

OMAHA'S SCHOOL FOR ARTISTS

Though Young in Years it is Rapidly Coming to the Front.

STUDENTS IN MODELING AND COLORS

Excellent Facilities for Developing Embryo Talents—Mr. Wallace's Picture Accepted by the World's Fair Management—Personal of School.

Citizens of Omaha who take an interest in the propagation and advancement of artistic education in this city are to be congratulated to know that the Omaha Academy of Fine Arts, located at the corner of Fifteenth and Dodge streets, is moving rapidly and that the future of the school never looked so bright or encouraging as at the present time.

This academy, as is nearly everybody in Omaha knows, has been the result of the Western Art Association and, while it was not expected that a great stride in growth or prominence could be made during the first year or two, yet the interest now manifested in the school by a large number of earnest pupils shows that the institution has been planted in fertile soil and is destined to become widely known and of far-reaching influence.

The strong features of the school lie in the fact that everything that is done and all the facilities provided are of the highest order. It is the aim to give the students the very best instruction in the most modern methods of painting and sculpture, and to give amateurs an opportunity to profit by having access to the school facilities. It is also the aim of the academy to extend as far as possible the same benefits to engravers, die-sinkers, illustrators, decorators, wood carvers, stone cutters, lithographers and photographers.

While all the departments here represented have not yet begun their work, the work is gradually widening and the results in every department yet begun have been very satisfactory. Some very gratifying work has been done in modeling and casting, and the work in oil and crayon is of the very highest grade, such as may be seen in the foremost art schools in the country. It is the aim to give the students an opportunity to profit by having access to the school facilities. It is also the aim of the academy to extend as far as possible the same benefits to engravers, die-sinkers, illustrators, decorators, wood carvers, stone cutters, lithographers and photographers.

Mr. Wallace has been paid a special and deserving compliment by the management of the art department of the World's Fair. His portrait of Mr. James W. Scott of Chicago has been accepted for the exhibition. In looking over the list of pictures accepted it is noticed that this is the only piece accepted from the states of Nebraska or Iowa.

Following are the pupils now taking lessons in the academy: Mrs. J. J. Mangel, Mrs. Thomas M. Jones, Mrs. C. A. Williams, Mrs. Byron G. Burbank, Mrs. Charles F. Catlin, Mrs. R. M. Parks, Mrs. Frances Munnigh, Mrs. Frank F. Emerson, Mrs. F. C. Shelly, all of Omaha; Mrs. C. A. McKnight, Hastings; Mrs. Flora Smith, Malvern, Ia.; Miss Grace Uhl, Shenandoah, Ia.; Miss Charles L. Rath, Omaha; Miss Chloe Brown, South Omaha; Miss Gertrude Young, Brownell hall; Miss La Hunt, South Omaha; Miss Mary E. Gilchrist, South Omaha; Miss Elizabeth M. Harris, Omaha; Miss Ethel Evans, Miss Harriet Osmond, Omaha; Messrs. Albert Bottery, Charles Boyle, Charles S. Hembrington, Mark A. Pollock, M. W. Wainwright, Charles W. Swanson, Frank Hill, F. A. Heinger, Ernest Shroder, Melvin Delberts, Omaha; William F. Parker, Florence, and Messrs. Glen and Gerald Whelan.

If you are tired and never hungry, Hood's Sarsaparilla will make you feel strong and well, and give you a hearty appetite.

CHRISTIAN MANHOOD

Its Elements and Attributes Were Discussed by Able Speakers Yesterday.

A large congregation assembled at the hall of the Young Men's Christian association yesterday afternoon to hear Rev. John Williamson and Judge J. H. McCulloch of Omaha and W. E. Purvis of Kearney talk upon the essentials of Christian character. Secretary F. W. Ober, assisted by Rev. Henderson, conducted the exercises and Mr. Gratton led the singing. While the collection was being taken up Mr. John Brown rendered a violin solo.

Rev. John Williamson said in substance that life was dear to every one, and because it was short at best and great things hinged upon it, it was important that we should begin aright. Our doctrines were of our own choosing. If he knew what another thought he could tell him what his life would be for "as a man, thinketh, so is he." If one occupied his mind with thoughts of God he would walk in the path of rectitude. Christ was the great pattern to be followed; His will should be our foundation, our beginning.

Judge J. H. McCulloch spoke of the building up of character. All men could build something, though they might not build the best. Character was wanted, and courage, one of its chief attributes, should be cultivated. Men should have the moral courage to set good examples and to advocate what they believed. Having this and working under God's guidance they could not fail to build up a good character.

