Fake Reports About Crop Damage in Nebraska Generously Circulated.

SOME DEMAND FOR WHEAT ALL DAY

Altogether the Feeling Was Mach More Bullish Without Any Special Activity -Speculative Offerings in Corn Rather Small.

CHICAGO, El., March 23.—There was better Support in wheat today than any one expected.

Pardridge did some bidding. Lioyd Smith and
others took May wheat and Barrett and Norton-Worthington led the buying in July. The northwest wheat receipts were 340 cars against

681 a year ago. Chicago receipts were II3 cars instead of 140 cars, estimated. The wires were down to the northwestern points and gave rise to talk of a hard bilexant. A few commission houses had the worst crop reports yet received. One message named four counties in Kansas and Nebraska that will be

plowed up and replanted in other crops.

A review of the clearances for four days looked encouraging at about 200,000 ba. in wheat and flour. Certain brokers, thought to be acting for Parstridge, were picking up wheat at every opportunity. Altogether the feeling was much more builtish without may special activity. The best business of the day was Just at the close, when shorts were quite anx-lous buyers. It was rumored that the Kansas state report was out and very bullish on wheat. Later it was found that the only "report" received was a Kansas City message to Seaverns, quoting Secretary Molder as saying that western Katesas will practically raise no

The market at the opening was about the same as yesterday's closing, with prices for May advancing the and those for July the then held steady, fluctuating but slightly, and

the closing was steady, within to defect and the closing was steady, within to defect the ton. Reports of more or less rain throughout the corn belt again suggested the possibility of smiller receipts; owing to consequent had roads. Any permanent effect of this talk was offset, however by the generally accepted statement that cribs at country stations are well supplied with corn awaiting shipment. Speculative offerings were small and local shorts were moderate buyers the price working up about the corn as a unconfirmed rumor that local elevators were reducing their limits in the way of asked prices on corn for shipment to the cast. There was a light trade in oats, the greater part of it being local. The market was narrow, the range being only be, and the close at a slight advance over yesterday.

Hog products would have been lifeless for the first hour after the opening, save for the desire of some of the local holders to self. There was a slight reaction after the first rush was over and then the market ruled steady until later in the session, when it suffered a decline on free offerings and closed weak. At the close, compared with last night, pork had lost 20c, lard from 20c to 35c and ribs from 24c to 55c.

Estimated receipts for tomorrow: Wheat,

Estimated receipts for temorrow: Wheat, 160 cars; corn, 180 cars; oats, 130 cars; hogs, 14,000 head. The leading futures ranged as follows:

STOCKS AND BONDS.

Dec idedly Stronger Tone Marked Speculative Deals Yesterday Generally. New York, March 23. There was a de-cidedly stronger tone to speculation at the Stock exchange today. The dealings were not

cidedly stronger tone to speculation at the Stock exchange today. The dealings were not particularly heavy, but were distributed, and few stocks failed to share in the Improvement that took place. In the general list the advance was equal to 't to ly per cent, but among the specialties Manhattan sold up 5'; per cent. Consolidated Gas, 4'; per cont. Lackawanna, 2'; per cent. United States Rubber, 2'; per cent. This on Huminating, 2'; per cent, and General Electric, 1'; per cont.

The buying was stimulated by the easy feeling in money, the fact that little or no gold will go forward by Saturday's stemers, and the belief that the government shortly will amonnec the issue of a gold non for the purpose of Increasing the treasury gold reserve and thereby add to the confidence of the government on a parity. The last mentional is undoubtedly the most important factor at the moment operating in favor of higher price, and notwithstanding the denals that Mr. J. Pierrepont Morgan has gone abroad for the purpose of flouring \$50,000,000 in bond. Wall street inclines to the view that something will be done. The character of the buying was fur better than of late and the market had good support on reactions.

The sharp rise in Manhattan resulted from buying by the bunking houses that have absorbed the stock all along for the account of those who believe that the company will secure valuable privileges in the matter of hew rapid transit facilities. The sharp rise in Lackawanna was due to reports of heavy earnings and covering of show contracts. Rubber crossocket Rubber company, negotiations to that end are still in progress.

ber crossed 50. Although officials of the company dony that it has secured control of the Woonsocket Rubber company, negotiations to that end are still in progress.

