7.40
to \$7.50 for poor to prime light, to from \$7.40
to \$7.50 for poor to prime light, to from \$7.40
to \$7.50 to \$7.80 for common to choice heavy.
There were a few trades at from \$7.80 to \$7.85
and one at \$7.95, but at the close \$7.80
was regarded as the top. The weakness was
due in part to the fact that the receipts were
greater than expected and partly to the absence from the market of the two
principal eastern buyers, Squires and
North. The bulk of the logs sold below
\$7.70, a very large part at from \$7.45 to \$7.60.
Culls and young pizs were quoted at from
\$4.50 to \$7. Many hogs were left in sellers'
hands.
The supply of sheen was large, and the de-

Sandy young pigs were quoted at from \$4.50 to \$7. Many hogs were left in sellers hands.

The supply of sheep was large, and the demand not developing much strength, holders had to accept lower prices. There was an average decline of from 10c to 15c, and not a few sheep remained in the sale pens at the close. The decline in lambs was equally severe. The greater part of sales were at from \$4.75 to \$5.25 for sheep, and at from \$5.50 to \$6.25 for lambs.

Receipts: Cattie, 18,090; hogs, 18,000; sheep, 12,000.

COUNTY CLERKS.

Reasons for Pushing a Bill Increasing Their

The bill now before the legislature known as the "county clerk's" bill is in good shape and, according to the statement of County Clerk Sackett, is in a fair way to become law. In speaking of its effect upon the offices throughout the state Mr. Sacketi said "The object of this bill is to benefit those clerks in counties under 25,000 and place them on a level with the treasurer and sheriff in the same county. The argument may be used against this bill that it is designed to increase the salar; of the clerk in reply to this we say that this is not true executing as against the above revent as against the salar; except as against the salary received in 183 Prior to that time the clerk in counties u der 25,000 received \$1,500 and in addition thereto the amount paid for making the lists, which averaged about \$600, making salary \$2,100, while the treasurer and sher in the same county got \$2,000. At the session of 1891 the fee for making the tax is was taken away from the clerk, leaving him a salary of \$1,500 only, while the treasurer and sheriff in the same counties still ger \$2,000. In view of the fact that the county clerk must perform more actual work and but in more hours than either of the other officers we do not deem this bill in any way

against this bill for the reason that the county clerk does not get one cent out of an fund in the county and will not receive the salary allowed by law unless the fees of hi office amount to enough to pay him, whi the bulk of the salary of the treasurer comfrom a percentage taken off the money cleeted from the taxpayers of the count Therefore it seems to us that the people should be willing that the county clerk should have as much in fees, all of which he must earn, as they are willing to pay th "Another reason upon which we urge the

passage of this bill is the fact that each leg islature for the last ten years has added new duties to the office of county cierk, but not one single provision has been made to in any way increase the fees of the office. On the contrary the salary has been cut down. It nine counties in this state the cierk is exofficio clerk of the district court, and in those counties the supreme court has de cided that the clerk may not retain the fees received by him as such court clerk. In counties having a population of 8, over the clerk of the district court retain all fees collected, whether more or less than \$1,500. As an association we only ask that the county clerks be treated fair and paid a salary in proportion to the amount of work they do. We submit that the office is one of great importance and should be filled be competent men, and in smuch as they do no receive I cent of pay from any fund raised by direct taxation we can see no good reason why they should not receive as much pay as the incumbents of other offices requiring abents of other offices requiring

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them.

WAITERS STRIKE. One Quarrelsome Man Discharged and Four Fellows Quit.

A slight difference occurred yesterday noon among the employes of the Commercial restaurant at Thirteenth and Harney streets. The difficulty led to the discharge of one of the waiters and the walkout of four others. One of the proprietors, in speaking of the matter, said:
"It is customary with us, as well as with

many other restaurant keepers in the city, to employ one, two or three extra men to help out during the dinner hour. We had employed a young student to assist us, and in some way a difference arose yes-terday noon between him and one of the regular waiters. I interof the regular waiters. I inter-posed and told them they should not raise any disturbance in the house. The the other hard if he was kept in the employ of the house, and that he did not propose to work with any 'scab.' I replied that the young man was not a 'scab' and that I in tended to see that he didn't get hurt, also told him if any one was to quit it would be the second of the second be he. We tried to reason with him, but could not do so, and finally let him go. Four sympathizers took up his cause and walked out with him. His remark about 'scab' labor would seem to indicate that he was a member of some union, but he is not, nor are any of the others. We have, however, a number of union men in our employ, but they took sides with us and remained. We shall experience no difficulty in filling their places; in fact their places are practically filled now."

Are those ignorant pretenders who, without any qualifications, any ability, any experience, any skill, claim to possess the power to cure all the ills of the human race. But their want of worth soon becomes apparent to their would-be dupes, and these consciencelessquacks are soon consigned to the oblivion they so richly morit.

In strange and strong contrastwith these miserable boasters is the quiet, dignified yet courteous demeanor of hose noted leaders of their profession.

Who, during the past 27 years, have abundantly demonstrated their ability to effect speedy, perfect and permanent cures in all the worst forms of those delicate sexual maladies embraced within the general terms of