W. E. Purvis' particular theme was the "essence of manhood." He said perfect manhood was Christian manhood. A man, good without Christ, could be made much better by instilling Christian principles into him. He believed, with Judge McCulloch, that heroism was essential to good character. Christianity showed what possibilities lay within the reach of man and broadened him in the path of rectitude. Christ was the great pattern to be followed; His will should be our foundation, our beginning.

There are three things worth striving for: True and honest money—and Dr. Williams' Little Pills will save them for you. These little pills will save you time, as they act promptly. They will save you trouble as they cause no pain. They will save you money as they economize doctor's bills.

Some Iowa Paths. A true story comes from Mason City, Ia. A Mr. Burr who had for six years been sheriff of his county, had struggled for years to get a competence ahead for himself and family. He had become just comfortably situated and had completed negotiations for the sale of the farm, when he was notified that several other horses out; but it was too late. The horses burned up and Mr. Burr was without a dollar in the world. His remorse almost

COUNTRY PRODUCE PRICES

Omaha Market Showed Slight Fluctuations During the Last Week.

POTATOES ARE GOOD AS CASH NOW

Liberal Receipts at This Market Do Not Warrant Expectations of Lower Prices, as the Supply Elsewhere Is Not Large.

A careful review of the produce market for the past week would develop very few features of importance. While the market has undergone some change, it has been so slight as to hardly justify a change in the quotations. In fact the week closes with the market about the same point as a week ago.

The season for game is practically over so far as ducks are concerned. Dealers have also received a very liberal supply of turkeys, and the receipts have been so liberal that the market is now very quiet. As reported a week ago the receipts of butter are very light and the market is firm, although there is no very active demand. The quality of butter is very good and the price is very poor. Dealers are anticipating the arrival on the market of new butter several weeks in advance of the time last season, as the grass is already commencing to start.

The egg market is just about where it was a week ago. The receipts are not large, while there is a pretty fair demand, but there are just eggs enough to keep the market making an advance. Dealers have tried to put a up half a cent on the market, but have succeeded in getting the advance occasionally for single case lots the advance has not been general enough to warrant the quotation.

Potatoes Worth Money. The receipts of potatoes at this market have been liberal and most everyone appears to have a good supply on hand. Dealers are complaining that stocks are moving slowly, but that is due to the fact that the market is very liberal and everyone is trying to sell. While prices are not as high as they were a week ago, they are still very good. It is with other markets. It would appear that potatoes are not very plenty in any section of the country, although there has not been so much of an advance in prices as anticipated. In fact the tendency of the market has been downward since the arrival of warm weather. The following receipts of potatoes are reported by Prime, the crop export, may be of interest at this time:

Massachusetts—Fair supply with good demand. Price of potatoes, 85 cents to \$1 per bushel. Some complaint of potatoes being frozen and small; good seed in great demand. Pennsylvania—One dollar is firmly held for one bushel of potatoes, and look for great scarcity and quite an advance in price before a new stock can be produced. There will be a good crop of potatoes in the ground and in the hands of growers, but the extreme cold weather and the frost penetrating the ground.

West Virginia—Demand for potatoes good. Stock on hand small in comparison with last year. Many complaints of frozen potatoes. Prices of 80 cents per bushel. Illinois—Demand for potatoes good. Stocks on hand light. Home consumption the only market that can be supplied. Price, \$1 per bushel. Kansas—Stock on hand not as large as a year ago. Great many potatoes have been frozen and are nearly all sold out. Spring will be late and backward. Vermont—Stock of potatoes will not exceed 40 per cent of last year's supply; price, 60 to 80 cents.

Colorado—Stock on hand not as large as last year and a demand for potatoes are coming out of winter quarters in the shape.

South Omaha Notes. The Sons of Veterans will meet tonight. Mr. C. E. Foote has taken charge of the local columns of the Drovers' Journal since Mr. Carpenter resigned.

Yesterday was a quiet Sunday in the market. The only thing that was all that required police interference.

City Attorney J. H. Van Dusen arrived home yesterday from an extended business trip to St. Louis and Washington.

Dr. G. A. Jaxson has purchased a handsome blooded rooster, for which he paid \$250. He has been offered double the money he paid.

John Dabie, the man arrested for illegal voting, proved that he was at home playing with his babies at the hour that he was alleged to have voted in the Third precinct of the Second ward and was discharged.

Miss Carrie Brady, the young lady who was taken from the hospital by Mrs. William Stewart, is still confined to her bed, with prospects of remaining there for some weeks. For seven weeks she has been unable to eat solid food, from the effects of salivation. Her benefactor, Mrs. Stewart, is also ill, having been afflicted with hemorrhage of the lungs. Mr. Stewart is again able to work.