Nathonal Lead was taken in round amounts from 37% to 30% on official statements that the company on January I last had a working capital of \$7,500,000 and was entirely free from floating debt. During the afternoon the bears attracked Western Union, Lackawamma, New England and Sugar, which fell of 1 to 1½ per cent, but the remainder of the list reacted only fractionally, and toward the close there was a partial recovery. The market left of firm, with a majority of the leading shares ½ to 1½ per cent ligher than on yesterday. The saies aggregated 270,891 shares.

The Post says: One of the most striking features of the week has been the interest the Sugar company has been able to exercise over the money market. The loaning of its large dividend supplus, which must lie idle until the 1st of April, has produced call money rates as misleading in the downward scale of loaning quotations as the late 50 per cent rate, which was first toos on the rise.

OMARA LIVE STOCK MARKETS. Receipts Show a Falling Off as Compared

with Last Week. THURSDAY, March 23. Compared with the same four days last week receipts so far this week show a falling

off about 1,000 cattle and 500 sheep, and an Increase of over 6,000 hogs. Receipts of cattle were considerably short of last Thursday's run and the general quality of the offerings was about the same as that of the three preceding days. Other markets were reported stronger with short receipts and although, as is usually the case on Thursdays, there was absolutely no demand from outsiders, the bulk of the beef cattle from outsiders, the bulk of the beef cattle sold about a dime higher than Wednesday and the market was very active at the advance. Local houses were practically the only buyers, but they all needed cattle and bought freely. There were not a great many heavy cattle here, but this class of stock has shown very little improvement of late and the 1,313-16, beeves that brought \$5 today showed no very great advance. The good 1,100 to 1,250-16, steers at \$4.45 and \$4.65 were all of 10c higher and the same was true of the fair to good 1,000 to 1,100-16, steers at from \$4.30 to \$4.40. Inferior stuff and odds and ends sold freely at all they would have brought any time lately at from \$3.50 to \$4.15. Trade was active and snappy from start to fulsh and actically over by noon.

There was also an active inquiry from all sources for butchers' and canners' stock and holders had no trouble in effecting sales at a be to 10e advance. Nothing was poor enough to sell at under \$1.75, and \$4 was the high market for pretty good 1,180-lb, cows, but fair to good stuff sold very largely at from \$2.50 to \$3.60. Rough stock of all kinds was in fair demand and quotably firm at from \$2 to \$3.65 for common to good buils and oven. There was an active movement in veal stock with prices ranging from \$2 to \$6. It did not take over two hours to exhaust the entire supply of mixed stock.

mixed stock.

If there was any change in the stocker and feeder trade it was for the better. There was little if any improvement in the demand from the country, but regular dealers lost no time in picking up the limited fresh offering at

Hoos—The hog market was from 5c to 10c
lower than Wednesday's uneven trade, and
averaged a big 5c lower all around. Receipts
were not heavy, about 2300 lighter than
Wednesday, but about 600 bravier than last
Thursday. Including hollowers there were
close to 4,000 head, the general quality as a
rule hardly as good as recently, athough
there were a number of very choice loads
here. The demand was good from all sources,
but on account of a 15c break at Chicago
prices were bound to 20 lower here. Good

Chicago Live Stock Market. CHICAGO, IR., March 23 [Special Telegrams o The Box.] The cattle trade was active oday and the range of prices somewhat

CHICAGO, Ill., March 23 — Special Telegram to THE Bee.]—The cattle trade was active today and the range of prices somewhat higher. Sales show there was an average gain of for per 100 lbs. In about all grades. In quality the offerings were not percentility better than the average for the last few days. There were a few choice 1,500 to 1,606-th, steers and a fair proportion of good 1,300 to 1,400-th, but sales at over \$5.25 were comparatively few. From \$4.10 to \$5.25 took the bulk of the steers.

There was a dull hog market and an extremely weak one. The average was from 15c to 25c lower than at the opening of yesterday's market, the bulk of the heavy and medium weights going at from \$7.40 to \$7.60, and from \$7.35 to \$7.60, and from \$7.35 to \$7.60 for heavy averages of aver 250 lbs. from \$7.25 to \$7.60 for heavy averages of aver 250 lbs. from \$7.25 to \$7.60 for heavy averages of aver 250 lbs. from \$7.25 to \$7.60 for high weights from 150 to 195 lbs. Some hogs were left over and the close was bad.

