

THE DAILY BEE

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily (without Sunday) One Year, \$4.00...

Omaha, The Bee Building, South Omaha, corner N and 26th Streets, Council Bluffs, 12 Pearl Street, Chicago Office, 317 Chamber of Commerce...

Business Letters: All business letters and communications should be addressed to The Bee Publishing Company...

Sworn Statement of Circulation: The circulation of this paper for the month ending April 1, 1895, was as follows: Sunday, March 25, 25,035...

Average Circulation for March, 1895, 24,179. THE state has touched the freight rate button. The railroads are expected to do the rest.

A FEW more jail breaks and the Douglas county bastille will lose its terror for the average criminal.

THE St. Louis Republic speaks of "the bathtub element of the republican party." This is a decided concession.

IF JAPAN really wants those Hawaiian Islands she ought to have them. She needs them more than this country does.

SENATOR NORTH talked three hours in the senate and put every senator to sleep. The result was the passage of the maximum rate bill.

HIGH license has again been endorsed pretty generally throughout the state of Nebraska. It has worked well and the people believe in it.

FRANCE once more has a new cabinet. She always has a new one, and in some respects the frequent changes are undoubtedly good for the country.

ALL things do not come to him who waits, but recent experience shows that it pays about as well to wait as to go to Washington and try to hurry matters.

THE impeached members of the State Board of Public Lands and Buildings did not complain of overwork during the campaign when they were straining every nerve for re-election.

THE Lancashire cotton operatives had no sooner got settled down to work after their long and disastrous idleness than 4,000 miners were thrown out of employment in Wales. The workmen are having hard times over there.

IF IT is true, as is highly probable, that the revolutionists in Honduras have overthrown the government, the defeated party will at once prepare to overthrow the new administration. That is the way they do things there.

ABOUT 40 per cent of the so-called hotels that have sprung up in Chicago to accommodate World's fair visitors are said by insurance men to be the most flimsy firetraps, and they will not insure them for less than 10 per cent. Comment is unnecessary.

IT WILL be gratifying to the friends of Emin Pasha to hear the report that he has been murdered again, because that is a sure sign that he is safe and well. The fact that the news comes from two African sources, both authentic, makes it doubly cheering.

IT HAS been decreed by the president that the Kansas factions must stop fighting before the distribution of patronage in that state can be thought of. It is still an open question whether they will go ahead with the disturbance or knock off for a while and take the patronage.

The legislature should not adjourn before it has stamped out corruption and placed the state institutions under the care and supervision of officers who do not wink at corrupt practices and have the integrity and backbone to stop thieves and plunderers from robbing the state and looting the treasury.

THE recent manipulations of the wheat market in Chicago by the speculators is severely criticized in various quarters as silly and hurtful without being in the slightest degree excusable upon any grounds. The New York Commercial Bulletin intimates that directors of the Chicago Board of Trade acted officially in protection of personal interests when they made a ruling in regard to storage that was a cause of a change of seven cents a bushel in the market. That journal says that the business world is insulted and scandalized by such performances as "the thimble rigged game at Chicago."

OMAHA has gained a reputation throughout the west for being lavish in the dispensation of charity to the poor and unfortunate within her gates. It is true that no destitute person is permitted to suffer if known to be worthy of assistance. But the officials and generous citizens will not be imposed upon. Officials in other counties and in other states may take notice that when they ship chronic alms-seekers to this city in order to be relieved of the expense of their care this city will resent it, as was done yesterday in the case of a South Dakota pauper. The officials of this county will not permit Omaha to become an asylum for the indigent of neighboring states, and local sentiment supports them in the stand they have taken.

A VICTORY FOR THE PEOPLE

The passage of the maximum rate bill is a signal victory for the people. The sovereign power vested in the people of Nebraska has been triumphantly exercised through their representatives. The cardinal principle that corporations, the creatures of the state, are subject to the control of the state has been vitalized and given practical effect.

The moral effect of this popular victory can scarcely be overestimated. The repeated failures of our legislatures to grapple successfully with corporate influence had created a deep seated feeling of doubt and despair among the masses. Corporate power had entrenched itself in the very citadel of our boasted republic by dominating our national and state legislatures.

No rational man will contend that the maximum rate bill which goes to the governor for his approval is perfect in every detail. It was not to be expected that any railroad regulation law or rate bill could have been devised that would be perfect and satisfactory to all locations, all shippers and all the railroad managers.

It is gratifying that the credit for this victory for the people cannot be claimed for any political party. While the populist members of the house ranged themselves in almost solid phalanx in support of this measure, their task would certainly have been hopeless without the support of republicans and democrats, who manfully stood up for Nebraska.