Stay He In Omaha. Leonard Stutz, a farmer, who lives at Udall, Cowley county, Kan., writes to The Bee for information as to the whereabouts of Henry Rahow, who mysteriously disappeared from that place March 28. Rahow had said that he had a father and a brother-in-law in Omaha and was thought that he might have come here. When he disappeared he left behind all his effects, including \$100 in money, a team of mules and a wagon and harness.

greatest of the living piano virtuosos will make his bow to an Omaha audience, the excitement increasing as the evening progresses. He will play before the usual people so much on such tip-top of expectation as the coming of Paderewski is producing. That every available seat will be taken for the day of the concert, and that standing room will be largely in demand, is an assured fact. The application for seats is being made at the rate of seats open this morning at Max Meyer, Bro. & Co's.

TRIAL OF THE DETROIT

Another of Uncle Sam's New Cruisers Will Be Tied Today.

NEWPORT R. I., April 9.—Arrangements have been made for the cruiser Detroit to make the whole of her trials over the measured mile course tomorrow, weather permitting. Such a program will require the whole day. The ship will leave either that evening or next morning for New London, where a day or two will be given to the battery and gun trials. For the four-hour trial, which is the real test, the naval trial board will remain here until Thursday afternoon and then go to New London, prepared to give the object of the first favorable day. The start will be made from New London rather than from this port, as the course has been laid out from the Battery's reef, having for its object an insurance of nine miles east of Stratford shoals, thirty miles east, and return to the start. Coast survey steamers Rache and Hako have both been detailed to duty in connection with the trials, to take tidal conditions in the sound and, therefore, be anchored at either end of the course, taking observations every ten minutes. The former is now in the south.

SPANISH ANARCHISTS

They Are Caught by the Government at Xeres Planning an Insurrection.

MADRID, April 8.—The government has discovered an alarming anarchist conspiracy at Xeres, and has ordered an insurrection. It was supposed the execution of the four anarchists at Xeres last year had intimidated the remainder. The present movement seems to have been instituted by revenge for those executed. The government learned of the plot through the conspirators at a farmhouse near Xeres, surrounded it and captured the band. The men were armed with guns and knives and the police secured a lot of incendiary documents showing it was intended to inaugurate the outbreak there. The prisoners were locked up and the government will make an example of them.

More Forgeries Discovered.

CINCINNATI, O., April 8.—The failure of Roush and Brice, grocers and confectioners, is estimated that the already known liabilities of the firm are \$250,000, allowing only \$10,000 for foreign papers. It is already known that \$100,000 in forged papers, mostly in the name of Samuel A. B. is out, and it is believed not all has been heard from yet.

Ibaho's World's Fair Exhibit Burned.

PORT CITY, Idaho, April 8.—Work has been received here of the burning of a large portion of the Idaho agricultural exhibit on route to the World's fair. The fire occurred near Kimball, Neb. But little of value was saved. A quantity of taxidermy and two valuable paintings of the Shoshone falls were also burned.

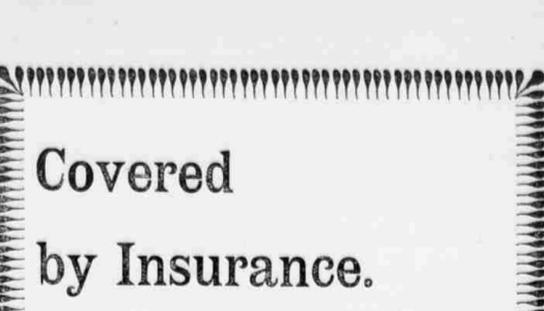

FOR MEDICINAL USE NO FUSEL OIL

THIS GRAND MEDICINAL PREPARATION is the best known remedy for Chills, Coughs, Croup, Whooping Cough, PNEUMONIA. For the debilitated and those with weak nerves it is a perfect restorative. It affords the greatest relief to WOMEN and gives strength to MEN. Insist upon having it from your druggist or grocer. Take no substitute. Write for our book, which we send free. THE DUFFY MALT WHISKEY CO., Rochester, N. Y.

"SPECIFIC In Many Ailments!"

"The LITHE SPRING, situated in LINDSEY HILL, New Hampshire, which has been so widely and popularly known to the profession, has recently doubled its capacity for bottling this excellent mineral water, by enlarging its works at Nashua. The water is bottled both the spring and the bottling establishment the past summer, and was surprised to hear of the quantity of water which was being shipped. The profession and the public have learned to look upon this water as a specific in many ailments to which the human body is heir, hence the great demand which is made for it all over the country, New York and Chicago being the largest distributing points. The cases in which we have found it useful have been especially those in which the uric acid diathesis was evident." —From New York Medical Times' Editorials.