There was a less depressed time to the sleep.

Some nogs were left over and the close was bad.

There was a less depressed tone to the sheep market. Sellers did not succeed in unloading at any appreciable advance, but it was easy to get yesterday's prices. Lambs also sold to slightly better advantage. The change was ascribed to the fact that the receipts were less than half as large for the day before.

Miss Fanny Davenport, who opens at the Boyd on Monary for five nights and Satur-day matinee, every manager halfs with de-light, since she is a sure drawing card. Her production of Sardon's "Cleopatra" is as complete a series of stage pictures as has been given in this country. Of Cleopatra Miss Davenport is said to have made one of the greatest characterizations that could be seen on any stage. Begunardt has said that Cleopatra is the most difficult part to properly present of any in the entire walk of the drama. Melbourne MacDowell will be seen as Mare Autony. The sale of seats for the entire engagement opens tomorrow morn

To hear Charles A. Gardner and see "Fatherland" is said to be agreat treat. So pure the jests, so clean the senes, that an evening spent with Gardner is a banquet, where children, maidens, men and women of most refined tastes may go and revel in wholesome pleasantness. Comedian Gardner in "Fatherland" is next week's attraction at the Farnam.

SINGING FOR THE WORLD.

Omaha's School Music Phonographed for the Chicago Fair. Juvenile Omaha will be heard from at the World's Columbian exposition. In sweet strains of patriotic music the voices of the school children will greet the visitors at the greatest fair on earth.

It will all be accomplished by means of the phonograph and the ingenuity and originality of Superintendent Fitzpatrick. Several weeks ago the enterprising superintendent of the Omaha schools laid before the Board of Education the feasibility of having the school children, under the super-vision of the teacher of music, sing into a phonograph and prepare a number of cylinders of music that could be sent along with the Nebraska exhibit to the World's fair. The board thought well of the plan and it was agreed to keep the matter quiet until the work was well under way, so that other cities would not have time to follow the same plan and thus make the attrac-Mr. Pitzpatrick has the work now amost

accomplished and in a few days a score or more of choice samples of music from the public schools of this thriving city will be wound around cylinders ready to be shipped to Chicago to become one of the most unique and pleasing attractions at the fair. The High school sugils sang into the phono-graph yesterday and succeeded in producing voice. It is not an easy matter to get good samples of chorus singing in a phonograph, especially where there are fifteen or twenty parties producing the music, for the reason that it is difficult for them to assume the proper position before the instrument. In this effort the phonograph company has far-nished a thirty-sly-inch receiver, and it seems to do the work very well.

After selections have been sung into the in-

trument they are tested and if there are ny bad defects the work is done over again. is the intention to have the entire system of musical training in the schools illustrated by this means. Samples of the work will be recorded all the way from the primary rooms, where the little ones are just learn-ing how to run the first few notes of the scale, up to the last class in the High school, where difficult and classical music is sung. Superintendent Fitzpatrick and Miss. Arnold are deeply interested in the success of the venture and feel very confident that it vill be a unique and delightful feature of the

PULLMAN'S GENEROSITY.

Offers to Compromise \$17,000 Taxes by Paying About \$200. Yesterday City Treasurer Bolln received a proposition from William Burr, the attorney for the Pullman company, looking to a settlement of the case now pending in the federal court, in which the city is seeking to re cover about \$17,000 in definquent personal taxes for the years 1886-'87-'88 and '89. The Pullman company proposes to pay the city \$57.13 for each of those four years and call

the claim square.
The proposition is based upon the fact that the company has been assessed but an amount equal to those figures for the years subsequent to 1889. Such assessment was made by the state board, and previous to

that the city had no reason to accept any such a niggardly proposition, and that if the company was decirous of settling it might make a proposition upon the basis of the 18% assessment, which the assessor returned at \$60,000, and not take the years that are subsequent to those under dispute.

North Galveston's Water Supply.

North Galveston's Tex., March 23.—Good water and plenty of it is a prime factor in the success of any towe. Pure artesian water is found here at a depth of 500 feet. Five artesian wells have been completed, the flow from the last being 125 000 gallons every twenty-four hours from a three-inch pipe. The water rises thirty feet in the pipes and is carried by its own pressure into the second stories of the buildings. This is sufficient for every need.