It is stated that President Cleveland has decided to strike a blow at reciprocity, though he may delay doing so for some time. The tariff act of 1890 provided that in case those countries which produced sugar and coffee and exported the same to the United States did not within a specified time enter into reciprocity arrangements with this country such products should be subjected to a duty.

A role of enemas by the legislature will have no more effect upon the Board of Public Lands and Buildings than pouring water on a duck's back. Then the reveals out and place the management of our state institutions into the hands of men who will not stand by and let the state treasury be pillaged by thieves and scoundrels.

THE tide of immigration is flowing westward with a good deal of vigor. There is a large movement of people into South Dakota, a considerable immigration has recently taken place into the "rain belt" region of Colorado, and from other parts of the west come reports that the population is steadily increasing from this source.

There is plenty of room in the west for all the industrious and thrifty people who may desire to come to this section, whether from Europe or the eastern portion of this country. The statement sometimes made that all the available lands in the west have been taken up are erroneous and misleading. There are millions of acres, some of it excellent land, still awaiting settlement.

It is doubtless a fact that the countries whose products have been subjected to a duty because they rejected reciprocity have found a market for such products elsewhere than the United States, but it does not follow that by reason of this these commodities have been increased in price in the American market. Venezuela, for example, sends less coffee to the United States than formerly and more to European markets, but this has made no difference with the consumers of the United States.

however, it will of course be out of the question to continue those agreements. Countries which give the United States special advantages will not adhere to arrangements that afford them no better advantages than countries which have no such arrangements. If the administration carries out the purpose it is said to have in mind it will put a speedy end to the whole policy of reciprocity.

A high official of the Pennsylvania Railroad company says of the outlook for this year's business: "The prospects are excellent. They could not be better and the companies are preparing to handle a large volume of traffic. We must maintain rates and if this is not done some of the small companies will go to the wall."

IN HIS message to the Mexican congress a few days ago President Diaz stated that invitations to four international congresses to be held in Chicago during the exposition had been accepted by the Mexican government. He also said that the labor of preparing a suitable exhibit for the exposition had been terminated and that all the states, the federal district and the territories, and private individuals will present objects and products which will give a clear idea of the progress which has been made by Mexico and of her elements of wealth.

THE vice president seems to have some influence with this administration after all. Nephewism was barred by Mr. Cleveland, but Adlai has secured the appointment of his cousin as minister to Belgium. There will be plenty of worthy relatives looking toward Washington now.

It is thought that if Mr. Bayard will apologize to the torres for being mixed up with that unpleasant Skelville-West incident the remainder of his record will be very satisfactory to the aristocracy of the mother country.

THE Russian Treaty. It may be that the proposed treaty with Russia contains provisions which ought not to be adopted. It may be that there is a Russian bear trap concealed about it somewhere, but it is a very important treaty and the people at large given an opportunity to judge for themselves into what complications they may be drifting, and whether or not the wise diplomacy of the administration is to come to the front and push such an enterprise.

THE labor question is deeply rooted into our life. Millions of our citizens belong to them and support them and believe in them and are governed by them. Yet, according to the present conservative view of the world and according to its professions, the most law-abiding.

THE Nebraska case is another demonstration of the necessity of a change in the method of carrying state funds. In nearly every state the treasurer is simply the custodian of the funds, and with his business men is responsible for all losses that may occur, whether through his negligence or not.

THE south is making an aggressive movement to encourage immigration into that section of the country. A convention for this purpose was held within a month and another is to be held shortly. The south wants more white labor and it also wants people to take up and cultivate its untilled farms.

has been recovered by the state. Obviously the state should designate how the money should be carried, making the banks give ample security.

THE Wayne county fair will be held September 21, 22 and 23. The new pastor of the English Lutheran church at Grand Island has just arrived from Liverpool.

FRONTON'S new city directory contains 3,465 names which covers the people of that thriving city to claim 10,385 inhabitants. D. D. Wiley, a former well known citizen of Norfolk, died recently at Beloit, Wis.

ALBERT B. Osborne, who was yesterday inaugurated mayor of Corry, Pa., is 25 years old and the youngest mayor of any city in Pennsylvania, or probably in the United States.

THE late Mr. Wayne was 92 years old and survived his wife, whom he married six years ago. General Tracey, congressman from Albany, N. Y., says that while the president of the United States is a civil answer for everything, some of the \$2,000 clerks of cabinet officers and committees put on the manners of a despot.

THE Russian Treaty. It may be that the proposed treaty with Russia contains provisions which ought not to be adopted. It may be that there is a Russian bear trap concealed about it somewhere, but it is a very important treaty and the people at large given an opportunity to judge for themselves into what complications they may be drifting, and whether or not the wise diplomacy of the administration is to come to the front and push such an enterprise.

OFFICE SEEKERS MUST WAIT

With One or Two Exceptions Nebraska Federal Officials Will Fill Their Terms. BOYD MAY BE TENDERED A GOOD PLACE. Judge Bartlett Tripp Will Succeed Colonel Fred Grant—How Democrats in General Have Been Humiliated by President Cleveland.

WASHINGTON BUREAU OF THE BEE, 313 FOURTEENTH STREET, WASHINGTON, D. C., April 5. Ex-Governor James E. Boyd of Nebraska spent today at the Agricultural department with Secretary Morton and, with Senator Allen, going through the various departments, where introductions were made. It is understood that Governor Boyd will be requested to make recommendations for appointments which will go to Nebraska before they are acted upon, but he has not been assured that he will be asked to name appointees.

It would not be a surprise if Governor Boyd himself was asked to accept an appointment. His name has been mentioned a number of times in official circles today in connection with an assistant secretaryship of the treasury or interior or postmaster general. He could probably get a position abroad or a well paying consulate, but he says he asks for no place for himself. He would like to help his friends in Nebraska.

Another interesting feature. There is great interest in Nebraska just now over the impeachment proceedings directed against three of our state officials composing the Board of Public Lands and Buildings which everybody has read about in the public press. It is not for me to express an opinion on their guilt or innocence—that is a matter for the courts—but during my term as governor I alluded to the charges that were publicly made of their official misconduct and recommended an investigation. I notice that they have given up their offices since my departure from Omaha.

Judge Bartlett Tripp of Yankton, S. D., who has been nominated minister to Austria-Hungary, was about the senate side of the capitol today receiving congratulations. Judge Tripp is in fine health, but shows age during the past few years. He is only 49 years old, but is quite gray.

Major John M. Burke, business manager for "Buffalo Bill," is here endeavoring to get permission to take Indians from the Sioux reservation for exhibition at Chicago. Major Burke says that they are showing the government the consideration of asking if permission to get these Indians, intimating that if "Buffalo Bill" wanted the Indians he could get them without the government's consent, which may be true, especially those Indians who have taken allotments and become citizens of the United States and can go where they please.

Remembered a Personal Friend. The resignation of Colonel H. L. Swords of Iowa as inspector of furniture of the Treasury department has been accepted by Secretary Carlisle. Colonel Swords is the sergeant-at-arms of the national republican committee. His successor will be Al Carille, who is no relative. Secretary Carlisle's family, as the omission of the "S" from his name indicates, Mr. Carille is one of the best known and most successful business men in the country and his home is in Cincinnati. An effort was made by the Iowa democrats to keep this place within their state, but Secretary Carlisle concluded to give to a personal friend at the metropolis of Ohio.

Western Pensions. The following pensions granted are reported: Nebraska: Original—Douglas Halse, J. J. Corbin, George Engelman, Additional—A. Cumming, William Johnson, J. H. Williams, William Florn, P. A. Bates, E. Driscoll, A. Chambers, Solomon Shepherd, Reissie—Samuel H. Hamilton, Secretary Johnson, Gandy, John McGrae, H. B. Daily, Original widows—Fanny James, Mary Holmes. Iowa: Original—Jesse Harvey, Michael Kearney, S. Charles Fisher, J. Paine, Samuel Smith, Jeremiah Badger, John S. McKee, William Wrenn, Henry M. Tenney, Fred Herb, George Ringler, Restoration—Bill D. Woodson, Simeon Johnson, Ed Dodge, Renewal and increase—Alphonso Howe, Michael Carlee, James Moneyhan, Ezra Morse, Benjamin V. Carter, Alphaeus Harlow, William Schaefer, Daniel Shumer, Nelson Erickson, Original widows, etc.—Mary Crouch, Atalia McCreesh, Elvira Keislar.

IN DAILY USE. Mr. Michael Higgins, Belcher & Taylor Agricultural The Tool Co., Chicago Best. Falls, Mass., writes: "This company has used ST. JACOBS OIL for years for their men for burns, cuts and bruises, and No we know of nothing Equal that compares with it."

BROWNING, KING & CO. Largest Manufacturers and Retailers of Clothing in the World. Out o' Sight Are the goods and the quality—besides we are showing exclusive styles in spring wear for boys and men this year. Of course we are happy—that follows—if you had the finest suit in town you'd be happy, too, but when one has a whole big store full of the finest, happiness doesn't quite express it. Our tailors have outdone themselves this season in making up the spring styles, and we are able to show many novelties never before attempted. You are just as sure of getting the good cloth in the man's suit we sell for \$8.50 or the boy's suit for \$2 as you are in higher priced goods. Our goods are like tailor-made, but at clothing-house prices. We will be pleased to show you our new styles whether you care to buy just now or not. BROWNING, KING & CO., Store open every evening until 8 P.M. Saturday till 10. S. W. Cor. 15th and Douglas St.
